Environment Agency:

Considered the additional information submitted and strongly recommended a watching brief is carried out for any unexpected contamination during works onsite, please note this request is addressed by condition no. 12 in the original report.

Crime:

The Crime Impact Statement submitted with the application has been considered by the Greater Manchester Police (Architectural Liaison Unit). They have recommended a condition is required to reflect the measures contained within Section 3.3 and Section 4. These have been agreed with the applicant and a condition is outlined in the amendment to the recommendation section below.

Amendment to RECOMMENDATION section of report

It is recommended that Planning Committee resolves to grant permission, subject to the inclusion of the conditions listed below, and a Unilateral Undertaking legal agreement under Section 106 of the Town and Country Planning Act 1990 securing the provision of the following:

- A £85,000.00 financial contribution of towards the enhancement of existing Open Space provision within the locality (further details to be reported on the Late List); and,
- The provision of 100% on site affordable housing broken-down into 33% affordable rent (for people with disabilities) and 67% rent-to-buy.

Amendment to originally recommended conditions

Removal of condition no .11:

(It is recommended this condition be removed since the submitted Site Investigation has been considered to be acceptable by the Council's Environmental Health section and a contamination monitoring condition is attached to address any issues that could arise during the construction phase).

Amendment to condition 13:

"If a Remediation Strategy is required, a verification report demonstrating the completion of works set out in the approved remediation strategy and the effectiveness of the remediation shall be submitted to, and approved in writing, by the local planning authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. REASON - To ensure that the site does not pose any further risk to human health or the water

environment by demonstrating that the requirements of the approved verification plan have been met and that remediation of the site is complete. This is in line with paragraph 170 of the National Planning Policy Framework.”

(The originally proposed condition contradicted that that submitted Site Investigation which has been accepted by the Council’s Environmental Health section.)

Amendment to condition 14:

“Prior to the commencement of any part of the piling works on site, a Piling method statement shall be submitted to and approved in writing by the local planning authority. The development shall be carried out in accordance with the approved details. REASON - To ensure that the proposed Piling does not harm groundwater resources in line with paragraph 170 of the National Planning Policy Framework.”

(As the Site Investigation noted that piling will be required on site, this condition has been amended to address the reequipment of the method to be agreed by the EA prior to this element of the works commencing on site.)

Additional conditions

Additional Condition 1:

“No development shall commence until full details of a scheme for a sustainable drainage system to serve the site, and method of implementation including arrangements to secure funding and maintenance for the lifetime of the development through an appropriate legally binding agreement have been submitted to and approved by the Local Planning Authority. The approved scheme shall be implemented in accordance with the approved details and timetable. Thereafter the sustainable drainage system shall be managed and maintained in accordance with the approved scheme.

Details of a scheme for a sustainable drainage system should be based on sustainable drainage principles with the following further information to be provided:
