

BRIEFING TO HEALTH & WELLBEING BOARD

Report Title: Development of the Local Care Organisation: Strategic Commissioning Function and the Managed Care Organisation

Report Author: Oliver Collins

Date: 27th June 2017

What is it:

In the Oldham Locality Plan, agreed and published in December 2015, one of the key Transformation programmes was the establishment of a Local Care Organisation, which would see a significant shift to an outcomes based approach to the way health & care services were commissioned and delivered for the people of Oldham

Since then, the Council, CCG and partners have been working to design and developed what the Local Care Organisation will look like and how it will operate. This includes the design of both the Strategic Commissioning Function (SCF) and the Managed Care Organisation (MCO).

In the past few months, significant progress has been made with the SCF and MCO and the presentation to go with this report will provide the Health & Wellbeing Board with an update, as well as outlining the timeline of activity going forwards.

Ask of the Health & Wellbeing Board

The Board is asked to note the update and agree for when a further progress report is to be provided
