Report Dates 1st June 2017 – 3rd July 2017

Anti-social behaviour

Anti-social behaviour (ASB) includes a range of issues. Behaviour can be anti-social because it is capable of causing nuisance or annoyance to both individuals and the wider community.

Within the Borough of Oldham we have a strong partnership led approach to tackling ASB and the causes of it preventing it from reoccurring. This partnership approach includes police, local authorities and social landlords. These agencies have wide ranging powers to effectively tackle this problem.

On the 1st of April the way we record Burglaries changed.

The previous categories of 'Burglary Dwelling' and 'Burglary Other than Dwelling' are replaced by 'Burglary – Residential', and 'Burglary – Business and Community'.

Burglary – Residential (Previously Burglary Dwelling) includes:

- All buildings or parts of buildings that are within the boundary of, or form a part of, a dwelling;
- The dwelling itself, vacant dwellings, sheds, garages, outhouses, summer houses and any other structure that meets the definition of a building;
- Other premises used for residential purposes such as houseboats, residential care homes and hostels;

Burglary - Business and Community (Previously Burglary Other) includes:

- All buildings or parts of buildings that are used solely and exclusively for business purposes or are otherwise entirely outside the classification of residential burglary such as a place of worship;
- Where an outbuilding is within the boundary of a dwelling, but not forming part of the dwelling building, such as a garage or workshop and is used solely for business purposes.

Prior to the 1st April 2017 sheds, garages, outhouses, summer house, houseboats, residential care homes and hostels etc. were recorded as Burglary Other.

Nitrous Oxide - No laughing matter.

There has been a noticeable increase in the use of Nitrous Oxide (Laughing Gas) amongst teenagers and young adults in the Failsworth and Hollinwood area.

Empty silver canisters can be found in most parks and public spaces throughout the area.

Young people who take these substances are taking exceptional risks with their health.

Nitrous oxide is depressant-type drug, which means it slows down your brain and your body's responses.

The effects of nitrous oxide vary depending on how much has been inhaled but they include:

- Feelings of euphoria, relaxation and calmness.
- Dizziness, difficulty in thinking straight and fits of giggles/laughter.
- Sound distortions or even hallucinations.

In some people, a headache can be an unwanted immediate effect. Nitrous oxide can cause dizziness or affect your judgement, which might make you act carelessly or dangerously and put you at risk of hurting yourself, particularly in an unsafe environment.

Other risks include:

- Unconsciousness or death from lack of oxygen. This occurs when the available oxygen for breathing is effectively pushed out by the nitrous oxide. The risk is greater if the gas is consumed in an enclosed space or if a plastic bag is used that covers both nose and mouth.

Mixing nitrous oxide with alcohol is especially dangerous as it can increase the risks associated with both substances and can lead to an increased risk of accidents or death.

It is now illegal to supply nitrous oxide for human consumption.

Please report any shop/outlet knowing supplying Nitrous Oxide in the form of Cream chargers.
