The report also provided an outline of the process for Public Space Protection Orders (PSPOs). The Council's alleygating policy was being redesigned. Legislation had changed from Gating Orders to Public Space Protection Orders which contributed to the delay in schemes being implemented. Work was ongoing with Crime Reduction Officers to speed up the process.

Members asked for an update on schemes and were advised that PSPOs were subject to a 28-day notice period and the earliest installation could take place would be September. Members received further clarification on the process on the minimum number of signatures required and the process of referral to Traffic Regulation Order (TRO) Panel when objections were received.

**RESOLVED** that the progress on Alleygating Schemes be noted.

Members were advised about the acquisition of cameras and the placement of cameras which would be discussed with elected members. Members asked about the delay in purchasing the cameras. It was explained that no firm implementation date had been confirmed, Environmental Enforcement was reviewing a number of camera systems. There were also a number of schemes being reviewed by environmental enforcement. Members sought and received clarification on sufficient evidence for prosecution. Members asked to see the cameras and procedure available. The risk to the cameras was also discussed. There would need to be signage that cameras were in the area.

Members were advised of work ongoing with the voluntary and faith sector. This included working with schools and mosques about cleaning up activity and the purchase of litter pickers. Members suggested an award scheme initiative for neighbourhoods such as certificates.
