**Thank you to Cllr J Dillon**
Cllr Williamson told us that it would be Cllr John Dillon’s last meeting tonight as he is retiring. Cllr Dillon has worked tirelessly in Shaw and Crompton since 1986 and his name (Mr Dillon), often comes up when speaking to people. John has been on many boards in his time and has served as mayor of Oldham. John has a great interest in trains and buses and so Cllr Williamson presented John with a couple of toy trains from the Thomas the Tank programme along with a bottle of champagne from members. Congratulations were given.
Thanks were also given to Cllr Mark Alcock who would also be retiring, members sent best wishes. Cllr John Dillon thanked members and the District Team amongst others for their support during his time served.

8. Community Infrastructure Levy – What is it and how will it work?
Presentation from Sarah Stansfield & Georgina Brownridge, Oldham Council Neighbourhoods Division.

- CIL is a levy that local authorities can charge on new developments to help fund infrastructure. A CIL charge would be set in £/sqm
- Section 106 currently helps to deliver essential infrastructure related to the development. From April 2015, the pooling of s106 monies will be restricted.
- CIL applies to all developments that people normally go into, that create net additional floor space where the gross internal area of new build exceeds 100sqm. Some developments are exempt.
- CIL will be spent on infrastructure needs e.g. Physical, Social and Green infrastructure
- A map was shown with regards to charging zones and suggested charges were explained for individual builds
- Stages of the process were discussed briefly

10. Market update – Michele Carr

- To start June 2015. 3 month trial for the market to be on Market Street between Beal Lane and Farrow Street East. If unsuccessful, the market will return to its original site.
- An Experimental Traffic Order to be obtained to close the street on market day. The experimental period is the consultation period so objections can be raised based on practical experience.
- Permissions required from shop owners to allow stalls outside their premises
- Bus stops moved to Eastway on market day
- Consultation at the end of the trial to see if successful. This will include assessing the impact on local traffic, any increase in stall numbers, feedback from market traders, local businesses and customers.
- If made permanent on this site, we will require planning permission
- Shops to make other arrangements if they have deliveries on Thursdays
- A resident in the flats told us that they hadn’t received any consultation letters

Action: MC to ensure letters go out to the flats near the market site for all further communications

10.1 Q: Cllr Sykes asked where the temporary pop up stalls were coming from and what will happen to these after the trial.
Ans: Markets are using existing pop up stalls. MC will check what happens to them after the trial
Action: MC to check what happens to pop up stalls after the 3 month trial of Shaw market.
The following concerns were raised:

- Buses using the alternate route and that this route may become permanent.
- The impact closing the road on market day will have with JD Williams and Yodel traffic.
- Members believe this to be a bad move.
- MC stated that traffic surveys would be completed before and after the trial. Cllr Sykes requested that the before survey be shared with members.

**Action:** MC to ensure the ‘before’ traffic survey in relation to the road closure for the market is shared with members
