BRIEFING TO WEST OLDHAM DISTRICT PARTNERSHIP

Mahdlo – Oldham Youth Zone

Report Author: Helen Taylor (Chief Executive)
Date: 23/12/11

What the issue is:

Mahdlo is the new cutting edge youth zone being built in the town centre. The young people chose the name Mahdlo as it represents ‘turning Oldham on its head’ – this is exactly what they want Mahdlo to do. They want it to be a high quality space where young people can come together from across Oldham, have fun, access new opportunities and make a change. To achieve this success it is important we have the support and commitment of the District Partnerships and their local communities. The briefing is to update people on progress, outline the opportunities on offer and respond to any queries so we can work together to make sure that all young people in Oldham can really benefit from the services Mahdlo has to offer.

Requirement from District Partnership:

We are looking for support for Mahdlo in terms of: working with us to identify and overcome barriers to participation, ensuring it links fully with local district priorities and provision and raising the profile amongst local families and community leaders.

How to be actioned:

☐  Report author attending
☐  Discussion item
☒  Presentation
☐  Workshop
☐  Circulate offline to Leadership for information
