

Oldham Borough Council

Council Meeting
Wednesday 12 December 2018

- 16 Failsworth East By-Election Result and Political Balance Update (Pages 1 - 4)
- 17 Brexit Update (Pages 5 - 22)

Report to COUNCIL

The Result of the Failsworth East By-Election and Review of the Composition of Political Groups

Portfolio Holder: Councillor Fielding, Leader of the Council

Officer Contact: Paul Entwistle, Director of Legal Services

Report Author: Elizabeth Drogan, Head of Constitutional Services
Ext. 4705

12th December 2018

Reason for Decision

For Elected Members to note the outcome of the local By-Election on the 29th November 2018 and to note the composition of the political groups.

Recommendations

The Council are requested to:

1. Note the result of the By-Election.
2. Note the new composition of the political groups as outlined in the report.
3. Agree the following Committee changes:
 - The two vacancies on Licensing to be filled by Licensing Councillor Harrison and Councillor Haque.
 - The Vacancy on the Charitable Trust Committee to be filled by Councillor E Jacques.
 - Councillor Malik to step down as a Member of O&S Performance and Value for Money Select Committee.
 - Councillor Azad to step down as Independent Member of Audit.
 - Councillor Azad to be appointed as Independent Member of O&S Performance and Value for Money Select Committee.

-
- Councillor Rehman to be appointed as Independent Member of Audit.

4. Agree the following substitutes:

- Councillor Davis – Audit
- Councillor E Jacques – Overview and Scrutiny

The Result of the Failsworth East By-Election and Review of the Composition of Political Groups

1 Local By-Election Results

- 1.1 A local By-Election took place on 29th November 2018 and the following was elected to serve as Member of the Council as shown:

Ward	Turnout	Councillor
Failsworth East	15.00%	Elizabeth Jacques

Councillor Elizabeth Jacques is a member of the Labour Group on the Council.

2 Political Groups

- 2.1 In addition to the result of the Local By-Election on 29th November 2018 the Leader of the Council has notified the Council that Councillor Rehman is no longer a Member of the Labour Group. Council is asked to note the composition of the political groups as notified under Regulation 8(1) of the Local Government (Committees and Political Groups) Regulations 1980.

- i. The Labour Group – 44 members
- ii. The Liberal Democrat Group – 8 members
- iii. The Conservative Group – 4 members
- iv. Independent – 4 Members

- 2.2 The political group sizes based on 78 Committee places available as a percentage of the total membership of the Council are:-

Labour Group	$44/60 \times 100 = 73.33\%$	$78 \text{ seats} \times 73.33\% = 57.19$	58 Seats
Liberal Democrat Group	$8/60 \times 100 = 13.33\%$	$78 \text{ seats} \times 13.33\% = 10.39$	11 Seats
Conservative Group	$4/60 \times 100 = 6.66\%$	$78 \text{ seats} \times 6.66\% = 5.19$	5 Seats
Independent	$1/60 \times 100 = 1.66\%$	$78 \text{ seats} \times 1.66\% = 1.29$	1 Seats
Independent	$1/60 \times 100 = 1.66\%$	$78 \text{ seats} \times 1.66\% = 1.29$	1 Seat
Independent	$1/60 \times 100 = 1.66\%$	$78 \text{ seats} \times 1.66\% = 1.29$	1 seat
Independent	$1/69 \times 100 = 1.66\%$	$78 \text{ seats} \times 1.66\% = 1.29$	1 seat

The Labour Group have lost a seat due to the changes in the composition of Political Groups from 59 seats to 58 seats, all other Political Group allocations remain the same as the political balance review agreed by Full Council on 12th September 2018. Labour seats on the Performance and Value for Money Select Committee will reduce from 6 to 5 and it is proposed that a seat is given to an Independent Member as detailed in the table below:

Committee	Seats	L	LD	C	I	I	I	I
Licensing	14	11	1	1	1	0	0	0
Planning	14	11	2	1	0	0	0	0
O&S Performance & Value for Money Select Committee	8	5	1	1	0	0	0	1
O&S Management Board	8	5	1	1	0	1	0	0
Audit Committee	9	6	1	1	0	0	1	0
Commons Registration Committee	5	4	1	0	0	0	0	0
Selection Committee	5	4	1	0	0	0	0	0
Local NJC	7	6	1	0	0	0	0	0
Appeals Committee	3	2	1	0	0	0	0	0
Charitable Trustee Committee	5	4	1	0	0	0	0	0
Total	78	58	11	5	1	1	1	1

Due to the review there are now 2 Labour vacancies on Licensing Committee, 1 Labour vacancy on the charitable Trust Committee and two Labour substitutes required, 1 on Audit Committee and 1 on the Overview and Scrutiny Board.

2.3

Council is asked to agree the following Committee changes:

- The two vacancies on Licensing to be filled by Licensing Councillor Harrison and Councillor Haque.
- The Vacancy on the Charitable Trust Committee to be filled by Councillor E Jacques.
- Councillor Malik to step down as a Member of O&S Performance and Value for Money Select Committee.
- Councillor Azad to step down as Independent Member of Audit.
- Councillor Azad to be appointed as Independent Member of O&S Performance and Value for Money Select Committee.
- Councillor Rehman to be appointed as Independent Member of Audit.

Council is also asked to agree the following substitutes:

- Councillor Davis – Audit
- Councillor E Jacques – Overview and Scrutiny

Report to COUNCIL

European Union Referendum Update

Portfolio Holder:

Councillor Sean Fielding, Council Leader

Officer Contact: Helen Lockwood, Deputy Chief Executive,
People and Place

Report Author: Jon Bloor, Head of Lifelong Learning, Economy
and Skills Service

Ext. 4188

12 December 2018

Reason for Decision

Following the UK referendum on continuing membership of the EU held on 23rd June 2016, the implications of the “leave” result are now better understood.

This report provides an update following the publication of the latest GMCA Brexit Monitor report (30th November 2018 - see Appendix 1).

Executive Summary

The report references the latest analysis from the GMCA Brexit Monitor. It reviews the timeline as the Brexit negotiations move into the final stages. Since the report was published the Government has begun the process of trying to get approval for the Withdrawal Agreement with a vote scheduled for 11th December 2018.

The report sets out the key aspects of the Withdrawal Agreement which includes the Financial Settlement, Citizen Rights, Transition period, and the Northern Ireland protocol or “backstop”.

The Brexit Monitor examines the impact of Brexit on the Economic function. In November the report

Brexit Monitor reports that Gross Domestic Product has grown to 0.6% between Q2 and Q3 (this is in below the pre-Brexit predicted 2.1%).

Recommendations

Council is asked to discuss and note the content of this report.

1.0 Background

- 1.1 Following the UK referendum on continuing membership of the EU held on 23rd June 2016, the implications of the “leave” result have been widely discussed and negotiations are now entering into the final phase as to the type of deal the UK and EU will support.
- 1.2 Since the result, the Greater Manchester Combined Authority has been producing a monthly Brexit Monitor report, which is a monthly publication which examines the key political elements of the Brexit process, and reviews key economic indicators to understand if the process is having an impact on current economic conditions.
- 1.3 This report sets out a summary of the implications of leaving the EU on Oldham’s economy and Greater Manchester based on this report (see Appendix 1)

2. Brexit Monitor Key Headlines

- 2.1 The November reports the Cabinet sign off of the Withdrawal Agreement (which since the report was written has now been signed off at the EU Summit). The next milestone will be the vote by MPs on the 11th December. Recent coverage and political analysis suggests that this vote might not be won by the HM Government.
- 2.2 The withdrawal agreement includes key aspects such as the financial settlement (c. €40-45bn), maintaining citizen rights for those in the UK and within the EU. The Irish Border and backstop protocol, customs union and Governance and the transition period.
- 2.3 The Monitor has reported on the impact on the UK’s economic well-being. The latest report states that the growth expectations have been pegged back because whilst there has been a minor UK GDP growth of 0.6% between Quarter 2 and Quarter 3, recent business surveys show that there is a slowdown in UK manufacturing and the overall UK economy is below the 2.1% pre-Brexit predictions but the real impact cannot really be felt or predicted until Brexit has completed. Recent reports predict that all forms of exit strategy will have a negative economic impact (ranging from -2.5% to -9.5%) and the latest paper to GMCA Overview and Scrutiny committee proposes that if the exit is a “hard Brexit”, leaving on World Trade Organisation rules then the impact will be as high as 12% for the North West.

3.0 Implications/Next steps for Greater Manchester.

- 3.1 The Brexit Monitor, and subsequent update to GMCA Overview and Scrutiny committee, raises the assurances that GM wants from HM Government. Specifically in relation to how the Government will replace the various EU funded schemes e.g, European Social Investment Fund and European Regional Development Fund. The Government published its aim to replace the funds with the UK Shared Prosperity Fund. GM is seeking to gain agreement as to how this will operate in GM. Primarily multi-year funding (current EU programmes are 3-5

years in duration vs shorter time scale funding agreements from HM Government – e.g. Adult Skills Budget only agreed on an annual basis). A place-based budget, using outcomes not outputs – this is inline with current GM programmes, with lobbying for funding levels to be at least at the same level of funding (ideally more – currently £645.50m over 7 years).

4.0 What does Brexit mean for Oldham and Greater Manchester?

- 4.1 As stated in the December 2017 report, “Whilst the narrative on which areas are likely to lose (or lose out the most) depending on the level of dependency of key employment sectors on both trade with and immigration from the EU, history tells us that areas with high skills levels, strong social infrastructure and sectors of employment that are quick to adapt to technological change are likely to recover and adapt. This is most evident for the financial crisis and recession of 2007/8 (which saw London and the South East hit hardest before recovering much more strongly than other areas of the UK)”.
- 4.2 The November Brexit Monitor reports that all the key “exit” scenarios see a reduction in wealth with greater impact felt in the NW and GM than the UK average. “The Government’s analysis forecasts UK GDP over 15 years would be: 1.5% lower if the UK remains a member of the EU’s single market; 5% lower if a free trade deal is agreed; and 8% lower if the UK leaves the EU without a deal and reverts to WTO terms. But the equivalent figures are 2.5%, 8% and 12% for the North West. This equates to the GM economy losing between £2.5bn and £12bn in cumulative growth by 2035, compared with remaining in the EU”
- 4.3 The biggest risk to areas in Greater Manchester, Oldham and across the UK will be that existing inequalities are exacerbated by shocks to trade, industry and employment as a result of exiting the EU. It is imperative that the Shared Prosperity fund is provisioned to underpin services that will support business and employment support and growth in productivity.

5.0 Greater Manchester priorities for Government

- 5.1 The UK’s departure from the EU creates risks and opportunities for delivering the priorities of authorities such as GMCA, as they look to raise productivity and improve services. Meeting these will depend on close partnership working between central Government and local authorities. Key points from this evidence are:
- **Greater Manchester supports the Government’s approach of developing a Local Industrial Strategy**, which will set out clear objectives to increase productivity and will aim to provide greater stability for national and local economies through the Brexit transition and ensure that prosperity is shared. For example, the Strategies need to ensure that:
 - **The skills system can respond to changes in the labour supply caused by leaving the EU**, ensuring that businesses are able to continue to access the workforce they need and residents are able to find jobs which are well paid and secure. In Greater Manchester this means better integration of post-16 skills through approaches to planning, accountability and delivery which are jointly developed between Greater Manchester and the Government so that they are more responsive to our businesses. This is linked to the devolution of the Adult Education Budget.
 - **The infrastructure is in place – particularly transport, housing and digital** – which can support businesses to develop innovative services and products in order to be globally competitive, supporting prosperity across the Northern

Powerhouse and beyond. This will include the roll out of 5G and Gigabit Broadband over the next 3 years.

- **Global economic ties are broadened and deepened** and the Department for International Trade works with city regions (and a Northern Trade Board) on the co-commissioning of support to business and the attraction of inward investment.

- GM Brexit Monitor November

Date: 30th November 2018

Subject: Brexit Monitor Monthly Update

Report of: Sir Richard Leese, Portfolio Lead for Business and Economy and Jim Taylor, Portfolio Lead Chief Executive for Business and Economy

PURPOSE OF REPORT

This report updates members on the key economic and policy developments of relevance to Greater Manchester in relation to the UK's decision to leave the European Union (EU).

RECOMMENDATIONS:

Members are asked to:

- Note the contents of the November Brexit Monitor (Appendix 1)

CONTACT OFFICERS:

Simon Nokes, Executive Director, Policy and Strategy
Simon.nokes@greatermanchester-ca.gov.uk

John Holden, Assistant Director, Research and Strategy
John.holden@greatermanchester-ca.gov.uk

1. INTRODUCTION

1.1 Following the vote to leave the EU, the GMCA has been monitoring the economic and social trends and policy developments to develop an appropriate policy response. The impact of Brexit is being tracked across the following themes:

- Macro-economy trends and developments;
- Key sectors and business investment;
- Trade, regulation, and access to European Funding;
- Property investment, housing, and planning; and
- Economic inclusion.

2 KEY MESSAGES FROM THE BREXIT MONITOR

2.1 The cabinet has backed a draft withdrawal agreement between the UK and the EU following a special cabinet meeting on November 14th. However, the draft withdrawal agreement has triggered a wave of resignations by Ministers who said that they cannot support the proposed agreement. These included Secretary of State for Exiting the EU, Dominic Raab, and Secretary of State for Work and Pensions, Esther McVey. The draft withdrawal agreement also prompted a number of Conservative MPs to submit a letter of no confidence in the Prime Minister.

2.2 Assuming it is agreed, after March 29 next year the Brexit withdrawal treaty will be Britain's only legal agreement with the EU. The agreement will not only determine the nature of Britain's exit from the EU, but also influence the country's future relationship with the Union. The provisional text drafted by the UK and the EU covers:

- **Financial settlement:** Britain will honour all its financial commitments to Brussels. Using conservative assumptions, the UK Treasury expects a net British outlay of €40bn to €45bn, although the National Audit Office identified public payments that could reach €60bn, along with an additional €14bn of contingent liabilities such as outstanding loans.
- **Citizen rights:** The exit agreement maintains the existing EU residence and social security rights of more than 3m EU citizens in the UK, and about 1m UK nationals living on the continent.
- **Transition:** The treaty provides for a transition period for the UK until the end of 2020, which can be extended for an unspecified one-off period, set by mutual agreement.
- **Northern Ireland:** A protocol in the treaty makes unique arrangements for Northern Ireland, with the aim of upholding the peace process and avoiding a hard border dividing the island of Ireland. Most significantly the protocol lays out "backstop" arrangements for the Irish border that ensure the free circulation of goods across the island of Ireland.
- **UK-EU customs union:** The backstop plan for Northern Ireland is underpinned by a UK-EU customs union. This avoids the need for customs checks across the Irish

Sea. While Northern Ireland will apply the full “union customs code”, the UK would apply a more basic customs union model. This avoids the needs for tariffs, quotas and rules of origin in UK-EU trade.

- **Governance:** The arrangements for overseeing the withdrawal treaty ensure that neither the EU nor the UK is bound by the other jurisdiction’s courts when it comes to interpreting the agreement.

2.3 To come into force, the Brexit deal requires approval by, in sequence: the UK cabinet, an EU summit, the House of Commons, and the European Parliament. EU leaders will hold special summit on November 25 aimed at signing off the proposed Brexit deal between the UK and the other 27 member states.

2.4 Official estimates from the Office for National Statistics (ONS), UK GDP grew by 0.6% between Q2 (April to June) 2018 and Q3 (July to Sept). Real GDP growth in Quarter 3 was driven by growth of strong retail sales July 2018, as well as a low base reflecting the weaker start to the year. Construction output growth continued to pick up following a weak start to the year, while quarterly output in manufacturing rose during Q3 for the first time in 2018.

2.5 However, more recent independent business survey showed that conditions in the UK manufacturing sector slowed during October with the UK Manufacturing PMI falling to a 27-month low of 51.1 in October (figures above 50 still indicate growth), down from September’s revised reading of 53.6.

2.6 The UK services PMI also fell to 52.2 in October from 53.9 in September, to signal the slowest rate of business activity expansion since March and the second lowest since July 2016 – the PMI survey directly following the EU referendum.

2.7 Trends in unemployment since the referendum broadly reflect previous long-term trends, with an overall decline in ILO unemployment rates in GM (to 4.6% in the 12 months to June, compared to 6.6% pre-referendum). Unemployment in GM however is still above national and regional rates.

2.8 Despite the ILO measure of unemployment falling, the number of people claiming unemployment / underemployment benefits (Job Seekers Allowance and related Universal Credit) in GM have risen to 1,080 (2.0%) on the previous month to 55,095 people, with rises recorded in all age groups.

3 RECOMMENDATIONS

3.1 Recommendations appear at the front of this report.

Greater Manchester Brexit Monitor

Key economic trends & developments – November 2018

GMCA

 BOLTON
BURY

 MANCHESTER
OLDHAM

 ROCHDALE
SALFORD

 STOCKPORT
TAMESIDE

 TRAFFORD
WIGAN

November saw Prime Minister Theresa May secure cabinet backing for a draft withdrawal agreement between the UK and the EU. The PM met EU officials on the 21st with the aim of finalising a Brexit deal in time for the Sunday 25th November summit of European leaders. Further, the EU missed its deadline on Tuesday 20th to complete the text of its declaration on future relations with the UK, amid concerns from several member state; and challenge remain to ensuring UK access to the EU single market, access to UK waters for EU boats, and Gibraltar. UK GDP growth bounced back from a weak first half of 2018 to a strong 0.6% expansion in Q3. Most parts of the economy contributed with growth from services, construction and manufacturing. However, contrary to the previous quarters official statistics, current surveys suggests slowing growth in parts of the economy. Whilst Manufacturing's expansion was particularly noteworthy (as it had shrunk in Q1 and Q2 this year) the PMI survey of UK services shows growth slowing to its second lowest rate since the referendum in 2016. Local firms continue to report Brexit-related uncertainty, but a slightly improved outlook this month on both hiring and investment plans. In the 12 months up to June 2018, unemployment stood at 4.6% in GM, down from 4.9% in the 12 months to March, and down from 6.9% in the 12 month period up to June 2016, but above national and regional rates.

Macro-Economic Trends & Developments

- **Despite stronger official figures for the previous quarter from ONS, latest surveys suggest that regional business activity growth in the North West witnessed a slowdown in October 2018, with the regional PMI for the NW falling to 51.8**, from 55.6 in September (above 50 = growth). This marked the weakest increase in private sector output since the shock to activity following the EU referendum in July 2016, with the regional PMI for the NW posting its weakest outturn since August 2016.

According to estimates from the Office for National Statistics (ONS), **UK GDP grew by 0.6% between Q2 (April to June) 2018 and Q3 (July to Sept)**. Real GDP growth in Quarter 3 was driven by growth of 0.3% in July 2018, which stemmed from strong retail sales boosted by warm weather and the World Cup, as well as a low base reflecting the weaker start to the year. Construction output growth continued to pick up following a weak start to the year, while quarterly output in manufacturing rose for the first time in 2018.

Policy, Trade, & Regulation

- **The cabinet backed a draft withdrawal agreement between the UK and the EU following a special cabinet meeting on November 14th**. However, the draft withdrawal agreement has triggered a wave of resignations by Ministers who said that they cannot support the proposed agreement. **The draft withdrawal agreement has prompted a number of Conservative MPs to submit a letter of no confidence in the PM.**
- To come into force, the Brexit deal requires approval by, in sequence: the UK cabinet, an EU summit, the House of Commons, and the European Parliament. EU leaders will hold a special summit on November 25 aimed at signing off the proposed Brexit deal between the UK and the other 27 member states.
- Prime Minister Theresa May has also sought backing from businesses for the draft withdrawal agreement, announcing to the CBI annual conference that her plan would provide a fair system that would help young people in the UK get jobs and training.

Key Sectors & Business Investment

- Research with GC Business Growth Hub clients in the 3 months to the end of October 2018 shows a **cautiously improved picture around business hiring and investment plans**. Businesses reported a **slightly brighter outlook around hiring plans** (6% planning to increase hiring, up from 1% in the previous quarter (May-July)), **as well as investment plans** (10% planning to increase investment, 2% in the previous quarter). However, the majority of businesses still state that their investment plans remain unchanged.
- Compared to official statistics on the previous quarters economic output, conditions in the UK manufacturing sector slowed sharply during October with the **UK Manufacturing PMI falling to a 27-month low of 51.1 in October**, down from September's downwardly revised reading of 53.6 (above 50 = growth). The **UK services PMI fell to 52.2 in October** from 53.9 in September, to signal the slowest rate of business activity expansion since March and second lowest since July 2016, the survey directly following the EU referendum.
- **The underlying trend in the retail industry remains one of growing sales, with the quantity bought in the three months to September increasing by 1.2%** when compared with the previous three months.

Property and Housing

- **August 2018 housing sales data from the Land Registry shows that the vote to leave the EU has had little impact on house prices in GM**, with post-referendum trends in house prices in line with pre-referendum trends.

Economic inclusion

- Trends in unemployment since the referendum broadly reflect previous long-term trends, with an **overall decline in ILO unemployment rates in GM** (to 4.6% in the 12 months to June, compared to 6.6% pre-referendum). **Unemployment in GM however is still above national and regional rates; and numbers of Job Seekers Allowance (JSA) and related Universal Credit claimants continue to rise.**
- **The Household Finance Index has revealed a further deterioration in UK household finances, partly driven by weaker employment income growth**. However, **the 12-month Consumer Prices inflation rate slowed in September 2018 to 2.2%**, down from 2.4% in August.

Macro-economy

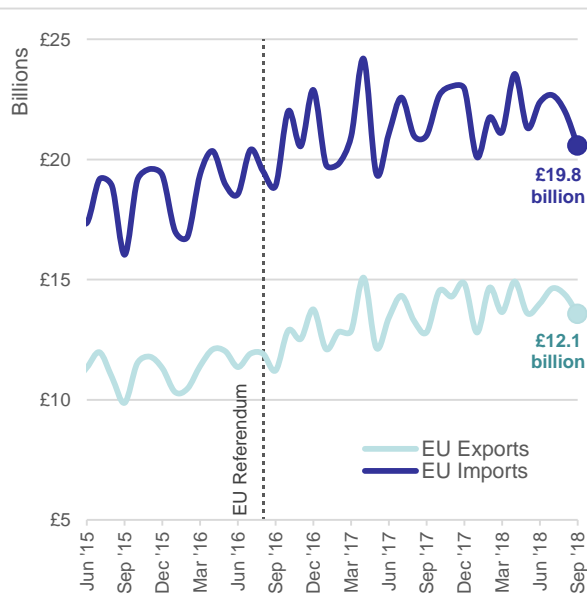

- According to monthly estimates from the Office for National Statistics (ONS), **UK GDP grew by 0.6% between Q2 (April to June) 2018 and Q3 (July to Sept)**. Real GDP growth in Quarter 3 was driven by growth of 0.3% in July 2018, which stemmed from strong retail sales boosted by warm weather and the World Cup, as well as a low base reflecting the weaker start to the year. However, month-on-month growth in real GDP has been flat in both August and September 2018. Construction output growth continued to pick up following a weak start to the year, while quarterly output (Q3) in the manufacturing sector rose for the first time in 2018. Growth in services output slowed to 0.4%, but remained the largest positive contributor to GDP growth in Quarter 3..⁽¹⁾

UK International Trade

- The total trade deficit (goods and services) narrowed by £3.2 billion to £2.9 billion in the three months to September 2018**; this was driven by a £2.9 billion narrowing of the goods deficit, which was further bolstered by a £0.3 billion widening of the services surplus.⁽²⁾

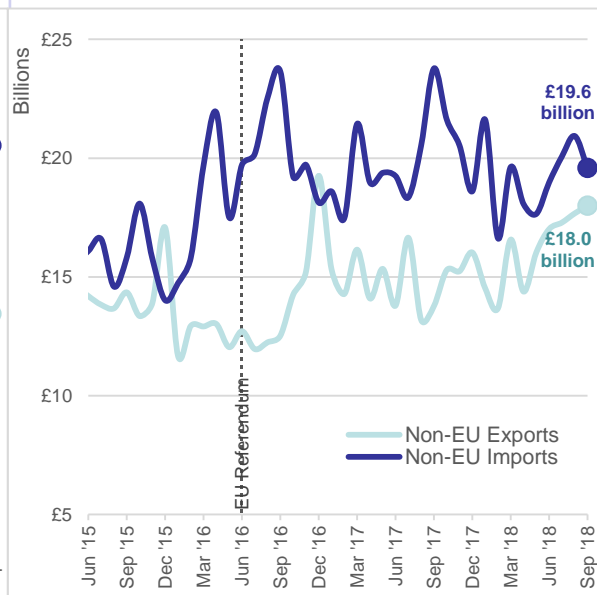

EU Trade

The UK was a net importer from the EU in September 2018, with imports exceeding exports by approximately £7.7 billion.⁽³⁾

Non-EU Trade

- The UK was a net importer from non-EU nations in September 2018, with imports exceeding exports by approximately £1.6 billion.⁽³⁾

IHS Markit Regional Purchase Managers' Index (PMI)

- Regional business activity growth in the North West witnessed a notable slowdown in October 2018, with the regional PMI for the NW falling to 51.8**, from 55.6 in September (above 50 = growth). This marked the weakest increase in private sector output in the current expansionary sequence since the shock to activity following the EU referendum in July 2016, with the regional PMI for the NW posting its weakest outturn since August 2016. *All other regions shown in grey below.*⁽⁴⁾

Business Investment & Hiring

- Research with GC Business Growth Hub clients in the 3 months to the end of October 2018 shows a **cautiously improved picture around business hiring and investment plans**. Businesses are showing a **slightly brighter outlook around hiring plans** (with 6% planning to increase hiring, up from 1% in the previous quarter (May-July)), **as well as investment plans** (with 10% planning to increase investment compared to 2% in the previous quarter). In both cases however, the majority of businesses responded that their plans remain unchanged.⁽⁵⁾

What impact is Brexit likely to have on your hiring plans?				
Make redundancies	Decrease or freeze hiring	Remain the same	Increase hiring	Don't know
<1% ↓	3% ↓	58% ↓	6% ↑	33% ↑
1%	5%	65%	1%	29%

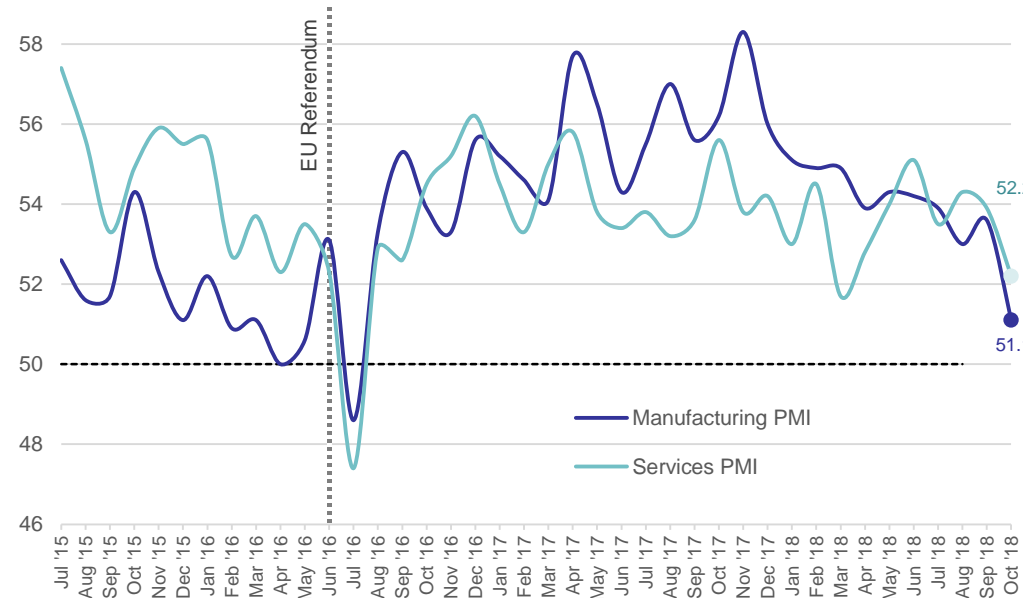

What impact is Brexit likely to have on your investment plans?				
Decrease investment	Remain the same	Decision put on hold	Increase investment	Don't know
3% ↓	62% ↓	2% ↑	10% ↑	23% ↓
4%	69%	1%	2%	24%

Greater Manchester Chamber of Commerce

- The GM Chamber of Commerce's Q3 2018 Quarterly Economic Survey reported an upturn in both manufacturing and construction in Greater Manchester, although services experienced a slightly surprising drop, mirroring other survey results and a slowdown in financial services. Construction orders over the next quarter were anticipated to grow, but manufacturing orders appear to be slightly cooling off. Services orders are now back down to start of the year levels, which may reflect some early Brexit impact associated with financial/legal deferments.⁽⁶⁾

HS Markit/CIPS Manufacturing & Services PMIs®

- Despite ONS statistics showing manufacturing growth in the last quarter, leading indicator surveys suggest that conditions in the UK manufacturing sector slowed during October with the **UK Manufacturing PMI falling to a 27-month low of 51.1 in October**, down from September's downwardly revised reading of 53.6 (above 50 = growth). New order inflows and employment both declined this month for the first time since July 2016 – the PMI survey directly following the EU referendum. The drop in new business was partly driven by rising global trade tensions and Brexit uncertainties.⁽⁷⁾
- The **UK services PMI dropped to 52.2 in October** from 53.9 in September, to signal the slowest rate of business activity expansion since March and the second lowest since July 2016, the PMI survey directly following the EU referendum. Respondents noted that economic uncertainty had held back business activity growth.⁽⁸⁾

Retail Sales

- The volume (not value) of retail sales declined by 0.8% during September 2018**, due mainly to a 1.5% fall in food store sales – the largest decline since October 2015.
- However, the underlying trend in the retail industry** – as suggested by the three-month on three-month measure – **remains one of growing sales, up 1.2% in September** compared with the previous three months.⁽⁹⁾

Withdrawal Agreement

- **The cabinet has backed a draft withdrawal agreement between the UK and the EU following a special cabinet meeting on November 14th.⁽¹⁰⁾ However, the draft withdrawal agreement has triggered a wave of resignations by Ministers who said that they cannot support the proposed agreement. These have included Secretary of State for Exiting the EU, Dominic Raab, and Secretary of State for Work and Pensions, Esther McVey.⁽¹¹⁾**
- Prime Minister Theresa May has sought backing from businesses for the draft withdrawal agreement, announcing to the Confederation of British Industry (CBI)'s annual conference that her plan would provide a fair immigration system that would help young people in the UK get jobs and training. CBI president John Allan has urged MPs to back Mrs May's deal – despite it not being "perfect" – warning of the consequences for businesses if the UK were to simply crash out of the EU.⁽¹²⁾
- After March 29 next year, the Brexit withdrawal treaty will be Britain's only legal agreement with the EU. The agreement will not only determine the nature of Britain's exit from the EU, but also influence the country's future relationship with the union. The provisional text drafted by the UK and the EU covers:
 - **Financial settlement:** Britain will honour all its financial commitments to Brussels. Using conservative assumptions, the UK Treasury expects a net British outlay of €40bn to €45bn, although the National Audit Office identified public payments that could reach €60bn, along with an additional €14bn of contingent liabilities such as outstanding loans.
 - **Citizen rights:** The exit agreement maintains the existing EU residence and social security rights of more than 3m EU citizens in the UK, and about 1m UK nationals living on the continent.
 - **Transition:** The treaty provides for a transition period for the UK until the end of 2020, which can be extended for an unspecified one-off period, set by mutual agreement.
 - **Northern Ireland:** A protocol in the treaty makes unique arrangements for Northern Ireland, with the aim of upholding the peace process and avoiding a hard border dividing the island of Ireland. Most significantly the protocol lays out "backstop" arrangements for the Irish border that ensure the free circulation of goods across the island of Ireland.
 - **UK-EU customs union:** The backstop plan for Northern Ireland is underpinned by a UK-EU customs union. This avoids the need for customs checks across the Irish Sea. While Northern Ireland will apply the full "union customs code", the UK would apply a more basic customs union model. This avoids the needs for tariffs, quotas and rules of origin in UK-EU trade.
 - **Governance:** The arrangements for overseeing the withdrawal treaty ensure that neither the EU nor the UK is bound by the other jurisdiction's courts when it comes to interpreting the agreement.⁽¹³⁾
- To come into force, the Brexit deal requires approval by, in sequence: the UK cabinet, an EU summit, the House of Commons, and the European Parliament. EU leaders will hold special summit on November 25 aimed at signing off the proposed Brexit deal between the UK and the other 27 member states.⁽¹⁴⁾

Future of European Funding in Greater Manchester

- From 2014-20 the Greater Manchester allocation of ERDF and ESF totalled €405m, for which the European Commission has announced the region will continue to be eligible until 2020/21. **UK organisations have been advised to continue bidding for EU funding of all types, with the UK Government underwriting the continued payment of any successful funding application, even when projects are approved after the UK leaves the EU.** In their recent '[no deal' technical notices](#), the Government has reiterated that they will guarantee any funding secured before 29th March 2019 and continue all allocated 2014-20 ESF and ERDF funding, even in the event of a no deal.

Brexit - Key Dates

25 th November 2018	Potential emergency EU summit during which the UK and EU will hope to sign off on a withdrawal agreement.
13-14 th December 2018	Final EU summit of 2018. A possible fall-back option if the November deadline is not reached.
Late December -Early January 2018	Once the EU and the UK have agreed a withdrawal treaty and an outline sketching their future relations, the deal will be put to the House of Commons for a "meaningful vote".
21 st January 2018	If no deal is agreed, the Prime Minister must announce a 'no deal' by this date giving MPs 14 days to vote on a plan of action, being leaving with no deal, seeking an extension of Article 50, or holding another referendum.
29 th March 2019	Britain's formal exit from the EU, two years following the trigger of Article 50. In the case of a 'no deal', all current EU legislation and agreements would cease to apply from this date in the absence of any other arrangements.
31 st December 2020	Planned end of the proposed Brexit transition period. Until this date, the UK will essentially function as if a member of the EU (including continuing current funding and regulatory arrangements).

Housing sales

- **August 2018 housing sales data from the Land Registry shows that the vote to leave the EU has had little impact on house prices in GM**, with post-referendum trends in house prices roughly in line with pre-referendum trends. London has, however, seen flatter growth since the referendum, and witnessed a slight fall in prices in August. In contrast, house prices in GM **have risen faster than national and regional averages since the referendum**, particularly in the last 6 months.⁽¹⁵⁾

Average House Sales Prices

August 2018 Average House Price

Greater Manchester	Since last month	Annual Change	Since EU Referendum
£168,525	+0.6%	+4.2%	+12.7%

IHS/CIPS Construction PMI

- **UK construction companies indicated a sustained increase in business activity during October**, with the UK construction PMI rising to 53.2 – up from 52.1 in September – marking its second-highest level in 16 months.
- However, despite total UK construction activity rising at a stronger pace in October, **optimism regarding the 12-month outlook was at its lowest level for nearly six years**, as the sector reported rising uncertainty about the future of the economy, resulting in slower growth of new orders and purchasing.⁽¹⁶⁾

Unemployment and Claimant Count

- Trends in unemployment since the referendum broadly reflect previous long-term trends, with an **overall decline in ILO unemployment rates** (the standard definition of unemployment).
- In the 12 months up to June 2018, unemployment stood at 4.6% in GM, down from 4.9% in the 12 month period up to March 2018. **However, unemployment in GM still stands above national and regional rates.**⁽¹⁷⁾
- Numbers of people claiming unemployment / underemployment benefits (Job Seekers Allowance and related Universal Credit) in GM have however risen to their highest levels in over four years in September, up 1,080 (2.0%) on the previous month to 55,095 people, with rises in all age groups.
- The total number of claimants is 18.9% (8,765) higher than pre-referendum levels.** As a proportion of the working age population, the number of claimants has also risen to 3.1% from 2.6% in June 2016, mirroring national and regional trends.⁽¹⁸⁾

Due to recent changes to unemployment benefits and the roll-out of Universal Credit in GM over the last year, long-term trends in claimant counts should be treated with caution. Greater numbers of people may be moved onto certain types of benefits or be expected to find additional work and may appear in the claimant count. ILO unemployment rates are unaffected.

ILO Unemployment Rate (% of economically active population aged 16-64)

Household Finances

- The Household Finance Index (HFI) – which tracks Britons’ sense of financial wellbeing – reveals a further deterioration in UK household finances, partly driven by weaker employment income growth.** October’s HFI fell to 45.1 from 45.7 in September (below 50 signals deterioration). However, household spending was boosted by savings and unsecured credit.⁽¹⁹⁾
- The Consumer Prices Index (CPI-H) 12-month inflation rate was 2.2% in September 2018, down from 2.4% in August.** The largest downward contribution came from food and non-alcoholic beverages.⁽²⁰⁾

Claimant count (JSA and related UC) in GM by age group
