

OVERVIEW AND SCRUTINY PERFORMANCE AND VALUE FOR MONEY SELECT COMMITTEE
Overview & Scrutiny Committee
Agenda

Date Thursday 24 January 2019

Time 6.00 pm

Venue Crompton Suite, Civic Centre, Oldham, West Street, Oldham, OL1 1NL

- Notes
1. DECLARATIONS OF INTEREST- If a Member requires advice on any item involving a possible declaration of interest which could affect his/her ability to speak and/or vote he/she is advised to contact Paul Entwistle or Sian Walter-Browne at least 24 hours in advance of the meeting.
 2. CONTACT OFFICER for this agenda is Sian Walter-Browne Tel. 0161 770 5151 or email sian.walter-browne@oldham.gov.uk
 3. PUBLIC QUESTIONS - Any Member of the public wishing to ask a question at the above meeting can do so only if a written copy of the question is submitted to the contact officer by 12 noon on Monday, 21 January 2019.
 4. FILMING - The Council, members of the public and the press may record / film / photograph or broadcast this meeting when the public and the press are not lawfully excluded. Any member of the public who attends a meeting and objects to being filmed should advise the Constitutional Services Officer who will instruct that they are not included in the filming.

Please note that anyone using recording equipment both audio and visual will not be permitted to leave the equipment in the room where a private meeting is held.

Recording and reporting the Council's meetings is subject to the law including the law of defamation, the Human Rights Act, the Data Protection Act and the law on public order offences.

MEMBERSHIP OF THE OVERVIEW AND SCRUTINY PERFORMANCE AND VALUE FOR MONEY SELECT COMMITTEE
Councillors Ahmad (Chair), Curley, Davis, Harkness, Phythian, Qumer, Stretton (Vice-Chair) and Azad

Item No

- 1 Apologies For Absence
- 2 Urgent Business
Urgent business, if any, introduced by the Chair
- 3 Declarations of Interest
To Receive Declarations of Interest in any Contract or matter to be discussed at the meeting.
- 4 Public Question Time
To receive Questions from the Public, in accordance with the Council's Constitution.
- 5 Revenue Monitor and Capital Investment Programme 2018/19 Month 8 – November 2018 (Pages 1 - 34)
- 6 Revenue Budget 2019/20 and Medium Term Financial Strategy 2019/20 to 2023/24 (Pages 35 - 408)
- 7 Capital Strategy and Capital Programme 2019/20 to 2023/24 (Pages 409 - 474)
- 8 Housing Revenue Account Estimates for 2019/20 to 2023/24 and Proposed Outturn for 2018/19 (Pages 475 - 490)
- 9 Treasury Management Strategy Statement 2019/20 (Pages 491 - 536)
- 10 Council Tax Reduction Scheme 2019/20 (Pages 537 - 594)

Report to the Overview and Scrutiny, Performance and Value For Money Select Committee

Revenue Monitor and Capital Investment Programme 2018/19 Month 8 – November 2018

Portfolio Holder: Councillor Abdul Jabbar MBE, Deputy Leader
and Cabinet Member for Finance & Corporate Resources

Officer Contact: Anne Ryans, Director of Finance

Report Author: Anne Ryans, Director of Finance
Ext. 4902

24 January 2019

Reason for Decision

The report provides the Select Committee with an update on the Council's 2018/19 forecast revenue budget position at Annex 1 and the financial position of the capital programme as at 30 November 2018 (Month 8) together with the revised capital programme 2018/23, as outlined in section two of the report at Annex 2.

Executive Summary

Revenue Position

The current forecast outturn position for 2018/19 is a projected favourable variance of £0.145m after allowing for approved and pending transfers to and from reserves.

The most significant area of concern is the People and Place Portfolio, in the main due to the transfer of Children's Social Care into this area. An update on the major issues driving the projections within this Portfolio are detailed within Annex 1, paragraphs 2.9.11 to 2.9.17.

Action is being taken and will continue for the remainder of the financial year to address variances and take mitigating action as detailed in the report.

The overall corporate position is being managed by offsetting favourable variances, most noticeably from Capital, Treasury and Corporate Accounting budgets, in part caused by the anticipated cost of borrowing and capital financing being lower than budgeted and the availability of additional Treasury Management income and unringfenced grants not allocated to service budgets.

Information on the Month 8 position of the Dedicated Schools Grant (DSG), Housing Revenue Account (HRA) and Collection Fund is also outlined in the report. There are no significant issues of concern in relation to the HRA and Collection Fund, however, the DSG continues to be an area which is facing a financial challenge with an increase in the projected year end deficit. Action is being taken with the aim of reducing the cumulative deficit and bringing the DSG towards a balanced position.

Capital Position

The report outlines the most up to date capital spending position for 2018/23 for approved schemes. The 2018/19 capital programme budget has been revised to £48.952m at the close of Month 8, a net decrease of £40.706m from the original budget of £89.658 and a reduction of £0.571m from the £49.523m reported at Quarter 2. Actual expenditure to 30 November 2018 was £24.637m (50.33% of forecast outturn).

It is probable that the forecast position will continue to change before the year end with additional re-profiling into future years.

Recommendations

That the Select Committee note the:

1. Forecast revenue outturn for 2018/19 at Month 8 being a £0.145m under spend
2. Forecast positions for the HRA, Collection Fund and the DSG
3. Use of ear marked reserves as detailed in Appendix 1 to Annex 1
4. Revised capital programme for 2018/19 to the extended period of 2022/23, as at Month 8.

Revenue Monitor and Capital Investment Programme 2018/19 Month 8– November 2018

1 Background

- 1.1 The Authority's 2018/19 revenue budget and capital programme was approved by Council on 28 February 2018. Under established budget procedures, all services are required to monitor and review their approved revenue and capital budgets during the financial year. This is reported to Cabinet on a quarterly basis with this, an additional report at month 8 which is used to inform the budget setting process for the following financial year.
- 1.2 As part of the budget monitoring process, the forecast year-end position for revenue and capital has been prepared by all services. The forecast is based on a comparison of profiled budgets to the actual position as at 30 November 2018 together with commitments and known issues. As the year progresses the outturn projections reflect the evolving position of management actions put in place to mitigate in-year pressures, new developments and changes in the profile of planned expenditure.

2. Current position

- 2.1 The forecast revenue outturn for 2018/19 is a favourable variance of £0.145m. Further details of the current revenue budget position and a full description of this forecast can be found in Annex 1.
- 2.2 The original approved capital programme for 2018/19 totalled £89.658m. The revised capital programme as at Month 8, taking account of approved carry forwards, approved new schemes and variations and proposed variations/ re-phasing gives projected revised expenditure of £48.952m. Actual expenditure at Month 8 was £24.637m (50.33% of forecast outturn). Further details of expenditure and schemes within the capital programme can be found in Annex 2.

3 Options/Alternatives

- 3.1 The options that the Select Committee might consider in relation to the contents of this report are;
- a) to consider the forecast revenue and capital positions presented in the report including proposed changes
 - b) to consider some of the forecasts and changes included in the report
 - c) not to consider any of the forecasts and changes included in the report

4 Preferred Option

- 4.1 The preferred option is that the Select Committee approves all forecasts and changes within this report; option (a) at 3.1.

5 Consultation

5.1 Consultation with the services within the Council and the Director of Finance.

6 Financial Implications

6.1 The full financial implications are detailed in the report.

7 Legal Services Comments

7.1 There are no legal issues at this time.

8 Co-operative Agenda

8.1 Improving the quality and timeliness of the financial information available to citizens of Oldham supports the co-operative ethos of the Council.

8.2 The revenue budget and capital strategy/ programme have been prepared so that they embrace the Council's co-operative agenda with resources being directed towards projects that enhance the aims, objectives and co-operative ethos of the Council. Ongoing budget monitoring is key to ensuring this objective is met.

9 Human Resources Comments

9.1 There are no Human Resource implications.

10 Risk Assessments

10.1 The risk is that the proposed management actions are not achieved in full. Should this be the case then alternatives will be sought.

11 IT Implications

11.1 There are no IT implications.

12 Property Implications

12.1 There are no Property implications.

13 Procurement Implications

13.1 There are no Procurement implications.

14 Environmental and Health & Safety Implications

14.1 There are no Environmental and Health and Safety implications.

15 Equality, Community Cohesion and Crime Implications

15.1 There are no Equality, Community Cohesion and Crime implications.

16 Equality Impact Assessment Completed

16.1 Not Applicable.

17 Key Decision

17.1 Yes

18 Key Decision Reference

18.1 FCR - 08 - 18

19 Background Papers

19.1 The following is a list of background papers on which this report is based in accordance with the requirements of Section 100(1) of the Local Government Act 1972. It does not include documents which would disclose exempt or confidential information as defined by the Act:

File Ref: Revenue Background Papers are contained in Annex 1 including Appendices 1 and 2

Officer Name: Andy Cooper

Contact No: 0161 770 4925

File Ref: Capital Background Papers are contained in Annex 2 including Appendices A - G

Officer Name: Lee Walsh

Contact No: 0161 770 6608

20 Appendices

Annex 1 Revenue Budget Monitoring Report 2018/19 Month 8 – November 2018

Appendix 1 Month 8- Planned Transfers from Ear Marked Reserves (Quarter 2 to Month 8)

Appendix 2 Financing of the 2018/19 Revenue Budget at Month 8

Annex 2 Capital Investment Programme Report 2018/19 Month 8 – November 2018

Appendix

A Summary – Corporate and Commercial Services – Month 8

B Summary – People and Place – Month 8

C Summary – Health & Adult Social Care Community Services – Month 8

D Summary – Reform – Month 8

E Summary – Housing Revenue Account – Month 8

F Summary – Funds Yet To Be Allocated – Month 8

G Summary – Proposed Variations – Month 8

REVENUE BUDGET MONITORING REPORT 2018/19

Month 8 - November 2018

1 Background

1.1 The Authority's 2018/19 revenue budget was approved by Council on 28 February 2018 at a sum of £216.921m after £6.686m of budget reductions and a £7.264m use of reserves. Under established budget procedures all services are required to monitor and review their approved budgets during the financial year.

1.2 As part of the budget monitoring process, a forecast of the year-end position has been prepared by all services. The forecast is based on a comparison of profiled budgets to the actual position as at the end of Month 8 together with known commitments, issues and planned management actions.

2 Current Position

2.1 The current budget of £221.453m represents a £4.532m increase in funding from the originally agreed budget and a £1.751m increase in funding since that reported at Quarter 2. The movement is due to additional Government grants which have been received, some of which are ring-fenced, the most significant of which is £1.122m of Winter Resilience Funding for Adult Social Care, which was announced by the Chancellor in his Autumn Budget (this funding allocation will also be received in 2019/20).

Table 1 – Changes to Funding Quarter 2 to Month 8

Grant Funding	£000
Winter Resilience Funding	1,122
School Improvement Monitoring & Brokerage Grant	156
Capital Grants	453
Self-employed Review Funding	20
Total	1,751

2.2 The budget and forecast outturn is shown at Table 2, which is presented in a format that reflects the new reporting and governance arrangements and as such is not directly comparable to previous years.

Table 2 - Summary Forecast Revenue Outturn

Portfolio	Budget	Forecast	In Year Use of Ear Marked Reserves	Variance Month 8	Variance Quarter 2
	£000	£000	£000	£000	£000
Chief Executive	2,322	2,372	(65)	(15)	(27)
Corporate and Commercial Services	5,573	7,071	(1,999)	(501)	(248)
People and Place	138,739	146,431	(2,449)	5,243	5,098
Health and Adult Social Care Community Services	59,802	66,733	(6,930)	1	1
Reform	30,615	31,169	(470)	84	87
Capital, Treasury and Corporate Accounting	(15,598)	(20,555)	-	(4,957)	(5,010)
NET EXPENDITURE	221,453	233,221	(11,913)	(145)	(99)
FINANCED BY:	(221,453)	(220,525)	(928)	-	-
NET FORECAST VARIANCE	-	12,696	(12,841)	(145)	(99)

- 2.3 After the in-year use to date of ear marked reserves totalling £12.841m there is an under spend of £0.145m, a favourable movement of £0.046m since Quarter 2. A detailed list of the approved and planned use of reserves between Quarter 2 and Month 8 can be found at Appendix 1. The funding of the total net revenue expenditure is shown at Appendix 2. Whilst corporately, there is a small projected underspend at the end of the financial year there are significant variances contained within the forecast net position.
- 2.4 The People and Place Portfolio has a reported pressure of £5.243m, largely attributable to Children's Social Care (£4.216m), in the main due to the continued rise in the numbers of looked after children and out of borough placements; this being a continuation of the pressures consistently reported in prior years and despite significant investment for 2018/19.
- 2.5 Also within People and Place there is an estimated overspend of £0.943m within Economic Development, mainly due to pressures within the Catering and Cleaning Service and a further £0.244m within Education and Early Years, linked to the provision of Home to School Transport. Once again this is a continuation of the position reported in 2017/18.
- 2.6 The Reform Portfolio has a reported an adverse variance of £0.084m due to pressures within Leisure and Youth and to a lesser extent Marketing and Communications which is being partially offset by underspends within other areas of the Portfolio.
- 2.7 Overspending is being offset by favourable variances in Corporate and Commercial Services (£0.501m), Chief Executive (£0.015m) and most significantly Capital Treasury and Corporate Accounting (£4.957m). Lower than anticipated costs for borrowing and capital financing, increased treasury management income and a number of un-ring-fenced grants which have not been allocated to services underpin this underspend. A more detailed analysis of financial performance and the major variances can be found by Portfolio in the following sections.

2.8 The 2018/19 budget options total £6.686m plus there is a further £0.176m brought forward from 2017/18. The majority are forecast to be fully achieved, or mitigated elsewhere and are currently rated green or amber within the Budget Reduction Monitoring process.

2.9 Portfolio Summaries

Chief Executive

2.9.1 The table below shows the forecast position after the approved and planned use of ear marked reserves.

Table 3 - Chief Executive - Forecast Outturn

	Revised Budget	Forecast	Use of Ear Marked Reserves	Variance
	£000	£000	£000	£000
Chief Executive	2,322	2,372	(65)	(15)
Total Forecast Net Expenditure	2,322	2,372	(65)	(15)

Summary

2.9.2 The forecast outturn at Month 8 now excluding Marketing and Communications, which has moved to the Reform Portfolio, is showing an under spend of £0.015m, an adverse movement of £0.012m compared to the £0.027m reported at Quarter 2.

Delivery of the 2018/19 Budget Reductions

2.9.3 The 2018/19 budget reductions for the Chief Executives portfolio of £0.290m are forecast to be fully achieved.

Corporate and Commercial Services

2.9.4 The table below shows the forecast position after the approved and planned use of ear marked reserves.

Table 4 – Corporate and Commercial Services - Forecast Outturn

	Revised Budget	Forecast	Use of Ear Marked Reserves	Variance
	£000	£000	£000	£000
People Services	79	310	(173)	58
Finance	4,640	4,940	(542)	(242)
Legal Services	364	306	(55)	(113)
Commercial and Transformation Services	490	1,515	(1,229)	(204)
Total Forecast Net Expenditure	5,573	7,071	(1,999)	(501)

Summary

- 2.9.5 The forecast outturn at Month 8 is showing an under spend of £0.501m, an increase in the favourable variance of £0.253m compared to the under spend of £0.248m as reported at Quarter 2.

People Services

- 2.9.6 The Directorate has a projected over spend of £0.058m, an increase of £0.056m from the position reported at Quarter 2 (a £0.002m overspend). A potential pressure of £0.085m within Business Intelligence, linked to the delivery of Budget Options is offset by a range of underspends, most notably £0.021m in People Services.

Finance

- 2.9.7 The Directorate has a projected under spend of £0.242m, an increase of £0.143m from the £0.099m underspend reported at Quarter 2. This relates to continued vacant posts within the Audit and Finance services plus unringfenced grant income received in relation to the Revenues and Benefits services.

Legal Services

- 2.9.8 The Directorate has a projected under spend of £0.113m; no movement on the position reported at Quarter 2. This is due to underspends on vacant posts in the areas of Civic and Political Support and Constitutional Services.

Commercial and Transformational Services

- 2.9.9 The Directorate is showing an under spend of £0.204m at Month 8, a favourable movement of £0.166m compared to the previously reported position. A range of cost pressures are being partially offset by a larger favourable variance as a result of vacant posts within the ICT Client Team.

Delivery of the 2018/19 Budget Reductions

- 2.9.10 The Budget Reductions for the Corporate and Commercial Services Portfolio in 2018/19 are £5.270m of which £5.185m are forecast to be achieved. However, as referred to above at 2.9.6, two options in relation to Business Intelligence are causing a concern which is only partially mitigated by underspends elsewhere within People Services. Work is ongoing to confirm the delivery of the budget reduction proposals 'Review of Joint Ventures' (£1.400m), with the expectation that this will be fully delivered by the end of the financial year.

People and Place

2.9.11 The following table shows the forecast position after the approved and planned use of ear marked reserves for the People and Place Directorate.

Table 5 – People and Place - Forecast Outturn

	Revised Budget	Forecast	Use of Ear Marked Reserves	Variance
	£000	£000	£000	£000
Children's Social Care	34,259	39,187	(712)	4,216
Community Services	4,953	4,824	(15)	(144)
Economic Development	10,253	11,550	(355)	943
Education and Early Years	20,936	21,430	(250)	244
Enterprise and Skills	2,940	3,726	(726)	60
Environmental Services	65,397	65,714	(393)	(76)
Total Forecast Net Expenditure	138,739	146,431	(2,449)	5,243

Summary

2.9.12 The forecast outturn at Month 8 is an adverse variance of £5.243m compared £5.098m at Quarter 2, an increase of £0.145m. The main areas of focus are explained in the following paragraphs.

Children's Social Care

The Directorate has a projected overspend of £4.216m after the application of £0.712m of ear-marked reserves, in addition to which there is a further utilisation of revenue grant reserves of £0.545m; a total of £1.257m from both sources is therefore applied to Children's Social Care. This includes £0.924m of reserve funded expenditure in relation to the Short Term Investment programme that was approved earlier in the year with the aim of effectively reviewing and managing care plans. The variance has increased by £0.125m from the position reported at Quarter 2 due to the recruitment of two additional agency workers, considered essential to ensure the service operates effectively, as further outlined in section 2.9.13.

The principal factors are detailed below;

- Children in Care is reporting an adverse variance of £3.334m which is largely due to the continuing high level of numbers of Looked After Children and Out of Borough Placements particularly in the early part of the year. There are also reported overspends relating to the increase in the number of children with disabilities requesting personal budgets and the number of care leavers living in supported accommodation.
- Fieldwork & Family Support is reporting an adverse variance of £0.747m in part due to assistance given to No Recourse to Public Funds families and financial assistance payments to families. There is also an adverse variance on legal costs. The number of agency social workers is a cause

for concern, if there is no reduction in the number of agency workers, the forecast over spend could increase further, however their use is linked to the work to strengthen the social work teams.

- Children's Safeguarding is reporting an adverse variance of £0.135m. The over spend is primarily arising as a result of travel and subsistence payments to staff.

2.9.13 The 2019/20 budget report, elsewhere on the agenda, shows how the Council is addressing these spending pressures with further investment in Children's Social Care.

Economic Development

2.9.14 The Directorate has a projected over spend of £0.943m, a reduction of £0.199m on the £1.142m reported at Quarter 2; the principal factors are detailed below.

- There is a reported pressure of £0.115m for the Property Workplan based on historic levels of activity, however, this will be kept under review as the new relationship with the strategic partner develops. Additional cost pressures in the Investment Estate account for the remainder of the adverse variance.
- An overall balanced position is being projected for Regeneration. However, there are pressures in relation to an underachievement of staff capitalisation costs, and recoupment of professional fees (£0.293m). Costs can only be capitalised if officers are carrying project management duties on a capital scheme past investment decision. There are currently no regeneration schemes expected to progress through to this stage over the financial year. This is offset by vacancies and additional income from strategic acquisitions within the town centre and rent rebates which are one off for this financial year.
- The Catering and Cleaning services continue to forecast an adverse variance of £0.732m. The overspend is due to staffing, mainly as a result of the implementation of the Oldham Living Wage which has increased by more than the corresponding increases in charges. The Catering service is looking to make efficiencies by improving processes with potentially the implementation of IT equipment to order and record the number of meals. There are also a range of management actions under consideration to control the over spending. As these measures are approved and implemented, they will be incorporated into the forecasts.
- Planning is forecasting an adverse variance of £0.096m due to additional agency fees to cover vacancies within the Service, it is anticipated that the temporary employees will be replaced by permanent staff during month 9. It should be noted that Building Control is now reported under Environmental Services.

Education and Early Years

- 2.9.15 The Directorate has a projected over spend of £0.244m compared to £0.175m at Quarter 2 due to continuing demand pressures within the Home to School transportation service. The current routes will be re-procured during the 2018/19 academic year and the position will be kept under review in order to minimise any adverse variance. Additionally there will be a review of the Home to School transport policy and Home to School transport will form part of a wider external review of Special Educational Needs spending.

Environmental Services

- 2.9.16 The Directorate has a projected underspend of £0.76m, a reduction of £0.237m from the £0.313m underspend reported at Quarter 2; predominantly due to the adverse variance on Building Control (£0.204m) now being shown in this service area (having transferred from Economic Development). Underspends are forecast on waste disposal due to the favourable diversion of residual waste to landfill (£0.128m) and also within the Environmental Management service (£0.019m). Public Protection has seen an increase in recharges for the recovery of pollution control, however an additional £0.060m cost relating to Response Services digital radio contract has reduced the forecast underspend to £0.060m. There is a £0.060m underspend within the Street Lighting contract, with higher than anticipated running costs being recovered from Rochdale Council.

Delivery of the 2018/19 Budget Reductions

- 2.9.17 The 2018/19 budget reductions for the People and Place portfolio of £0.296m are forecast to be fully achieved

Health and Adult Social Care Community Services

- 2.9.18 The newly formed portfolio provides social care support to adults and carers across Oldham with a key aim of integrating and aligning the work with health partners to achieve greater efficiency in service delivery and better outcomes for the resident or patient. This covers both the commissioning and the provision of services.
- 2.9.19 The table below shows the forecast Directorate position with a planned use of ear marked reserves totalling £6.930m.

Table 6 – Health and Adult Social Care Community Services- Forecast Outturn

	Revised Budget	Forecast	Use of Ear Marked Reserves	Variance
	£000	£000	£000	£000
Adult Social Care Support	90	90	-	-
Client Support Services	2,072	2,040	-	(32)
Commissioning	21,240	21,217	-	(23)
Director Adult Social Care	(7,778)	(848)	(6,930)	-
Learning Disability and Mental Health	18,303	18,304	-	1
Older People and Safeguarding Services	25,875	25,930	-	55
Total Forecast Net Expenditure	59,802	66,733	(6,930)	1

Summary

2.9.20 The forecast outturn at Month 8, a very minor overspend of £0.001m across the portfolio remains unchanged from Quarter 2.

Client Support Services

2.9.21 The service is projecting to underspend by £0.032m compared to £0.044m at Quarter 2 as a result of additional income generated from Court of Protection charges

Commissioning

2.9.22 The service is reporting a favourable variance of £0.023m at Month 8 compared to a pressure of £0.034m at Quarter 2; the underspend generated by a number of vacant posts is being partially offset by a shortfall in income largely down to buyback of the Helpline service operated by MioCare.

Director of Adult Social Care

2.9.23 The Service is showing a balanced outturn incorporating a planned transfer of resources funded by earmarked reserves of £6.930m, an increase of £6.176m from the anticipated £0.754m use reported at Quarter 2. Of the increase, £5.900m relates to the agreed increased contribution to the Section 75 Pooled Fund in 2018/19. Members will recall this contribution will enable our partners to access funds in 2019/20 which will benefit the system approach to Health and Social Care and as a result the Authority's contribution to the Pooled Fund is expected to reduce in 2019/20.

Learning Disability and Mental Health

2.9.24 The services are forecasting a combined overspend for the year of £0.001m compared to the £0.006m which was reported at Quarter 2. The variances in relation to the various elements of Community Care remain as reported at Quarter 2 (a combined overspend of £0.639m) as does the predicted underspends on staff costs (£0.222m) and sensory equipment (£0.030m). The only minor changes are an upturn in the number of clients eligible for Continuing Health Care contributions, resulting in additional income from the CCG of £0.190m (£0.186m at Quarter 2) and likewise

non-residential income recovery from clients within Learning Disabilities is now set to overachieve by £0.196m compared to £0.195m at Quarter 2.

Older People and Safeguarding

- 2.9.25 The Service is projecting to overspend by £0.055m an increase of £0.051m on the overspend of £0.004m reported at Quarter 2. Physical Support care management is now expected to overspend by £1.006m an increase of £0.367m compared to the £0.639m reported at Quarter 2, due to continued increases in both demand and the complexity of care packages for people receiving care at home. Sensory Support Care Management is projected to underspend by £0.317m (£0.304m at Quarter 2) due to a reduction in people in residential care and supported living. Income is expected to exceed the target by £0.261m as a result of increases in client and provider contributions. Several senior posts and a number of social worker posts have remained vacant for the first half of the year, consequently there is a projected underspend on salaries of £0.373m (£0.452m at Quarter 2).
- 2.9.26 There have been no further announcements or developments in relation to the application of the National Minimum Wage to sleep-in payments; an element of uncertainty and risk remains. No provision has currently been made within the forecast and a watching brief is being maintained.

Delivery of the 2018/19 Budget Reductions

- 2.9.27 The Budget Reductions for the Health and Adult Social Care Community Services Portfolio in 2018/19 are £0.150m plus £0.176m approved in 2017/18 carried forward into the current financial year; all of which are forecast to be fully achieved.

Progress against Locality Plans

- 2.9.28 A key element of the Health and Social Care devolution agenda is the submission of a Locality Plan setting out the joint Council and Oldham Clinical Commissioning Group (CCG) vision for the greatest and fastest possible improvement in the health and wellbeing of our residents by 2021. This improvement will be achieved by supporting people to be more in control of their lives by having a health and social care system that is geared towards wellbeing and the prevention of ill health; access to health services at home and in the community; and social care that works with health and voluntary services to support people to look after themselves and each other.
- 2.9.29 The financial performance against the latest version of the 2018/19 Locality Plan is highlighted below in the table below;

Table 7 – Locality Plan

	Revised Budget	Forecast	Variance
	£000	£000	£000
Health and Adult Social Care Community Services	59,323	59,324	1
Public Health	11,410	11,410	0
Children's Social Care	34,259	38,475	4,216
Total	104,992	109,209	4,217

2.9.30 The range of services included within the Locality Plan does not completely align with the Council's Directorate reporting arrangements. The reported variances do therefore on occasion differ slightly from the position reported by the Council. That said, the reasons for the variances are consistent with those reported within Children's Social Care (section 2.9.12), Health and Adult Social Care Community Services (sections 2.9.18 to 2.9.27) and Public Health (section 2.9.39).

Oldham Cares; Section 75 Reporting for Oldham Council

2.9.31 Section 75 agreements exist between Local Authorities and the NHS nationally for the pooling of budgets to facilitate closer working. Historically Oldham has entered into such an agreement with the CCG. The scope of services contained within the Section 75 agreement has increased considerably for 2018/19. The Council's contribution and relevant forecast outturn are illustrated in the table below.

Table 8- Section 75 Reporting for Oldham Council

	Revised Budget Expenditure £000	Forecast Expenditure £000	Variance £000
Carers Services	342	342	0
Extra Care Housing	263	263	0
Hospital and Urgent Care Social Work Team	676	676	0
Housing Related Commissioning	478	478	0
Learning Disability Support	12,285	12,654	369
Mental Health and LD Contracts	4,021	4,021	0
Mental Health Support	6,359	6,628	269
Mio-Care Contract	11,137	11,137	0
Older people contracts	718	718	0
Physical Support	29,406	30,413	1,007
Sensory Support	1,346	1,029	(317)
Strategic Commissioning Staffing	235	235	0
Support with memory & cognition	2,886	2,913	27
Community Cluster Teams	2,018	2,018	0
Community Equipment	1,400	1,400	0
Disabled Facilities Grant - Capital	1,914	1,914	0
Sub Total	75,484	76,839	1,355
OMBC Support for CCG Commissioned Services		5,900	5,900
Grand Total	75,484	82,739	7,255

2.9.32 The initial Section 75 agreement for 2018/19 encompassed pooled budgets totalling £74.899m. This has increased with the application of additional resources and virements between budgets in and outside of the pool to £75.484m. Against the revised budget there is a forecast adverse variance of £1.355m compared to £0.973m at the end of Quarter 2. The increase in the pressure is in line with the elements of overspend relating to community care linked to Learning Disability and Mental Health and also Older People and Safeguarding reported at sections 2.9.24 and 2.9.25 within Health and Adult Social Care Community Services. The over

spend is offset by favourable variances (income generation and salaries underspends) elsewhere within the services to deliver a virtually balanced outturn for the portfolio as a whole.

- 2.9.33 The Councils contribution to the pooled fund for 2018/19 is forecast to increase by £5.900m, as outlined in section 2.9.23. The contribution will provide support for CCG commissioned services within the Section 75 agreement in the current financial year, correspondingly the Authority's contribution to the Pooled Fund is expected to reduce in 2019/20.

Reform

- 2.9.34 The following table shows the forecast position for the Reform portfolio after the approved and planned use of ear marked reserves.

Table 9 – Reform – Forecast Outturn

	Revised Budget	Forecast	Use of Ear Marked Reserves	Variance
	£000	£000	£000	£000
Executive Support	15	(21)	-	(36)
Heritage, Libraries and Arts	7,203	7,264	(80)	(19)
Leisure and Youth Services Client	5,494	5,676	(62)	119
Policy	50	82	(32)	(1)
Public Health (Client and Delivery)	17,850	18,046	(196)	(0)
Marketing and Communications	2	122	(100)	21
Total Forecast Net Expenditure	30,615	31,169	(470)	84

- 2.9.35 The forecast outturn at Month 8 is an over spend of £0.084m a slight reduction on the £0.087m reported at Quarter 2. The paragraphs below outline the main movements within the portfolio.
- 2.9.36 Executive Support is showing an under spend of £0.036m relating to staffing vacancies.
- 2.9.37 Heritage, Libraries and Arts is predicting an under spend of £0.019m a reduction of £0.044m on the £0.063m reported at Quarter 2. The majority of services are predicting a balanced outturn, the general trend being salary underspends supporting overspends in other areas, this includes Libraries where £0.080m is projected as being drawn down from ear marked reserves to fund refurbishment work. The music service is forecasting an adverse variance of £0.087m mainly due to a shortfall against the income target. The PFI contract is currently forecast to underspend by £0.106m following the transfer of ICT delivery services to the Unity partnership.
- 2.9.38 Leisure and Youth is forecasting a pressure of £0.119m, reduction of £0.050m on the £0.169m at Quarter 2. There is a forecast overspend of £0.049m within Leisure, the majority of which relates to the balance of the various payments the Council is contractually obliged to make to Oldham Community Leisure, after the application of £0.047m of reserves. Outdoor Education is forecasting a pressure of £0.048m, a combination of a shortfall in predicted income, additional coach hire and overspends

on salaries. There is a predicted adverse variance of £0.037m within Sports Development, the main factor being a shortfall against targeted income. A range of net positive minor variances account for remaining £0.015m.

2.9.39 Public Health is showing a balanced outturn, this is after a £0.196m (provisional) drawdown from the Public Health reserve. There are potential future financial liabilities arising firstly from the Council vacating NHS premises and relocating Health Visitors and School Nurses in health centres across Oldham for the 0-5 Right Start Model and secondly as a result of occupation and the payment of premises costs for the delivery of sexual health service at the Integrated Care Centre. Discussions are on-going as both these issues impact on the local health economy across the Council and the CCG. Additional costs have not been included within the current forecasts for either of these factors, but it is anticipated that they will be addressed by the use of reserves. The on-going costs have been factored into the 2019/20 budget.

2.9.40 Marketing and Communications which was previously reported within the Chief Executive portfolio is showing a minor overspend of £0.021m, this is after the use of reserves totalling £0.100m.

Delivery of the 2018/19 Budget Reductions

2.9.41 The Budget Reductions for the Reform Portfolio in 2018/19 are £0.680m and forecast to be fully achieved.

Capital, Treasury and Corporate Accounting

2.9.42 The forecast outturn at Month 8 is an under spend of £4.957m. This budget includes the income and expenditure from the Council's investments and borrowing as well as capital financing costs.

Table 10 – Capital, Treasury and Corporate Accounting – Forecast Outturn

	Revised Budget	Forecast	Use of Ear Marked Reserves	Variance
	£000	£000	£000	£000
Capital, Treasury and Corporate Accounting	(15,598)	(20,555)	-	(4,957)
Total Forecast Net Expenditure	(15,598)	(20,555)	-	(4,957)

2.9.43 The underspend reported is largely due to the anticipated costs for borrowing and capital financing being lower than the prudent amount that was originally budgeted for, increased income from treasury management activities and a number of un-ring-fenced grants which have been held centrally and so underpin the budget.

2.9.44 Sign up for the voluntary annual leave purchase scheme is currently not sufficient to achieve the target included within the 2018/19 budget which is held within this portfolio. At Month 8, the forecast adverse variance with regard to this scheme is £0.502m. This will continue to be monitored throughout the financial year with any future year impacts analysed and reported accordingly.

Schools

- 2.9.45 The Council's expenditure on schools is funded primarily by grant monies provided by the Department for Education, the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools' Budget, as defined in the School Finance (England) Regulations 2017. The Schools' Budget includes elements for a range of educational services provided on an authority wide basis and for the Individual Schools Budget which is divided into a budget share for each maintained school.
- 2.9.46 Members will recall the DSG is made up of 4 blocks
- Schools
 - High Needs
 - Early Years
 - Central Schools Services
- 2.9.47 Despite the support from the Schools block in 2018/19, the High Needs Block in Oldham still expected to have an in-year deficit. It was initially estimated that this would be £1.554m, an increase of £0.099m from the position reported at Quarter 2; due to an increase of £0.131m for pupils attending Kingsland School and revisions in funding for Special Schools. It was therefore anticipated that there would be cumulative High Needs Block deficit of £9.529m at 31 March 2019. This is then offset by cumulative virements and savings from the Schools and Early Years blocks to leave an initial net deficit of £3.609m. After adjusting for newly announced resources (see paragraph 2.9.48), this then falls to £2.987m (as illustrated in Table 11 below). The High Needs Block therefore represents a significant element (73%) of the overall deficit on the DSG.

Table 11 – DSG- High Needs Block

	£000
Original Budget Allocation	30,925
Budget Changes	(118)
Contribution from Schools Block (Schools Forum/ Secretary of State approval)	1,878
2018/19 Total Budget Available	32,685
Estimated Expenditure	(34,239)
Projected in Year Deficit	(1,554)
Deficit Brought Forward 01/04/2018	(7,975)
Cumulative Deficit	(9,529)
Offset by;	
Virement from Schools Block- 2016/17 & 2017/18	2,768
Savings in Schools and Early Years Block- 2015/16, 16/17 & 17/18	3,152
Initial Projected Deficit 31/03/2019	(3,609)
New Resources- announced December 2018	622
Projected Deficit 31/03/2019	(2,987)

Overall DSG Position

2.9.48 The cumulative deficit on the DSG is presented in table 12 below. At the start of 2018/19 it was £3.031m of which £2.055m was attributable to the High Needs block. The initial year-end forecast position for the DSG for 2018/19, prior to the receipt of the new funding was a cumulative deficit of £4.710m, the increase being mostly attributable to further pressures in High Needs as outlined above. The projected deficit includes an increase in the growth fund of £0.751m. It is important to note that if this extra funding is not needed during 2018/19 it will be used to offset the deficit. However on 17 December the Secretary of State for Education announced additional funding of £250m over 2 years for the High Needs Block to address the national pressure on High Needs spending and in response to representations made by the Local Government and Schools sectors. This included an allocation for Oldham of £0.622m in each of 2018/19 and 2019/20. The 2018/19 funds will be used to partially offset the projected deficit to give a revised projected deficit of £4.088m

Table 12- Overall DSG Position

Reason for the Deficit	£000
Deficit High Needs Block 2015-16 to 2017-18	(2,055)
Deficit Early Years Block 2015-16 to 2017-18	(976)
Cumulative Deficit 2017/18 as above	(3,031)
Other Changes including pressures in High Needs Funding	(1,679)
Initial Projected Cumulative Deficit 2018/19	(4,710)
New Resources- announced December 2018	622
Projected Cumulative Deficit 2018/19	(4,088)

2.9.49 There is a requirement that the DSG is brought back into balance as soon as possible and Authority officers are currently working on a DSG financial recovery plan which has been outlined to the Schools Forum. A further update will be provided at the next Schools Forum meeting in January 2019.

Housing Revenue Account (HRA)

2.9.50 Table 13 compares the initially approved position to the current estimated outturn. The actual closing balance for 2017/18 at £20.162m was £0.575m better than the estimate of £19.587m. The original HRA forecast was for an in-year decrease in balances of £0.727m, the revised forecast is for an increase of £1.204m, a favourable movement of £1.931m. The overall, significant favourable variance (£2.506m) is attributable to slippage on a major capital project to which the HRA is contributing along with the £0.575m variance from last year. The schemes are now scheduled to finish in 2019/20 rather than 2018/19.

Table 13- Housing Revenue Account Forecast Position

Housing Revenue Account	Original Budget £000	Revised Budget £000	Variance £000
Balance Brought Forward	(19,587)	(20,162)	(575)
In Year Deficit/ Surplus	727	(1,204)	(1,931)
Balance Carried Forward	(18,860)	(21,366)	(2,506)

Collection Fund

2.9.51 The tables below shows the forecast outturn position for the Collection Fund and the share of balances of the forecast position.

Table 14 Collection Fund Forecast Position

Collection Fund Balance	Council Tax	NDR	Total
	£000	£000	£000
Balance Brought Forward	(1,976)	1,342	(634)
Receipt from CG – Deficit 2016/17	-	(1,323)	(1,323)
(Surplus)/ Deficit for the Year	(575)	(80)	(655)
Balance Carried Forward	(2,551)	(61)	(2,612)

Table 15 Collection Fund – Share of Forecast Position

Collection Fund Share	Council Tax	NDR	Total
	£000	£000	£000
Share- Oldham Council	(2,209)	(60)	(2,269)
Share- Greater Manchester Combined Authority (Police and Crime Commissioner)	(246)	-	(246)
Share- Greater Manchester Combined Authority (Fire and Rescue Services)	(96)	(1)	(97)
Total (Surplus) / Deficit	(2,551)	(61)	(2,612)

2.9.52 The increasing prominence of Council Tax and Business Rates in helping fund Council services means that the Collection Fund financial position is subject to constant review. A forecast in-year surplus of £0.655m means that the projected year-end Collection Fund position (incorporating both Council Tax and Business Rates) is a projected surplus of £2.612m of which the share for the Council is a favourable £2.269m.

2.9.53 The forecast year-end position is different than that estimated at Quarter 2, at which point a surplus position of £2.032m was forecast. The reason for this favourable movement in the forecast is an increase in the Council Tax/Business Rates gross debit, a reduction in reliefs and a decrease in the provision for bad and doubtful debt as a result of improved collection.

2.9.54 The Greater Manchester Combined Authority Area continues to pilot 100% Business Rates Retention. The pilot was first implemented on 1 April 2017. The purpose of the pilot is to develop and trial approaches to manage risk and reward in a Local Government finance system that includes the full devolution of Business Rates revenues. Whilst the pilot is in place, a no detriment policy is in operation under which the Government guarantees that the level of business rates income/ grant that a Council receives can be no less than it would have been if it was not in the pilot area.

3 Use of Earmarked Reserves

- 3.1 The total planned use of ear marked reserves at Month 8 is £12.841m. Members are reminded that this is in addition to the utilisation of £7.264m of reserves that were applied in setting the initial 2018/19 budget, £20.105m in total. Appendix 1 shows the transfers from ear marked reserves between Quarter 2 and Month 8.
- 3.2 In line with the Council's reserves policy, the recommended use of reserves to fund spend during the year have been initially approved by the appropriate officers prior to consideration by Cabinet. The reserve is then drawn down against the initial approval as expenditure is incurred. It is currently forecast that the total use of reserve usage in year may increase to £21.989m but be offset at the year-end leaving a net movement of £17.291m. It is however anticipated that the net use of reserves will continue to change up to the year end.

4 Conclusion

- 4.1 Whilst the current projected position, after adjustment for reserves, is an overall corporate under spend, the forecast over spending, within People and Place remains a cause for concern. Action is being taken to manage expenditure in all areas, particularly those that are not subject to demand changes, in order to offset expenditure over which the Council has little control.
- 4.2 In relation to demand led pressures; work, in the form of mitigations and alternative delivery solutions is on-going, as reported to Members this is particularly focussed within Children's Social Care. There will, however be an inevitable lead in time for these benefits to be realised. The implications arising from the 2018/19 in year position have been factored into financial planning estimates for 2019/20 and future years as appropriate.

Appendix 1- Month 8- Planned Transfers from Earmarked Reserves (Quarter 2 to Month 8)

Reserve Name	Opening Balance 1 October 2018 £000	Use of Contribution from/to Earmarked Reserves Month 8 £000	Expected Closing Balance 31 March 2019 £000	Reason for Use of Reserve
Online Claim form	(75)	75	-	To replace the Council Tax Reduction online claim and change of circumstances form in 2018/19 in support of the Digital by Design workstream.
Unity Transformation Programme	(466)	8	(459)	Expenditure associated with the transformation programme within the Unity Partnership
Transformation Fund	(1,004)	50	(954)	External advice to support transformational activity

CAPITAL INVESTMENT PROGRAMME REPORT 2018/19

Month 8 - November 2018

1 Background

- 1.1 The original capital programme for 2018/19 reflects the priorities outlined in the capital strategy as approved at Cabinet on 19 February 2018 and confirmed at the Council meeting on the 28 February 2018.
- 1.2 The position as at 30 November 2018 is highlighted in this report but as the year progresses the outturn projections will reflect the evolving position.
- 1.3 For the remainder of the financial year, the programme will continue to be monitored and revised to take account of any new developments and changes in the profile of planned expenditure.

2 Current Position

- 2.1 The approved capital programme summary position for the four years 2018 to 2022, approved by Council on 28 February 2018 is summarised in Table 1 and shows capital programme expenditure of £89.658m in 2018/19.

Table 1 : Capital Programme 2018/19 to 2021/22

	2018/19	2019/20	2020/21	2021/22	TOTAL
	£000	£000	£000	£000	£000
Original Budget	89,658	105,681	37,605	11,234	244,178

- 2.2 Table 2 shows the revised capital programme for 2018/19, with expenditure of £48.952m as at 30 November 2018, this is after taking account of approved new schemes and approved and proposed variations; a net decrease of £0.571m compared to £49.523m reported at Quarter 2.
- 2.3 Actual expenditure to 30 November 2018 was £24.637m (50.33% of forecast outturn). This spending profile is in line with previous years. The position will be kept under review and budgets will be managed in accordance with forecasts.

Table 2 – 2018/19 Capital Programme

Directorate	Revised Budget (M06) £000	Budget Changes/ Virements (to M08) £000	Proposed Virement /Rephasing £000	Revised Budget (M08) £000	Forecast £000	Variance £000
Corporate and Commercial Services	14,174	0	0	14,174	14,174	0
People and Place	31,864	479	(1,078)	31,265	31,265	0

Reform	197	19	0	216	216	0
Housing Revenue Account	1,097	0	0	1,097	1,097	0
Funds Yet to be Allocated	311	(5)	0	306	306	0
Grand Total	49,523	504	(1,075)	48,952	48,952	0

(subject to rounding – tolerance +/- £1k)

- 2.4 The budget changes to month 8 of £0.504m represent changes agreed since the approval of the month 6 report at Cabinet on 19 November 2018, including external capital grants from Highways England and the Department of Health and contribution from Academies to support schools capital schemes. The proposed changes of £1.075m reflect anticipated re-phasing of spending, as detailed in Appendix G.
- 2.5 At this time there is no forecast variance projected but there remains an element of uncertainty about the forecast position and it is inevitable that this will change in the remaining months; that said the forecasts are based on the latest and most up to date information and give a better picture of the likely outturn. A further breakdown of Table 2 on a scheme by scheme basis is shown at Appendices A to F and the detailed breakdown of proposed virement/ re-phasing is shown in Appendix G.

Re-profiling of the Capital Programme

- 2.6 The revised capital programme for 2018/19 to 2022/23, based on the original programme, taking into account all the above amendments, as amended in-year is shown in Table 3 together with the projected financing profile. This re-profiling and forecasting influences the starting position for the 2019/20 to 2023/24 capital programme.

Table 3 – 2018/2023 Capital Programme

Directorate Budget	Revised Budget 2018/19 £000	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	TOTAL £000

Grand Total	(48,952)	(73,582)	(83,302)	(52,804)	(1,407)	(260,047)

(subject to rounding – tolerance +/- £1k)

Capital Receipts

- 2.7 The revised capital programme requires the availability of £5.793m of capital receipts in 2018/19 for financing purposes. The total net usable capital receipts currently received in year, inclusive of £8.747m carried forward from 2017/18, is £12.350m.
- 2.8 The capital receipts position as at 30 November 2018 is as follows:

Table 4 – Capital Receipts Supporting the Approved Capital Programme 2018/19

	£000	£000
Capital Receipts Financing Requirement		5,793
Usable Capital Receipt b/fwd	(8,747)	
Actual received to date	(3,603)	(12,350)
Further Required/ (Surplus) in 2018/19		(6,557)

- 2.9 As can be seen, there is currently an anticipated surplus of £6.557m of capital receipts in year. Given the significant amount of receipts needed to finance the capital programme in future years it is imperative that the capital receipts/disposal schedule is adhered to. This is monitored at the monthly Capital Receipts meeting and will be subject to ongoing review throughout the year.
- 2.10 The Capital Strategy and Capital Programme 2018/22 introduced an expectation of the level of receipts that is anticipated in each of the respective years and therefore an estimate as to the resultant level of over or under programming in order to present a balanced budget.

- 2.11 As a result of the Annual Review, of the capital programme which was completed earlier in the financial year, capital receipts have been re-profiled outside the initial 4 year planning timescale and as such there is a requirement to extend the capital receipt forecast to the current year plus 4 future years (to 2022/23). The position as at 30 November 2018 is illustrated in the table below:

Table 5 – Capital Receipts 2018/2023

Capital Receipts	2018/19 £000	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000
Capital Receipts Carried Forward	(8,747)	(10,221)	(3,595)	(4,275)	(545)
Estimated Capital Receipts in year	(3,664)	(4,858)	(3,584)	(1,331)	0
Received in year	(3,603)	0	0	0	0
Total Receipts	(16,014)	(15,079)	(7,179)	(5,606)	(545)
Capital Receipts Financing Requirement	5,793	11,484	2,904	5,061	545
Over/(Under) programming	(10,221)	(3,595)	(4,275)	(545)	0

(subject to rounding – tolerance +/- £1k)

- 2.12 The capital receipts position is monitored on a monthly basis. The most recent projections are for receipts to exceed current planned requirements in later years of the programme. However, until there is more confidence as to the timing of planned asset disposals, a prudent approach has been adopted and these are excluded from current forecast.

3 Conclusion

- 3.1 Whilst the current estimated forecast outturn position is £48.952m, it is likely that further re-profiling into future years will be required before the end of the year to reflect developments on individual schemes and projects.
- 3.2 The capital programme is being continually monitored and is reported to Members on a regular basis.

Report to the Overview and Scrutiny Performance and Value for Money Select Committee

Revenue Budget 2019/20 and Medium Term Financial Strategy 2019/20 to 2023/24

Portfolio Holder: Cllr Abdul Jabbar MBE, Deputy Leader and Cabinet Member for Finance and Corporate Resources

Officer Contact: Anne Ryans, Director of Finance

Report Author: Anne Ryans, Director of Finance
Ext. 4902

24 January 2019

Reason for Decision

To provide the Overview and Scrutiny Performance and Value for Money (PVFM) Select Committee with the forecast budget gap and the Administration's budget proposals for 2019/20 together with forecast budget gap estimates for the period 2020/21 to 2023/24 having regard to the Provisional Local Government Finance Settlement published on 13 December 2018.

Executive Summary

This report sets out proposals for the Council's Revenue Budget for 2019/20 and Medium Term Financial Strategy for 2019/20 to 2021/22. The report advises Members of the key financial challenges and issues which will be faced by the Council over the forecast period and sets out the Administration's revenue budget proposals for 2019/20 together with updated budget gap estimates for the period 2020/21 to 2023/24.

The report presents the national and regional policy landscape within which the Council operates. It summarises:

- The UK's economic outlook published alongside the Chancellor's Autumn Budget Statement;
- Key aspects of the Local Government finance system including developments surrounding the Government's Fair Funding review and Business Rates retention

including the Greater Manchester 100% Rates Retention Pilot Scheme and proposals for pooling Business Rates for 2019/20;

- National and Regional policies affecting Local Government including Public Sector Pay awards and the National Living Wage, Health and Social Care Devolution, Better Care Fund, Winter Pressures and Social Care Support Grants, Opportunity Area Funding, Homelessness, Adult Education Funding and the GM Spatial Framework; and
- Local strategies and policies relevant to the Medium Term Financial Strategy including the Oldham Plan and Corporate Plan, Capital and Treasury Management Strategies as well as a range of other strategies covering, for example income generation, property, procurement and housing.

The report also highlights policy announcements and implications arising from the Chancellor's Autumn Budget Statement delivered on 29 October 2018 and the Provisional Local Government Finance Settlement (PLGFS) published on 13 December 2018.

The PLGFS and associated announcements confirmed one-off grants announced in the Autumn Budget (Winter Pressures Grant of £1.122m and Social Care Support Grant of £1.917m). No specific additional funding was provided to address rising concerns in relation to ongoing funding for statutory Children's Social Care services, although the Council will use the Social Care grant to support the increased spending requirement in this area. The PLGFS also included £0.013m more grant resources than had been anticipated in the initial budget projections and a £0.978m share of a £180m surplus on the National Rates Levy Account which will be paid in 2018/19 but used to support the 2019/20 budget.

This additional funding has made a contribution towards reducing the Council's budget reduction requirement for 2019/20. However, when looking at the resources available for future years, baseline funding levels and associated top up grant payments are assumed to continue to fall in line with reductions over recent years, leading to challenging targets for 2020/21 and future years.

The PLGFS confirmed referendum limits for general Council Tax increases. The Government will permit rises of 3% per annum for 2019/20 and the Police element of the Mayoral precept can be increased by up to £24 for 2019/20 without triggering a referendum. In addition there is no limit on changes to the Mayoral General Precept (which includes Fire and Rescue Services). The estimates included in the report assume a continuation of current Council Tax policy which allows for a 1.99% general Council Tax increase, which is clearly below the maximum available. Mayoral intentions with regard to the Police and General precept are yet to be notified.

The Government also announced no change to the arrangements for the charging of the Adult Social Care Precept allowing up to a 6% increase in Council Tax (ringfenced for use for Adult Social Care) over the three year period 2017/18 to 2019/20. In line with previously approved policy, the Council will charge a precept of 2% in 2019/20.

The Council's total Council Tax increase for 2019/20 is proposed at 3.99% which is below the referendum limit of 5%.

Three consultation papers were published alongside the 2019/20 settlement. The consultations seek views on:

- the 2019/20 Provisional Settlement
- reform of the Business Rates Retention system
- a review of Local Authorities' relative needs and resources.

A response on the PLGFS was submitted prior to the deadline of 10 January 2019. There is a longer timeline for responding to the other two consultations and submissions will be made by the due dates.

The starting point for preparing the 2019/20 revenue budget estimates is the Month 8 2018/19 revenue budget forecast outturn position presented elsewhere on the agenda and summarised in Section 6.

Section 7 of the report details key budget adjustments and expenditure pressures underpinning the forecasts that provide the backdrop for the Council's Medium Term Financial Strategy. Key adjustments include:

- £8.031m for Adult Social Care to cover the passporting of Adult Social Care Precept revenues, Improved Better Care Fund (iBCF) grant and the 2019/20 Winter Pressures Grant;
- £4.611m for demand pressures in Children's Services;
- Pay Inflation of £1.884m following a national review of Local Government pay spines;
- £0.878m Contractual Inflation for non-controllable services and contracts;
- £1.100m to provide a continuation of commissioned Early Help services for 2019/20; and
- £1.534m for issues identified through the Council's rigorous budget monitoring processes, together with new business developments

The report also reflects the latest available forecasts for Government Grant income and locally generated income from Retained Business Rates and Council Tax.

Based on the latest estimates, the budget reduction requirement for 2019/20 has increased from the previously reported figure of £17.986m to £22.696m. This increase is due to a range of changes to the estimates which are set out in detail in Section 11 of the report.

Section 12 of the report details the Administration's budget reduction proposals. There are a total of 35 proposals delivering savings of £7.829m in 2019/20. If approved in full, these proposals further reduce the budget reduction requirement to £14.867m for 2019/20.

Section 13 explains the approach to balancing the 2019/20 budget. In order to remove the requirement for further spending reductions, it is proposed to part finance the 2019/20 budget by using the opportunities provided by the ability to use Capital Receipts to support spending on transformational projects up to a value of £3.000m and from an available Collection Fund Surplus of £2.269m. A number of specific and corporate reserves will be used to address the balance as follows:

- £0.250m of reserves approved as part of the budget setting process in 2016/17;
- £0.978m arising from the payment in 2018/19 relating to the National Business Rates Levy Account;

- £0.500m from gains made from the 2017/18 100% Rates Retention Pilot;
- £1.218m from gains anticipated from the 2018/19 100% Rates Retention Pilot.
- £6.652m from Corporate Reserves.

Approval of the proposals set out in this report in full by Budget Council would deliver a balanced revenue budget for 2019/20. The budget reduction requirement for subsequent years is forecast to be £22.883m for 2020/21, £10.889m for 2021/22, £6.859m for 2022/23 and £4.160m for 2023/24.

It is important to note that as the Government has only provided grant funding notifications for 2019/20, the MTFs estimates for 2020/21 to 2023/24 are based on best information currently available and therefore must be considered indicative at this stage. This leaves significant uncertainty and it hinders effective planning by the Council both financially and operationally as future Government funding intentions are difficult to assess. This position and the actions that the Council plans to take to pursue a MTFs are outlined in Section 19 of the report.

Other key sections in the report summarise the forecast reserves and balances position supporting the Council's financial resilience, set out the Administration's proposals in relation to Fees and Charges and detail the Council's Pay Policy Statement (as required by sections 38 to 43 of the Localism Act 2011)

The final section of the report sets out the proposed budget strategy for future years.

Recommendations

That the Overview and Scrutiny PVFM Select Committee considers and comments upon as appropriate:

- 1 The national and regional policy landscape determining the context in which the Council is setting its revenue budget for 2019/20 and Medium Term Financial Strategy to 2023/24;
- 2 The impact of Oldham Council Policies and Strategies on the Council's budget setting process and the development of its Medium Term Financial Strategy;
- 3 The financial forecasts for 2019/20 to 2023/24 having regard to the Provisional Local Government Finance Settlement and associated funding announcements;
- 4 The key issues to be addressed in continuing to respond to the financial challenges facing the Council;
- 5 The 2019/20 Budget Reduction Proposals at a value of £7.829m;
- 6 The proposed use of £2.946m of reserves for specific purposes and £6.652m of corporate reserves to balance the 2019/20 budget;
- 7 The fees and charges schedule included at Appendix 5;
- 8 The pay policy statement included at Appendix 6;
- 9 A proposed Council Tax increase of 3.99% for Oldham Council services resulting in the charges set out at paragraph 17.3 and Table 22 of the report;
- 10 A proposed increase to the empty property premium from 50% to the maximum 100% allowed from 1 April 2019;
- 11 The proposal to draw on the Collection Fund for major preceptors of £105.824m for Borough Wide services and £92.090m for Council services;
- 12 The proposed budget for 2019/20 for the Council set at £223.939m; and
- 13 Revised estimated budget reduction targets of £22.883m for 2020/21, £10.889m for 2021/22, £6.859m for 2022/23 and £4.160m for 2023/24.

Overview and Scrutiny Performance and Value for Money Select Committee

Revenue Budget 2019/20 and Medium Term Financial Strategy 2019/20 to 2023/24

1 Background

- 1.1 Each year, the Council has to identify what it needs to spend on Council services for the following year as part of the budget setting process. This process also involves the identification of provisional spending plans for future financial years. This ensures the Council's future spending plans are balanced against the expected funding from Government, Council Tax payers and Business Rates payers. These plans form part of the Council's Medium Term Financial Strategy (MTFS). This report advises Members of the current financial position having regard to the national and regional policy landscape and following publication of the Provisional Local Government Finance Settlement (PLGFS) on 13 December 2018, associated funding announcements and the Administration's proposals for balancing the 2019/20 budget, including Council Tax intentions.
- 1.2 The MTFS is designed to build on the work and achievements of previous years and to help meet the challenges of the future. It is one of the key strategic plans of the Council. The strategy sets out the Council's proposed revenue spending plans for 2019/20 and the four years to 2023/24 and the key factors which will influence the financial forecasts.
- 1.3 At the same time as considering the financial challenges facing the Council it is important to consider the Council's commitment to the co-operative way of working. Based on a set of values and the principle of enabling and motivating everyone to "do their bit", this shapes and influences the policy direction of the Council and its response to the financial challenges.
- 1.4 As an organisation, a co-operative approach provides the opportunity to find positive and sustainable solutions to the on-going financial challenges being faced. Oldham has a values driven approach which underpins the way it does business. The Council believes in the importance of fairness and responsibility. In practice, that means maximising the positive social, economic and environmental impact that can be achieved through everything we do as set out in the Council's values. From procurement practices to the pay policy, the Council is using its influence as a commissioner, service provider, facilitator and employer to deliver that added social value.
- 1.5 Additionally, Council services continue to be re-designed and innovative, alternative commissioning models developed. This is to ensure that all our services, whether delivered in-house or with partners, strive for excellence and provide value for public money, getting the maximum impact for Oldham and its people for every pound spent. This change process also responds to the financial challenges being faced and assists the Council in adapting to local demands, national and local political priorities, regional (especially in regard to health and social care integration) and technological developments.
- 1.6 Since becoming a Co-operative Council in 2011 the Council has made fundamental changes in how it works with residents, businesses and partners.

-
- 1.7 This involves recognising shared challenges and agreeing mutual ambitions and all partners working together to identify what each can contribute to obtaining better results. In this way it means that everyone does their bit and everyone benefits.
- 1.8 The Oldham delivery model is based around three fundamental shifts which work together to deliver the ambitions of the Oldham Plan. These are: Inclusive Economy, Thriving Communities and Co-operative Services.
- 1.9 In considering these shifts it is important to have regard to the following information:

Inclusive Economy: The Council wants Oldham to be a place where everyone has a fair and real chance to improve their own lives –

- Oldham is currently home to around 6,240 businesses spanning a range of key sectors including health, advanced manufacturing, construction, retail and financial and professional services.
- Oldham has improving educational attainment. More than 43 per cent of the population have a degree, diploma, A/AS level or apprenticeship.
- The borough offers a wide variety of school types from small rural settings to large urban schools. It has high-quality buildings with many new or recently-built facilities following a £137 million investment, with more to come.
- The arrival of Metrolink has significantly improved transport connectivity within the borough. It has increased the appeal of Oldham to skilled and higher-earning commuters and has linked residents in many areas historically poorly-served by public transport with employment, retail and leisure destinations throughout the conurbation.
- The Get Oldham Working (GOW) scheme has helped create almost 9,200 work-related opportunities - including more than 6,250 jobs, 1,300 apprenticeships, 320 traineeships and more than 1,250 work experience placements.

Thriving Communities: The Council wants local people and communities to be healthy, happy and able to make positive choices as well as offering and accessing support when needed.

- Oldham has a population of more than 230,000. The total population within a 30-minute drive time is 2.7 million.
- Around a quarter of the borough is within the Peak District National Park.
- Oldham's 32 parks include Alexandra Park, a 78-acre green space with Grade II status from English Heritage and – alongside Dunwood Park in Shaw – holds a prestigious Green Flag Award for international-standard facilities and conservation.
- For shopping, Spindles Town Square offers a range of High Street retailers and the Tommyfield Market (which is one of several across the borough) consists of an indoor and part-time outdoor market and adjacent units which have more than 115 businesses.

Co-operative Services: The Council aims to have the best public services in Greater Manchester that work together to improve ways of living for our residents.

- Oldham Council has a strong voice in Greater Manchester for Inclusive Growth and is developing key employment sites for new jobs and investment.
- The Council's aim is to ensure all our young people are school ready, work ready and life ready and that all education performance indicators are at or above the national average by 2020. The Council is delivering these ambitions through the Oldham Education and Skills Commission.

-
- Building an integrated health and care system with partners to support healthy choices and challenge inequalities – backed up by outstanding leisure centres and sporting opportunities for all.
 - Supporting new high-quality and aspirational housing to broaden choice alongside our affordable homes.
 - The Council is committed to protecting the environment through schemes that are empowering communities to improve where they live and encouraging investment in clean power and jobs as the Council delivers new facilities all across our borough.

2 Medium Term Financial Strategy (MTFS)

2.1 The purpose of the MTFS is:

“To identify how the Council wishes to structure and manage available resources over the medium term (four years) and to ensure that resource allocation is aligned with and supports Council priorities and objectives contained within the Corporate Plan.”

2.2 The MTFS is an assessment of the Council’s current financial position and a determination of the financial position the Council wishes to be in over the medium term. This report has been prepared over a five year timeframe 2019/20 to 2023/24 to align with the Capital Programme and the Housing Revenue Account (HRA), given the environment in which the Council operates and its ambitions. This MTFS therefore enables the Council to plan how it can secure the delivery of essential public services, but also makes sure it is in a sustainable position to do so over the medium term and beyond.

2.3 The MTFS considers:

- Relevant international, national and regional influences on Oldham Council.
- Local factors which influence policy within the Council including the Administration’s priorities of regenerating the borough and creating jobs.
- The impact of Government policy and associated announcements.
- Key Council policy initiatives.

2.4 This remains a challenging time for Local Government with uncertainty around the future funding for the sector. The Oldham Efficiency Plan which the Council agreed with Government in 2016 gives a minimum funding guarantee only until the end of 2019/20.

2.5 The Government has yet to give a clear indication of funding beyond 2020/21 although there will be a Comprehensive Spending Review (CSR) issued prior to 2020/21. The CSR will set the overarching level of resources available for Public Services including Local Government and will indicate the policy direction in relation to austerity.

2.6 Although the Government has indicated that the period of austerity is concluding, without direct evidence, the assumption is that funding will decrease further in line with reductions over recent years and Councils such as Oldham that are still reliant on the Government for a significant proportion of their resources will be especially hard hit by the reductions.

2.7 In addition to the determination of the overall level of resources available for the whole Local Government Sector there will be a significant change to the funding of individual Local Authorities influenced by:

- A reform of Business Rates including a planned switch to 75% retention of Business Rates funding and the approach to resetting baselines upon which funding allocations are determined.
- A review of Local Authorities’ relative needs and resources (fair funding review) which is expected to realign the allocation of resources between Local Authorities.

2.8 This report is complemented by others elsewhere on the agenda which form a core part of the Council's strategic financial framework and have a vital role to play in enabling the translation of the Council's ambition and priorities in action. In addition to this report there is:

- The Revenue Monitor and Capital Investment Programme 2018/19 (Month 8).
- The Council Tax Reduction Scheme 2019/20.
- The Capital Strategy and Capital Programme which presents the Council's Capital investment ambitions and priorities for the medium term to 2023/24.
- Strategic Housing Revenue Account (HRA) estimates detailing financial forecasts for the medium term as well as setting the HRA budget, rent levels and service charges for the year ahead.
- The Treasury Management Strategy Statement for the year ahead, including a Minimum Revenue Provision Policy Statement, Annual Investment Strategy as well as a suite of prudential indicators.

2.9 It is important to recognise cross cutting implications, where decisions relating to one element of the strategy have implications elsewhere. For example, capital investment decisions may carry revenue budget implications in terms of operating, maintenance or debt servicing costs. Similarly, capital investment financed by borrowing carries implications for Treasury Management as well as implications for the revenue budget.

2.10 This report revises the MTFS estimates for the period 2019/20 to 2023/24 based on local and national information including the Provisional LGFS published on 13 December 2018. At this time the budget reduction requirement has been revised to £22.696m as explained at Section 11 later in the report.

2.11 This report then sets out the Administration's proposals for the statutory balancing of the 2019/20 budget as per the detail set out from Section 12 onwards together with revised budget gap estimates for the period 2020/21 to 2023/24.

3 National and Regional Issues impacting on the MTFS and budget setting for 2019/20

3.1 Paragraphs 3.5 to 3.78 set out a range of significant national, regional and local issues that influence the overarching MTFS and budget setting for 2019/20. The forecasts in this report are informed by the policy landscape within which Oldham Council operates.

3.2 Since the austerity programme was first implemented in 2010 by the Coalition Government and taken forward from 2015 by the Conservative Government there have been major changes to the role of, and arrangements for Local Authorities. This has therefore had a major influence on the operation of the Council, introducing new duties and responsibilities, at the same time reducing the resources available for the provision of services. Demand for many services, particularly the statutory functions of educational provision and adults and children's social care has also increased. These issues have therefore shaped the operational and organisational arrangements as well as the way in which the Council has allocated its resources.

3.3 Recent key changes and forthcoming developments in the national and regional policy landscape are intertwined; particularly those driven by the devolution agenda. The policy areas which the Council must have regard and respond to are set out in the remainder of this section of the report.

3.4 However, underpinning the financial strategy of both the Government and the Council is the economic outlook which sets the scene for resource allocation and investment in the Public Sector.

Economic Growth

3.5 The latest prospects for the UK economy and public finances were set out in the Chancellor's Autumn Budget of 29 October 2018. Forecasts from The Office for Budget Responsibility (OBR) show that the medium term outlook for the UK economy has changed since the Spring Statement of 13 March 2018.

3.6 The forecast for the level of GDP growth for 2018 was revised down to 1.3% but is still higher than previous forecasts for 2019 and 2020. Growth forecasts for 2021 and 2022 remain unchanged with a 1.6% forecast for 2023. A comparison of the previous and the latest forecast is shown in the table below:

Table 1 – GDP Forecast Growth

	2018 %	2019 %	2020 %	2021 %	2022 %	2023 %
Spring Statement 2018	1.5	1.3	1.3	1.4	1.5	N/A
Autumn Budget 2018	1.3	1.6	1.4	1.4	1.5	1.6
Change	(0.2)	0.3	0.1	0.0	0.0	N/A

3.7 The OBR stated that Brexit-related uncertainty is weighing on investment growth and real household consumption remains relatively subdued. However, a loosening of fiscal policy by Government supports growth; particularly the proposed increase in NHS spending announced in June 2018.

3.8 Clearly, since these forecasts were prepared, the position around Brexit has become even more uncertain so these forecasts must be treated with some caution.

Government Borrowing

3.9 The following table shows public sector net borrowing forecasts anticipated in October 2018 compared to those announced in the Spring Budget (13 March 2018).

Table 2 – Public Sector Borrowing Forecasts

	2018/19 £bn	2019/20 £bn	2020/21 £bn	2021/22 £bn	2022/23 £bn
Spring Statement 2018	37.1	33.9	28.7	26.0	21.4
Autumn Budget 2018	25.5	31.8	26.7	23.8	20.8
Change	(11.6)	(2.1)	(2.0)	(2.2)	(0.6)

3.10 The expected changes in borrowing compared to the 2018 Spring Budget are based on a combination of the following:

- A higher public sector receipts forecast reflecting strong outturn data since April 2018 together with higher levels of employment across the forecast period;
- Reductions in public spending due to downward revisions to the forecasts for welfare spending, debt interest and tax litigation;
- Measures announced in the budget which increase borrowing by £1.1bn in 2018/19 rising to £18.8bn by 2022/23.

-
- 3.11 Debt as a share of gross domestic product peaked at 85.2% in 2016/17, falling to 83.7% in 2018/19. It is forecast to fall to 74.1% by 2023/24.
- 3.12 Increases in Public Sector borrowing may also influence Government policy towards Local Government finances after 2019/20.

Inflation

- 3.13 Inflation, as measured by the Consumer Price Index (CPI) was 2.4% for September 2018 falling from 2.7% in August. The OBR anticipates CPI inflation may reduce during 2019 and the rate had reduced slightly to 2.3% for November 2018. In the medium term, the OBR expects inflation to settle a little above the Bank of England's inflation target of 2% per annum.
- 3.14 The MTFs includes estimates of the increase in budgets the Council requires in order to keep pace with inflation. Any unplanned inflationary pressures have an impact on the Council's purchasing power with higher rates resulting in the Council paying more for supplies and services. The rise in inflation also affects the spending profile of Oldham residents and their ability to pay Council Tax which can affect the collection rate and have a negative impact on the resources that the Council can generate through this income source.

Brexit

- 3.15 There remains uncertainty on the impact Brexit will have on future economic growth, inflation or Government borrowing levels and hence public sector spending. It is clear that Brexit is a significant area of focus for the Government and may lead to a potential diversion of resources, which if it were to happen, could impact on future funding available to support Local Government.
- 3.16 The Council, along with the rest of the country, is waiting for a "deal/no deal" decision and further information to better understand the implications for 2019/20 and future years. The Chancellor did indicate in the Autumn Budget that he may have to use his Spring Statement in March 2019 (after the 2019/20 Council budget has been set) to adjust public spending allocations in the event that the financial issues arising from Brexit were more severe than expected. If this results in a change to the financial position of the Council, then Members will be advised accordingly and appropriate action will be taken.

Business Rates

- 3.17 Under the current Local Government finance system introduced on 1 April 2013, local billing authorities are required to prepare and submit to the MHCLG a locally determined and approved Business Rates forecast through the National Non-Domestic Rates (NNDR 1) return by 31 January each year. On 17 December 2018 Cabinet delegated the decision to vary the final Business Rates forecast and hence the Business Rates Tax base, if required, to the Deputy Leader and Cabinet Member for Finance and Corporate Resources in consultation with the Executive Director of Corporate and Commercial Services and the Director of Finance. This forecast is used to determine the 2019/20 "demand" and payment schedule for Business Rates revenues between Oldham Council and the Greater Manchester Combined Authority (GMCA) as Fire and Rescue services are partially funded by Business Rates. Under the 100% Rates Retention Pilot arrangements, Central Government no longer receives a share of Business Rates revenues.
- 3.18 Business Rates are a highly complex and volatile tax and it is exceptionally difficult to forecast movements over the short to medium term with great accuracy. Since the change to the Business Rates regime in 2013/14 and the revaluation exercise undertaken by the

Valuation Office Agency (effective from 1 April 2017), much more uncertainty has been introduced into the setting of Council budgets as the Business Rates tax base is prone to significant changes and can fluctuate for many reasons.

- 3.19 Fluctuations in Business Rates income are also strongly linked to the performance of the wider economy. In an economic downturn there is a heightened risk of properties being left empty and lower levels of development activity. Conversely, when the economy is more buoyant, business activity and thereby rating income, can increase.
- 3.20 The level and timing of appeals against a rateable value are perhaps the most significant factors that can have an impact on variability in yield. Appeals are dealt with by the Valuation Office Agency (VOA) and can date back many years. Recent information highlights that appeals in Oldham covering around £45.815m of rateable value remain unresolved, the vast majority of which relate to the 2010 valuation list. Total rateable value for the Oldham Billing Area is around £157.713m meaning appeals currently affect approximately 29% of the overall business rates tax base.
- 3.21 The Check, Challenge & Appeal process introduced by Government in April 2017 has tried to incorporate a degree of consistency to the appeals submission process whilst simultaneously seeking to limit the numbers of 'speculative' claims. Results to date suggest the revised process is indeed reducing the number of claims that reach the appeal stage. However it is still unclear whether this is reducing the real number of appeals or just simply holding back the tide. What is clear is that greater financial provision will need to be made for individual claims that reach the appeal stage as having been through check and challenge their probability of securing a rateable value reduction is much greater than under the previous arrangements. Furthermore, some appeals that are currently being considered elsewhere in the country are effectively test cases that may set precedents which prompt a whole new wave of local appeals or straightforward rateable value reductions.
- 3.22 Recognising the challenges that this volatility presents, the Council has put in place arrangements to monitor Business Rates liability on a monthly basis. The output from these monitoring arrangements shows that net liability tends to reduce as the year progresses from each April. These reductions are the result of:
- Reductions in gross rates payable as outstanding appeals are settled; and
 - Increases in mandatory and empty property relief as more claims are submitted and processed as the year progresses.
- 3.23 These trends/movements set against the base position form the basis of the forecast business rates outturn position for 2018/19 and forecast for 2019/20 and future years as shown in paragraphs 8.21, 8.22 and 9.4.

Greater Manchester (GM) 100% Business Rates Retention Pilot Scheme

- 3.24 On 1 April 2017, the GMCA, Oldham Council and the nine other GM districts commenced a pilot scheme for the 100% local retention of Business Rates. The participants agreed to pilot full Business Rates retention on the basis that no district would be worse off than they would have been under the original '50/50' arrangements whereby Business Rates revenues are shared between Central Government and the Local Authority sector. This has become known as the 'no detriment' principle. Under the pilot scheme, additional rates income is offset by reductions in other funding streams such as the Revenue Support Grant (RSG) and Public Health grant. In its first year of operation, the pilot scheme delivered fiscal benefits for its participants. At this stage during 2018/19, Oldham's share of these benefits is forecast to be £1.218m; a sum which will be used to support the 2019/20 budget position. The 2019/20 financial year will be the last year of the pilot scheme given that 75% Business

Rates Retention will operate from 2020/21. However, it is hoped that in its final year the pilot will continue to deliver similar fiscal benefits as well as deliver significant economic benefits for the GM region and for the Oldham locality.

- 3.25 From the Government's perspective, the primary purpose of the pilot was to develop and trial approaches to manage risk and reward in a Local Government finance system that included the full devolution of Business Rates revenues. However, Government plans have changed with a 75% Business Rates Retention Scheme being introduced from 2020/21. Lessons learned from the pilot scheme will inform the design of the new arrangements.
- 3.26 The pilot scheme for full business rates retention has created further impetus for working jointly across the Combined Authority area. The pilot scheme continues to provide an opportunity to develop new initiatives for cross-authority working in terms of business rates administration and also as part of the growth agenda to attract new businesses to Greater Manchester for the benefit of the region as a whole, as well as individual districts.
- 3.27 It is difficult to predict to what extent the continuing pilot scheme and whether the subsequent changes to the Local Government finance regime will be of longer term benefit to Oldham Council. Fair funding and systems design national reviews have continued during 2018/19 but the work programme is still ongoing. One of the consultation papers issued alongside the 2019/20 PLGFS seeks views on the approach to measuring the relative needs and resources of Local Authorities with the aim of determining the new baseline funding allocations for 2020/21.
- 3.28 However, whether a reformed system (mentioned at paragraph 2.7) will provide a more sustainable and stable platform for future Local Government finances remains to be seen. Oldham Council's finance service continues to participate in discussions at a Greater Manchester level with regard to the pilot and provides direct input and support to long-established MHCLG/LGA working groups as well as supporting the work of the Special Interest Group of Municipal Authorities (SIGOMA) and other established networks.

GM, Cheshire East & Cheshire West and Chester Councils Business Rates Pool 2019/20

- 3.29 Members will recall that Oldham has participated in Business Rates pooling since 2015/16. The aim of pooling is to retain the benefits of any Business Rates growth within the pool for the benefit of all participants. Following the submission of an expression of interest in pooling for 2019/20, the MHCLG, alongside the Provisional Local Government Finance Settlement, has asked Councils to confirm their membership of the pool. In 2018/19 the pool for Business Rates included all ten GM districts and Cheshire East and Cheshire West & Chester Councils.
- 3.30 The business rates pooling proposition is such that no Local Authority should be worse off by pooling than it would be if it did not pool. Therefore, if there is any growth in business rates as a result of the economic regeneration activity planned within the borough, the Council would be able to keep its share of that benefit, also benefiting from a share in any levy payment that any other levy paying Authority in the pool would normally pay to Central Government.
- 3.31 The fact that Greater Manchester is piloting full Business Rates retention, suggests participating in Business Rates pooling is no longer necessary as there are no additional financial gains to be made. However, participating in such a pool improves the 'no detriment' position of each district in the unlikely event that the 100% pilot scheme fails to derive any fiscal or economic benefits. On 17 December 2018, Cabinet therefore delegated the final decision on the Council's membership of the proposed Greater Manchester, Cheshire East

and Cheshire West & Chester Business Rates Pool for 2019/20 to the Cabinet Member for Finance and Corporate Resources in consultation with the Deputy Chief Executive - Corporate and Commercial Services and the Director of Finance. A final decision has to be made within 28 days of the receipt of the Provisional LGFS (13 December 2018) which does not accord with formal reporting cycles. A delegated decision to join the pool has now been taken.

National Living Wage

- 3.32 The Government's new National Living Wage is now enshrined in legislation meaning all workers aged 25 and over are legally entitled to earn at least £7.83 per hour rising to £8.21 from April 2019. The Council however has continued to invest in its workforce by committing to pay Council employees in line with the higher National Living Wage as championed by the Living Wage Foundation (£9.00 per hour from November 2018), so the legislative change had no direct impact on employee costs. However, the cost of externally provided services, particularly with regard to social care provision, has been significant.
- 3.33 The Council has made a commitment to seek national accreditation from the Living Wage Foundation with regard to adopting its National Living Wage over a three year timeframe. The first stage in 2019/20 has been to ensure that the Council's wholly owned companies are compliant and appropriate budgetary provision is included in budget estimates. The next stage is ensuring other external service providers pay the higher value wages. The Council will work towards this over 2020/21 and 2021/22. It is likely to have significant financial implications but these are still being worked through. As a result, such costs will emerge and will be featured in later reports.

Public Sector Pay Awards

- 3.34 The NJC Pay Award for 'Green Book' members of staff, effective from 1 April 2019, has been determined through negotiations held nationally between the Local Government Association (LGA) and Single Status Trades Unions; Unison, Unite & GMB. The principle feature of the pay award is a refresh of the national pay spine, where lower spinal column points (SCP's) have been merged, and some new points introduced to ensure that the SCP's are evenly spaced apart. The increase for the cost of living is at least 2% across the pay spine.
- 3.35 The negotiations resulted in a national Collective Agreement, resulting in the pay award being able to be applied to local government employees, where this is stated within their contracts, i.e. will be for employees of Councils who are members of the LGA. For Oldham this leaves the local decision associated with the surrounding grading structure to be overlaid across the national pay spine.
- 3.36 The Council has proposed adjustments to the Council's grading structure to accommodate the revised national pay spine. The proposals were based on the principles of:
- No more than six increments in a grade (i.e. no more than five years of progression as advocated by the Equal Opportunities Commission)
 - Either no overlaps between grades or limited to one increment
 - Every employee to receive at least a 2% increase for cost of living
 - No re-evaluation of job roles
- 3.37 The proposal is being considered by the Trades Unions with negotiations ongoing, aiming to reach a collective agreement. However in advance of any final agreement the estimated impact of this pay offer has been factored into financial forecasts.

Devolution

- 3.38 The Greater Manchester Devolution Agreement was signed with the Government in November 2014. It brought both the decision making powers and control of finance far closer to the people of Greater Manchester. This gives them and their local representatives' control over decisions previously taken at a national or regional level.
- 3.39 Taking this forward the Cities and Local Government Devolution Act 2016 provided the legislative context which allowed the GMCA to assume responsibilities performed and delivered by other public bodies. The key element of this is that such assumption of powers would only be with the agreement of the public agencies involved e.g. Local Authority and Health Authority functions.
- 3.40 Set out in the follow paragraphs are the key issues that are shaping the devolution agenda that will affect the operational and financial environment of the Council as well as its approach to addressing financial challenges.

Health and Social Care Devolution

- 3.41 February 2015 saw a Memorandum of Understanding (MoU) signed between the ten Local Councils that make up the Association of Greater Manchester Authorities (AGMA), all Greater Manchester Clinical Commissioning Groups (CCGs) and NHS England (NHSE). From April 2016 Greater Manchester has taken control and responsibility for the £6bn Health & Social Care Budget and is working to deliver its own sustainable Health & Social Care system by 2021.
- 3.42 The areas of the Health & Social care system that are included in the agreement are:
- Acute care (including specialised services);
 - Primary care (including management of GP contracts);
 - Community services;
 - Mental health services;
 - Social care;
 - Public Health;
 - Health Education; and
 - Research and Development.
- 3.43 Devolution in Greater Manchester has provided the momentum and impetus to explore how much further and faster GM can move towards realising a financially sustainable health system.
- 3.44 Oldham Council and the Oldham CCG have jointly developed a Locality Plan for Health and Social Care Transformation covering the period 2016/17 to 2020/21. The successful delivery of this Locality Plan will mean that both organisations have worked together and will have:
- Transformed the relationship between the population and the health and social care system, so that the public expects services to promote healthy behaviours, independence and self-care and reduces dependency on high cost or institutionalised services;
 - A primary care-led, place-based health and social care system that maximises the opportunity to pool budgets, integrate commissioning, and that provides outcome-focused integrated care closer to home;
 - A health and social care system that is built upon sustainable financial models;

-
- A workforce that has the skills and capacity to enable people to receive appropriate and timely help and support to address the root causes of health problems as well as the presenting symptoms;
 - A health and social care system that recognises and supports a wider associated workforce including carers, other public sector areas such as the fire service, social housing providers, voluntary and community organisations and volunteers;
 - Better service quality and improvements in the public's experience of health and social care, delivering greater efficiency, and improved health outcomes;
 - Developed an evidence base about the effectiveness of resilience-focused programmes and have scaled these up across Oldham and fostered the widespread adoption of community development and asset-based approaches; and
 - A systematic approach to developing community-centred approaches (including social prescribing) to health and social care, working closely with Oldham's voluntary and community sector.
- 3.45 On the 7 January 2019 the Government launched the new NHS 10 year plan. This reflects the same ambitions as the Oldham Locality Plan, including more out of hospital care, increased integration between health and social care and a focus on a preventative population health approach.
- 3.46 The integrated health economy, that incorporates Oldham CCG and Oldham Council as well as numerous provider organisations, is known as Oldham Cares. Since April 2018, Oldham Cares has operated under a joint leadership arrangement with the Chief Executive Officer of Oldham Metropolitan Council being appointed to the post of Chief Accountable Officer of Oldham CCG. A new joint governance structure has also been established that has a representation from both the Council and the CCG through the Commissioning Partnership Board. The board has delegated authority from Cabinet to make decisions in respect of the S.75 funds described below. This will continue in 2019/20 and allows joint decision making that will benefit Oldham as a whole. An Alliance Board has also been established, which includes the provider organisations, including, inter alia, the Northern Care Alliance and Pennine Care Foundation Trust.
- 3.47 Oldham Cares has entered into a Section 75 (S.75) Partnership from April 2018. A S.75 Partnership Agreement is made under the provisions of Section 75 of the National Health Service Act 2006 and enables funds to be pooled between the CCG and the Local Authority and enables the delegation of certain NHS and Local Authority functions to the other partner.
- 3.48 The Council and the CCG aim to develop Oldham Cares into an established Local Care Organisation. Whilst the final structure is still being finalised significant progress has been made on integration during the year. The two organisations have been working under the S.75 agreement mentioned above that aligns significant resources within a pooled budget. The total for 2018/19 is £135m. This is made up of £70m of Council resources and £56m of CCG resources and also includes £9m of the £21.3m Transformation Funds described below. These resources are being managed by a joint commissioning team that has brought together Council and CCG staff under a combined management structure and approach. The S.75 agreement will continue in 2019/20 and during the year will be refreshed with 2019/20 funding allocations and expanded to include new services.
- 3.49 Another significant achievement in 2018/19 was the establishment of Community Clusters. The clusters are aligned to newly established primary care clusters that are based on geographical areas of Oldham and that divide the population into groups of between 30,000 – 50,000 residents. Our neighbourhood social care teams have moved into the clusters and work alongside teams from Community Nursing. During 2019/20 these teams will continue to work more closely together developing ever closer working relationships.
-

-
- 3.50 These new operating arrangements and the alignment of budgets is enabling not only more effective service delivery, but a more effective and efficient use of both financial and staffing resources of the Council, CCG and other health partners.

Transformation Fund

- 3.51 In 2017 the Oldham locality successfully bid for GM Transformation Funding that is being used over the four financial years 2017/18 to 2020/2021 to facilitate new ways of working around an integrated approach. A funding award of £21.3m was made with the money being used to:

- Support people to be more in control of their lives.
- Have a health and social care system that is geared towards wellbeing and the prevention of ill health.
- Provide access to health services at home and in the community.
- Provide social care that works with health and voluntary services to support people to look after themselves and each other.

- 3.52 Specifically the schemes that are being supported include:

- Establishing the primary care cluster system (referred to above), across the locality, completing the establishment of integrated health and care teams and creation of single structures at a GP cluster level.
- Creating and implementing a more effective urgent and emergency care offer on the Royal Oldham Hospital site.
- Oldham's community enablement service, including community and residential reablement, rehabilitation and community bed services (including a rapid response facility).
- Avoiding admissions to hospital for the under 5's
- Improving mental health provision in the community
- Supporting communities to thrive, through the use of social prescribing and the innovative design of schemes to reduce loneliness and social isolation.

- 3.53 A number of the schemes are being trialled throughout 2018/19 and in 2019/20 they are expected to demonstrate an improvement in service and a reduction in demand for emergency and unplanned care across Oldham.

Better Care Fund

- 3.54 Clearly aligned to health and social care devolution, the Better Care Fund (BCF) was established in 2013 and also provides an opportunity to transform local services to better integrate care and support. CCGs and Local Authorities must jointly agree how the BCF is spent, so it is essential to ensure the deployment of resources is developed in the interests of both parties. This arrangement continues to work successfully and it is included within the structure and governance of the Oldham S.75 agreement.

- 3.55 BCF allocations for 2019/20 and Oldham's share are yet to be finalised. The 2018/19, Government allocation for Oldham was £16.783m which was supplemented by Oldham CCG funds of £0.320m. Therefore the total Oldham allocation was £17.103m. As a result £10.415m was passed to the Council to commission services to cover issues such as personalisation, the provision of support for carers, information advice and support and independent mental health advocacy. Funding in 2019/20 will again be allocated to the Oldham CCG and in accordance with the pooling arrangements, part of the allocation will be passported to the Council as per the BCF plan and agreement.

- 3.56 The BCF also includes Disabled Facilities Grant, (DFG), which is a capital grant paid directly to the Council. Allocations for 2019/20 are yet to be finalised but are assumed to be at the same level as the 2019/20 allocation (£1.914m). This grant has been included within the Capital Strategy/Programme.

Improved Better Care Fund

- 3.57 The Improved Better Care Fund (iBCF) was first announced in the 2015 Spending Review, and is paid as a direct grant to the Council with a condition that it is pooled into the local BCF plan and is managed jointly with the Oldham CCG. For 2019/20 Oldham will receive £8.150m which will form part of the pooled S75 agreement.
- 3.58 Further to this, on 8 March 2017, the Chancellor of the Exchequer delivered his Spring Budget which included a major policy announcement relating to Adult Social Care funding in England and advised of an additional £2bn iBCF funding nationally over the years 2017/18 to 2019/20 (£1.586m for Oldham in 2019/20). The total iBCF grant for 2019/20 is £9.736m and is presented in the table below. In total £1.848m more funding is available in 2019/20 compared to 2018/19.

Table 3 – Improved Better Care Fund

Improved Better Care Fund	2018/19 £000	2019/20 £000	Difference £000
iBCF Settlement 2015	4,687	8,150	3,463
iBCF Spring Budget 2017	3,201	1,586	(1,615)
Total Change to iBCF Allocations	7,888	9,736	1,848

- 3.59 A condition of the grant is that its use is closely monitored with quarterly returns being provided to the MHCLG. This requirement has been met and there have to date been no clarifications sought by the Department.
- 3.60 The financial year 2019/20 is the final year for which the funding has been confirmed. There is speculation around the continuation of funding not helped by the delay in publishing the Social Care Green Paper. However for financial planning purposes the iBCF Spring Budget funding is assumed to cease at the end of 2019/20, whilst the 2015 funding totalling £8.150m is assumed to continue into 2020/21 and beyond. In view of the value of this grant, should this grant cease it would have a major impact on the MTFs, and thereby the financial position of the Council.

Social Care Green Paper

- 3.61 On 16 November 2017, the Government announced that it would publish a Green Paper on care and support for older people by summer 2018. The paper was to set out plans for how Government proposed to improve care and support for older people and tackle the challenge of an ageing population. Initially publication was postponed until autumn 2018 but has since been delayed once again.
- 3.62 The Government has stated that it is intended that the proposals that will be included in the Green Paper will build on the additional Improved Better Care Fund grant (detailed above) to reform social care and provide a long term solution to increasing demand as people live longer and the population ages. Clearly the outcome of this Green Paper will shape the financial policy landscape for 2019/20 and beyond and is therefore keenly awaited.

Winter Pressures Grant

- 3.63 The Winter Pressures Grant announced in the 2018 Autumn Budget and confirmed in the PLGFS provides an additional £240m nationally in 2019/20 for adult social care to help Councils alleviate winter pressures falling on the NHS. The Council had already been notified of Oldham's 2019/20 allocation of £1.122m in the form of a ringfenced grant which will be passported direct to Health and Adult Social Care Community Services. Its use must be agreed with NHS partners and reported to the Department for Health and Social Care.

Social Care Support Grant

- 3.64 Also announced in the Autumn Budget and confirmed in the PLGFS was a further £410m nationally in 2019/20 for adults and children's social care in the form of an unringfenced Social Care Support Grant. This grant has been provided in response to Councils concerns with regard to pressure on adult and children's social care services and the expectation is that Councils will use the funding to meet those pressures. For 2019/20 Oldham will receive £1.917m which is helping the Council to partly offset the increased resource requirement for Children's Social Care demand following continued rises in the numbers of looked after children and out of borough placements. This is a one off resource.

Children's Social Care Programmes

- 3.65 Also announced in the Autumn Budget was £84m over 5 years for up to 20 Local Authorities, to help more children to stay at home safely with their families. A recent DfE report suggests Oldham has experienced a relatively large increase in the number of children subject to a child protection plan. It is hoped, therefore, that Oldham will be included as one of the 20 Local Authorities to receive a share of this funding. The PLGFS confirmed the available funding however it did not provide any further detail on allocations.

Opportunity Area (OA) Funding

- 3.66 Oldham is one of twelve Opportunity Areas that are receiving a share of £72m to boost opportunities for young people in the community. The OA programme is a key part of the Government's priority to boost social mobility. Oldham was identified as one of the localities most challenged in this area, however it has been recognised as already having built the necessary momentum and capacity for improvement.
- 3.67 The Oldham Opportunity Area Plan was launched on 9 October 2017 by Justine Greening, former Secretary of State for Education. The Oldham Plan identifies three priorities which are to support parents to improve literacy at home; build high performance across the school system; and boost support for Mental Health. This work will be delivered in collaboration with the Oldham Education Partnership and the Opportunity Area Partnership Board.
- 3.68 As an Opportunity Area, Oldham will also receive a share of a further £22m through the new Essential Life Skills programme. This funding will be targeted toward helping disadvantaged young people to develop life skills. To date Oldham has received £2.481m of Essential Life Skills funding.
- 3.69 The estimated investment into Oldham is around £10m over the life of the OA programme. The investment will be across the entire Education sector in Oldham and not all of the funding will be received by the Council. To date the Council has received £2.860m of Opportunity Area funding. Details of future allocations have yet to be received, but will be incorporated into the budget upon notification.

Homelessness

- 3.70 The Homelessness Reduction Bill received Royal Assent on 27 April 2017. There are many implications arising out of the new legislation. Members will recall that the details of the Act were presented in a report at the Cabinet meeting on 23 October 2017. In order to assist in addressing new responsibilities the Government has awarded grant support. In March 2018 Government confirmed to the Council that it would receive a flexible Homelessness Support Grant at a value of £0.194m in 2019/20. The Government also confirmed in February 2018 the Council would receive new burdens funding for homelessness in the sum £0.062m in 2019/20.
- 3.71 The grants will be passported to the homelessness service. In addition, Council resources will supplement the grants bringing resources available to a value of £1.815m.
- 3.72 In addition to the above in July 2018 Andy Burnham, Greater Manchester Mayor requested that all GM authorities seek to match his commitment to provide a bed for every rough sleeper who wants one from 1 November 2018 to 31 March 2019. As part of this scheme the Council secured funding from the Mayor's Homelessness Fund of £0.114m to provide the service at Lees Road Fire Station. Such initiatives are expected to shape homelessness strategies for 2019/20 and beyond.

Adult Education Funding Devolution

- 3.73 From the 2019/20 academic year, Mayoral Combined Authorities (MCAs) will take on more responsibility to deliver quality adult education in their local areas when adult education funding is devolved, subject to agreed readiness conditions. A transitional year for MCAs has been created for the 2018/19 academic year to give MCAs time to learn the skills for success, strengthen their relationships with providers and test out mechanisms before Adult Education Budget (AEB) devolution comes fully into force.
- 3.74 There will be a significant step towards devolution, in the transitional year, giving MCAs including Greater Manchester, a greater role in shaping local area provision, to ensure a smooth transition and the continued protection of learners. During the transitional year, the Education and Skills Funding Agency (ESFA) will continue to manage the AEB budget nationally, and will be responsible for calculating AEB allocations and notifying all providers.
- 3.75 Greater Manchester Combined Authority has been given a provisional devolved AEB allocation of £92.3m per annum. This will fund a number of core grant maintained providers (including the Oldham Lifelong Learning Service and The Oldham College), as well as a programme of contracted provision. The GMCA is focussing on the commissioning of the contracted services, initially, and is currently seeking to procure £20m of new activity.
- 3.76 It is unclear at present what, if any, impact this will have on the provision of adult education in Oldham through the Lifelong Learning Service. More detail will be provided in the lead up to the 2019/20 academic year as the changes and devolved responsibilities progress.

Greater Manchester Spatial Framework

- 3.77 The districts of Greater Manchester are working together to produce a joint plan to manage the supply of land for jobs and new homes across Greater Manchester. The Greater Manchester Spatial Framework (GMSF) will ensure that the right land in the right places delivers the homes and jobs needed up to 2037, along with identifying the need for supporting infrastructure (such as roads, rail, Metrolink and utility networks) required to achieve this. It will be the overarching development plan within which Greater Manchester's ten local planning authorities can identify more detailed sites for jobs and homes in their own area. As such, the GMSF will not cover everything that a local plan would cover and individual Districts will continue to produce their own local plans. Nonetheless, the plan will

have a significant long term influence on local revenue streams (Council Tax and Business Rates), capital investment and demand for services from local residents. In 2017 all member Authorities consulted with residents on the proposals included in the plan and following this, a second draft of the plan was released on 8 January 2019 which will be followed by a formal eight week consultation with the public commencing on 14 January 2019. Following this consultation will be a period of analysis which will consider the responses received from residents within Greater Manchester and other stakeholders leading to a revised plan and further consultation in the summer of 2019.

4 Oldham Council Strategies and Policies

4.1 In addition to Central Government guidance and national policies, the Council has a range of locally developed strategies, policies and work programmes that directly influence the day to day operations of the Council and indirectly the financial position. The Oldham Plan and Corporate Plan are key strategic plans which influence the Medium Term Financial Strategy and ensure resources are directed towards delivery of priorities within those plans.

The Oldham Plan and Corporate Plan

4.2 The Oldham Plan, the Oldham Partnership's plan for the borough, was endorsed by Council in July 2017. It is a collective action statement covering the period 2017-2022 and sets out the areas where the Oldham Partnership will add the most value as a partnership to achieve the ambition for Oldham to be a productive and co-operative place with healthy, aspirational and sustainable communities.

4.3 The Oldham Plan is based around the Oldham Model - three change platforms enabled and complemented by public service reform and empowering communities. These are set out in more detail at paragraph 1.9 and in summary are:

- **Inclusive Economy**

The vision is for Oldham to become Greater Manchester's Inclusive Economy capital by making significant progress in living standards, wages and skills for everyone.

- **Thriving Communities**

The vision is for people and communities to have the power to be healthy, happy and able to make positive choices and both offer and access insightful and responsive support when required.

- **Co-operative Services**

The vision is to collaborate, integrate and innovate to improve outcomes for residents and create the most effective and seamless services in Greater Manchester.

4.4 The Corporate Plan 2015-2020 was refreshed and updated to sharpen its focus and ensure alignment with the Oldham Plan and was approved by Council, alongside the Oldham Plan, in July 2017. Work on the new Corporate Plan for 2020 – 2025 will begin in 2019. The new Corporate Plan will reflect the revised administration priorities, as well as providing stronger links with the Greater Manchester priorities.

4.5 The Corporate Plan is the Council's key strategic document and outlines the Council's contribution to achieving the vision and outcomes detailed in the Oldham Plan, as well as priority areas of focus and delivery for the organisation to continue to deliver the vision of a co-operative future where everyone does their bit to create a confident and ambitious borough.

4.6 The Corporate Plan Objectives and their contingent parts are shown in the following diagram:

Corporate Plan Objectives

An Inclusive Economy where people and enterprise thrive

#ourbit: Attracting investment and encouraging business and enterprise to thrive

#yourbit: Supporting and promoting local businesses and ventures

#result: Oldham is open for business

#ourbit: Delivering key regeneration projects that are growing our business base, creating jobs and transforming opportunities

#yourbit: Visiting the attractions and promoting them as ambassadors

#result: A regenerating and confident borough

#ourbit: Working with partners to create quality work prospects - and ensuring all residents can access new skills and opportunities and be work-ready

#yourbit: Making the most of the education and skills offer and aiming to better yourself

#result: An ambitious and socially mobile borough

Thriving Communities where everyone is empowered to do their bit

#ourbit: Increasing the sense of involvement and ownership of issues that affect people and they care about

#yourbit: Getting involved in your community: actively sharing ideas and experience with others about things you are passionate about

#result: Engaging and resilient communities

#ourbit: Working proactively with residents and partners in promoting healthy, independent lifestyles and providing the right level of care at the right time

#yourbit: Living well, eating healthily, inspiring others and getting the right support at the right time and place

#result: Healthier communities

#ourbit: Nurturing and safeguarding strong neighbourhoods that work together to improve their lives and the communities around them

#yourbit: Working with other residents to build strong networks that are shaping the future where you live

#result: Safer, stronger and striving communities

Co-operative Services with people and social value at their heart

#ourbit: Building a sustainable co-operative workforce that innovates based on the principle of being equal partners and co-creators

#yourbit: Taking an active role by working with others in shaping better outcomes and making them happen

#result: A co-operative workforce

#ourbit: Putting social value and transformational outcomes at the heart of all our services

#yourbit: Telling us where services are not delivering the right outcomes for you and your community

#result: Outcome-driven services

#ourbit: Reforming public services and encouraging innovation, leading to better outcomes and delivery

#yourbit: Getting involved and having your say in designing future public services

#result: Empowering the positive reform of public services

Co-operative Council in a Co-operative Borough

4.7 Oldham has been a Co-operative Council since 2011 and the Council continues its commitment to delivering a co-operative future where everybody does their bit and everyone benefits. This is achieved by a real commitment to change and work closely with residents, partners and our wider communities to create a confident and ambitious borough.

4.8 The Corporate Plan sets out how everyone can do their bit to support delivery of the ambitions and outcomes:

#ourbit is what Oldham Council is doing or contributing to help improve something.

#yourbit is how local people, businesses and partners are helping to make change happen.

The **#result** is how we are all benefiting from working together.

4.9 The ethos of the Co-operative Council and the principles of the Corporate Plan set the framework for the Council strategies and the MTFS is informed by and takes account of these key strategies and policies as presented in the following paragraphs.

Capital Strategy

4.10 The Council has traditionally followed best practice and prepared a Capital Strategy. However, in 2017 CIPFA issued revised Prudential and Treasury Management codes. This requires Councils to prepare a Capital Strategy from 2019/20 so in the context of Oldham the style and content of the Capital Strategy has been amended to ensure compliance with the codes.

4.11 The Capital Strategy provides a framework within which the Council's Capital Investment plans will be delivered. These plans are driven by the Council's Corporate Plan. The Capital Strategy has been prepared to take account of the ambition for the borough including major regeneration developments within the Town Centre and borough-wide, to ensure that new school buildings and extensions are delivered as well as ensuring that the highways network and corporate estate are adequately maintained.

4.12 The proposed Capital Strategy and programme for 2019/20 to 2023/24 takes the essential elements of the 2018/22 and previous years' strategies and programmes and moves them forward in the context of the financial and political environment for 2019/20. Capital spending is a key determinate of future revenue commitments so the capital programme and revenue budget are interlinked.

4.13 In accordance with new requirements, the Capital Strategy includes the following:

- a high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
- an overview of how the associated risk is managed
- the implications for future financial sustainability

Treasury Management Strategy

4.14 Treasury management is defined as "The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

4.15 The Strategy for 2019/20 reflects capital expenditure plans and highlights the Council's position in relation to prudential indicators arising from the Capital Strategy and also sets out the Minimum Revenue Provision (MRP) Policy Statement.

4.16 The Strategy for 2019/20 covers two main areas.

Capital Issues:

- The Capital Strategy and the Prudential Indicators
- The Minimum Revenue Provision (MRP) Policy Statement

Treasury Management Issues:

- The Current Treasury Position
- Treasury Indicators which limit the treasury risk and activities of the Council
- Prospects for Interest Rates
- The Borrowing Strategy
- The Policy on Borrowing in Advance of Need
- Debt Rescheduling
- The Investment Strategy
- The Creditworthiness Policy
- The Policy regarding the use of external service providers.

4.17 The strategy therefore determines how the Council makes the most efficient use of its cash resources by the careful management of borrowing and investments. It is also a key document underpinning the financial planning arrangements of the Council.

4.18 The new Prudential and Treasury Management codes require the Capital and Treasury Management Strategies to be prepared so that there is clear reporting on the Council's approach to treasury and non-treasury investment. The respective reports comply with this requirement.

Income Strategy

4.19 On 18 September 2017 Cabinet approved an Income Strategy for the Council. The strategy details the approach that the Council is taking in regard to income generation and covers all material sources of revenue that finance day to day service provision including:

- Government Grants;
- Council Tax;
- Business Rates; and
- Fees, Charges and Other Contributions.

4.20 The strategy also considers:

- Investment Opportunities;
- Opportunities relating to traded services and other chargeable activities; and
- The process for setting charges and collection efficiency.

4.21 The approval of this policy formalised the approach to income activities and has been a key element in framing the budget setting process for 2019/20.

Commercial Property Investment Strategy

- 4.22 In December 2017 Cabinet approved the Council's Commercial Property Investment Strategy. The strategy sets out the framework to secure long term investments and to generate a sustainable income stream for the Council by way of rental income from new property assets and from its existing non-operational property portfolio held specifically for income generation purposes. The strategy aims to improve the financial resilience of the Council over time and to offset some of the financial pressures created by the continued reduction in central Government grants. A number of opportunities continue to be considered and are reported on a case by case basis to a Property Advisory Group which has delegated authority to approve any acquisitions based on market analysis and a due diligence exercise.

Medium Term Property Strategy

- 4.23 The Council is in the process of implementing the Medium Term Property Strategy 2018 to 2022, as approved by Cabinet on 20 August 2018. This document has been developed to reflect the Council's strategic objectives as set out in the Corporate Plan 2017 to 2020.
- 4.24 In addition, recognising the greater attention on collaboration across the public sector, the Medium Term Property Strategy reflects the Government's One Public Estate Agenda, which is captured in the Locality Asset Review and the Oldham Strategic Estates Plan 2015-2020.
- 4.25 This strategy also sets out the framework for the delivery of efficiencies and budget savings from the rationalisation of existing assets, acquisition of new assets and the more efficient and effective use of the corporate estate.

Procurement Policy

- 4.26 The Council's Procurement policy focuses on procurement activity which has the aim of ensuring the optimum balance between cost, quality and local social value, whilst also ensuring that any significant commercial risks are identified and mitigated at the commissioning stage of any procurement activity.
- 4.27 The policy ensures value for money and social value outputs are monitored and measured in an integrated way, in order to support the Council's co-operative agenda. In this way, the Council ensures that it maximises the greatest local social, economic and environmental benefit from the Council's purchasing power.

Housing Strategy

- 4.28 In March 2015 the Council approved the Oldham Housing Strategy for 2015 to 2018.
- 4.29 The Strategy sets out current challenges and Oldham's vision for housing and how it will work within Greater Manchester to deliver on its four key themes:
- Residential Growth.
 - Healthy Homes.
 - Improving Neighbourhoods.
 - Building Stronger Communities.
- 4.30 The strategy provides a framework to support other housing themed delivery plans relating to issues such as homelessness, residential development, private sector housing and

affordable warmth. It also links in to other key Council initiatives such as regeneration through 'Invest in Oldham' and employment through 'Get Oldham Working' and clearly underpins decision making around the capital strategy, revenue and Housing Revenue Account budgets.

- 4.31 The strategy is currently under review and a new strategy will be put forward for approval and adoption in 2019. The financial implications of the updated strategy will be managed within the context of available revenue and capital resources.

Get Oldham Working Initiative

- 4.32 A key aim of the Council is to improve employment opportunities for Oldham residents and the Council has continued to take forward the flagship "Get Oldham Working" campaign which is now firmly into Phase 2. To date it has helped create almost 9,200 work-related opportunities - including more than 6,250 jobs, 1,300 apprenticeships, 320 traineeships and more than 1,250 work experience placements.
- 4.33 Recognising that the skill base of the Oldham workforce needs to be improved, the Council has invested in the skills agenda and, in line with the co-operative vision, has produced a Work and Skills Strategy.
- 4.34 The Council remains committed to the Get Oldham Working initiative and to continue the scheme from 2019/20 onwards an amount of £0.140m has been added to the budget estimates.

Oldham Work and Skills Strategy

- 4.35 The Work and Skills Strategy was approved by Cabinet in June 2016. In line with the co-operative vision, the Strategy aspires to achieve four simple strategic goals over the 2016 to 2020 period:
- Create jobs;
 - Deliver social regeneration and in-work progression;
 - Deliver the vision of the Oldham Education and Skills Commission (OESC) and improve the colleges; and
 - Support a thriving private sector.
- 4.36 The strategy also contains an "outcomes framework" for employment and skills which seeks to improve population skills outcomes to support these strategic goals.

Education Provision Strategy

- 4.37 It is the Council's statutory duty to ensure there are enough school places available to local children and young people. No other local or national body shares this duty to secure sufficient primary and secondary schools, although to provide this the Council works with schools and other partners to deliver the places needed. When seeking to manage the demand and supply of school places in Oldham, Oldham Council will take into account the diverse range of provision and educational organisation arrangements that are working well and those that are not working as well. When new or changed provision is considered the Council will seek to influence any proposals to secure high quality educational provision for its citizens.

Strategy for Children and Young People aged 0-25 with Special Educational Needs and Disabilities

- 4.38 The strategy looks to the vision for children and young people with Special Educational Needs and Disabilities (SEND) to have a range of support and opportunities available to enable them to become confident individuals, effective communicators, successful learners and responsible citizens, to remain healthy and to achieve the life outcomes to which they and their families aspire. The current action plan following the strategy is due for review.

Oldham Education and Skills Commission (OESC) / Oldham Education Partnership

- 4.39 Oldham Education and Skills Commission set out a vision for Oldham to create a 'Self-improving education system' where schools, colleges and all interested parties work together in a new collaborative partnership. The Council has allocated £1.000m of resources over the life of the programme in order to enable the OESC to take forward its work.
- 4.40 The Board of the Oldham Education Partnership work to support improvements across the education system. This work across the system is in close partnership with the Local Authority and Opportunity Area work.
- 4.41 Strong links are in place across the system with knowledge and intelligence of all schools (Local Authority and Academy) feeding into an Oldham wide model to support improvements at all Key Stages.
- 4.42 The focus for the Education Partnership will be the continuous improvement of:
- Outcomes for children and young people
 - Leadership that will drive the self-improving system
 - Teaching, learning and assessment
- 4.43 The Oldham Education Partnership will continue to work in Partnership to support the role of the Local Authority with schools in Oldham.

People Strategy

- 4.44 Recognising that staff are the Council's greatest asset, the overarching People Strategy is regularly reviewed and developed around four themes that focus on organisational design, building organisational capability, working towards being an employer of choice and effective people infrastructure (people, policies and processes) all of which are aligned to the Corporate Plan and underpinned by the Council's ambition, values and behaviours.

ICT Strategy

- 4.45 The Council's ICT Strategy has been developed through engagement with key stakeholders across the business to shape the direction of the organisation in this regard.
- 4.46 It describes the development of core ICT capabilities over the three years 2017/18 to 2019/20 but is currently being refreshed; the strategy has been formulated through a pipeline which addresses delivering a customer focused service; digital by design, harnessing the power of data, strengthening governance and capability and integration of information to be an agile and efficient Council. Implementation of this strategy will allow the Council to address key challenges such as increasing demand, reducing budgets and embracing a wider reform of public sector across the Greater Manchester (GM) sub-region.

-
- 4.47 The current and updated strategy will provide an aspirational vision and direction for the Council's technology platform, grounded in affordability. They reflect the balance between taking advantage of new opportunities in ICT with the risk and cost of moving away from or changing existing solutions. The principles within the strategies also provide a framework for how the Council's IT services will be designed, commissioned and delivered.
- 4.48 The success of the ICT Strategy is therefore a vital element in ensuring the Council can deliver its service transformation agenda with associated operational and financial efficiencies which include associated budget reduction proposals.

Climate Change Strategy

- 4.49 The Council has a Climate Change Strategy covering the period 2013 to 2020. This strategy covers the Council's approach to investment in low carbon infrastructure across the borough, both on its own assets and in partnership with community groups, developers and other stakeholders. Examples of projects arising from this strategy include the 110kW solar photovoltaic array on Tommyfield Market, and the Generation Oldham solar PV programme for schools and community centres.
- 4.50 The Climate Change Strategy will be replaced in 2019 with a new Green Oldham Strategy, which will build on the approach set down thus far and expand it in line with the Council's current priorities around Health and Wellbeing, tourism and also increasing energy efficiency.
- 4.51 The Climate Change Strategy and Green Oldham Strategy have and will provide Oldham with additional specific project funding sources which include the Interreg Europe COALESCCE project and the Food Chains for EU project. In addition a number of new EU funding bids have been submitted for which the Council is awaiting a decision as to whether they have been successful.

Local Flood Risk Management Strategy

- 4.52 The Local Flood Risk Management strategy principally aims to tackle 'local flood risk', which includes flooding from surface water, groundwater, ordinary watercourses, canals and reservoirs. This type of flooding is responsible for most of the household flooding in England, but until now there has been no duty on the Council or the Environment Agency (EA) to address these forms of risk in an organised way. The strategy aims to address this gap and direct and manage the way forward.

Other Strategies, Management Plans and Policies

- 4.53 There are a number of other policies, strategies and management plans which are relevant and feed into the MTFs. These include Safe and Strong Communities, Safeguarding for Adults, Children and Multi Agency Safeguarding Hub, Arts and Heritage, Place Marketing and Integration.

5 Financial Resilience

- 5.1 Members will recall that the PVFM Select Committee considered a report on the financial resilience of Local Authorities at its meeting of 13 December 2018. Financial resilience has become a matter of national focus as a result of the well-publicised financial failure at Northamptonshire County Council. This required the issuing of an initial notice, in February 2018, under the powers of Section 114 of the Local Government Act 1988 which effectively brought all non-essential spending to a halt. As the financial position worsened, a second such notice was issued in July 2018.
- 5.2 In response to the issues at Northamptonshire and the signs of financial stress being exhibited by other Councils, the Chartered Institute of Public Finance and Accountancy (CIPFA), the leading public sector accountancy body, issued a consultation document on a proposal to introduce a Financial Resilience Index which sought to provide an assessment of the relative financial health of each English Council. As a result of consultation comments, during the early part of 2019 CIPFA will be revising and testing the proposed range of indices ahead of the release of a final version. The index will therefore be a tool that will be used to support the 2020/21 and future years budget processes.
- 5.3 However, it is important to highlight that although the Council has used some one off measures to balance both the 2017/18 and 2018/19 budgets and is proposing to maintain this approach for 2019/20, it continues to be well positioned to adapt and adjust to meet the new financial challenges in respect of 2019/20 and future financial years. The Audit Findings Report produced by the External Auditor when giving the audit opinion on the 2017/18 Statement of Accounts (July 2018) advised that the Council has, in all significant aspects, proper arrangements in place to secure economy, efficiency and effectiveness in its use of resources.
- 5.4 The report stated that “the Council continues to develop future opportunities for Oldham in the context of the challenging financial landscape. It has a track record of meeting its revenue budget and identifying areas of budget reductions to secure the delivery of public services”. Such comments from the External Auditor can give Members confidence in the financial planning process and hence the robustness of the approach to producing estimates and managing the financial challenges the Council is facing.

6 2018/19 Revised Budget and Year End Forecasts

6.1 The starting point for the consideration of the 2019/20 budget is the current 2018/19 budget position. Since the 2018/19 budget report was approved by Council on 28 February 2018, there have been a number of further one off funding allocations and amendments. These are detailed in the table below. The budget for 2018/19 has therefore increased to £221.453m as reported in the Month 8 financial monitoring report elsewhere on the agenda. The revised 2018/19 budget therefore becomes the revised base budget for 2019/20.

Table 4 - 2018/19 Revised Revenue Budget

	£000	£000
Net Revenue Budget as at 1 March 2017		209,657
Adjusted for use of reserves		7,264
Adjusted Net Revenue Budget		216,921
New One-Off Grant Funding Adjustments		
Adult Personal Social Services Grant	208	
Opportunity Area Grant	2,237	
Adult Social Care Winter Pressures Grant	1,122	
School Improvement Monitoring & Brokerage Grant	261	
Extended Rights to Free Home to School Travel Grant	6	
Personal Advisor support for care leavers	11	
SEND Regional Co-ordinator Grant	24	
Property Searches New Burdens	24	
Transition to Universal Credit Housing	23	
Staying Put Grant	62	
Self Employed Review Funding	20	
KS2 Moderation & KS1 Phonics	13	
Capital Grants	531	
Reduction in DWP Implementation of Universal Credit	(10)	
Business Rates	(928)	
Increase in use of Reserves	928	
Total Budget Adjustments		4,532
Total Revised Net Revenue Budget		221,453

6.2 The table below details the 2018/19 Month 8 year-end forecast position against budget for each Portfolio after the planned transfers to and from reserves:

Table 5 - 2018/19 Month 8 Year-End Forecast Position against Budget

Portfolio	Budget £000	Forecast £000	Variance £000
Chief Executive	2,322	2,307	(15)
Corporate and Commercial Services	5,573	5,072	(501)
People and Place	138,739	143,982	5,243
Health and Adult Social Care Community Services	59,802	59,803	1
Reform	30,615	30,699	84
Capital, Treasury and Corporate Accounting	(15,598)	(20,555)	(4,957)
NET EXPENDITURE	221,453	221,308	(145)

-
- 6.3 Whilst overall corporately there is a small under spend projected at the end of the financial year of £0.145m, the key variance to note is a £5.243m projected over spend within the People and Place Portfolio largely attributable to Children’s Social Care (£4.216m). The principal reasons for this over spend are in the main due to the continued rise in the numbers of looked after children and out of borough placements; this being a continuation of the pressures consistently reported throughout 2017/18 and despite significant investment for 2018/19. There are also reported overspends relating to the increase in the number of children with disabilities requesting personal budgets and the number of care leavers living in supported accommodation.
- 6.4 This therefore highlights the issues the Council is currently facing in relation to increased demand for children’s services. Although management action is being implemented to reduce spending it is unlikely to have a significant impact prior to the start of 2019/20. Other budgets under pressure in the Portfolio are the Home to School Transport Service and the Building Control Service.
- 6.5 The overall corporate position is being managed by offsetting favourable variances, most noticeably from capital, treasury and corporate accounting budgets. This is in part caused by the anticipated cost of borrowing and capital financing being lower than budgeted and the availability of additional Treasury Management income and unringfenced grants not allocated to service budgets.

7 Base Budget Adjustments and Expenditure Pressures 2019/20 to 2023/24

- 7.1 The Council regularly reviews the assumptions and methodologies used to calculate the budget reduction requirements as part of its Medium Term Financial Strategy. This is informed by new or updated funding notifications from Central Government, trends in inflation, other Government policy announcements and changes in issues directly under the influence of the Council, all of which are outlined in Section 3 and Section 4 of the report. It also assumes as the starting point that expenditure and activity levels will continue as in 2018/19, adjusted for any approved budget reductions, growth items and additional burdens arising from new legislation or Central Government policy initiatives.
- 7.2 This section of the report sets out the revised expenditure assumptions that form the basis of the revenue budget estimates for the period 2019/20 to 2023/24 and change the budget requirement from that of 2018/19. The detailed MTFs estimates for 2019/20 and 2020/21 are attached at **Appendix 2**.

Base Budget Adjustments

- 7.3 The starting position for calculating the 2019/20 estimates takes account of the full year effect of 2018/19 adjustments. This has been updated to reflect the current position and includes:
- £0.300m to add back budget reductions approved in 2018/19 which were agreed for one-year only.
 - £4.532m of one-off adjustments relating to 2018/19 temporary funding as shown in table 4.
 - Removal of £0.026m for the Extended Rights to Free Travel Grant where the Council has only received notification of funding for the 2018/19 financial year.

- Adjustments of £0.689m in 2019/20 and £1.100m in 2020/21 to reflect temporary funding arrangements in relation to Early Help services pending a service review due to take place prior to the 2020/21 financial year.
- A £3.902m reduction in 2019/20 for the 2018/19 allocation of Improved Better Care Fund announced in the Spring Budget 2017 (£3.201m) and the 2018/19 Adult Social Care Support Grant announced in the 2018/19 Final Local Government Finance Settlement (£0.701m).
- Reductions in 2020/21 for new grants that have been notified for 2019/20 only. Winter Pressures Grant (£1.122m), Social Care Support Grant (£1.917m) and Flexible Homelessness Support Grant (£0.194m).
- A reduction in funding for Universal Credit implementation costs of £0.155m as detailed at paragraph 8.32 thus directly reducing resources for this initiative.
- As detailed in paragraph 10.2, in 2019/20, the Council intends to use £3.000m of capital receipts to fund elements of Oldham's transformational agenda. As this intention is for one year only the adjustment reverses in 2020/21.

Passporting of Adult Social Care Precept (ASCP)

- 7.4 From 2016/17, the Government has allowed Councils to raise additional Council Tax via an Adult Social Care Precept (ASCP). This additional funding must be ringfenced to support the increased costs of Adult Social Care and is passported directly to Adult Social Care Services. The Adult Social Care Precept, assuming a 2% increase (to reflect Council Tax Policy), for 2019/20 will generate an additional £1.771m to fund pressures within Adult Social Care.

ASCP Taxbase Growth

- 7.5 Revisions to the taxbase increase the funding available to the Council for decisions made to apply the ASCP in 2016/17, 2017/18 and 2018/19. As with monies raised from the application of the ASCP in 2019/20, all additional funding from ASCP taxbase growth will be passported directly to Adult Social Care and for 2019/20 the growth will generate an additional £0.089m.

Passporting of Increased Adult Social Care Grants

- 7.6 Given the national trends in Adults Social Care pressures the Government has supplied additional ringfenced funding for Adult Social Care which will be passported directly to fund Adult Social Care Services. For 2019/20 an additional £6.171m will be passported which consists of £3.463m in relation to the Better Care Fund, £1.586m for the improved Better Care Fund announced in the Spring Budget 2017 and £1.122m for the 2019/20 Winter Pressures Grant confirmed in the 2019/20 PLGFS. It should be noted however that as detailed in paragraph 7.3, the £1.586m reflects a reduction of grant from 2018/19 of £3.201m leaving a net impact of £2.970m.

Demand Pressures – Children's Social Care

- 7.7 Members will be aware that the base budget for Children's Social Care for 2018/19 was significantly increased. However during the financial year demand pressures have continued as illustrated through the 2018/19 Month 8 Revenue Monitor (elsewhere on the agenda) which is showing an adverse variance of £4.216m. Although action is being taken to manage demand and associated expenditure, the service will require additional

investment in 2019/20. This investment will provide resources to support social care expenditure at anticipated levels of demand and allow for the enhancement and strengthening of the staffing establishment to enable effective service delivery.

7.8 The full year effect of this investment in Children's Social Care is £5.282m however the budget will be increased by £4.611m in 2019/20 to reflect the time it will take to bring the staffing establishment up to full complement. As advised previously the Government has provided a one off grant of £1.917m which will support this expenditure in 2019/20.

7.9 It is expected that by 2020/21 the establishment will be fully staffed (at an additional cost of £0.671m) but that the Children's Social Care Service will be operating such that efficiencies of £1.660m will be generated. However these efficiencies do not fully offset the one off nature of the funding offered by Central Government and therefore the Council is required to support its investment in Children's Social Care by a further £0.928m of its own resources in 2020/21.

7.10 Mindful that it will take some time to embed and implement the new operating arrangements within Children's Social Care and thereby manage demand more effectively, a sum of £1.000m will be held in reserve to provide additional financial support if required during 2019/20.

Pay Inflation

7.11 As per paragraph 3.34, pay inflation estimates have been made in line with nationally agreed pay spines and pay awards. These have been allowed for in the MTFs and also the continuation of a locally agreed commitment to the Living Wage Foundation National Living Wage. For Council Services excluding Adult Social Care, the application of the changes to pay are at a 2019/20 value of £1.884m. For Adult Social Care, any pay inflation costs will be met from the additional resources raised through the Adult Social Care Precept (ASCP).

Contractual Inflation

7.12 There are areas of expenditure where there is a contractual commitment linked to a fixed or variable inflationary increase and the estimates for 2019/20 reflect that need. In the main, this relates to increased utility costs and inflationary rises built into service contracts such as those related to Private Finance Initiative (PFI) schemes. It is estimated that for 2019/20 these contractual inflation costs are at a value of £0.878m.

7.13 The MTFs assumes no increase in 2019/20 for general supplies and services inflation and that services will absorb any costs from within current resources. It should be noted however that as detailed in Section 3 of this report, inflation rates at the end of 2018 were at a rate of 2.3% and applying no increase to service budgets effectively reduces the spending power of the Council.

Pension Contributions

7.14 Contribution rates for 2019/20 (at the same level as 2018/19) have been agreed with the Greater Manchester Pension Fund (GMPF) as part of its triennial revaluation exercise which determines the required employer contributions. Any variations to the numbers of employees within services will be managed within service budgets. There is however an estimated 1.4% rise for 2020/21 and a further 1% per annum increase assumed for each subsequent year.

GMCA Levy - Waste Disposal Element

- 7.15 During 2017, following extensive consultation with Districts, the Greater Manchester Waste Disposal Authority (GMWDA) made a decision to terminate existing waste PFI arrangements in order to reduce costs and deliver operational improvements. On 13 December 2017 the Council approved a revised Levy Allocation Methodology Agreement (LAMA) to be implemented from 2019/20 with transitional arrangements in place for 2018/19. In April 2018 the GMWDA transferred all its duties, obligations and statutory powers for waste disposal to the Greater Manchester Combined Authority (GMCA).
- 7.16 The Councils current budget estimate for the GMCA Levy – Waste Disposal Element for 2019/20 was revised when the 2018/19 budget was set following termination of the former PFI arrangements and the agreement of the proposed LAMA. It is expected that the costs will increase by £0.428m in 2019/20 however at this stage, the implications for the 2019/20 budget must be considered indicative as waste tonnage figures, a key cost driver, have yet to be confirmed.
- 7.17 It is anticipated that the Council will be formally notified of the levy for 2019/20 in January 2019. Any variation to the estimated levy will impact on the final budget position presented to Cabinet and Council. Should there be an adverse implication the Council has previously agreed a policy that such a variation would be funded from a reserve held specifically to support increased waste levy costs.

GMCA Levy – Transport Element

- 7.18 The GMCA will consider its 2019/20 Transport Levy to the Greater Manchester Districts in January 2019. Oldham's Transport Levy is expected to be held at the same level as in 2018/19 which therefore means no change to the initial estimate for 2019/20.

GMCA - Contributions to GM-Wide Activities

- 7.19 It has been assumed that GMCA contributions to GM wide activities will remain unchanged at a neutral position compared to 2018/19, although this has yet to be confirmed.

Environment Agency Local Levy

- 7.20 On the 1 February 2019 the Environment Agency will provide Councils with provisional levy amounts for the 2019/20 financial year and then from 8 February 2019 onward will advise of any amendments made as a result to changes to provisional data.
- 7.21 For planning purposes, at this time it has been assumed that the amount will increase in line with previous years and whilst not of a significant value, £0.002m has been added to the estimates for 2019/20 and 2020/21.

Net Impact of Levies/Contributions

- 7.22 The table below advises that taking all the information set out above, the current estimate is that resources of £0.430m will be added to the levy budgets in 2019/20.

Table 6 – Comparison of Levy Contributions

Levy/Contribution	2018/19 Budget £000	2019/20 Forecast £000	Difference £000
GMCA Levy - Waste Disposal Element	17,517	17,945	428
GMCA Levy - Transport Element	16,100	16,100	0
GMCA - Contributions to GM-Wide Activities	757	757	0
Environment Agency	104	106	2
Total Change to Levies/Contributions	34,478	34,908	430

Investment Fund

- 7.23 The Council has agreed an ambitious regeneration programme funded in part by prudential borrowing. This requires revenue spending to support the borrowing costs in line with the projected timeframe for the capital investment. The forecast is that for 2019/20 an additional £3.653m will be required in the investment fund. In the main this is required to offset previous one-off adjustment to estimates approved as part of the 2018/19 budget setting process where it was agreed to re-profile the Minimum Revenue Provision (MRP), the amount that the Council has to set aside from revenue resources to repay debt.

Homelessness

- 7.24 The Council has been notified of a 2019/20 Flexible Homelessness Support Grant after the 2018/19 budget was approved at a value of £0.194m. It is assumed that this grant will be passported to services in 2019/20.

Early Help Funding

- 7.25 Members will recall that the Early Help service in 2018/19 was partially financed from reserves to allow an extension to the Positive Steps contract to enable a review of the whole Early Help delivery model to be undertaken. This review has yet to be completed and to provide for a continuation of the service for a further year, £1.100m has been included in the 2019/20 budget to facilitate the determination of a revised delivery arrangement.

Development Fund

- 7.26 A funding allocation of £1.000m was previously included in the budget estimates to support the funding of business developments which may be identified subsequent to or during the budget process. Following the identification and agreement to fund such pressures which are explained in detail in the following paragraphs, this fund has been fully utilised as part of the 2019/20 budget setting process however it remains at a value of £1.000m for 2020/21 and future years.

Software Licenses

- 7.27 The Council's software license costs in relation to Microsoft products are due to increase at a cost of £0.250m in 2019/20. The Council will be required to incur this additional cost and this is therefore an unavoidable pressure.

Street Cleaning

- 7.28 Members will recall that on 20 August 2018 Cabinet approved a report allocating additional resources to support a Council initiative to promote street cleaning and enforcement. Additional funding of £0.240m in 2019/20 and a further £0.180m in 2020/21 has therefore been included in the budget estimates.

Coroners Service

- 7.29 Members are reminded that Coroners services for Oldham are provided as part of a single service for Bury, Rochdale and Oldham. The service is led by Rochdale and the Council has been informed that an additional £0.180m is required in relation to the Coroner's service due to a forecast increase in operating costs for 2019/20. The Coroner is an independent judicial office holder and not directly employed by the lead Local Authority. Consequently, the Council's influence over Coroner expenditure is limited.

Home to School Transport

- 7.30 Members will be aware that Revenue Budget Monitoring reports considered by Cabinet have highlighted a budget pressure in relation to continuing demand pressures within the Home to School Transport Service. The 2018/19 Month 8 Revenue Monitor presented elsewhere on the agenda details a projected overspend of £0.244m compared to £0.175m at Quarter 2 due to continuing demand pressures in the service. Whilst action is being taken to manage expenditure, it is considered appropriate to increase service budgets by £0.175m in 2019/20. The current routes will be re-procured during the 2018/19 academic year and there will be a review of the Home to School transport policy. This should lead to a reduced cost in line with the Quarter 2 forecast.

Building Control Fees

- 7.31 The 2018/19 Month 8 Revenue Monitor presented elsewhere on the agenda details that the Building Control Service is experiencing a reduction in fee income due to current economic challenges and also an increased requirement to carry out statutory non-fee activities on building safety. This has created an estimated pressure in 2018/19 of £0.204m however a projected increase in fees leading into 2019/20 suggests that a budget adjustment of £0.167m will be sufficient to stabilise the financial position in 2019/20.

Get Oldham Working

- 7.32 The Get Oldham Working agenda is a key Council priority. Within this programme the Oldham Modern Apprenticeship Trainee Scheme has previously been funded from external sources. This external funding source is due to expire at the end of 2018/19 and to continue the scheme and replicate the current programme of financing up to 80 trainees per year there is a requirement to provide a base budget of £0.140m in 2019/20.

Accommodation Costs – Public Health

- 7.33 There are on-going financial liabilities of £0.382m which must be provided in the in 2019/20 budget. This is due to a change in NHS funding arrangements with regard to the Council's use of NHS premises for the provision of Health Visitors and School Nurse services for the 0-5 Right Start Model and the delivery of sexual health service in the Integrated Care Centre.

New Business Developments

- 7.34 The items detailed as new business developments in paragraphs 7.27 to 7.33 have emerged as 2019/20 pressures during 2018/19 and are summarised in the table below:

Table 7 – New Business Developments

Estimated revenue position 2019/20 to 2021/22	2019/20 £000	2020/21 £000
Software Licenses	250	0
Street Cleaning	240	180
Coroners Service	180	20
Home to School Transport	175	0
Building Control Fees	167	0
Get Oldham Working	140	0
Accommodation Costs Public Health	382	0
Total New Business Developments	1,534	200

New Burdens and Service Transfers

- 7.35 As highlighted previously there is considerable uncertainty with regard to the Local Government Finance Regime and its effect on resources available to Council's from 2020/21. In particular the Government's commitment to the introduction of 75% Business Rates Retention means that the range and values of Government Grants is difficult to predict. Also there is an expectation that the new funding regime will require Council's to provide services which have previously been funded from Central Government. As a consequence the budget estimates assume that for 2020/21 any additional funding the Council receives from 75% Business Rates Retention Regime will be matched by New Burdens transferred from Central Government.

Revised Parish Precept

- 7.36 The revised Parish Precept amount reflects the increases in the tax bases for Saddleworth and Shaw and Crompton Parish Councils and the increased precept proposed by Shaw and Crompton Parish Council. This is offset by an opposite and equal adjustment in the Council Tax generated in those areas. The revised 2019/20 Parish Precepts and the tax base growth applicable to the Parish Precepts in 2019/20 generates additional resources at a value of £0.004m.

-
- 8 Provisional Local Government Finance Settlement (LGFS) and Associated Funding Announcements**
- 8.1 The 2019/20 Provisional Local Government Finance Settlement (PLGFS) was released on 13 December 2018. It was issued by the Secretary of State for Housing, Communities and Local Government the Rt. Hon James Brokenshire MP, setting out the Government's formal proposals for the funding of English Local Authorities in 2019/20.
- 8.2 The Government has only provided financial information for 2019/20 in accordance with its offer to provide a multi-year settlement to Councils like Oldham that submitted an Efficiency Plan by 14 October 2016.
- 8.3 Key issues included in the Provisional LGFS and associated announcements are as follows:
- There was little new money included in the Settlement from Central Government apart from the confirmation of the 2019/20 ringfenced Winter Pressures Grant and the 2019/20 unringfenced Social Care Support Grant which were announced in the 2018 Autumn Budget. There was no significant additional funding specifically for Children's Social Care which is currently the Councils major budgetary pressure.
 - The Government confirmed that the referendum limit for general Council Tax increases will remain at 3% for 2019/20 in line with inflation rates as measured by the Consumer Price Index.
 - The Government confirmed its intention to introduce 75% Business Rates Retention (rather than 100%) for all in 2020/21.
 - Proposed changes to the New Homes Bonus payments scheme have been scrapped in 2019/20 with the growth baseline remaining at 0.4%.
 - Resources from the return of excess Business Rates levy income will be paid to Councils in 2018/19 (the Council will receive £0.978m)
 - The GM Mayor, as Police and Crime Commissioner, will have the ability to increase the Police precept by up to £24 in 2019/20, double the amount allowed in 2018/19.
 - Updated Settlement Funding Assessment and Core Spending Power figures were issued for each Authority which included revised Business Rate Top Up grant figures.
- 8.4 The implications of these matters in the context of Oldham Council are dealt with from paragraph 8.19 of the report.
- 8.5 Three consultation papers were published alongside the 2019/20 PLGFS. The consultations cover the 2019/20 provisional settlement, reform of the Business Rates Retention system and a review of Local Authorities' relative needs and resources. The Final Settlement will be issued once the Government has had the opportunity to consider consultation responses on the Provisional Settlement. This is likely to be late January / early February 2019. Any funding changes will be included in budget estimates upon notification.
- 8.6 The response to the consultation on the settlement was submitted before the deadline of 10 January 2019 and was prepared by the Director of Finance in consultation with the Deputy Leader and Cabinet Member for Finance and Corporate Resources. The consultation paper sought responses to eight questions related to the distribution of Revenue Support Grant, Social Care Support Grant, New Homes Bonus and Rural Services Delivery Grant. The paper also sought views on the distribution of national levy account surpluses, Council Tax Referendum Principles and the issue of negative Revenue Support Grant. The Council has responded from the position of believing that resources where possible should be distributed on the basis of need.
- 8.7 The consultation paper relating to Business Rates Retention reform explores a range of issues associated with resetting the system and moving to 75% local rates retention from 1 April 2020. The consultation paper covers the approach to resetting baselines, proposed revisions to levy and safety net arrangements, tier splits (e.g. between Counties and

Districts) and pooling incentives. The paper also seeks views on proposals that aim to simplify the administration of the system.

- 8.8 The third paper covering relative needs and resources seeks views on proposals to update and reform the formula for allocating resources as part of the Local Government finance system. From 1 April 2020, the Government is proposing to introduce a ‘foundation formula’ for allocating a proportion of resources on a per capita basis supplemented by service specific formulas for large and/or complex services such as Adults and Children’s Social Care. The formula will continue to take account of the relative ability of councils to raise revenue through local taxation and arrangements are likely to be introduced to smooth transition from the current system to the new system. The key challenge associated with responding to this and the Business Rates Retention consultation is that stakeholders are being asked for views on principles and aspects of design without being provided with illustrations or information as to how these reforms will impact on funding allocations and risk for individual Local Authorities.

Settlement Funding Assessment

- 8.9 The Settlement Funding Assessment (SFA) is a Government calculated figure which includes the Revenue Support Grant (RSG) and the Baseline Funding Level (BFL). The BFL comprises Business Rates Top Up Grant plus the Government’s assessment of Business Rates that can be collected locally (known as Business Rates Baseline). GM Districts do not currently receive any RSG in lieu of piloting 100% Business Rates retention.

National position

- 8.10 The Government is continuing with its spending review commitment to reduce departmental spending and as such the following table shows these reductions in the National SFA. The reduction from £16.943bn in 2018/19 to £15.958bn in 2019/20 represents a 5.8% decrease in national funding.

Table 8 – National SFA Amounts

2018/19 £m	SFA for England	2019/20 £m
16,943	Settlement Funding Assessment	15,958
	of which:	
1,379	Revenue Support Grant	653
15,564	Baseline Funding Level	15,305

Oldham Council

- 8.11 The position for Oldham, following the submission and acceptance of its Efficiency Plan in 2016 is as anticipated and the reduction in the SFA from £102.816m in 2018/19 to £96.899m in 2019/20 represents a 5.75% decrease, in line with the decrease in overall national funding.

Table 9 – Oldham SFA Amounts

2018/19 £000	SFA for Oldham	2019/20 £000
102,816	Settlement Funding Assessment	96,899
	of which:	
0	Revenue Support Grant	0
102,816	Baseline Funding Level	96,899

- 8.12 The SFA figures provided for Oldham compared to the current estimates suggest a small increase of £0.046m for 2019/20. This is due to the updating of the Small Business Rates Multiplier from 48p in 2018/19 to 49.1p in 2019/20, an increase of 2.29%. It is important to note that the change in SFA is not supported by a corresponding increase in grant funding.

Table 10 – Oldham SFA Changes

Funding Stream	Current Estimates £000	Settlement £000	Variance £000
Settlement Funding Assessment	96,853	96,899	46

Core Spending Power

- 8.13 Published alongside the PLGFS was the Government’s estimates of Core Spending Power (CSP). This is the Government’s assessment of the expected revenue resources available to Local Authorities in 2019/20 using Office of Budget Responsibility estimates.
- 8.14 The Provisional Settlement includes detail by individual Authority and the comparative amounts for 2018/19 and 2019/20 for Oldham are shown in the table below:

Table 11 – Oldham’s Core Spending Power

2018/19 £000	Core Spending Power for Oldham	2019/20 £000
185,619	Core Spending Power	189,197

- 8.15 Whilst the settlement Core Spending Power implies the Council has £3.578m more resources than in 2018/19, the Government’s CSP figures include assumptions as to the growth of the tax base and annual tax increases that are not in line with the Council’s own budget assumptions and estimates.

Business Rates Retention – National Levy Account 2018/19 Surplus

- 8.16 As part of the operation of the Business Rates Retention system, some Authorities pay a levy on the growth in their business rates. This levy is designed to meet the cost of the safety net payments for those Authorities that have seen a decline in their income below 92.5% of their individual baseline funding level in a single financial year. MHCLG, on behalf of the Government, manage levy income and safety net payments.
- 8.17 National Non-Domestic Rates (NNDR3) data published on 21 November 2018 confirmed that, as a result of growth in business rates collected by Authorities in 2017/18 and the associated levy payments, there is a surplus of £195m in the 2018/19 levy account. The Government intends to distribute the majority of this surplus (£180m) to all Local Authorities based on the 2013/14 settlement funding assessment (sum of each authorities RSG and Baseline Funding Level allocations). It is intended that the remainder of the surplus (£15m) be held back to meet potential safety net payments for 2019/20.
- 8.18 The provisional allocation for Oldham is £0.978m which is expected to be received late 2018 for inclusion in 2018/19 accounts, hence it is not included in 2019/20 Core Spending Power calculations. This resource can be carried forward in the 2018/19 accounts and be used to support the 2019/20 budget.

Unringfenced Government Grants

8.19 As part of the Provisional LGFS, the Government has published the following funding allocations.

Business Rates Top Up

8.20 Business Rates top up grant for 2019/20 is £40.653m, some £7.322m less than the equivalent figure for 2018/19 which reflects the Government's planned and ongoing reductions in funding support for the Local Government sector. Business Rates Top Up grant funding for 2020/21 and future years reflect the move from 100% to 75% Business Rates Retention (as per the detail in Section 3 of this report) and therefore shows an anticipated increase in top up grant whilst Business Rates income falls.

Grants in Lieu of Business Rates

8.21 Grants in lieu of Business Rates are currently forecast to be £7.716m for 2019/20. This represents compensation for historic Government policy announcements and events that have the impact of reducing the amount of business rates revenue it is possible to collect. These grants are effectively a substitute for Retained Business Rates income. Grant compensation has arisen from policy announcements that have included:

- Caps on increases in the Business Rates multiplier for 2014/15, 2015/16 and post 2018/19;
- The doubling of small business rates relief and threshold changes for 2019/20;
- The cost of providing the recently announced retail discount; and
- Other small reliefs for discretionary schemes and supporting small businesses.

8.22 The compound effect of these changes coupled with the impact of appeals means the calculation of these amounts has become incredibly complex and burdensome. Final figures are derived from the Council's NNDR 1 return which will be submitted by 31 January 2019. On 17 December 2018 Cabinet delegated the decision to vary the final Business Rates forecast and hence the Business Rates Tax base, if required, to the Deputy Leader and Cabinet Member for Finance and Corporate Resources in consultation with the Executive Director of Corporate and Commercial Services and the Director of Finance.

Revenue Support Grant and Public Health Grant

8.23 As part of the arrangements for participating in the GM 100% Business Rates Retention Pilot Scheme, the Council no longer receives separate funding allocations for Revenue Support Grant and Public Health Grant. Furthermore, the ringfence that normally applies to Public Health Grant funding has been removed. This funding has been replaced by a higher level of retained business rates and top up grant. The equivalent level of funding rolled into the 100% Rates Retention Pilot Scheme is Revenue Support Grant of £16.701m and Public Health Grant of £16.445m.

Improved Better Care Fund Grant

- 8.24 The Provisional LGFS confirmed the iBCF allocations published as part of the 2015 settlement at a value of £8.150m for 2019/20. The Provisional LGFS also confirmed the additional funding for 2019/20 which was announced in the Spring Budget 2017 at a value of £1.586m. The full detail of the grant and the proposed spending plans are detailed earlier in this report in paragraphs 3.55 to 3.61.

Independent Living Fund (ILF) Grant

- 8.25 The Council took over responsibility from Government for the functions associated with the former Independent Living Fund during 2015. Independent Living Fund Grant payments were again confirmed as the figures in the multi-year allocations published at the beginning of the 2016/17 financial year. These figures are included in the Council's budget estimates and are £2.580m for 2019/20 and £2.500m for 2020/21. This funding has been passported in full to the service as approved as part of the 2016/17 budget process.

2019/20 Winter Pressures Grant

- 8.26 The PLGFS confirmed the Winter Pressures Grant announced in the Autumn Budget which provides an additional £240m nationally in 2019/20 for adult social care to help Councils alleviate winter pressures on the NHS. The Council has had its previously notified allocation confirmed at a value of £1.122m in the form of a ringfenced grant. Its use must be agreed with NHS partners and reported to the Department for Health and Social Care.

2019/20 Social Care Support Grant

- 8.27 The PLGFS also confirmed a further £410m nationally in 2019/20 for adults and children's social care in the form of an unringfenced Social Care Support Grant. This grant has been provided in response to Councils concerns with regard to pressure on adult and children's social care services and the expectation is that Councils will use the funding to meet those pressures. The Council has had its previously notified allocation confirmed at a value of £1.917m and will be used to support Children's Social Care spending pressures.

Housing Benefit Administration Grant

- 8.28 The Government will continue the payment of this unringfenced grant which compensates Local Authorities for the administration of the Housing Benefit system. The Department for Work and Pensions has given notification that the grant will be £0.759m for 2019/20.

Council Tax Administration Grant

- 8.29 The Government provides an unringfenced grant which compensates Local Authorities for the administration of the Council Tax system. The MHCLG has given notification that the grant will be £0.362m for 2019/20.

New Homes Bonus Grant

- 8.30 The 2019/20 Local Government Finance Settlement Technical Consultation Paper issued in July 2018 proposed amendments to the New Homes Bonus Grant through an adjustment to the variable baseline growth element of the grant. The Secretary of State, following consultation feedback, has decided not to implement the proposed adjustment resulting in no change to the calculation methodology. For 2019/20 Oldham Council will receive a New Homes Bonus Grant allocation of £0.961m which is £0.064m less than previously anticipated due to lower than expected house building in 2018/19.

Department for Work and Pensions (DWP) – New Burdens Grant

- 8.31 The Department for Work and Pensions (DWP) provides funding allocations to support the implementation of new incentives in relation to the administration of benefits. The DWP has given notification the grant for 2019/20 will be at a value of £0.104m.

DWP - Implementation of Universal Credit Grant

- 8.32 The Department for Work and Pensions (DWP) also provides funding allocations to support the implementation of Universal Credit. The DWP has advised that for 2019/20 Oldham will receiving an allocation of £0.068m to support residents moving from Housing Benefits to Universal Credit. This allocation is £0.155m lower than in 2018/19. Although an unringfenced grant it had been passported through to support service provision. In line with the fall in the grant received, service expenditure matched to the grant will therefore be reduced by £0.155m.

Homelessness Grants

- 8.33 Homelessness Grants for which funding has been notified currently total £0.256m consisting of £0.194m Flexible Homelessness Support Grant and £0.062m Homelessness New Burdens Grant. These grants are passported to the service.

Lead Local Flood Authority Grant

- 8.34 The Council, as a Lead Local Flood Authority also receives a grant from the MHCLG and on 13 June 2017 received confirmation of 2017/18 allocations and provisional funding allocations up to the 2019/20 financial year. The estimates in the MTFS assume funding as per this provisional funding allocations at a value of £0.012m in 2019/20.

Ringfenced Grants

- 8.35 The estimates underpinning the Council's MTFS are based on ringfenced grants being allocated to fulfil their intended purpose. Such grants include Housing Benefit Subsidy and Dedicated Schools Grant. Ringfenced grant assumptions are based on the allocations that have been notified by the funding body. It is important to note that any spending above the ringfenced grant level can impact on the Council's financial position. It is essential that services funded by ringfenced resources are managed with the same level of challenge and scrutiny as those funded by general resources.

Dedicated Schools Grant

- 8.36 The Dedicated Schools Grant is a ringfenced grant payable to Local Authorities by Government for the funding of schools. Over a number of years, the Government is changing the way it funds schools via the DSG from locally agreed arrangements towards a standard means of allocating resources. This is known as the National Funding Formula (NFF).
- 8.37 There is no requirement for Authorities to move further to the funding allocation methodology introduced by the NFF in 2018/19, however there is a requirement for the Local Authority to consult with schools on the DSG allocation methodology that will be applied.

-
- 8.38 The DSG is made up of 4 blocks of funding :
- a) The **Schools** block covers funding for:
 - Individual mainstream schools and academies
 - Growth Funding for planned growth by the Local Authority (LA) in schools
 - b) The **High Needs** block covers funding for the education of pupils subject to Education, Health and Care Plans from age 0-25 in a range of provision including special schools, mainstream schools, alternative provision, independent specialist provision and Council centrally retained expenditure for High Needs. Funding for the High Needs block has over the past few years, not kept pace with demand.
 - c) The **Early Years** block covers:
 - Two Year old Funding
 - Early Years Funding in Schools and Private, Voluntary and Independent provision
 - Centrally retained expenditure for under 5's
 - d) The **Central Schools Services** block covers:
 - Funding previously allocated through the retained duties element of the Education Services Grant (ESG) which has been discontinued from 2018/19
 - Central school services which includes the expenditure related to Schools Forum, Premature Retirements, Admissions service, ICT for schools and School Improvement
 - School Licenses
 - Statutory and Regulatory duties
- 8.39 Each of the 4 blocks is determined by a separate National Funding Formula which calculates the funding due to Local Authorities. The Department for Education (DfE) calculated the funding that Local Authorities will receive for the Schools Block as if the National Funding Formula had been applied. Yet, for 2019/20 and 2020/21 (a year later than originally announced) it remains the role of the Local Authority to determine the funding to schools and academies via their Local Funding Formula for the Schools Block.
- 8.40 The former Secretary of State for Education announced, in July 2017, the Schools and High Needs funding formula to Local Authorities would be supported by an additional £1.3bn of funding by 2019/20 (£416m in 2018/19 and £884m in 2019/20). Of this sum, the notional amount for Oldham which was then considered available for schools and High Needs was an increase of £2.177m in 2019/20, which brought the anticipated level of overall DSG resources to £223.874m. This was based on 2017 pupil figures and was subject to update once the 2018 pupil figures were taken into account. The notional allocations did not include any amounts for the Early Years Block.
- 8.41 As there is a requirement to agree the funding formula with schools, consultation with schools and the Schools Forum was required. A budget paper, based on 2017 pupil numbers and a total funding allocation of £223.874m, was presented to Schools Forum on 28 November 2018. This suggested a funding allocation methodology for schools, which continued to use Oldham's existing funding formula but moved further to the proposed national formula but with a minimum funding guarantee of 0% (protecting schools from any losses on pupil led funding) but a cap on gains of 1.27%. Importantly it also proposed a 1% movement between the Schools and High Needs Blocks which Schools Forum was asked to approve.
-

- 8.42 This total 1% movement of funds between blocks was proposed as the outturn DSG position for 2018/19 was a projected deficit of £4.710m, mainly due to additional costs of funding from the High Needs block for Special Schools, the Pupil Referral Unit and additional children with statements in mainstream schools. Subsequently, the projected outturn deficit has reduced due to the notification on 17 December 2018 of £0.622m of additional High Needs funding which will be used to partially offset the position to give a revised projected deficit of £4.088m. However, it still remains a cause for concern.
- 8.43 It is an important element of the financial management of the Authority that the DSG is not in a deficit position and there has been action to try to address this. However, this has been more than offset by the increasing numbers of children with special needs entering the schools system. Action taken includes
- the revision of Council processes to ensure that education health plans are issued in a more timely manner and reviewed more frequently with regard to the needs of the child
 - changes to the process for placement of children out of borough
- 8.44 The funding formula proposed was approved by Schools Forum and provides a minimum funding level per pupil of £3,500 for primary and £4,800 for secondary schools. Also, for secondary schools the income deprivation affecting children index (IDACI) was included in the proposed funding formula at 10% NFF values (for the lowest two bands) together with a 1% transfer between the Schools Block and High Needs Block. The funding formula and 1% transfer between blocks was reported to and approved by Cabinet on 17 December.
- 8.45 The Council received the final DSG notification for 2019/20 including an amount for the Early Years Block on 17 December 2018. The 2019/20 DSG for Oldham is at a total value of £245.086m, which includes an additional funding of £1.551m for the Schools Block. The total allocation is analysed over the four funding blocks including comparisons to the indicative allocations in the table below:

Table 12 – Dedicated School Grant 2019/20

	Schools block £000	Central school services block £000	High needs block £000	Early years block £000	Total DSG allocation 2019/20 £000
2019/20 Indicative Allocation	188,937	2,984	31,952	0	223,874
2019/20 Actual Allocation	190,488	2,999	32,839	18,760	245,086
Variance	1,551	15	887	18,760	21,212

- 8.46 Also on 17 December the Secretary of State for Education announced additional funding of £250m over 2 years for the High Needs Block to address the national pressure on High Needs spending and in response to representations made by the Local Government and Schools sectors. As referred to above, this included an allocation for Oldham of £0.622m in each of 2018/19 and 2019/20. The allocation for 2019/20 is included in the above figures. The Secretary of State also advised that Authorities, where movements between the Schools and High Needs blocks had been agreed for 2019/20, may wish to reconsider their funding arrangements.
- 8.47 In this regard, given the current level of the DSG deficit and that that this will inevitably increase without remedial action, the Council still considers that a movement between

blocks is necessary. The recommended approach to be presented to the next meeting of Schools Forum on 17 January 2018 is a slight reduction in the movement between the Schools and High Needs blocks from 1% to 0.84% combined with a different approach to the funding available to schools via the formula.

- 8.48 The Schools Forum meeting will therefore receive information on the updated funding allocation together with the proposed DSG budget for 2019/20. Schools Forum will be advised that the additional resources will allow a minimum funding guarantee (MFG) of an increase of 0.1% over 2018/19 pupil led funding with a cap on increases at 1.37%. It will also be advised that individual school budgets include funding for non-pupil led funding i.e. Lump Sum, premises, Private Finance Initiative and split site costs, and these factors do not receive a 0.1% MFG increase. Therefore the percentage change in school budgets between 2018/19 and 2019/20 may not fully equate to 0.1% increase in all instances.
- 8.49 In total therefore after allowing for the 0.84% movement of £1.594m the revised Schools Block is £188.894m and the revised High Needs Block is £34.433m.
- 8.50 Work will be continuing during the remainder of 2018/19 and throughout 2019/20 to address the DSG deficit position building on the work already in train, with the development of a detailed DSG recovery plan in consultation with Schools Forum. However, the Council has advised Schools Forum that if insufficient progress is made in taking forward such a plan then it will, with effect from September 2019, the start of the next academic year:
- Reduce top up funding given to mainstream schools with pupils with education health and care plans
 - Reduce top up funding given to special schools
 - Introduce new funding arrangements for over capacity over occupancy (over capacity) funding for Special Schools
- 8.51 It is important to note that the DfE has recently consulted on the implementation of new arrangements for reporting deficits of the DSG. The consultation document suggested that a report will be required from all Local Authorities that have an overall cumulative DSG deficit of 1% or more at the end of 2018/19. The recovery plan should look to bring the overall DSG into balance within a maximum of three years. Given the current position, Oldham will be required to submit such a report to the DfE and the action proposed within the report should ensure DfE requirements are satisfied.

Housing Benefit Subsidy Grant

- 8.52 The Council receives Housing Benefit Subsidy Grant funding from the Department for Work and Pensions (DWP). Allocations are determined on the submission of a Local Authority's initial estimate for its anticipated levels of rent allowances and rent rebates within a financial year. A revised estimate takes place mid-year. In addition to these estimates the DWP also allocates an amount for the administration of the scheme which is based on the number of new housing benefit claims and overall caseload. This is presented at paragraph 8.28 of the report.
- 8.53 In 2018/19 the Council is currently forecasting £56.7m of funding for Housing Benefit from the DWP. This allocation is likely to be reduced in 2019/20 as Housing Benefit caseloads fall as a direct result of the transition to Universal Credit (UC). The estimated 2019/20 position will be captured following the Council's submission of updated information in accordance with the statutory deadline of 1 March 2019.

Discretionary Housing Payments (DHP)

- 8.54 The Council is awaiting notification of allocations for 2019/20. For the 2018/19 financial year, the amount received by the Council was £0.654m and it is expected that the allocation for 2019/20 will be at a similar level. When received, this will be treated as a ringfenced grant as Authorities are required to provide a statement of grant usage and to return any unspent DHP allocation to the Government at the end of each financial year.

9 Locally Generated Income

- 9.1 As Government grant funding continues to diminish, locally generated income from Council Tax and Business Rates is providing an increasing proportion of funding for Council services.

Retained Business Rates

- 9.2 Included within Section 3 of the report is an explanation of the Business Rates system as applicable at present. Section 3 also explains the operation of both the GM 100% Business Rates Retention Pilot Scheme and Business Rates Pooling arrangements for 2019/20. From the figures presented in Section 8, it is also clear that the Government has implemented many policy changes since rates retention was introduced in 2013 that have resulted in a reduction in the amount of Business Rates revenue it is possible to collect. The Government has assured Councils that such policy announcements will continue to be fiscally neutral with Councils being provided with grant compensation in lieu of Business Rates revenue. It has also provided specific assurances to areas like Greater Manchester to ensure the region is no worse off as a result of piloting 100% rates retention.
- 9.3 The 100% rates retention pilot scheme so far is proving to be a success and is generating additional gains for both Oldham, other participating Districts and the GMCA. The forecasts included in this report show a benefit to Oldham of participating in the pilot scheme of some £1.218m which will be carried forward as a reserve from 2018/19 to support the 2019/20 budget. Although Business Rates revenue growth remains uncertain, it is hoped similar gains will be available in the final year of the pilot scheme.
- 9.4 For budget planning purposes, the Council's share of business rate revenues are projected to be £53.468m for 2019/20. This estimate has been revised to take account of the Provisional LGFS, the operation of the GM 100% Business Rates Retention Pilot Scheme and the result of the 2017 revaluation.

Council Tax Tax Base

- 9.5 Council Tax is the largest single revenue stream that is used to support the Council's revenue budget. Council Tax and Adult Social Care Precept income changes each year due to changes in the tax base (increase/decrease in chargeable Band D equivalent properties), fluctuations in collection rates and the Council's annual decisions on the level of the tax.
- 9.6 Each year the Council is required to review its Tax Base by considering the:
- numbers of properties within the boundary of the borough which determines the number of Band D equivalent properties upon which the Council Tax calculations are based; and
 - anticipated level of Council Tax that will be collected known as the Collection Rate.

9.7 On 17 December 2018 Cabinet considered and approved the calculation of the Council Tax Base for 2019/20. The approved tax base has increased by 1,027 from 55,666 to 56,693. The tax base calculations are summarised in **Appendix 1**.

9.8 The tax base beyond 2019/20 is estimated to increase by around 400 Band D equivalent properties per annum to 2023/24 resulting from the building of new properties, fewer households claiming Council Tax Reduction support and empty properties being brought back into use.

Council Tax Reduction Scheme

9.9 The Council Tax Reduction Scheme for 2019/20 is due to be formally approved at the Council meeting of 27 February 2019. The scheme itself has remained unchanged in recent years. In April 2017, Universal Credit Full Service (UC) commenced its roll out in Oldham. A wider understanding of the impact of this roll out has now presented the Council with an opportunity to reconsider its CTR scheme for 2019/20.

9.10 Proposals to change the CTR scheme have been consulted upon and include the continuation of limiting support to a maximum of 85% of Council Tax of a Band A Property, the disregard of Bereavement Support Allowance, Post Graduate Master's Degree Loan and Special Support payments in the assessment of CTR, the introduction of support for UC/CTR claimants including earnings disregards, use of DWP information as an intention to claim and incorporation of housing costs in the UC maximum award. The CTR scheme for 2019/20 is being considered elsewhere on the agenda. On the basis that the proposed scheme is approved it will reduce the level of Council Tax income available to support the budget. However, the estimated impact has been considered alongside the proposal to increase the level of charges on empty properties set out below and the agreed taxbase.

General Increase in Council Tax

9.11 Within the 2019/20 Provisional LGFS, the Government confirmed the referendum limit for general Council Tax at a maximum increase of 3% for 2019/20 in line with current inflation rates as measured by the Consumer Price Index. This is 1% above previous levels and therefore allows the Council the option of introducing a general Council Tax increase of up to 2.99% without triggering a referendum.

9.12 The current Council Tax policy is for a general Council Tax increase of 1.99% and there is currently no proposal to change this. The total 2019/20 Council Tax generated following this increase will be at a value of £85.399m.

Council Tax Empty Property Premium

9.13 The Council currently applies a Council Tax Empty Property Premium of 50% for properties empty and unfurnished for over two years. This policy was introduced from 1 April 2013 to encourage owners of empty properties to bring properties back into use and to help mitigate the impact of reduced central government funding. However, the Government announced in the Spring 2017 budget, that from 1 April 2019 Local Authorities would be given discretion to increase the Council Tax Empty Property Premium to a maximum of 100%, with the ability from 1 April 2020 to introduce additional premiums for properties empty and unfurnished for over five years and over ten years. This legislation in the form of the Rating (Property in Common Occupation) and Council Tax (Empty Dwellings) Act 2018 received Royal Assent on November 1 2018.

- 9.14 The legislation means that for properties empty between 5 years and 10 Years a maximum a premium of 200% can be applied. If a property is empty and unfurnished for over 10 years a premium of 300% can be applied. If the Council were to introduce the maximum allowance premiums from 1 April 2020 the position would be as set out below:

Table 13 – Council Tax Empty Property Premium

Length of Time Vacant	Premium %
Less than 5 years	100
Between 5 years and 10 years	200
Over 10 years	300

- 9.15 Initially the Council intends to increase the empty property premium from 50% to the maximum 100% allowed from 1 April 2019. The impact of increasing the premium will be monitored throughout the 2019/20 financial year and increased income will support changes in the CTR scheme as set out above. Due consideration will be given prior to introducing the additional premiums from 1 April 2020 in line with the legislation.

Adult Social Care Precept

- 9.16 The revenue raised from the Adult Social Care Precept (ASCP) must be ringfenced to support the increased costs of Adult Social Care, in part caused by Government sanctioned increases in the National Living Wage and the consequent impact on the cost for provision of care. The Government's calculation of CSP assumes this precept is levied by Oldham and by all Councils. It is proposed that the precept, which has to be highlighted separately on the face of the Council Tax bill, will be levied by the Council at a 2% increase. This will generate an additional £1.771m Council Tax income for 2019/20.
- 9.17 To ensure that Councils are using income from the precept for Adult Social Care, Councils are required to publish a description of their plans, including changing levels of spend on Adult Social Care and other services which requires sign off from the Council's Chief Finance Officer (The Director of Finance).
- 9.18 Although Government has only indicated that the Adult Social Care Precept will continue to 2019/20, the MTFs assumes it will continue beyond the current spending review period which ends in 2019/20.

Increased level of Council Tax income

- 9.19 The proposals set out in this report assume that a 1.99% general increase to Council Tax is applied for 2019/20. Together with the proposed increase in the Adult Social Care Precept detailed in paragraph 9.16, this represents an overall increase of 3.99% in Band D equivalent Council Tax for Oldham Council services. Oldham Council Band D Council Tax for 2019/20 is therefore proposed to be £1,624.36 of which £118.02 relates to the Adult Social Care Precept.
- 9.20 Compared to figures presented in the 2018/19 budget report, the proposed increases and revised Tax Base will generate additional Council Tax of £0.974m and Adult Social Care Precept of £0.089m. The budget gap estimates have been updated to reflect the increase of income in General Council Tax and the Adult Social Care Precept. The Adult Social Care Precept increased income will be passported direct to Adult Social Care services.
- 9.21 Members are however reminded that the Council Tax and Adult Social Care Precept estimates presented in this report are merely an illustration. The actual level of Council Tax and Adult Social Care Precept to be charged is a matter to be decided by Budget Council.

-
- 9.22 Members are also reminded that the Council is required to calculate its Relevant Basic Amount (RBA) of Council Tax to determine whether there is a requirement to hold a referendum about a Council Tax increase above a level that the Government considers excessive.
- 9.23 This “excessiveness” is determined annually and for 2019/20 was detailed in ‘The Referendums Relating to Council Tax Increases (Principles) (England) Report 2019/20’ which was published as part of the PLGFS. For 2019/20, the RBA consists of an increase in the RBA of Council Tax comprising a maximum of 3% for general Council Tax plus an element for the Adult Social Care Precept (6% less 2017/18 ASCP increase less 2018/19 ASCP).
- 9.24 As part of the 2017/18 LGFS, the Government allowed Councils to raise an ASCP of up to 6% over a three year period to 2019/20. The precept was permitted to increase by a maximum of 3% in 2017/18 with a further 3% in 2018/19 provided there was no further increase in 2019/20. To help reduce the impact on residents, Oldham Council chose to charge the precept but at an increase of 2% in 2017/18 with a further increase of 2% in 2018/19 and 2019/20.
- 9.25 This means that locally for Oldham the 2019/20 maximum Council Tax increase available is 5% (comprising a maximum 2% for the Adult Social Care Precept and 3% for other services). Any increase below 5% would not therefore be classed as excessive and as such the proposed increase of 3.99% would not trigger a referendum. Members are therefore reminded that Council Tax could increase by a further 1% above the agreed policy and still remain within the referendum limits.

Parish Precepts

- 9.26 Parish Precept income is collected by the Council on behalf of the Saddleworth and Shaw and Crompton Parish Councils. These precepts are included on the Council Tax bills of properties falling within these parish areas. The revenue collected is for the benefit of each parish and thus has no impact on the financial projections presented in this report. The revised 2019/20 Shaw and Crompton Parish Precept, proposed 8 January 2019, and the 2019/20 growth in the tax base for both parishes produces an increase of £0.004m as shown in paragraph 7.36 which increases the total parish precepts to a value of £0.268m.

2018/19 Collection Fund Forecast Outturn Position

- 9.27 The Collection Fund is a statutory fund separate from the General Fund of the Council. The Local Government Finance Act 1992 (as amended) requires that the Council as the Billing Authority calculates a Collection Fund estimate on 15 January each year. This may produce a Council Tax surplus or deficit which can then be distributed to the Council and the GMCA for the Mayoral Police and Crime Commissioner Precept and the Mayoral General Precept (including Fire Services). In addition, the Business Rates surplus or deficit can be distributed to the Council and the GMCA.
- 9.28 The Collection Fund forecast outturn projection is presented as part of the revenue monitoring reports considered by Cabinet throughout the year. Business Rates are a highly complex and volatile tax and it is exceptionally difficult to forecast movements over the short to medium term with great accuracy. At this stage, for budget setting purposes and for the purpose of notifying the GMCA as major preceptor, it is assumed that the Collection Fund forecast outturn position for both Council Tax and Business Rates for 2018/19 will be a surplus of £2.612m enabling the Council to take its share at a value of £2.269m to support the 2019/20 revenue budget.

10 Other Income Sources

Fees and Charges

- 10.1 The provision of many Council services relies on the collection of revenue from fees and charges. Specific proposals in relation to fees and charges are set out in Section 15 of this report.

Flexible use of Capital Receipts

- 10.2 As part of the Local Government Finance Settlement (LGFS) in March 2016, the Secretary of State for Housing, Communities and Local Government provided Local Authorities with the opportunity to use capital receipts to fund the revenue costs of transformation. This flexibility was then extended to 2021/22 as part of the 2018/19 LGFS. The Council intends to use up to £3m of capital receipts to fund elements of Oldham's transformational agenda in line with the directive guidance and therefore in 2019/20 the first £3m of unfettered receipts will be used to support the revenue budget via the financing of transformational projects.
- 10.3 The flexible use of capital receipts is designed to offset the revenue cost of transformational projects which are expected to deliver future ongoing revenue savings for either the Council or other public sector delivery partners.
- 10.4 In order to take advantage of the change of use to capital receipts, the Council must act in accordance with the statutory guidance issued by the Secretary of State. This guidance requires the Council to prepare, publish and maintain a Flexible Use of Capital Receipts Strategy. The Council's Flexible Use of Capital Receipts Strategy is included in the Capital Strategy presented elsewhere on the agenda.

11 Revised Budget Gap Forecast

- 11.1 Since the 2018/19 budget was set on 28 February 2018, a number of developments have meant it is necessary to adjust future years base budget estimates and revisit a number of expenditure pressure calculations.
- 11.2 Bringing together all of the assumptions and information set out earlier in this report the budget gap for 2019/20, presented to Council on 28 February 2018 at £17.986m has increased by £4.710m to £22.696m.
- 11.3 The impact of revisions to assumptions for the period 2019/20 to 2020/21, compared to the position reported on 28 February 2018 is presented in Table 14 below and is summarised in the following paragraphs.

Table 14 – Change to Budget Gap since 28 February 2018

Estimated revenue position 2019/20 to 2020/21	2019/20 £000	2020/21 £000
Budget Reduction Requirement as at 28/02/2018	17,986	7,817
Reversal of indicative future years savings submitted 2018/19	3,231	3,846
Reversal of Approved Use of Reserves 2016/17	250	
Revised total after 'roll-forward' adjustments	21,467	11,663
Adverse changes to estimates		
Government and other external agencies		
Grants in lieu of Business Rates	928

Revised Gap / Budget Reduction Requirement	22,696	14,571

Reversal of Future Years Indicative Budget Reduction Proposals

- 11.4 Members will recall that within the Revenue Budget 2018/19 and Medium Term Financial Strategy 2019/20 to 2021/22 presented to Council on 28 February 2018 included £3.231m of Indicative Budget Reduction Proposals for 2019/20 with a further £3.846m for 2020/21. As detailed plans for the delivery of the savings had yet to be developed these proposals have been removed from the revised estimates. This provided the opportunity to reconsider the feasibility of these proposals and if appropriate they have been resubmitted as new budget reduction proposals for 2019/20.

Adverse Changes to Estimates

Government and other external agencies

Grants in lieu of business rates

- 11.5 Members will recall that on 20 March 2018 the Secretary of State announced that an “historic error” had been found in the way that Section 31 grants had been calculated for all 100% Rates Retention pilot scheme areas. As a consequence, the calculation of payments made to all Local Authorities piloting 100% business rates retention were adjusted. For Oldham, this resulted in a reduction in grant of £0.928m which had to be made good by reserves in year. This has therefore to be addressed as a budget pressure in 2019/20.

DWP Grants

- 11.6 The Council has received confirmation of grant levels from the DWP in relation to Universal Credit and New Burden administration (detailed in Section 8 of this report). The net effect of changes in grant increase the budget reduction requirement in 2019/20 by £0.037m with an additional expected reduction of £0.172m in 2020/21.

Homelessness Support

- 11.7 The Council has been notified of a 2019/20 Flexible Homelessness Support Grant after the 2018/19 budget was approved at a value of £0.194m. It is assumed that this grant will be passported to services in 2019/20.

New Homes Bonus

- 11.8 Following the 2018/19 introduction of baseline growth adjustments and lower than anticipated house building in 2018/19, it is now estimated that the Council will receive a reduced level of grant at a value of £0.961m in 2019/20. This is £0.064m lower than previous estimates.

Environment Agency Levy

- 11.9 This levy is assumed to continue to increase by 2% per annum. The previous assumption was cash standstill. The revised assumption increases the Budget Reduction Requirement by £0.002m per annum from 2019/20.

Demand and other pressures

Children's Social Care

- 11.10 As detailed in paragraph 7.7 Children's Social Care remains an area of considerable pressure. In 2019/20 the service requires funding of £4.586m more than the £0.025m already allowed for. The estimate for 2020/21 is a net reduction of £0.989m due to service efficiencies of £1.660m offset by the full year effect of staffing costs at a value of £0.671m.

Early Help Funding

- 11.11 Paragraph 7.25 provides detail on Early Help funding for 2019/20. To allow a full service review to take place £1.100m has been included as a one year only budget allocation pending the agreement of revised delivery arrangements.

New Business Developments

- 11.12 As detailed in paragraph 7.34 there have been a number of new developments in year that have required additional resource and increased the budget reduction requirement. The total resource requirement of these new business developments is at a value of £1.534m for 2019/20 and £0.200m for 2020/21.

Pension Contributions

- 11.13 As part of the Council's budget setting requirement In 2017/18, Council approved a budget reduction proposal of £1.000m derived in the main from making an upfront payment for all employer pension contributions for the current triennial pension period. 2019/20 is the final year of this triennial period and as such the approved proposal expires prior to the 2020/21 financial year. The Greater Manchester Pension Fund has yet to confirm whether it will offer similar terms for the next triennial period (2020/21 to 2022/23). Furthermore, it would be necessary to secure Member approval to enter into a continuation of the pre-payment arrangement. Consequently, it is necessary to reflect in the estimates a reversion to the previous 'pay monthly' arrangements that were in place prior to 2017/18. By 2020/21, it is estimated that the cost of reverting to these arrangements will be around £1.000m per annum.

Favourable Changes to Estimates

Investment Fund – Debt Charges

- 11.14 The budget estimates included an allocation of funding in 2019/20 to account for the ongoing revenue resource implications of the Capital Programme (entitled 'Investment Fund') at a value of £4.653m for 2019/20. Following the completion of the annual review of the Capital Programme, recently reported to the Capital Investment Programme Board (CIPB) and as a result of revisions to the profiling of major capital projects, the estimated required resource in relation to capital financing charges for 2019/20 can now be reduced by £1.500m

Pay and Price Inflation

- 11.15 Revised NJC pay arrangements (detailed at paragraph 3.34) and the Councils commitment to the Living Wage Foundation Living Wage have led to an increased employee pay budget requirement which is within current estimates however the decision not to allocate contractual inflation to general supplies and services has led to a reduction in the budget gap at a value of £0.726m in 2019/20 and £1.508m in 2020/21.

GMCA Levy - Transport Element

- 11.16 The Transport Element of the GMCA Levy for 2019/20 is detailed in paragraph 7.18 and the 2019/20 budget requirement is estimated to be fixed at 2018/19 levels. Previous assumptions were based on an annual 2% increase and the revision allows the estimates to be reduced at a value of £0.322m in 2019/20,

Business Rates Recalculation

- 11.17 Business Rates have been recalculated in year based on the most up to date information available which has allowed the Council to reduce the budget reduction requirement for 2019/20 at a value of £0.214m.

Revised Business Rates Top Up Grant and Grants in Lieu of Business Rates

- 11.18 Revisions to the Government's calculations on Business Rates and the Business Rates Multiplier have allowed for a small reduction to the 2019/20 budget reduction requirement at a value of £0.009m. The estimates for 2020/21, as detailed at paragraph 8.21 contain a high level of uncertainty at this time and although the Government has announced that the austerity regime is coming to an end the estimates remain prudent and assume that Business Rates Top Up Grant will reduce at a similar level as over recent years. This results in an annual average decrease of approximately 7.5% and increase the 2020/21 budget reduction requirement by £2.403m.

Revision to Council Tax Tax Base Growth Estimates

- 11.19 As explained in Section 9 of the report, improved Council Tax Base projections will result in an increase in general Council Tax revenues of £0.963m in 2019/20, together with a further £0.033m Adult Social Care Precept (ASCP) passported to the service.

Housing Benefit Administration Grant

- 11.20 Paragraph 8.28 details the Housing Benefit Administration Grant for 2019/20 which is £0.367m higher than previous estimates and reduces the forecast budget gap for 2019/20.

Council Tax Administration Grant

- 11.21 Paragraph 8.29 details the Council Tax Administration Grant for 2019/20 which is £0.004m higher than previous estimates and again reduces the forecast budget gap for 2019/20.

Homelessness

- 11.22 As per paragraph 8.33, the Council has been notified of a 2019/20 Flexible Homelessness Support Grant after the 2018/19 budget was approved at a value of £0.194m. It is assumed that this grant will be passported to the service in 2019/20.

Lead Local Flood Authority Grant

- 11.23 The Council, as a Lead Local Flood Authority also receives a grant from the MHCLG and on 13 June 2017 received confirmation of 2017/18 allocations and provisional funding allocations up to the 2019/20 financial year. The estimates in the MTFs assume funding as per this provisional funding allocations at a value of £0.012m in 2019/20.

Development Fund

- 11.24 A funding allocation of £1.000m was previously included in the budget estimates to facilitate the funding of business developments which may be identified subsequent to or during the budget process. Following the identification and agreement to fund such pressures this has been fully utilised.

Government Resources

2019/20 Winter Pressures Grant

- 11.25 Paragraph 3.63 of this report provides detail on the 2019/20 Winter Pressures Grant which was introduced in the 2018 Autumn Budget and confirmed within the 2019/20 PLGFS. The Council will receive £1.122m of ringfenced grant for 2019/20, which in line with the grant conditions will be passported direct to Health and Adult Social Care Community Services.

2019/20 Social Care Support Grant

- 11.26 Paragraph 3.64 of this report provides detail on the 2019/20 Social Care Support Grant which was also introduced in the 2018 Autumn Budget and confirmed within the 2019/20 PLGFS. The Council will receive £1.917m of grant for 2019/20, however, unlike the Winter Pressures Grant the Social Care Support Grant is unringfenced and will be used to contribute to the investment in Children's Services detailed in paragraph 8.6.

Summary Position

- 11.27 The adjustments to estimates detailed in the paragraphs above revise the budget gap for 2019/20 and result in a change from £17.986m (approved by Council on 28 February 2018) to a revised amount of £22.696m (an increase of £4.710m)
- 11.28 An overall summary of the Council's revenue budget gap forecast for 2019/20 and 2020/21, including the adjustments detailed above, is presented at **Appendix 2**.

12 Budget Proposals

- 12.1 The approach used by the Administration for balancing the budget by completing an exercise for the period 2019/20 to 2021/22, followed on from the successful processes adopted in previous years. Using the well-established forum of Leadership Star Chamber there has been a review of the extent of financial pressures facing the Council and consideration given to budget reduction proposals to bridge the budget gap.
- 12.2 The budget has been reviewed by Portfolio area with proposals put forward for consideration. The Portfolio areas are as follows:
- Health and Adult Social Care Community Services
 - People and Place
 - Reform
 - Chief Executive
 - Corporate and Commercial Services (including Capital & Treasury)
- 12.3 Work has also been undertaken to prepare cross cutting budget proposals where possible. Member support for Portfolio specific and cross cutting proposals has been demonstrated by proformas bearing the signatures of the relevant Cabinet Member.
- 12.4 A total of 35 Budget Reduction Proposals (BR1's) at a cumulative 2019/20 value of £7.829m with an FTE impact of 24.88 are now recommended for scrutiny. These can be seen in summary at **Appendix 3** and in detail at **Appendix 4**. The proposed budget reduction values by Portfolio are shown in the table below.

Table 15 – Summary of Proposed Budget Reductions

Portfolio	2019/20 £000	2019/20 FTE	2020/21 £000
Health and Adult Social Care Community Services	(82)	0	(13)
People and Place	(869)	(1.00)	(2103)
Reform	(513)	(12.88)	(250)
Chief Executive	(75)	0	0
Corporate & Commercial Services (including Capital & Treasury)	(6,290)	(11.00)	(2,250)
Total Budget Reductions	(7,829)	(24.88)	(4,616)

- 12.5 Three proposals (over and above the 35 proposals in this report) were originally issued for consultation. However following review and consideration of initial comments, these three proposals have been withdrawn and are not presented for scrutiny by the Select Committee as follows;
- CCS-BR1-246: Cessation of the Employee Assistance Programme (£0.022m):- Consultation with the trades unions highlighted considerable concern in regard to the impact this proposal would have had on employees, particularly at a time when there is continued change across the Authority.
 - PPL-BR1-206: Funding of Officer from S106 Contributions (£0.035m):- Further review of this proposal has led to concerns about its viability and it was therefore withdrawn.
 - REF-BR1-224: Reduction in staffing resources at Chadderton and Limehurst Libraries (£0.007m):- Following consultation the negative impact on residents was deemed disproportionate to the level of proposed savings.

- 12.6 Assuming that Members are content to accept all the 35 Budget Reduction proposals presented alongside this report, the effect on the budget gap would be as summarised in the following table:

Table 16 – Revised Position after Budget Reduction Proposals

Estimated revenue position 2019/20 to 2020/21	2019/20 £000	2020/21 £000
Revised Gap / Budget Reduction Requirement	22,696	14,571
Budget Reduction Proposals	(7,829)	(4,616)
Revised Gap after Budget Reduction Proposals	14,867	9,955

- 12.7 This shows that the revised gap after the 35 proposed Budget Reductions is at a value of £14.867m for 2019/20 with an estimated gap of £9.955m for 2020/21.

Flexible Use of Capital Receipts

- 12.8 As detailed in Section 10 of the report, the Authority is intending to utilise the flexibility of financing transformational projects by capital receipts up to the value of £3.000m.

Collection Fund Surplus

- 12.9 As detailed in Paragraph 9.27 the Council will be using a surplus on the Collection Fund of £2.269m as a one off resource to support the 2019/20 budget.

- 12.10 Having applied the Flexible use of Capital Receipts and the Collection Fund Surplus to the budget gap, the resources required to balance the 2019/20 reduce to £9.598m as shown below however as one-off measures they increase the 2020/21 budget gap:

Table 17 – Revised Position after Budget Proposals

Estimated revenue position 2019/20 to 2020/21	2019/20 £000	2020/21 £000
Revised Gap after Budget Reduction Proposals	14,867	9,955
Flexible Use of Capital Receipts	(3,000)	3,000
Collection Fund Surplus	(2,269)	2,269
Revised Gap / Budget Reduction Requirement	9,598	15,224

13 Use of Reserves

13.1 It is proposed to balance the revenue budget for 2019/20 by utilising additional reserves at a value of £9.598m as follows (all of which will increase the savings requirement for 2020/21)

- £0.250m of reserves approved as part of the budget setting process in 2016/17
- £0.978m of reserves relating to Business Rates Retention Reserve – National Levy Account – Funding Returned in 2018 (see para 8.16)
- £0.500m of resources made available by the 2017/18 100% Business Rates Pilot
- £1.218m of resources, the anticipated benefit of the 2018/19 100% Business Rates Pilot
- £6.652m to be funded by a one off use of corporate reserves.

Table 18 – Use of Reserves

Estimated revenue position 2019/20 to 2020/21	2019/20 £000	2020/21 £000
Revised Gap / Budget Reduction Requirement	9,598	15,224
Approved Use of Reserves 2016/17	(250)	
Business Rates Retention Reserve - National Levy Account 2018/19 Surplus	(978)	978
Business Rates 2017/18 Pilot Scheme Gain	(500)	500
Business Rates 2018/19 Pilot Scheme Gain	(1,218)	1,218
Business Rates 2019/20 Pilot Scheme Gain		(1,689)
Revised Budget Gap after Specific Use of Reserves	6,652	16,231
Use of Corporate Reserves	(6,652)	6,652
Revised Gap / Budget Reduction Requirement after all proposals	0	22,883

- 13.2 The following table summarises all the actions proposed to balance the 2019/20 Budget using a combination of revisions to estimates of £3.146m, one-off Government resources at £1.917m, budget reductions totalling £7.829m, Capital Receipts at a value of £3.000m, one off Collection Fund surpluses of £2.269m, £0.250m use of reserves agreed in 2016/17, £0.978m use of reserves from the 2018/19 National Levy Account surplus, Business Rates Pilot Scheme Gains (£0.500m from 2017/18 and £1.218m from 2018/19) and the use of Corporate Reserves totalling £6.652m.

Table 19 – Revisions to Estimates, Budget Reductions and Use of Reserves

Budget Reductions / Use of Reserves	2019/20 £000
Budget Gap as at 28 February 2018	17,986
Reversal of indicative future years savings submitted 2018/19	3,231
Reversal of Approved Use of Reserves 2016/17	250
Revised Gap / Budget Reduction Requirement	21,467
Adjustments to Estimates	3,146
Revised Gap after adjustments to estimates	24,613
Government Resources Payable in 2019/20	(1,917)
Revised Gap / Budget Reduction Requirement	22,696
Budget Reduction proposals	(7,829)
Revised Gap after Budget Reduction Proposals	14,867
Flexible Use of Capital Receipts	(3,000)
Collection Fund Surplus	(2,269)
Revised Gap / Budget Reduction Requirement	9,598
Approved Use of Reserves 2016/17	(250)
Business Rates Retention Reserve - National Levy Account 2018/19 Surplus	(978)
Business Rates 2017/18 Pilot Scheme Gain	(500)
Business Rates 2018/19 Pilot Scheme Gain	(1,218)
Revised Gap after Specific Use of Reserves	6,652
Proposed use of Corporate Reserves 2019/20	(6,652)
Revised Gap / Budget Reduction Requirement after all proposals	0

- 13.3 It is acknowledged that the 2019/20 revenue budget is underpinned by the deployment of reserves. However, there are sufficient reserves to support this contribution to balancing the 2019/20 budget and thereby protecting services for as long as possible without exposing the Council to undue financial risk.
- 13.4 This approach also provides additional time to develop strategies to address the cumulative budget gap for 2020/21 and future years which will be challenging as pressures on vital services such as Children's Social Care increase and Government funding continues to reduce.

14 Reserves and Balances

- 14.1 The forecast year-end earmarked reserves position presented below reflects the estimated closing balance for 2018/19 and hence the total reserves available for the financial year 2019/20. However, this is before the proposed use of reserves of £9.598m as highlighted at Table 18.

Table 20 – Reserves Position

Earmarked Reserves	2018/19 Opening Balance	2018/19 Estimated Closing Balance
	£000	£000
Adverse Weather Reserve	(1,500)	(1,500)
Balancing Budget Reserve	(7,264)	(9,598)
Council Initiatives	(5,178)	(3,470)
Demand Changes	(2,000)	(2,000)
Directorate Reserves	(4,477)	(2,498)
District Executives Reserve	(735)	(735)
Emergency and External Events	(2,671)	(2,616)
Fiscal Mitigation	(17,158)	(5,153)
Insurance Reserve	(14,933)	(12,933)
Integrated Working	(4,333)	(3,067)
Levy reserve	(560)	(560)
Life Cycle Costs	(6,611)	(6,611)
Regeneration Reserve	(3,580)	(5,634)
Taxation/Treasury Reserve	(625)	(625)
Transformation Reserve	(11,104)	(8,439)
Total	(82,729)	(65,439)

- 14.2 Although the estimated level of reserves at the end of 2018/19 is £65.439m, this will be reduced by resources to balance the 2019/20 budget of £9.598m. In addition the call down of some of these reserves is committed into future financial years and so they are not available for alternative uses. However the final 2018/19 position will not be determined until the accounts are closed and traditionally the outturn revenue position has been healthier than the forecast.
- 14.3 As detailed within the Month 8 revenue monitoring report, which is elsewhere on this agenda a revenue surplus of £0.145m is forecast at the end of 2018/19, therefore the level of general fund balances is anticipated to increase by £0.145m to £14.136m. However, the final recommendation with regard to balances will ultimately depend on the budget and Council Tax proposals approved by Council on 27 February 2019. Under Section 25 of the Local Government Act 2003, the Chief Finance Officer is required to prepare a statement on the adequacy of proposed financial reserves and the robustness of the budget estimates. Members are reminded, therefore, that any budget proposals presented at Budget Council have been subject to a risk assessment undertaken by the Director of Finance.
- 14.4 Members of PVFM will recall that at its meeting of 13 December 2018 a paper was presented which discussed the importance of financial resilience within Local Government. It should be noted that the level of reserves and balances anticipated to be available for 2019/20 is deemed sufficient to underpin the financial resilience requirements of the Authority.

15 Fees and Charges

- 15.1 Attached at **Appendix 5** is the proposed fees and charges schedule for the 2019/20 financial year. An element of the charges have been uplifted following discussions with the Heads of Service and Cabinet Members, however a number are proposed to remain at the same level as the 2018/19 financial year. The proposed value and percentage increase for 2019/20 where applicable for each charge is included within the Appendix.
- 15.2 At this stage where services have proposed to increase fees and charges, due to volatility, any increases generated will mostly be used to offset inflationary pressures within that service. In addition, the take up of services is unknown and therefore is a variable which cannot be quantified at this time. The income targets overall will be increased by a modest sum of £0.020m as outlined in the budget reduction proposal CCS-BR1-240: Fees and Charges Additional Income. This position will be monitored throughout the 2019/20 financial year so any pressures or surpluses will be noted and addressed for 2020/21.
- 15.3 As with previous years there are a number of exclusions to the schedule. The following services set their charges based on current legislation and market conditions – planning, markets, hoardings rental, leased out buildings, lifelong learning accreditation fees, adult care charges and Oldham Leisure services.
- 15.4 Areas for consideration for 2019/20 are:
- New charges for groups at the Music Centre, new wheeled bins and waste admin charges, non-legal wedding services and food safety.
 - Environmental services charges have been increased by the labour RPI rate of 3.4% as a basis. The additional charge for larger coffins has also been removed.
 - Room Hire charges for the Link Centre have been revised to reflect the changes to the centre.
 - Animal Licences legislation changed on 1st October 2018, therefore all charges have been revised in line with the new legislation.
 - Recycling increase – the charge for domestic waste has been increased by the 2.4% inflation rate but the additional charges for trade waste recycling have increased by 5%. Compared to alternative providers, the charge is still very competitive without being discouraging.
 - Taxi Vehicle and Drivers Licences – the cost of the licences are based on the number of licences issued and likely to be renewed. Charges have been increased to be above inflation with an average increase of 5%.
 - Private Hire licencing - as with the vehicle and drivers licences these are based on the number issued and likely to be renewed. Charges for 2019/20 will remain as the 2018/19 price
 - Commercial Pest Control – there are a range of annual contracts for commercial premises all of which have had an increase above inflation at an average of 7%.
 - Legal Certificates – there will be a change in legislation in February 2019 whereby the birth, death, marriage and civil partnership certificates will have a statutory charge of £11 and the same day certificate will have a statutory charge of £35. Council charges will reflect this change.
- 15.5 As usual, the fees and charges relating to educational establishments and schools e.g. lifelong learning, outdoor education, music, adult and child school meals and swimming will be reviewed in line with the academic year and any resulting changes will commence from September 2019. The changes for these areas included within the Appendix relate to charges from September 2019.

15.6 Members will recall that on 18 September 2017, as detailed in paragraph 4.19, the Income Strategy 2018/19 to 2021/22 was approved by Cabinet. Traded Services and other chargeable activities form part of this strategy with a Traded Services review underway looking at the following areas:

- the extent to which costs are recovered from fees and charges;
- which services are subject to income generation targets and to establish whether such targets are achievable and sustainable;
- the rationale behind specific tariff structures, charges and concessions and whether this remains appropriate; and
- whether alternative delivery models need to be considered in order to modernise service provision and fully recover costs through charging.

15.7 Included within the budget proposals is a budget reduction for 2019/20 which anticipates the benefit arising from the outcome of the Traded Services review.

16 Pay Policy Statement

16.1 Included at **Appendix 6** is the Council's Pay Policy Statement. This Statement sets out the Council's approach to pay policy in accordance with the requirements of Section 38 to 43 of the Localism Act 2011, which requires approval of the Statement through full Council. The purpose of the statement is to provide transparency with regard to the Council's approach to setting the pay of its employees, with particular emphasis on the level of remuneration for our most senior staff.

16.2 Oldham Council, Oldham Clinical Commissioning Group (CCG), Pennine Care Foundation Trust (PCFT) and Royal Oldham Hospital (and the wider Northern Care Alliance) are working together to develop, introduce and operate an integrated system of health and social care to improve wellbeing and healthy life expectations in Oldham. The Oldham Locality Plan was agreed in March 2016 and sets a vision for an integrated system for Oldham, built on a number of core principles. Since then, significant work has been carried out to develop the structures and processes that need to be in place to deliver this vision.

17 Proposed Council Tax and Adult Social Care Precept Levels

- 17.1 Section 9 sets out the current planning assumptions in relation to Council Tax and the Adult Social Care Precept.
- 17.2 It is proposed that a 1.99% general increase to Council Tax is applied for 2019/20 together with a 2% increase in the Adult Social Care Precept. This represents an overall increase of 3.99% in Band D equivalent Council Tax for Oldham Council services.
- 17.3 Oldham Council Band D Council Tax for 2019/20 is therefore recommended to be £1,624.36 of which £118.02 relates to the Adult Social Care Precept.

Impact of Decisions of Precepting Authorities

- 17.4 Whilst the spending decisions of precepting Authorities do not affect the level of resources available to the Council, they do affect the amount of Council Tax that is charged to Oldham citizens. The major preceptor is the GMCA which precept for two components:

Mayoral Police and Crime Commissioner Precept

- 17.5 The Mayoral Police and Crime Commissioner precept will be considered by the Police and Crime Panel in January 2019. The precept will be determined at the GMCA meeting in mid-February 2019. As detailed in paragraph 8.3, the GM Mayor as Police and Crime Commissioner, will have the ability to propose an increase to the Police precept by up to £24 in 2019/20 (double the amount allowed in 2018/19). As the Mayors approach has not been determined, for reporting purposes, the precept is shown as remaining static at a value of £174.30.

Mayoral General Precept (including Fire Services)

- 17.6 The Mayor will also propose the Mayoral General Precept in mid-February 2019 (this will incorporate funding for Fire and Rescue Services as well as other Mayoral functions). Again, the Mayors intention has yet to be determined so at this stage the only position that has been assumed is a static level at a value of £67.95.

Parish Precepts

- 17.7 The Shaw and Crompton Parish Council recommended its 2019/20 budget and parish precept at a meeting on 8 January 2019 which will then be considered at a full parish council meeting on 11 February 2019. It proposes to increase its Band D equivalent charge by £0.10 (0%) to £16.31 resulting in a total precept of £88,670. This equates to a 2019/20 increase of £0.001m.
- 17.8 Saddleworth Parish Council is due to agree its budget and precept on 28 January 2019. At present no change is assumed in the level of precept.
- 17.9 The Parish Precept income will also increase as a result of an increase in respective tax bases, currently estimated to be at a value of £0.003m. The total increase for all Parish elements for 2019/20 is £0.004m.

Anticipated Draw on Collection Fund

Council Tax

- 17.10 Subject to confirmation from all precepting bodies, taking account of the approved Council Tax Base of 56,693 for 2019/20 and the Council Tax and Adult Social Care Precept proposals set out in Section 9 of the report, the sums anticipated to be drawn from the Collection Fund for Council Tax in 2019/20 are:

Table 21 – Anticipated Draw on the Collection Fund

Precepting Body	2019/20 £000
Oldham Council including Social Care Precept	92,090
Mayoral Police and Crime Commissioner Precept	9,882
Mayoral General Precept (including Fire Services)	3,852
Saddleworth Parish Council	179
Shaw & Crompton Parish Council	89
TOTAL	106,092
Less: contribution from Parish Taxpayers	(268)
TOTAL Draw on Collection Fund for Major Preceptors	105,824

- 17.11 For Oldham Council services and for Shaw and Crompton Parish Council the anticipated 2019/20 Band D Council Tax is clearly shown in the table below. It is important to note that the Mayoral precepts are likely to change but the values will not be known until formally set by the respective bodies:

Table 22 – Anticipated Band D Council Tax (SUBJECT TO CONFIRMATION)

Council Tax Raising Body	2018/19 £	2019/20 £	Change %
Oldham (subject to confirmation)	1,562.04	1,624.36	3.99%
Mayoral Police and Crime Commissioner Precept (subject to confirmation)	174.3	174.3	0%
Mayoral General Precept (including Fire Services) (subject to confirmation)	67.95	67.95	0%
TOTAL BAND D COUNCIL TAX	1,804.29	1,866.61	
Saddleworth Parish Council (subject to confirmation)	20.76	20.76	0%
Shaw & Crompton Parish Council (subject to confirmation)	16.21	16.31	0.62%

18 Overall 2019/20 Revenue Budget Strategy

18.1 The key elements of the 2019/20 revenue budget strategy are:

- The revised budget gap of £22.696m for 2019/20;
- The budget reduction proposals set out in Section 12 of the report;
- The approach to reserves and balances set out in Section 13 of the report; and
- Proposed Council Tax and Adult Social Care Precept levels set out in Section 17 of the report.

18.2 Having regard to the issues outlined at 18.1, the overall budget strategy for 2019/20 can be summarised as follows:

Table 23 – Overall Budget Strategy

Budget Strategy	2019/20	
	£000	£000
Directorate budget requirements	231,768	
Budget Reduction Proposals excluding use of reserves	(7,829)	
Budget for 2019/20 before use of reserves		223,939
<u>Less Government Funding</u>		
- Business Rates Top Up	(40,653)	
- Grants in Lieu of Business Rates	(7,716)	
- Improved Better Care Fund Grant - Settlement 2015	(8,150)	
- Improved Better Care Fund Grant - Spring Budget 2017	(1,586)	
- Independent Living Fund (ILF) Grant	(2,580)	
- 2019/20 Winter Pressures Grant	(1,122)	
- 2019/20 Social Care Support Grant	(1,917)	
- Housing Benefit Administration Grant	(759)	
- Council Tax Administration Grant	(362)	
- New Homes Bonus Grant	(961)	
- Department for Work and Pensions (DWP) - New Burdens Grant	(104)	
- DWP - Implementation of Universal Credit Grant	(68)	
- Flexible Homelessness Support Grant	(194)	
- Homelessness New Burdens Grant	(62)	
- Lead Local Flood Authority Grant	(12)	
		157,693
<u>Less</u>		
Retained Business Rates	(53,468)	
Collection Fund Surplus	(2,269)	
Parish Precepts	(268)	
		101,688
<u>Add Precepts</u>		
Mayoral Police and Crime Commissioner Precept	9,882	
Mayoral General Precept (including Fire Services)	3,852	
Total Council Tax including Levies (A)		115,422
Current Council Tax, adjusted for Tax Base (B)		105,824
Difference (A-B)		9,598
This additional expenditure is being funded by resources from appropriations from earmarked reserves		

18.3 If the proposals in this report are approved, the revised revenue budget position for 2019/20 and 2021/22 would be as set out in detail at **Appendix 7** and the summary for 2019/20 to 2023/24 is set out at **Appendix 8**. This presents a balanced position for 2019/20, a budget gap of £22.883m for 2020/21, and budget gaps of £10.889m for 2021/22, £6.859m for 2022/23 and £4.160m for 2023/24.

19 Budget Strategy and Medium Term Financial Planning for Future Years

19.1 As the Council prepares a Medium Term Financial Strategy spanning five financial years, currently 2019/20 to 2023/24, it requires continuous review as local, regional and national policies develop. In addition, existing financial challenges are subject to change and new issues emerge. Each new issue or change has an impact, sometimes on a one off basis, but in more commonly, a multi-year effect. Estimates are prepared based on the best information currently available and after the 2019/20 budget has been finalised, the cycle of reviewing the budget reduction requirement for 2020/21 and future years will begin again.

19.2 It is anticipated that based on established working practices budget reduction proposals will be developed and brought forward for detailed review and scrutiny during 2019/20.

19.3 As the report highlights, there is a significant budget reduction target for 2020/21. Six budget reduction proposals totalling £4.616m have an impact on the financial position for 2020/21 leaving a balance of £22.883m to be addressed. As the 2020/21 financial planning cycle progresses, a key task will be to review these proposals to ensure that the suggested level of saving still remains deliverable. This budget reduction requirement in part reflects the use of reserves and other one off measures to balance the 2019/20 budget

19.4 The overarching challenge in preparing a MTFS is that Central Government has only advised of guaranteed funding allocations on major funding streams until the end of 2019/20, in line with the submission by the Council of an Efficiency Plan in September 2016. This is disappointing but not unexpected and it does make it extremely difficult to confidently predict the budget reduction requirement for financial years beyond 2019/20. Estimates have therefore been prepared based on a number of assumptions as set out below.

Government Funding beyond the Current Spending Review period

19.5 The current four year Comprehensive Spending Review (CSR) period comes to an end in 2019/20. The Government has provided virtually no indication of the level of funding Local Authorities can expect to receive for 2020/21 and beyond. Recent announcements by the Chancellor advising that the austerity period was drawing to a close have given some hope that Local Government may start to receive additional resources or to have a reduced level of funding cuts. The PLGFS has not demonstrated this to any great extent.

19.6 The period covered by the next CSR is unclear (three or four years), but its details will be issued before 2020/21 and this will include information about the funding envelope for the public sector as a whole and Local Government in particular. To date the only certainty is that there will be a:

- Move to 75% Business Rates retention nationally from 2020/21;
- Resetting of baselines from which Business Rates funding allocations will be determined; and
- Fair Funding Review which will examine the relative needs and allocation of resources between Authorities.

19.7 This clearly means that the development and provision of longer term financial forecasts is extremely challenging. Therefore whilst this report includes forecast budget reduction requirements of £22.883m for 2020/21, £10.889 for 2021/22, £6.859m for 2022/23 and £4.160m for 2023/24, Members must consider these forecasts as indicative only and should also note the Government has provided no information on:

- The future of Business Rates Top Up Grant and how this could be impacted by 75% Business Rates Retention or the fair funding review;
- Whether Grants in lieu of Business Rates will continue to be provided or rolled into Top Up grant which will likely increase funding for some Councils and reduce it for others;
- Whether major funding support for Adult Social Care in the form of Adult Social Care Precept and Improved Better Care Fund resources will continue beyond 2019/20;
- The continuation of the Social Care Grant which Government has provided to support either Adults or Children's Social Care, or if the national issues around the funding of Children's Social Care will be addressed
- Intent with regard to Council Tax, particularly in terms of the Adult Social Care Precept, future referendum criteria and longer term plans for reform.

19.8 The cessation of some of these funding streams and restrictions on the ability to raise revenue through local taxation could significantly worsen the projected budget reduction requirements for 2020/21 and future years.

19.9 Through the austerity programme, the Government has encouraged Councils to become financially self-sufficient through efficiency measures and local income generating initiatives. The estimates included in this report reflect a continuation of this approach, and so baseline funding levels and associated top up grant payments are assumed to continue to fall in line with reductions over recent years. However it is recognised that the CSR and changes to the Local Government finance regime could reset this position.

Impact of Brexit

19.10 Brexit is the most significant current national issue that could impact on the future level of resources available to Councils. Similarly there may be costs arising from Brexit. It is impossible to factor this into budget planning, albeit that the Council, as discussed below, will ensure that reserves are available to support any in-year changes to funding allocations or unexpected expenditure.

Other Challenges to Forecasting

19.11 Inflation and interest rates in particular will influence the level of cost pressure the Council will face in the medium term; something which is always challenging to deal with in an uncertain economic environment.

19.12 At the local level, Business Rates revenue continues to present specific forecasting challenges due to general volatility surrounding Business Rates income, the impact of appeals and changes in Government policy around Business Rates reliefs.

Local Policies and Strategies

- 19.13 Despite the challenges, the Council has developed a range of medium term strategies (detailed in Section 4 of this report) which are designed to make a positive contribution to the Councils financial standing and support the Oldham Plan and Corporate Plan also set out in Section 4. These include the:
- Capital Strategy
 - Treasury Management Strategy
 - Income Strategy
 - Commercial Property Investment Strategy
 - Medium Term Property Strategy
 - Procurement Policy
 - Housing Strategy
 - Get Oldham Working Initiative
 - Oldham Work and Skills Strategy
 - Education Provision Strategy
 - Strategy for Children and Young People aged 0-25 with Special Educational Needs and Disabilities (SEND)
 - Oldham Education and Skills Commission (OESC)
 - People Strategy
 - IT Strategy
 - Climate Change Strategy
 - Local Flood Risk Management Strategy
- 19.14 Alongside the above strategies, there are several key service developments which will inevitably impact on the Council's medium term budget strategy and associated financial planning. A summary of these developments is set out in the following paragraphs.

Town Centre Vision and Borough Wide Regeneration

- 19.15 The regeneration of Oldham town centre is a Council priority with a number of major schemes either having been completed or are currently in train. During 2018/19 the vision for the town centre was revisited and in 2019/20 work will be taken forward with the Oldham Museum of Arts / Archives (OMA) and the Tommyfield market as priorities. The finalisation of the town centre vision will determine specific projects, and the extent of the resources required.
- 19.16 There are also ambitious plans for the regeneration of the borough as a whole with a first phase of investment in Royton and projects in train at Hollinwood and Foxdenton.
- 19.17 The Council will work within the wider context of the Greater Manchester Strategic Investment Framework and other initiatives, such as One Public Estate to ensure that it is in an optimal position to obtain any available grant funding to support development in Oldham.
- 19.18 There is funding within the capital and revenue budgets to support the regeneration across the borough and the town centre. This investment will bring future benefits to Oldham through additional Business Rates and Council Tax revenue derived from economic and housing growth. Financial resource implications will be developed as plans progress and will be included in the MTFs as and when information is available.

Developing the Co-operative Agenda

- 19.19 Oldham has been a Co-operative Council since 2011 and the Council remains committed to delivering a co-operative future where everybody does their bit and everyone benefits. Delivering Co-operative services is one of the three aspects to the Oldham Model. The MTFs anticipates the ongoing development of this agenda representing a real commitment to change and will work closely with residents, partners and our wider communities to create a confident and ambitious borough.

Bids for External Funding

- 19.20 The Council will aim to maximise external funding for both revenue and capital projects to supplement investment by the Council in priority areas.

Future Operating Model

- 19.21 The developments set out above coupled with the enhancement of revised working arrangements between the Council and its strategic delivery partners will have implications for the structure of Council and the operating model the Council adopts to deliver services in the future. As well as being prompted by policy and service developments, continuing the transformation of the Council's operating model will be necessary to support the delivery of future savings requirements and a sustainable balanced budget position.

The approach to Transformation and Identifying Budget Reductions

- 19.22 The significant financial challenge the Council is facing means that there will need to be an acceleration of the existing programme of transformation to deliver a sustainable balanced budget with a reduced reliance on one off measures. This transformation agenda will continue to focus on a number of key areas of the operating model:

Property and Assets

- 19.23 Developing the existing programme of work on the use of property and assets which is already planned to generate budget reductions in 2019/20 and future years will support service transformation. In particular this will take forward the approved Medium Term Property Strategy to maximise the benefit from the corporate estate by developing property disposal and procurement routes that will ensure the Council is able to shape and maintain a property portfolio that will support service delivery and contribute a sustainable income stream.
- 19.24 In addition the rationalisation of the Councils office accommodation will be enhanced. Where possible, co-locating staff with partners to maximise efficiencies and realise the potential of 'One Public Estate' for Oldham and Greater Manchester but also to drive forward integrated working across the public sector, building on the achievements made with Oldham Cares partners.

Joint Working and Integration

- 19.25 As advised earlier in the report, and linked to the property and assets issues above, good progress continues to be made with regard to Health & Social Care Integration. Oldham Council and Oldham CCG are working under a joint leadership structure and together with other health partners are operating as Oldham Cares. There are ambitious plans for the improvement of the delivery of health and social care with structure implementation arrangements and this aims to ensure the future financial sustainability of the local health and social care economy.

-
- 19.26 Linked to the health and social care devolution agenda is the opportunity to develop closer working arrangements with other partners including other GM Authorities and the GMCA. The Council will look to build on the existing collaborative working arrangements and sharing of services as a means to deliver future financial and operational efficiencies. Locally a model of integrated delivery continues to be developed to complement health and social care integration in neighbourhoods, where closer working with police, housing providers, Voluntary, Community, Social, Faith and Enterprise (VCSFE) organisations and others is improving operational efficiency and effectiveness whilst also strengthening local engagement and enabling communities to contribute more significantly to improving outcomes.
- 19.27 It is inevitable that change of the magnitude envisaged will take time to be developed. So far therefore the MTFS does not rely on any significant financial benefits arising from the integration agenda, however, this is a key strand for development over the life of the MTFS.

Use of New Technology

- 19.28 The opportunity to utilise the advantages provided by new technology is the foundation upon which much of the Council's change agenda will be driven including integrated working arising from health and social care devolution. The Council's IT strategy is determining the direction of travel and is supported by £11.377m of Capital Programme investment. This investment will enable new and more efficient ways of working and will improve citizens' access to Council services. It also improves the business intelligence supporting service delivery decisions.
- 19.29 A key strand of this investment is the Resident First programme which is aligned to improving the Council's digital offer to the people of Oldham which in the first phase has concentrated on the on-line service offer. There are three key strands to the programme:
- Design and plan what would work better
 - Buy, upgrade or adapt systems and processes
 - Implement change with support for users and communicate change to residents
- 19.30 Over the next couple of years the 'digital by design' platform will be expanded by:
- Reducing mediated service costs across the whole organisation by 50%
 - Reducing service costs by 20% through digitalisation of the lines of service that make up 80% of the requests from residents

- 19.31 As outlined in the budget reduction proposal (CCS-BR1-227 – Digital by Design), the intention is to remove £2m of costs within the next two years. However, the digital agenda will continue to be rolled out so that new technology will support residents to be independent and in control and to continue to make the Council more efficient through the effective use of technology. The ambition is to make Oldham a digital destination for business.

Commercial Activities

- 19.32 Developing the existing work stream will ensure that the Council and partners continue to maximise funding opportunities including through commercial activities. This will ensure that the strands of the income strategy and corporate property investment strategy are delivered, especially with regard to the priority of diversifying the Council's income stream.

19.33 Underpinning these areas of work will be:

- An approach to service delivery where the Council (and its partners) will be making new strategic choices based on the characteristics of Oldham, its people and communities within the borough, thus constantly striving for new opportunities for collaboration and new ways of working between organisations that share a common footprint.
- A review of the provision of discretionary services and also the level at which statutory services are delivered. This is in part shaped by recent statements emanating from evidence at the House of Commons Public Accounts Committee indicates that Government is focussing on ensuring that the Government provides enough resources to enable Councils to deliver statutory services.

Reserves and Balances

19.34 In the light of these risks and uncertainties, it is important to maintain a healthy and robust level of reserves and balances to manage uncertainty in both the current and next spending review period. Based on the level of reserves disclosed in Section 14 of the report, the Council meets this requirement. If there is a continued call on reserves to support future budget processes, then this position may change and this may require additional attention.

20 Options/Alternatives

20.1 The options as follows:

- Option 1 – PVFM accept the assumptions and resulting financial forecasts presented within the report and the budget position at Appendix 2.
- Option 2 – PVFM propose amendments to the assumptions which will change the resulting budget gap and financial forecasts.
- Option 3 – PVFM can recommend all the budget reduction proposals included in this report to the value of £7.829m for approval and the approach to the use of reserves and balances and as well as Council Tax and Adult Social Care Precept increases.
- Option 4 - PVFM can request that further work is undertaken on some or all of the budget proposals and the approach to reserves and balances and that Cabinet considers a revised position.

21 Preferred Option

21.1 Options 1 and 3 are the preferred options. Assumptions are based on objective research and the latest available information. The Council has a statutory duty to set a balanced budget and the budget reductions included in this report along with the proposed use of reserves fulfil that requirement.

22 Consultation

22.1 Presentation of this report to the PVFM Select Committee is a key stage in the budget consultation process. A total of 35 proposals have fully progressed through the process of which four required public consultation which is ongoing. The remaining 31 proposals are made up from in-house savings which negates the need for any formal public consultation. As a matter of course, we ensure local businesses are kept informed of our budget saving requirements and this was carried out via the Council's monthly business update newsletter.

-
- 22.2 The Schools Forum has been consulted on the proposed allocation of resources via the Schools Funding Formula and has agreed the recommended approach.
- 22.3 The Council has submitted a consultation response to the MHCLG on the Provisional LGFS and will submit responses to other key consultation documents.

24 Financial Implications

- 24.1 Financial Implications are dealt with in full within the detail of the report.

25 Legal Services Comments

- 25.1 Legal issues are addressed in the body of the report. The Council has a legal obligation to pass a resolution to agree its budget and Council Tax resolutions by 11 March 2019.

(Colin Brittain)

26 Co-operative Agenda

- 26.1 The revenue budget projections have been prepared so that they embrace the Council's co-operative agenda with resources being directed so that the aims, objectives and co-operative ethos of the Council are enhanced.

27 Human Resources Comments

- 27.1 High level union and staff engagement on corporate budget options commenced on the 5 November 2018 in order to give an overview of where savings were being considered and the Council's initial thoughts on how these may be delivered.
- 27.2 The S188 document starting formal consultation on the budget reduction proposals was issued to the recognised trade unions on the 14 November 2018, indicating a potential 24.88 FTE reductions within a rolling 90 day period during 2019. As such there is a requirement for the Council to consult for a minimum of 45 days in relation to potential redundancies arising from the corporate budget reduction programme.
- 27.3 Consultation will have to end by the 14 February 2019 in order to allow for full consideration of any comments or alternatives submitted by unions or staff in advance of, and where relevant presented to, Council on the 27 February 2019 prior to any final decisions.
- 27.4 Proper and meaningful consultation will have to be exhausted in advance of the approval and subsequent implementation of any new arrangements. This is currently on track with consultation having commenced on all but one of the budget options. The exception is BR1 229 "Review of Design and Assurance" with 10 FTE potential job losses within the Reform Directorate. It is appreciated that the savings are part year and not expected to be achieved before September 2019, as such the proposals are still being developed. The trades unions are aware of this and have been assured of early engagement as the proposals are developed in advance of the commencement of formal consultation. Council will be required to make a decision on the savings to be achieved within this directorate but the method by which this will be achieved must be subject to separate and meaningful consultation and amendment.
- 27.5 People Services and the HR Advisory Service within Unity will continue to work with the Directorates to ensure that the proper process is followed and that the staff and unions have the opportunity to share their views and have input on the final outcomes.

(Sally Blackman)

28 Risk Assessments

28.1 There are a wide range of issues which could impact on the MTFs and projections. A regular review of projections will ensure that any key changes are highlighted immediately.

(Mark Stenson)

29 IT Implications

29.1 Any specific IT implications associated with the proposals included in the report are detailed within the individual budget reduction proformas included at Appendix 4.

30 Property Implications

30.1 Any specific property implications associated with the proposals included in the report are detailed within each individual budget reduction proformas included at Appendix 4.

31 Procurement Implications

31.1 Any proposals that impact on the procurement of goods, services etc. will be undertaken in full liaison with the Procurement Service and in compliance with all necessary Council and statutory requirements.

32 Environmental and Health & Safety Implications

32.1 Environmental and Health and Safety implications will be taken into account when dealing with the individual proposals as appropriate.

33 Equality, community cohesion and crime implications

33.1 In taking financial decisions the Council must demonstrate that it has given “due regard” to the need to eliminate discrimination, promote equality of opportunity and promote good relations between different groups.

33.2 Demonstrating that “due regard” has been given involves:

- assessing the potential equality impacts of proposed decisions at an appropriate stage in the decision making process - so that it informs the development of policy and is considered before a decision is taken; and
- ensuring that decision makers are aware of the equality duties and any potential equality issues when making decisions.

NB – having due regard does not mean the Council cannot make decisions which have the potential to impact disproportionately, it means that we must be clear where this is the case, and must be able to demonstrate that we have consulted, understood and mitigated the impact.

33.3 To ensure that the process of impact assessment is robust, it needs to:

- Be specific to each individual proposal;
- Be clear about the purpose of the proposal;
- Consider available evidence;
- Include consultation and involvement with those affected by the decision, where appropriate;
- Consider proposals for mitigating any negative impact on particular groups; and
- Set out arrangements for monitoring the actual impact of the proposal.

-
- 33.4 The Equality Act 2010 extends the public sector equality duties to cover nine protected characteristics, namely:
- age,
 - disability,
 - gender,
 - gender reassignment,
 - marriage and civil partnership,
 - pregnancy and maternity,
 - race,
 - religion and belief and
 - sexual orientation.
- 33.5 In December 2010, the Government announced that it would not be taking forward the socio-economic duty for public bodies. Despite this we have continued to consider people on low incomes as part of our equality impact assessment process.
- 33.6 Assessing the potential equality impact of proposed changes to policies procedures and practices is one of the key ways in which public authorities can show 'due regard'. Equality Impact Assessments (EIAs), therefore, provide a structured framework which enables the Council to ensure that it considers the equality impact of decisions, and to demonstrate to others that it has done so.
- 33.7 Oldham's EIA form is based on the experience of previous years and incorporates elements from good practice elsewhere. The main aims of our current EIA are to:
- strengthen the process through improved accountability – identifying a lead officer for each EIA;
 - stimulate a more rigorous and overt analysis of the impact and possible mitigations; and
 - implement a stronger equality monitoring and management process to ensure that we follow through on what we said we would do. This includes identifying risks to implementation and how these will be managed.
- 33.8 The EIAs attached to the budget proposals are the final EIAs as no public consultation is required for those options.
- 33.9 The equality impact assessment process undertaken for the Council's budget process involves:
- An initial equality impact screening – The budget proposal action plan forms completed by each Director / Service Manager incorporate an initial equality screening to identify whether any proposal has the potential for significant disproportionate adverse impact in respect of any protected characteristic i.e. whether the impact of the proposal falls disproportionately on any particular group – such as people with a disability.
 - The initial screenings are then independently reviewed by a small group with knowledge of the equality legislation, comprising of the Cabinet Member for Social Care and Safeguarding, and officer representatives from Health and Wellbeing and Corporate and Commercial Services.

33.10 The key aims of this review process are to:

- assess the potential equality impact of each proposal using the information provided.
- provide challenge to those where the Group feel the initial screening does not accurately identify those equality groups potentially affected and that a further screening process needs to be completed.

33.11 Full equality impact assessment – An equality impact assessment is carried out if the initial screening identifies that the proposal could have a potential significant, disproportionate adverse equality impact.

33.12 A key element to assessing the equality impact has been the involvement of elected members. This involvement has included:

- The Cabinet Member for Social Care and Safeguarding who sits on the Equality Challenge Group.
- Consideration of equality impact throughout the Leadership Star Chamber process, including through the initial screenings on the proposal forms and a briefing paper.
- Briefings between Executive Directors and Cabinet Members during development of proposals and working together to consider the equality impacts and identify any mitigating actions.
- Both the EIA screening information contained with the budget proposals and the EIA forms themselves, where available, are submitted to, and considered by PVFM Select Committee. NB: Where public consultation is required and is ongoing, the EIA forms are still in draft form at this stage.
- Final EIAs are made available to Members alongside the budget proposals in the Council papers.

33.13 The Council in adhering to the legal requirements is already completing EIAs and progress will be reported on these throughout the budget preparation as it was last year.

(Jonathan Downs)

Budget reductions

This page is intentionally left blank

Responsible Officer :	Mark Warren
Cabinet Member :	Cllr Z Chauhan
Support Officer :	Helen Ramsden

BR1 - Section A

Service Area :	Commissioning
Budget Reduction Title :	Day Care Services

Budget Reduction Proposal - Detail and Objectives :

Reduction in the funding envelope from 2019/20 onwards for contracted Day Care Services for older people.

As we retender the day services contract and have a look at usage figures across the current Age UK services and Laurel Bank (Miocare), there is potential to reduce the funding envelope by c£0.050m. However, we are unlikely to have the capacity to retender this ahead of the start of the new financial year so will be a part year effect in 19/20. It is most likely that the savings will be achieved by reducing the number of places in the contract, based on actual usage against the block contract over the past 12-18 months.

The total current value of these services is c£0.500m per annum, across a range of arrangements. These will be brought together under one contract.

Discussions are underway regarding the transfer of Miocare day services to Age UK and the potential to achieve the savings via negotiation rather than tender.

The proposal has been discussed with Age UK which has provided clarity on the preferred route to achieve the saving.

Section B

What impact does the proposal have on the following? :

Property
Please see additional information.
Service Delivery
None. The saving would be achieved through reductions in the number of day places available, which will reflect actual usage.
Future expected outcomes
None. please see above.
Organisation
None. Please see above.
Workforce
None. Please see above. There will be TUPE transfers of staff from Miocare to the successful provider. Miocare management and staff are aware and have been fully engaged in discussions.
Communities and Service Users
None. Services will continue.
Oldham Cares
None. Services will continue.
Other Partner Organisations
None. Services will continue.

Who are the key stakeholders?

Staff	No
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	Yes
Age UK	
Other Council Departments (if yes please specify below)	Yes
Miocare	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

The reduction in contract value of 10% will be reflective of a general reduction in demand for day services for older people.

Section C**Key Risks and Mitigations:**

Risk	Mitigation
The retender or negotiation does not result in viable bidders to deliver day services.	Age UK is the current provider of the majority of day services. The previous two tenders of this contract have resulted in viable bids. Discussions are ongoing through contract management meetings regarding the future of these services, and Age UK's appetite as a service provider.
A 10% reduction in annual contract value does not secure sufficient places to meet demand.	The proposed reduction is in line with contract monitoring activity figures.

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	Yes
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	Yes
---	-----

Section E

Finance Comments
The reduction will be achieved by reducing the envelope upon re-tendering for Day Care Services, the current contract value is £0.500m across a range of services. Due to contract renewal dates the proposed saving of £0.050m will not be fully achievable; 75% (£0.037m) will be delivered in 2019/20 with the balance (£0.017m) delivered in 2020/21. Based on current usage/uptake the proposed phased reduction is deemed achievable.

Additional Information (if required)

Impact on property

No immediate effect. Discussions have been ongoing for some time in relation to Laurel Bank, and whether a provider other than Miocare would want to operate from this site should they win the tender. Whilst this is highly likely in the short term, for continuity for service users, they may wish to source their own premises in future.

Equality Impact Assessment Tool

Service Area:	Health & Wellbeing
Budget Reduction Title:	Reduce the budget that the council spends on day care services by £50,000 per annum.

Stage 1: Initial Assessment

1a	Which service does this project, policy or proposal relate to? Day Care Services (Older People).
1b	What is the project, policy or proposal? To reduce the amount of money paid into older people day services by £50,000 per annum.
1c	<p>What are the main aims of the project, policy or proposal?</p> <p>Main aims of the day care services provision:</p> <p>Older People Day care services are currently provided by 2 providers, these are Age UK Oldham & Mio Care.</p> <p>Age UK Oldham provide day care services to Older People over 65 years with an assessed care need at a number of venues across Oldham. The value of the contract is £289,197 per annum and was awarded 1st July 2016. This contract is due to expire 30 June 2019. Age UK Oldham also provide day care services at Franklin house. Oldham Council pays £234,206 for services at Franklin house.</p> <p>Main aims of the proposal:</p> <p>Reduction in the funding envelope from 2019/20 onwards for contracted Day Care Services for older people. As we retender the day services contract and have a look at usage figures across the current Age UK services and Laurel Bank (Miocare), there is potential to reduce the funding envelope by circa £50,000 per annum.</p> <p>However, we are unlikely to have the capacity to retender this ahead of the start of the new financial year so there will be a part year effect in 19/20. It is most likely that the savings will be achieved by reducing the number of places in the contract, based on actual usage against the block contract over the past 12-18 months. The total current value of these services is circa £500,000 per annum, across a range of arrangements. These will be brought together under one contract.</p> <p>Discussions are underway regarding the transfer of Miocare day services to Age UK and the potential to achieve the savings via negotiation rather than tender. This would ensure continuity of employer and service for the staff and people who use the service and achieve full delivery of the saving in 2019/20 and beyond.</p>

1d	Who, potentially, could this project, policy or proposal either benefit or have a detrimental effect on, and how?				
	No impact. The service will be re-tendered/re-negotiated on the basis of the number of places that are required. It is therefore anticipated that the £50,000 per annum efficiency saving will be achieved through reducing the cost envelope in accordance with demand.				
1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in particular age groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

1f	What do you think the overall NEGATIVE impact on groups and communities will be?	None / Minimal	Significant
		<input checked="" type="checkbox"/>	<input type="checkbox"/>

1g	Using the screening and information in questions 1e and 1f, should a full assessment be carried out on the project, policy or proposal?	Yes <input type="checkbox"/>
		No <input checked="" type="checkbox"/>

1h	How have you come to this decision?	
	<p>As outlined in 1D, there will be No impact. The service will be re-tendered/re-negotiated on the basis of the number of places that are required. It is therefore anticipated that the £50,000 per annum efficiency saving will be achieved through reducing the cost envelope in accordance with demand.</p> <p>When outlining the proposal in the BR1 form it was identified that there was a potential negative impact on <i>people in particular age groups</i>. However, during the Stage 1 EIA process this impact had been mitigated, so it was not necessary to complete a full EIA.</p>

BR1 - Section A

Service Area :	Commissioning
Budget Reduction Title :	Community Transport

Budget Reduction Proposal - Detail and Objectives :

Cessation of grant funded contribution to Community Transport Oldham for 2019/20 in the sum of £0.045m.

From 2016/17, Adult Social Care took over responsibility for the payment of a grant to Community Transport Oldham (CTO) of £0.045m per annum. This grant contributes to such activities as the provision of mobility scooters to hire in the town centre and the hire of wheelchair accessible minibuses. No specific service is commissioned by the Council from CTO.

It is clear from monitoring information submitted, that usage of the various services CTO offer is reducing.

In addition, we have been made aware that CTO has been using a number of Council facilities for a number of years (an office in the market hall, garages at Moorhey Street) without charge, and were using the Council service for MOT and servicing of their vehicles, but that there have been issues with non-payment. It is estimated that the value of these facilities to CTO is around £0.100m. It is our understanding that this "free" support to CTO has been withdrawn. This is likely to make the business unsustainable with or without a £0.045m grant.

CTO are aware that we are reviewing the grant this year and that the council hasn't committed beyond 2018/19.

Proposed Budget Reduction (£000)	(45)	0	0
Proposed Staffing Reductions (FTE)	0.00	0.00	0.00

Is your proposal a "one-off" in 2019/20 or is it ongoing?

	Ongoing
--	---------

Section B

What impact does the proposal have on the following? :

Property
None
Service Delivery
None. It will be for CTO to determine whether they can continue to operate without Council support. Part of the communication plan with CTO will be to signpost them to wider support, such as Action Together.
Future expected outcomes
None.
Organisation
None.
Workforce
None.
Communities and Service Users
This will be largely dependent on CTO's response to the grant cessation and their ability to attract alternative sources of funding.
Oldham Cares
None.
Other Partner Organisations
None.

Who are the key stakeholders?

Staff	No
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	Yes
Community Transport Oldham	

Benefits to the organisation/staff/customers including performance improvements

Contribution to the achievement of the 2019/20 budget reduction target.

Section C

Key Risks and Mitigations:

Risk	Mitigation
CTO are unable to continue to operate without continued Council support.	Discussions to take place as part of the grant cessation, to advise and signpost.
N/A	N/A
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Proposal communicated to CTO	5 November 2018
Meeting with Chief Executive of CTO	15 November 2018
Service visit	26 November 2018
N/A	N/A

Section D

Consultation Required?	Yes
------------------------	-----

	Start	Conclusion
Staff	not applicable	not applicable
Trade Union	not applicable	not applicable
Public	07-Nov-2018	25-Jan-2019
Service User	not applicable	not applicable
Other	not applicable	not applicable

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	Yes
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	Yes
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	Yes
---	-----

Section E

Finance Comments
The saving will be achieved by the cessation of the Councils contribution to a grant provided to CTO. There are no perceived difficulties in delivering this budget reduction.

Equality Impact Assessment Tool

Service Area:	Health & Wellbeing
Budget Reduction Title:	Ceasing of Grant Funding of £45,000 per annum payable to Community Transport Oldham

Stage 1: Initial Assessment

1a	<p>Which service does this project, policy or proposal relate to?</p> <p>Community Transport Services.</p>
1b	<p>What is the project, policy or proposal?</p> <p>Community Transport Oldham currently receive a £45,000 per year grant which contributes to activities such as door to door bus services for individuals with health conditions "Dial-a-Ride", the provision of Motability scooters for hire in the town centre and the hire of wheelchair accessible minibuses. It is proposed that we cease this grant.</p>
1c	<p>What are the main aims of the project, policy or proposal?</p> <p>Main aims of the Community Transport Oldham project:</p> <p>Community Transport Oldham (CTO) is a service which provides a range of transportation services for anyone who experiences difficulties using public transport as a result of limited mobility. The service is available to the residents of Oldham and provides a door to door service. The service helps individuals maintain their independence and quality of life whilst living at home. People are able to access the service irrespective of whether they are known to Adult Social Care. The service is operated from Tommyfield Market which is undergoing a refurbishment programme.</p> <p>The Services offered include:</p> <ul style="list-style-type: none"> • Dial a Ride The service provides door to door accessible transport usually within the borough. People are typically taken to day services and to health appointments. All the minibuses are wheelchair accessible. • Group Travel Minibuses are available for use by 'not for profit' organisations in Oldham. Residents can hire a driver or drive the minibus themselves. (Training is provided). <p>CTO operate a fleet of 5 mini-buses which are used for the Dial a Ride and Group Travel services. These vehicles vary in age from 10 to 13 years old and are described as 'high mileage'. CTO have pointed out that these older vehicles are not compliant with the latest European commission regulations governing the amount of harmful gases vehicles emit. CTO have advised that older vehicles are used in the Oldham service because as the service is subsidised by them, they cannot afford to offset depreciation costs of newer vehicles. In future across the organisation they are looking to lease vehicles rather than outright purchase.</p>

The image above identifies a typical mini-bus on the fleet used by the Dial a Ride and Group Travel service. This vehicle was registered in 2006.

- Promobility (Shopmobility)

This service provides a range of manual and electric powered wheelchairs and mobility scooters for hire to access all the facilities in Oldham town centre. The service currently operates a fleet of 16 electric scooters. These range in size and specification. Some of these scooters can be adjusted so they can be operated by controls exclusively on one side of the vehicle, therefore being suitable for individuals with limited mobility down a particular side of the body. Some of these scooters accommodate people of up to 30 stone in weight.

Small foldable scooters and wheelchairs are also available which can be transported in cars & coaches to enable people to use them when taking breaks. Other walking aids such as walking frames can also be provided if required.

The image above identifies some of the scooters used by the Promobility service. The vehicle in the foreground can accommodate people upto 30 stones in weight.

- Training
Training is offered to Residents if they would like to hire and drive the minibuses themselves rather than use a CTO driver.
- Volunteering
CTO provide regular volunteering opportunities for Oldham residents.

Public facing information regarding the current CTO service is available here:
http://www.transportforcommunities.co.uk/gmcotm/CT_files/CT_oldham.htm

The service has been in operation since 2009. The service was originally grant funded via the Neighbourhoods Directorate through a PPF grant and CTO were awarded £50k per annum. This grant expired in March 2016. Responsibility for the commissioning of this service was then transferred over to the Adult Social Care Commissioning Team, but without funds as these were subject to budget reduction within the Neighbourhoods Directorate. Negotiations were undertaken and it was agreed that the service would continue to be funded at a slightly reduced cost of £45k per annum. The money for the CTO service is now paid through the general fund.

Main aims of the proposal:

The proposal to cease the grant funding of £45,000 per annum to Community Transport Oldham has been put forward in response to the financial challenges faced by the Council and the need to prioritise expenditure.

1d Who, potentially, could this project, policy or proposal either benefit or have a detrimental effect on, and how?

CTO have indicated verbally that they would expect to cease to deliver the service in Oldham if the grant funding was to stop. The organisation have explained that they expect to be served notice imminently on their existing premises adjacent to the Tommyfield market car park and will need to find suitable alternative premises. Additionally, a relationship that they had with the council in respect of vehicle maintenance has come to an end recently and a consequence of this has been that they now have to pay for vehicle storage.

If the Council were to cease the grant it is anticipated that there would be a detrimental effect of the following people:

Employees:

2 full time employees may have to be made redundant. One of these employees runs the service on a day to day basis and the other is a full time driver. There are additionally 3 semi-retired drivers who are available as and when required who are paid if called upon to provide driving support.

People who use the current service:

People are required to register with the service if they wish to access any of the services CTO provide. These users are required to pay an annual fee of £10 - £15. (Variable depending on the services people wish to access).

Current data indicates that there are 34 individuals registered to use the Dial a ride service.

76 individuals are registered to use the Promobility service.

253 groups are registered to use the Group Travel service, 56 of these are reported to use the service at least monthly.

The extent to which these people/groups use the services is not clear, this information has been requested but not provided.(This point is discussed in more detail in stage 2 of this EIA).

CTO have provided case study documentation which identifies individuals who rely on their service in the following ways:

One person of with bariatric obesity relies on the service to enable them to access shops in the town centre. CTO have reported that some of the people who use the dial a ride service would struggle to use conventional taxi services, reporting that there have been examples of conventional taxi services refusing to cater for some dial a ride clients, citing reasons such as personal hygiene.

A case study has identified that one individual has developed a strong and trusted relationship with the driver who takes them to the link centre. This person uses a very complex wheelchair with full head restraint which cannot be transported easily, a factor which is described as limiting this person's access to public transport or taxi services. The driver being described as a safe driver, courteous, polite and as a 'Friend'

CTO have advised that they act as a support function for a number of people, for example helping them to apply for blue badges, making referrals into other services if they identify examples of self-neglect, and to detecting levels of early onset dementia.

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?	None	Positive	Negative	Not sure
	Disabled people	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

People in particular age groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

1f	What do you think the overall NEGATIVE impact on groups and communities will be?	None / Minimal	Significant
		<input checked="" type="checkbox"/>	<input type="checkbox"/>

1g	Using the screening and information in questions 1e and 1f, should a full assessment be carried out on the project, policy or proposal?	Yes <input checked="" type="checkbox"/>
		No <input type="checkbox"/>

1h	How have you come to this decision?
	<p>34 individuals are registered to use the Dial a ride service. 76 individuals are registered to use the Promobility service. The extent to which these people use the service is not clear, this information has been requested but not provided.</p> <p>Individuals who use the Dial a Ride and Pro-Mobility services clearly value the service and would be affected. Semi-retired staff would be affected if they were to be made redundant.</p>

Stage 2: What do you know?

What do you know already?			
<p>34 individuals are registered to use the Dial a ride service. In quarter 2 of 2018/19 414 journeys were made.</p> <p>76 individuals are registered to use the Promobility service. In quarter 2 of 2018/19 257 daily wheelchair and scooter hires took place.</p> <p>253 groups are registered to use the Group Travel service, 56 of these are reported to use the service at least monthly. In quarter 2 of 2018/19 817 individual passengers were taken on journeys (which they made alongside other passengers who were also accessing the group travel service). The extent to which these people/groups use the services is not clear, this information has been requested but not provided.</p> <p>People are able to access the service irrespective of whether they are known to Adult Social Care.</p> <p>People pay the following charges shown below to access the services. These charges to customers have not been increased for at least 2.5 years.</p>			
<u>Cost Information Breakdown</u>			
Service	Distance / Time	Costs	Notes
Dial a Ride	Upto 1 Mile	£3.50	

(Registered User)			
	1-4 Miles	£5.50	
	4 Miles	£7.50	
Dial a Ride (Family member or carer)		£1.00	
ProMobility Scooter / Wheelchair		£3.00 a Day	Operates from 10:00AM to 16:00PM Monday, Wed - Friday
Group Travel (Self Drive)	Half Day(4 Hours)	£50.00	Return the vehicle fully fuelled
	Full Day	£100	- As Above -
	Weekends (5:00PM Friday to 08:00am Monday)	£200	- As Above -
	Full Week	£500	- As Above-
Group Travel (Driver costs)	1 Hour	£12.00/ hour	Restricted to Group Travel and hourly and per mile charges applies to all journeys
	1 Mile	£1.00	

CTO have advised that the total budgeted project costs for 2018/2019 are £129,102. Total income is budgeted at £119,013, which is generated from the £45000 grant, plus income from hire charges and fares. CTO have advised they subsidise the shortfall of £10,089 per annum.

The cost of the grant does not reflect the true value of the provision due to additional cost free services which are currently being provided such as rent free town centre accommodation, cost of utilities, vehicle parking, service charges and rates, cost of water usage, and property insurance. Additionally, 4 parking bays restricted for the use of CTO customers which results in incurring loss of income to the Oldham council from the parking.

People and Place indicated to CTO in April that Community Transport needed to vacate the Market garage at the end of December 2018. This was to allow construction of a car park to begin on the site in January. Plans for the car park have been delayed and subsequently this deadline has been extended to the end of January 2019. People and Place have offered CTO alternative space free of charge in the shopping centre. CTO are understood not to have responded formally to this offer, however this is understood to not be regarded as suitable for the service due to concerns regarding the accessibility for scooters.

What don't you know?

If those in receipt of services were to be assessed by ACS it is not known whether any or all of them would be eligible to receive services and any needs they do have may be able to be met in a different way.

The extent to which The registered users actually use the services is not clear, this information has been requested but not provided.

CTO have provided data with regards to the number of individuals registered to use each of the

services. CTO have also provided data regarding the number of dial a ride journeys, scooter hires, and group travel journeys in quarterly monitoring information. However, CTO have been unable to provide requested data with regards to the number of unique individuals who use the services. For example we do not know the extent to which each of those 34 registered individuals use the Dial a ride service in a given quarter. It would have been useful to have been able to determine how often each of the 34 individuals had used the service during quarter 2 of 2018-19. Had we been able to determine that X of the 34 people used the service only once, X of the 34 people used the service more than 10 times in the quarter this information would have assisted with this analysis.

Further Data Collection

Summary (to be completed following analysis of the evidence above)

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in particular age groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Stage 3: What do we think the potential impact might be?

3a	Who have you consulted with?
	<p>CTO including regular contract monitoring. A meeting was held at Ellen House with a CTO Director on 15 November 2018. A visit to the service was undertaken on 3 December 2018. CTO have been asked to consider if the service could charge individuals more to partially offset funding reductions. The potential impact of this is unknown as CTO have been unable to provide a breakdown of the extent of the subsidy.</p>
3b	How did you consult? (include meeting dates, activity undertaken & groups consulted)
	<p>Analysis of contract monitoring data and service data provided by CTO. Contract monitoring meeting with Chief Executive of CTO on 15 November 2018. A visit to the service on 3 December 2018 and a total of 70 questionnaires were left with the service to hand out to users for completion. On 19 December the service returned a total of 13 completed questionnaires. These users provided feedback with regards to a series of questions about the existing service.</p>
3c	What do you know?

34 individuals are registered to use the Dial a ride service.
76 individuals are registered to use the Promobility service.
253 groups are registered to use the Group Travel service, 56 of these are reported to use the service at least monthly.

There are alternatives outlined at stage 4 which could reduce and mitigate the impact of the proposal.

A total of 13 people completed questionnaires.

100% of respondents regarded the services as Affordable.
77% of survey respondents advised that they would be willing to pay more to receive the same level of service from CTO or any other provider.

77% used the free comments section to state that they valued the service, some people describing the service as 'a lifeline'.

An overview of the results of the key findings consultation is shown below:

15% of respondents were in the 18 to 40 years age bracket.
31% of respondents were in the 40 to 60 years age bracket.
54% of respondents were in the 60 years and above age bracket.

84% of respondents regarded themselves as having a physical or other disability which required access to regular transport.

92% of respondents used the Promobility Service. (23% of these saying they used all services).
8% (1 person) did not state which service was used.
No respondent said they only used the Dial a ride service.
No respondent said they only used the group travel service.

23% of respondents used services once a week.
30% of respondents used services more than once a week.
38% of respondents used services frequently/regularly.
8% (1 person) of respondents was not sure how often they used services.

77% of respondents described the main purpose of the service was to do shopping.

100% of respondents reported that they used alternative modes of transport in their normal day to day life.

77% of respondents used private taxis.

38% of respondents owned their own electric scooter or wheel chair and did not hire these items from CTO.

3d

What don't you know?

The extent to which these people/groups use the services is not clear, this information has been requested but not provided. CTO have provided data with regards to the number of individuals registered to use each of the services. CTO have also provided data regarding the number of dial a ride journeys, scooter hires, and group travel journeys in quarterly monitoring information. However, CTO have been unable to provide requested data with regards to the number of unique individuals who use the services. For example we do not know the extent to which each of those 34 registered individuals use the Dial a ride service in a given quarter. It would have been useful to have been able to determine how often each of the 34 individuals had used the service during quarter 2 of 2018-19. Had we been able to determine that X of the 34 people used the service only once, X of the 34 people used the service more than 10 times in the quarter this information would have assisted with this analysis.

3e	What might the potential impact on individuals or groups be?	
	Generic (impact across all groups)	N/A
	Disabled people	Disabled people may be affected (See proposed mitigation below).
	Particular ethnic groups	N/A
	Men or women (<i>include impacts due to pregnancy / maternity</i>)	N/A
	People of particular sexual orientation/s	N/A
	People in a Marriage or Civic Partnership	N/A
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	N/A
	People on low incomes	People on low incomes may be affected. (See proposed mitigation below).
	People in particular age groups	N/A
	Groups with particular faiths and beliefs	N/A
	Other excluded individuals (<i>e.g. vulnerable residents, individuals at risk of loneliness, carers or service and ex-serving members of the armed forces</i>)	N/A

Stage 4: Reducing / Mitigating the Impact

4a	What can be done to reduce or mitigate the impact of the areas you have identified?	
	Impact 1	Proposal
	Disabled People	<p>Recommend ACS assessments for the list of individuals who have been identified who use the service who have disabilities to see if any changes need to be made to their package of care in the event the CTO service was not to be available to them.</p> <p>To better understand their financial position in respect of purchasing a variety of services to assist them, this may consist of purchasing hours of support from a personal assistant, or accessing local services in a different way.</p> <p><u>Dial a Ride – Alternative options:</u></p> <p>1) Re-designing the existing offer</p> <p>CTO could give some consideration to reducing the operating costs of the fleet of mini-buses by exploring options such as reducing the size of the fleet. A consequence of this option may be that people who use the service may be offered more restricted availability. CTO would need to consult with those who use the service to discuss this option. This could potentially coincide with a move to a smaller leased fleet. It may be practical for CTO to jointly lease vehicles between sites.</p> <p>2) Ring and Ride option</p>

There is an alternative service provider 'Ring and Ride' who provide similar transportation services to People who require this service. The Ring and Ride service is available to people who find it difficult to use public transport. Information on this option is available below:

<https://www.oldham.gov.uk/info/200786/transport/561/dial-a-ride-and-ring-and-ride>

3) Subsidised Travel Voucher scheme

People who struggle to use public transport may be able to convert free bus passes to the subsidised Travel voucher scheme where individuals are unable to access the buses if they live away from bus stops or bus routes. There are conditions attached to this scheme. Information on this option is available below:

<https://www.tfgm.com/public-transport/travel-vouchers>

4) Alternative sources of Transport.

There are currently 35 licensed taxi operators in Oldham. Research has identified that there are specialist taxi services available in the borough, these include, but are not limited to: Oldham wheelchair travel, Borough Taxi's Oldham.

Information on these options is available below:

<https://oldhamwheelchairtravel.com/>

<http://www.boroughtaxisoldham.com/>

There are a number of traditional bus services that operate in Oldham which may meet the needs of some people who use the dial a ride service. For example MCT community transport operate a diverse range of circular routes that cover a number of localities in Oldham. This provider also provides a 'hail and ride' service which means that passengers can get on and off the bus wherever it is safe.

<http://www.manct.org/our-route/>

Group Travel – Alternative options:

1) Re-designing the existing offer

CTO could give some consideration to reducing the operating costs of the fleet of mini-buses by exploring options such as reducing the size of the fleet. Vehicles could be hired from appropriate companies when required thus reducing costly down time when the current fleet of owned vehicles are unused.

2) Alternative sources of Transport.

Private mini-bus hire options that exist in the local market to cater for people requiring a group travel requirement. It should be noted that the credentials of the drivers would

need to be understood when assessing alternatives. Carlton Minibuses, based in Royton stipulates on their web site that all staff are “fully checked by the Disclosure and barring service and are highly trained professionals” Information on this option is available below:
<http://www.carltonminibuses.co.uk/>

MCT community transport operate a diverse range of circular routes that cover a number of localities in Oldham. This provider also provides a ‘hail and ride’ service which means that passengers can get on and off the bus wherever it is safe.

MCT have stipulated that they provide Mini-Bus Driver Awareness Scheme (MIDAS) training Information on this option is available below:
<http://www.manct.org/our-route/>

Premier Mini Bus hire are based in Oldham. They stipulate on their web site that staff are DBS checked and that all vehicles are wheel chair accessible. Information on this option is available below:
<http://www.premierminibushire.co.uk/>

Mini-Bus hire Oldham are a local organisation who stipulate on their web-site that drivers are fully trained and offer a range of different types of mini-buses from 8 – 18 seats. Information on this option is available below:
<http://www.minibushireoldham.com/about-us.html>

Pro-mobility – Alternative options:

1) Re-designing the existing offer

When the service was visited on 3rd December 2018, 13 of the 14 electric scooters on the fleet were not being used. CTO did point out that the inclement weather at the time may have discouraged some users. As such a large proportion of the fleet was unused at the time of this visit, CTO may wish to consider the validity of reducing the size of the scooter fleet by conducting analysis of scooter ‘down time’.

A consequence of this option may be that people who use the service may be offered more restricted availability. CTO would need to consult with those who use the service to discuss this option as it appears that some users like to specify particular scooters. It may be feasible to offer a reduced fleet size, covering the current mix of specifications which customers would need to book in advance.

2) Re-locating the scooter hire service

As CTO have been requested to vacate current premises imminently, with a 3 metre stall space having been offered in the market for a rent cost £4999 per annum. This space is more visible to users of the market and therefore likely to increase visibility of the service. CTO initially expressed concerns that they would require 2 stall spaces, therefore increasing the cost to £9,998 per

	<p>annum. If the fleet size was to be reduced, the space requirement would also reduce. The surplus scooters may be able to be sold to contribute to rent costs in the initial year.</p> <p>The scooters are for use in the town centre. A small number of disabled parking spaces are available for wheelchair users who can access the town centre by vehicle.</p> <p>It is suggested that wheelchair users may be in a position to use other transport options to access the town centre.</p>
Impact 2	Proposal
People on low income	To better understand their financial position in respect of them being in a position to purchase a variety of services to assist them, this may consist of purchasing hours of support from a personal assistant, or accessing local services in a different way.
Impact 3	Proposal

4b	<p>Have you done, or will you do anything differently, as a result of the EIA?</p> <p>It has been identified through discussions that CTO may be able to diversify their offer in Oldham to better align with commissioning intentions. CTO have advised that they have a track record providing patient transfer services in other areas. This may be an area CTO could provide in Oldham that was aligned with current health and care commissioning intentions. Oldham cares will consider future commissioning intentions.</p> <p>The council has encouraged CTO to better understand the extent to which they are subsidising the services that they provide. The conclusion of this work would enable them to consider the extent of any charging contributions required by people who use the service.</p>
4c	<p>How will the impact of the project, policy or proposal and any changes made to reduce the impact be monitored?</p> <p>Through dialogue with CTO about a revised business model and through assessing how many service users who access the service are eligible to receive care services.</p>

Conclusion

This section should record the overall impact, who will be impacted upon, and the steps being taken to reduce / mitigate the impact

The proposal to cease the grant is still recommended and the impact on people who use the service should be assessed. If these people have an assessed care need assessments should be made to determine if adjustments to care packages need to be made.

If users of services do not have a care need it is recommended that alternative departments are notified of the change in case they wish to take over the funding or a proportion of the grant costs.

Cabinet Member :	Cllr A Shah
Support Officer :	Carol Brown

BR1 - Section A

Service Area :	Environmental Management
Budget Reduction Title :	Reduction in budget supporting North West in bloom

Budget Reduction Proposal - Detail and Objectives :

The North West in Bloom (NWIB) submission forms part of a wider strategy to regenerate key routes through the Borough and engage with local communities to improve the environment. The work involved is focused on working with local communities both residential and businesses and receives considerable support from the public in general as well as the individuals and communities that come together to support the work. There is considerable benefit in working with schools to increase pupils understanding on litter and wider environmental issues including growing food, the importance of healthy eating and taking a pride in the place where they live. Equally working with older people on shared projects to enable them to come together combating loneliness is important. It is the work with local communities, both residents and businesses, which drives the real benefit and legacy plantings which are derived from the competition. This work enhances the perception of the town centre and key routes in particular, is popular with all visitors and supported by local businesses as it provides an attraction to the town centre and improves the local offer. In addition the work makes a number of key routes memorable as the legacy beds are taken to different points across the borough. The budget also supports the in depth cleaning which forms part of annual overall programme of works.

The proposal is to continue with limited floral displays in the town centre however the budget reduction proposed will not enable the wider benefit to our districts removing both the lasting impact of community work and uplift to key routes across the local districts and so removing the opportunity to enter the annual competition. The success of NWIB over the years has been heavily reliant on the contribution of partners for example FCHO actively engage with their residents and local communities to improve an area, an activity which is also supported by their funding of the local gardens competition. Contributions are also in place from local businesses in Spindles/Town Square there is therefore no immediate opportunity evident to mitigate further any reduction in budget.

2018/19 Service Budget and Establishment

	£000
Employees	5,935
Other Operational Expenses	5,372
Income	(3,119)
Total	8,188

Is your proposal a "one-off" in 2019/20 or is it ongoing?

	Ongoing
--	---------

Section B

What impact does the proposal have on the following? :

Property
None
Service Delivery
No entry into NW in Bloom delivered.
Future expected outcomes
No engagement with community groups.
Organisation
Reputational impact
Workforce
Staff will be relocated within the service.
Communities and Service Users
Community groups and other organisations that participate in Bloom & Grow each year will be left without the required support to actively become engaged. The town centre and bloom routes will be less attractive which in turn will impact on visitors to the town potentially affecting economic prosperity.
Oldham Cares
None.
Other Partner Organisations
There is every likelihood that without the Council's input into NWIB, partners will no longer wish to fund the elements that they currently fund .

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	Yes
Schools	Yes
Trade Unions	Yes
External Partners (if yes please specify below)	Yes
A range of businesses that we have Service Level Agreements with.	
Other Council Departments (if yes please specify below)	Yes
Public Health, Education, District teams.	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

A £0.050m contribution to the achievement of the 2019/20 budget reduction target.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Reputational loss.	Alternative ways of maintaining visual displays within the borough will be explored.
N/A	N/A
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Proposal to be considered for approval.	27 February 2019.
Oldham to be withdrawn from NW in bloom.	Spring 2019.
N/A	N/A
N/A	N/A

Section D

Consultation Required?	Yes
------------------------	-----

	Start	Conclusion
Staff	not applicable	not applicable
Trade Union	not applicable	not applicable
Public	07-Nov-2018	25-Jan-2019

Other	not applicable	not applicable

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
The proposed reduction in Bloom and Grow expenditure will achieve the proposed saving.

Name and Date	Cllr A Shah	14-Jan-2019

BR1 - Section A

Service Area :	Environmental Management
Budget Reduction Title :	Charge for full length kerbs in designated areas

Budget Reduction Proposal - Detail and Objectives :

Allow for full length kerbs on graves allocated to one person only within designated areas of the 7 cemeteries. This option although currently unavailable in Oldham is widely available across the country. It is anticipated up to 50 new graves per year could be purchased with the full length kerbs.

2018/19 Service Budget and Establishment

£000

Employees	5,935
Other Operational Expenses	5,372
Income	(3,119)
Total	8,188

Current Forecast (under) / overspend

(159)

Section B

What impact does the proposal have on the following? :

Property
None.
Service Delivery
None.
Future expected outcomes
None.
Organisation
Income would be generated.
Workforce
None.
Communities and Service Users
There would be an additional choice if families wish to take up this option.
Oldham Cares
None.
Other Partner Organisations
None.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	Yes
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

There is considerable pressure placed upon the Council to remove extended kerbs that have been installed without approval. This pressure would be released which will enable the cemetery to be managed more efficiently.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Maintenance could be more difficult.	A review of the machinery used to maintain the cemeteries will be taken to take into account with regard to the additional obstacles.
N/A	N/A
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Inclusion within fees and charges report.	Early 2019.

Service Area : Environmental Management

Budget Reduction Title : Reduction in Administrative Support

Budget Reduction Proposal - Detail and Objectives :

The former Parks and cemeteries services administrative staff have been brought together to work from Hollinwood Cemetery. Following a period of cross departmental working we are now in a position where the current staff members are able to fulfil and cover all of the roles that are now required. Under the grounds of efficiency the service is able to operate with 3 administrative posts rather than the current 4. This will have minimal effect on service delivery.

2018/19 Service Budget and Establishment

£000

Employees	5,935
Other Operational Expenses	5,372
Income	(3,119)
Total	8,188

Is your proposal a "one-off" in 2019/20 or is it ongoing?

Ongoing

Section B

What impact does the proposal have on the following? :

Property
None.
Service Delivery
There will be minimal effect.
Future expected outcomes
Work allocated may take a little longer to complete during the busier times or when staff are on leave or sick.
Organisation
Minimal impact.
Workforce
Loss of 1 FTE.
Communities and Service Users
None.
Oldham Cares
None.
Other Partner Organisations
None.

Who are the key stakeholders?

Staff	Yes
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	Yes
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

A saving will be made in the revenue budget which will be ongoing.

Section C

Key Risks and Mitigations:

Risk	Mitigation
The workload in the team increases making it more difficult to meet expected timescales.	The Registrar and if needs be the Cemetery Manager will step in to assist whist there is increased pressure on the team.

Section E

Finance Comments
The Council owns a fleet of 21 Refuse Collection vehicles and supplements this by hiring a further 4 to 6 collection vehicles to meet peak demand (such as for gardening waste). 16 of the current fleet are now almost 7 years old and due for replacement in 2019 and 2020. The proposal is to retain 4 of the better vehicles and use these in place of hiring externally. After necessary maintenance and license fee costs, this would generate an ongoing saving of £0.090m p.a.

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
There is a budget of £0.179m for pest control fees in the current financial year. A total of £0.214m was collected in 2017/18. Service users include private citizens, internal Council departments and external corporate clients (including First Choice Homes and Schools). There is a degree of competition within this sector with private sector firms also supplying a similar service. As such, demand is likely to be price elastic i.e. as the price rises the demand for the service will decrease. However, an increase in charges of £0.010m is considered achievable.

BR1 - Section A

Service Area :	Soft Facilities Management
Budget Reduction Title :	Additional Bus Lane Enforcement

Budget Reduction Proposal - Detail and Objectives :

The Council proposes implementing further bus lane enforcement to the following areas:

- Market Street in Shaw – Bus only street
- Ashton Road (North bound – Copsterhill Road to King Street)
- St Marys Way (Tommyfield)
- Ashton Road Northbound (Hathershaw School)
- Oldham Road Royton

The indicative costs for the installation of the new CCTV camera system including all licences and software support is estimated at £97,920 with annual costs from year two of £18,372 (no charge to year one). It is estimated that the work associated with providing electrical connections, upgrading the highway and the implementation of lines and signs, is estimated at £0.120m for the five sites identified.

It is anticipated it would take circa 6 months to implement the works and new CCTV system based on the implementation of previous bus lanes. The legal work associated with updating the Traffic Regulation Orders has already been completed.

Section B

What impact does the proposal have on the following? :

Property
None.
Service Delivery
Parking Services will negotiate the additional monitoring requirements with NSL the Council's Parking Enforcement Agency.
Future expected outcomes
None.
Organisation
Parking Services will performance manage the additional bus lanes through the NSL contract.
Workforce
None.
Communities and Service Users
None.
Oldham Cares
None.
Other Partner Organisations
None.

Who are the key stakeholders?

Staff	No
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	Yes
Transport for Greater Manchester (TfGM)	

Benefits to the organisation/staff/customers including performance improvements

The Council is seen by TfGM to be enforcing bus lanes that were previously constructed but not enforced.

Section C

Key Risks and Mitigations:

Risk	Mitigation
The level of Penalty Notice Charges (PNC's) issued, reduces below expected income levels.	Regular updates on PNC's issued and action plan developed for any adverse reduction in income generated.
Negative publicity.	Clear communication plan developed.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Proposal considered for approval.	27 February 2019.
Implementation of bus lane enforcement.	Late summer 2019.
N/A	N/A
N/A	N/A

Section D

Consultation Required?	Yes

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
Finance comments are included within the additional information section.

Signed RO	19-Oct-2018
-----------	-------------

Signed Finance	15-Oct-2018
----------------	-------------

Cabinet Member Signature		
Name and Date	Cllr A Shah	14-Jan-2019

Additional Information (if required)

The proposal is to install 5 new enforcement camera's at the following bus lane routes around the borough.

Market St in Shaw
Ashton Road (north bound) Copsterhill road to king St
St Mary's Way Tommyfield
Ashton Road (north bound) Hathershaw School
Oldham Rd Royton

The proposal requires an initial capital outlay of circa £0.218m to cover the purchase and installation of the cameras and the required groundwork / site preparation. (the 1st years licencing and software costs are included in this figure)

It is anticipated that the 5 new cameras will generate circa £0.280m per annum in additional income based on estimated contravention figures of 8320 PNC's paid at the current average payment rate of £33.62. The estimated contravention figures are based on the current bus lane enforcement cameras in operation.

Ongoing management and maintenance costs have been calculated at circa £0.045m per annum resulting in a net income generation of £0.235m.

	£'000
Income	(280)
Expenditure	45
Net Surplus	(235)

Due to a six month leading time the first year option has been calculated at £0.132m increasing to £0.235m in the second full year of operation.

It is anticipated that the inital capital outlay will be funded through unallocated capital resources. However if funding is met through additional prudential borrowing the service will incur annual repayment costs. This will reduce the full year budget option.

Section E

Finance Comments
The value of the PFI is approximately £3.450m p.a. (current level of the Unitary Charge element). The Unitary charge pays for the maintenance of the street lighting to an agreed standard within the borough. This includes testing work performed by the contractor to monitor that satisfactory lighting levels are being maintained for lighting equipment (i.e. brightness of apparatus meets the agreed standard set in the PFI). This saving will be achieved by reducing the number of tests performed to a level that is still considered safe and satisfactory. As a result, this saving is achievable.

BR1 - Section A

Service Area :	Corporate Landlord (including Facilities Management)
Budget Reduction Title :	Property Savings and Accommodation Review

Budget Reduction Proposal - Detail and Objectives :

The Council has a large and diverse property portfolio and significant progress has been made to rationalise the office estate of the Council and make budget savings. This proposal is to address the remainder of the estate and will deliver cost savings, new income and capital receipts. Addressing the opportunities that exist in the remainder of the portfolio requires a fundamental review of the Council's approach to both its property assets and the management of those assets. This review and approach is captured in the Council's Medium Term Property Strategy.

Firstly, there is an operational estate with annual running costs of circa £14.000m and a maintenance backlog of £40.000m. Further rationalisation of this estate is required in light of changing service delivery arrangements across the Council and with partners, although it will also will require a more radical property strategy.

Secondly there is a non-operational estate that comprises circa 3,250 individual assets producing a net income of £1.000m. These headline figures hide the detail behind the portfolio which includes:

- A large number of low value, low yielding assets that require rationalisation and in which there are opportunities to generate increased income;
- A small number of "pure" investments where the focus should be on maximising income growth and income security and therefore require maintenance and investment to maintain the income stream; and
- Community assets treated as investments, but in reality serve a purpose greater than simply income/capital optimisation, although their cost is not explicitly identified.

2018/19 Service Budget and Establishment

Is your proposal a "one-off" in 2019/20 or is it ongoing?

	Ongoing
--	---------

Section B

What impact does the proposal have on the following? :

Property
All council property (land & buildings) is affected by this proposal.
Service Delivery
The management of Council properties, largely undertaken by Unity Partnership Limited (UPL) will need to change as the portfolio changes.
Future expected outcomes
A smaller more efficient property portfolio with a greater number of categories rather than operational and non-operational, as reflected in the Corporate Property Strategy, aligning more closely with the objectives and priorities of the Council.
Organisation
As property is used to deliver Council services it is an enabler to transformational change within the organisation.
Workforce
As property is used to deliver Council and partner services, any portfolio change will affect staff.
Communities and Service Users
Better identification of assets important to communities in support of the co-operative agenda, including Community Asset Transfer. As property is used to deliver Council services, any portfolio change has the opportunity to improve the experience of service users.
Oldham Cares
The current property portfolio includes properties used by Oldham Cares and any changes to the portfolio may impact on the operations of Oldham Cares.
Other Partner Organisations
In recent years there has been an increase in the co-location of services, this is expected to continue.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	Yes
Schools	Yes
Trade Unions	Yes
External Partners (if yes please specify below)	Yes
Schools, health, blue light services etc.	
Other Council Departments (if yes please specify below)	Yes
All services.	
Other (if yes please specify below)	Yes
Unity Partnership Limited.	

Benefits to the organisation/staff/customers including performance improvements

Long term revenue savings from a smaller more focused property portfolio.
Improvements for staff and customers when property is used to facilitate organisational change.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Decision making too slow to enable the Council to take the benefit from time sensitive investment opportunities.	Review Council decision making arrangements.
Operational estate rationalisation does not take place.	Business case approach to decision making to drive a programme of change.

People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
The proposal will be achieved from a reduction in property costs and measures to generate increased income from the Council's investment estate, along with capital receipts from any properties disposed. The Council's Property Rationalisation Programme Board is working on detailed proposals to implement the Medium Term Property Strategy to ensure that the proposals can be met from the 2019/20 financial year onwards.

BR1 - Section A

Service Area :	District Partnerships
Budget Reduction Title :	Review of District Working

Budget Reduction Proposal - Detail and Objectives :

There have been significant changes in the overall operating environment since the Council last reviewed district working in 2012/13.

The proposal seeks to review the current model of district working in the context of the wider reform agenda, to ensure that we operate in the most effective way to support elected members and to deliver better outcomes for residents.

Fundamental to this is the democratic role of elected members who lead on strengthening democracy and civil society. Elected members have a key role to play informing the approach and acting as ambassadors and local commissioners of activity to support the co-operative and Oldham Model.

Whilst the primary driver of the review is to ensure the effectiveness of district working going forward, it is anticipated that the review will achieve savings of at least £0.070m and further savings may arise as the review starts to take shape.

Is your proposal a "one-off" in 2019/20 or is it ongoing?

Ongoing

Section B

What impact does the proposal have on the following? :

Property
None at this stage of the review.
Service Delivery
The proposal seeks to strengthen support to elected members and to deliver better outcomes for residents.
Future expected outcomes
None
Organisation
The proposal seeks to review the current model of district working to ensure that we operate in the most effective way.
Workforce
The proposal will consider the effectiveness of district working in the context of the Oldham model and the wider reform agenda across Greater Manchester.
Communities and Service Users
The proposal seeks to deliver better outcomes for residents.
Oldham Cares
The review of district working will be considered in the context of Oldham Cares.
Other Partner Organisations
The Oldham Partnership are committed to working together as a system, rather than individuals, so that we deliver the Oldham model through effective collaborative working, harnessing the potential of all resources and assets to improve outcomes for people and the place.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	Yes
Oldham Leadership Board Members	
Other Council Departments (if yes please specify below)	Yes
District Partnership Team	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

The importance of and infrastructure for place-based working has become more complex but with a clear ambition for effective integration and commitment to whole system leadership. Fundamental to this is the democratic role of elected members who lead on strengthening democracy and civil society. Elected members have a key role to play informing the approach and acting as ambassadors and local commissioners of activity to support the co-operative and Oldham Model.

Equality Impact Assessment Tool

Service Area:	District Partnerships
Budget Reduction Title:	Review of District Working

Stage 1: Initial Assessment

1a	Which service does this project, policy or proposal relate to?
	The District Partnerships
1b	What is the project, policy or proposal?
	The proposal seeks to review the current model of district working to ensure that we operate in the most effective way to support elected members and to deliver better outcomes for residents.
	<p>Fundamental to this is the democratic role of elected members who lead on strengthening democracy and civil society. Elected members have a key role to play informing the approach and acting as ambassadors and local commissioners of activity to support the co-operative and Oldham Model.</p> <p>It is anticipated that the review will achieve savings of at least £70k and further savings may arise as the review starts to take shape.</p> <p>We will continue to revisit the EIA as the District review develops, ensuring any potential equality impacts are identified.</p>
1c	What are the main aims of the project, policy or proposal?
	<ul style="list-style-type: none"> To consider district working in the context of the <i>wider reform agenda</i>, to ensure we operate in the most effective way to support elected members and to deliver better outcomes for residents. To consider how elected members can be supported in their role as democratic leaders, and in particular at a place based level. To review the effectiveness of District Executives in the context of meaningful local democratic engagement, devolved decision making and support for elected members to secure local democratic engagement and strong community leadership. To review how we gather insight and intelligence from Elected Members and residents at a place based level to inform improved outcomes for residents through commissioning, service delivery and community action.
1d	Who, potentially, could this project, policy or proposal either benefit or have a detrimental effect on, and how?
	<p>There would be no detrimental impact to communities or specific groups.</p> <p>The proposal will seek to strengthen district working arrangements, supporting elected members and delivering better outcomes for residents.</p>

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in particular age groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

1f	What do you think the overall NEGATIVE impact on groups and communities will be?	None / Minimal	Significant
		<input checked="" type="checkbox"/>	<input type="checkbox"/>

1g	Using the screening and information in questions 1e and 1f, should a full assessment be carried out on the project, policy or proposal?	Yes <input type="checkbox"/>
		No <input checked="" type="checkbox"/>

1h	How have you come to this decision?
	<p>There is no detrimental impact to communities or specific groups.</p> <p>When outlining the proposal in the BR1 form it was identified that there was a potential negative impact on <i>people on low incomes</i>. However, during the Stage 1 EIA process this impact had been mitigated, so it was not necessary to complete a full EIA.</p>

BR1 - Section A

Service Area :	Policy
Budget Reduction Title :	Review of Design and Assurance

Budget Reduction Proposal - Detail and Objectives :

It has been agreed that a design and assurance function will be established which will strengthen our co-operative culture to enable a whole system approach to design, innovation and change in order to deliver the priorities of the Oldham Model. The function will develop systems, governance and provide support to improve service delivery across all parts of the internal and external 'system'. This is to include a commissioning and reporting relationship with Unity Partnership Limited giving greater visibility and assurance on all change projects, investment and change capacity across the Organisation.

The following services are key to ensure that this function is delivered effectively:

- Strategy, Partnerships and Policy (excluding Executive Support)
- Communications and Marketing
- Business Intelligence
- Transformation Programme Management Office

A review of the broader change functionality across the Organisation, including the services above and Unity Partnership, is to be undertaken with any proposed structural changes being developed and proposed through extensive consultation with staff and stakeholders.

Within the services included above, there are currently 72.5 FTE's with a combined service budget of £2.700m.

Further detail is included in additional information.

What impact does the proposal have on the following? :

Property
It is not yet known if, what any, impact there will be on property however it is envisaged that this will be minimal.
Service Delivery
The impact of service delivery will be considered as options are developed however, with a design and assurance function in place, service delivery will improve and will ensure there is even greater visibility and assurance on all change projects, investment and change capacity across the Organisation.
Future expected outcomes
In terms of services, outcomes are expected to be improved through development of this function, as the review of the functions within the team will align to current and future business plans and will have strong connectivity to the Oldham Model.
Organisation
Through the Senior Management Team, the Organisation is aware that a Strategic Design Authority Board has been established which provides strategic oversight to change projects, investment and change capacity across the Organisation.
Workforce
This is to be considered as specific options in relation to the function are developed.
Communities and Service Users
N/A at this stage.
Oldham Cares
It is not intended to include Oldham Cares within this review at this stage however, opportunities for joint working with Oldham Cares will be explored.
Other Partner Organisations
N/A

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	No
Local business community	No
Schools	No
Trade Unions	Yes
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	Yes
Services across the Organisation who undertake change delivery	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

The review would ensure that there is greater visibility and assurance on all change projects, investment and change capacity across the Organisation. The functions will reflect and align to corporate priorities, providing greater insight into the effectiveness of support services and of operational delivery, ensuring the council continues to deliver service improvement in line with corporate objectives.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Potential of capacity issues will be identified through options proposed.	The role and function of the services included will align with and address corporate priorities and requirements.
Potential redundancies resulting in knowledge and skills gap within each of the services.	Through any consultation process, there will be a clear matrix in place which sets out the knowledge and skills required in order to deliver the design and assurance function.
N/A	N/A

Key Development and Delivery Milestones:

Additional Information (if required)

Organisational benefits continued:

The design and assurance function will also hold responsibility for gathering insight to intelligence about our population to inform effective commissioning.

Of the 72.5 posts across the services, it should be noted that 16 posts are either fixed term or temporary and funded from service budgets or the Transformation reserve and therefore, the actual number of permanent members of staff funded from service base budgets is 56.5.

In order to ensure the design and assurance function is fit for purpose, consideration will be given to the overall capacity and capability required across the services including Unity Partnership to effectively deliver the Design and Assurance function. Any potential structural changes will be developed through engagement and consultation with staff, stakeholders and trade unions. Opportunities for joint working and sharing capacity across existing teams will be fully explored.

Specific and detailed proposals will be developed in consultation with staff, stakeholders and trade unions and in doing so, it is recognised that in pursuing efficiencies there will be a resulting reduction in the number of FTE's across the services.

In order to achieve the full savings target, it is proposed that the combined service budget would see a reduction of £0.230m over the two financial years. In addition, a review will be undertaken looking at the total amount of spend on consultants and change programmes across the Organisation.

As part of achieving this saving, the following proposals are to be considered:

- £2,500 reduction in non-pay budget of Strategy, Partnerships and Policy
- discontinue the Council's membership of LGIU - £10,000.

- A review of the form and function of the Communications, Business Intelligence and Transformation PMO will be undertaken where it is envisaged that there could be a reduction of up to ten FTE's.

Further work is to be developed in order to achieve the remaining £0.270m over the next two years. This work will look to reduce the spend on consultants and external resource across the Organisation.

Finance Comments (Continued)

As part of the proposal the combined service budgets of Strategy, Partnerships and Policy (excluding Executive Support, Communications and Marketing, Business Intelligence and Transformation Programme Management Office) would see a reduction of £0.230m over the two financial years. Further work is to be developed in order to achieve the remaining £0.270m over the next two years. This work will look to reduce the spend on consultants and external resource across the Organisation.

The proposed reduction cuts across a number of Council Services and is still in the development phase, with further work being required to fully scope and cost the proposal to ensure successful implementation.

Service Area : Heritage Libraries and Arts

Budget Reduction Title : Oldham Library and Lifelong Learning Service - ICT Services

Budget Reduction Proposal - Detail and Objectives :

The transfer of the ICT managed service from Allied to Unity has generated a headline annual saving of £0.264m. After charging the revised service fee, aligning the library PFI budget, financing capital expenditure of £0.245m through prudential borrowing and making provision for equipment refresh there is a potential saving of circa £0.070m per annum. The saving for 2018/19 will be retained within the service to deal with any unforeseen costs or gaps in the level of service contained within the agreed initial fee. Assuming no additional call is required, a budget reduction of £0.070m is available in 2019/20.

Unity Partnership Limited.	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

In addition to generating a budget reduction, the headline saving has enabled the overall library PFI budget to be realigned, facilitated capital expenditure to upgrade the current equipment and provide better facilities for users. In addition, the creation of a refresh fund provides an element of 'future proofing' by making available resources to deal with future upgrades and equipment replacement.

Section C

Key Risks and Mitigations:

Risk	Mitigation
If the revised service fee is substantially lower than the original charge, there is a risk that the revised charge does not cover all of the services previously provided by Allied. Increased charges will reduce the potential saving.	The saving generated within 2018/19 will be retained within the service, specifically to deal with any such issues.

---	----

Section E

Finance Comments
The savings proposal forms part of the delegated decision made in June 2018. The budget reduction of £0.070m is based on an estimated saving after a number of other calls have been made against the headline saving of £0.264m. The main risk being that the renegotiated ICT service charge does not cover the full range of services provided by the previous incumbent and that additional charges will need to be incurred. Mitigations are however in place to deal with this risk.

Service Area :	Heritage Libraries and Arts
Budget Reduction Title :	Reduction in library casual staff budget

Budget Reduction Proposal - Detail and Objectives :

Delph Library is run by a Community Association and since April there has been a phased withdrawal of library staff support and there are now sufficient volunteers to deliver the offer at Delph. The proposal is therefore for a reduction in the budget for casual staff equivalent to 20 hours per week for casual library assistants at Delph library.

There will be no impact on Library staff as permanent staff will be redeployed to relieve pressure at other library sites.

Service Area :	Heritage Libraries and Arts
Budget Reduction Title :	Reduction in grants to cultural organisations

Budget Reduction Proposal - Detail and Objectives :

Historically the Coliseum Theatre (OCT) and Saddleworth Museum & Arts Gallery (SMAG) have received grants from Oldham Council to support their organisations. OCT receives £145,550 p.a. and SMAG £23,000 p.a. There is no formal agreement in place with OCT but an annual agreement is made with SMAG. The grants are given for general funding purposes and are not aligned with any specific outcomes. These amounts have been maintained at this level over the last 10 years. The proposal is to continue with the grants but reduce them by 5%.

Additional Information (if required)

The Coliseum Theatre also hold the lease from the Council on their current premises on the basis of a peppercorn rent. The Council will continue to be responsible for any current and future theatre premises.

Saddleworth Museum have recently opened to the public following a period of refurbishment which was funded by HLF and funds raised by the Museum Trust. Additional temporary HLF funds and staff are in place to support rebuilding audiences following the period of closure. This includes funding for an Activity Plan and an Education Officer for a time limited period.

BR1 - Section A

Service Area :	Public Health (Client and Delivery)
Budget Reduction Title :	Get Oldham Growing

Budget Reduction Proposal - Detail and Objectives :

Get Oldham Growing is a public health funded community engagement programme launched in April 2014 which aims to work with communities and individuals across Oldham around food – growing, cooking and healthy eating – building skills, supporting entrepreneurship and addressing the wider determinants of physical and mental health such as social connections, physical activity and feelings of achievement.

This proposal would reduce the overall budget for the programme through:

- Not renewing the contracts for two health ambassador posts (due to end December 2018 and March 2019). The health ambassadors support community groups and individuals and provide wider health messages. (£0.024m)
- Ending the Growing Entrepreneurs programme which provides support for growing in schools. (£0.010m)
- Reducing financial support for Alexandra Park growing hub. (£0.016m)

Section B

What impact does the proposal have on the following? :

Property
None
Service Delivery
Reduced direct support for community groups and schools to establish and run growing activities/projects.
Future expected outcomes
Potential impact on health outcomes, as growing has a positive impact on physical and mental health and wellbeing.
Organisation
Get Oldham Growing has been a high profile, award winning, programme, therefore reduction in programme funding may generate adverse publicity.
Workforce
Loss of 2 fixed term health ambassador posts, and reduced funding for the coordinator post may mean that the contracted hours for this post has to be reduced.
Communities and Service Users
Reduced direct support for community groups and schools to establish and run growing activities/projects.
Oldham Cares
Potential impact on health outcomes, as growing has a positive impact on physical and mental health and wellbeing.
Other Partner Organisations
Reduced direct support for community groups and schools to establish and run growing activities/projects.

Additional Information (if required)

Risk Mitigation 1

Support will continue to be available through the four existing growing hubs, and through training and other events organised by Get Oldham Growing. Alternative mechanisms for supporting schools will be explored including a network of schools interested in growing to provide mutual support and the development of volunteer growing champions to support schools.

Risk Mitigation 2

The programme will focus on supporting the development of growing skills and building sustainability, as well as providing support for groups wishing to establish growing projects/hubs to access alternative funding sources. In addition the programme will work alongside other linked programmes, such as Growing Oldham Feeding Ambition, to ensure best use of available resources to support growing in Oldham.

Stage 1: Initial Assessment

1a	Which service does this project, policy or proposal relate to?				
	Get Oldham Growing is a public health funded community engagement programme launched in April 2014 which works with communities and individuals across Oldham around food – growing ,cooking and healthy eating – building skills , supporting entrepreneurship and addressing the wider determinants of physical and mental health such as social connections, physical activity and feelings of achievement.				
1b	What is the project, policy or proposal?				
	Reduction in funding to the Get Oldham Growing programme.				
1c	What are the main aims of the project, policy or proposal?				
	To reduce funding to the programme supporting the achievement of the Council's savings plan for 2019/20				
1d	Who, potentially, could this project, policy or proposal either benefit or have a detrimental effect on, and how?				
	The proposal could have a detrimental effect on users of the service including families, children and young people, older people, socially isolated people, people from certain ethnic groups and people on low incomes.				
1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	People in particular age groups	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	Groups with particular faiths or beliefs	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
	People who are socially isolated	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>

		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--	--------------------------	--------------------------	--------------------------	--------------------------

1f	What do you think the overall NEGATIVE impact on groups and communities will be?	None/ Minimal	Significant
		<input type="checkbox"/>	X

1g	Using the screening and information in questions 1e and 1f, should a full assessment be carried out on the project, policy or proposal?	Yes X
		No <input type="checkbox"/>

1h	How have you come to this decision?
	Through agreeing potential areas of funding reductions with colleagues in Environmental Services and Public Health.

Stage 2: What do you know?

What do you know already?
<p>The proposal is to reduce funding to the Get Oldham Growing programme by :</p> <ol style="list-style-type: none"> 1. Not renewing the contracts for two health ambassador posts – the health ambassadors support community groups, schools and individuals in growing, walking and other health related activities and provide wider health messages – ending these contracts will end this support. Potentially fewer growing projects will be established and existing projects will receive less support. 2. Ending the Growing Entrepreneur programme which provides support for growing in schools – this will reduce the support for development of growing projects within schools and will reduce the opportunity for children and young people to develop personal, social and entrepreneurial skills. 3. Reducing financial support for the Growing Hub at Alexandra Park – this will affect the service provided by the Hub and could provide less support to children and young people, people who are socially isolated, people on low incomes and people from certain ethnic groups.
What don't you know?
<p>The full numbers of those who might be affected. However, figures from the Alexandra Park Hub for 2017/18 show there were 468 participants within this period, 186 from the 0-24 age range.</p> <p>Of these participants 186 were aged 0-24, 161 were aged 25-64 and 26 were over 65. In terms of gender 185 attendees were male, 245 were female. Many people attending the Hub did not identify their ethnicity of those who did 11 were White British, 9 were Asian Bangladeshi & 16 identified as Asian Pakistani.</p> <p>With reduced support for the Hub it is likely these figures will reduce.</p>
Further Data Collection

Summary (to be completed following analysis of the evidence above)

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	People in particular age groups	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	Groups with particular faiths or beliefs	X	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
	People who are socially isolated	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Stage 3: What do we think the potential impact might be?

3a	Who have you consulted with?	
	Environmental Services staff, Interim Director of Public Health We have no plans to consult further at the moment.	
3b	How did you consult? (include meeting dates, activity undertaken & groups consulted)	
	Meeting between public health and environmental services 10/10/18 The meeting was between the Interim Director of Public Health – Katrina Stephens and Euey Madden, Greenspace Manager.	
3c	What do you know?	
	Case studies have been gathered showing the positive benefits of attending the Alexandra Park Hub, figures have also been gathered at the Hub and from work with the Health Ambassadors showing their impact. Statistics from the Alexandra Park Hub include the Health Ambassadors, it is not possible to pull out statistics for the Health ambassadors only.	
3d	What don't you know?	
	Although some funding will be removed from Alexandra Growing Hub GOG still intends to support the Hub financially in future years although at a reduced level.	
3e	What might the potential impact on individuals or groups be?	
	Generic (impact across all groups)	
	Disabled people	
x	Particular ethnic groups	A person who attended the Alexandra Park Hub have said " Coming with my husband has helped him with his mental health, gets him out of the

		house, socialising, improving his English, and when we all come to Hub Explorers its helps us bond with the family. My children learn all about growing and it encourages them to eat fresh organic produce. We feel healthier as we are eating more fruit and veg.” Reduction in support for the Hub and health ambassadors could reduce the benefits and reach of this work.
	Men or women (<i>include impacts due to pregnancy / maternity</i>)	
	People of particular sexual orientation/s	
	People in a Marriage or Civic Partnership	
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	
x	People on low incomes	As well as support with growing Alexandra Park Hub offers support around healthy eating and has developed a recipe book of healthy food on a budget. Reduction in support for the Hub and health ambassadors could reduce the benefits and reach of this work.
x	People in particular age groups	People who have attended the Alexandra Park hub said “ Initially I came as a volunteer for myself, but now come with my daughter...It’s good for my daughter- the experience. It’s about getting out in the fresh air, the walk and keeping active. It is beneficial for us both to get out of the house, be more active- good father and daughter time” Reduction in support for the Hub and health ambassadors could reduce the benefits and reach of this work. Children and young people would be particularly affected by the removal of the Growing Entrepreneur scheme because an opportunity to learn about growing and developing entrepreneurial skills would no longer exist.
	Groups with particular faiths and beliefs	
	Other excluded individuals (<i>e.g. vulnerable residents, individuals at risk of loneliness, carers or service and ex-serving members of the armed forces</i>)	The Growing Hubs and the activities the health ambassadors carry out support connections between people and groups of people, lessening social isolation. Reduction in support for the Hub and health ambassadors could reduce the benefits and reach of this work.

Stage 4: Reducing / Mitigating the Impact

4a	What can be done to reduce or mitigate the impact of the areas you have identified?	
	Impact 1	Proposal
	Not renewing contracts	Support will continue to be available to local residents through the 4 existing growing hubs and their volunteers and through training and other events organised by Get Oldham Growing although this will be limited. The community – run Food Network offers some mutual support to growing sites though the capacity to increase this may be limited as this is run by volunteers who may have limited capacity.
	Impact 2	Proposal
	Ending the Growing Entrepreneur scheme	Alternative mechanisms for supporting schools will be explored including developing a network of schools interested in growing to provide mutual support and the development of volunteer growing champions to support schools. Schools will also be signposted towards other sources of support and funding such as Green Dividend and Action Together.
	Impact 3	Proposal
	Reducing support to the Alexandra Park hub.	Support will continue to be available to local residents through the 4 existing growing hubs and through training and other events organised by Get Oldham Growing although this will be limited. The Get Oldham Growing programme will focus on supporting the development of growing skills and building sustainability as well as providing support for groups wishing to establish growing projects/ hubs to access alternative funding sources. In addition the programme will work with other linked programmes, such as Growing Oldham Feeding Ambition, to ensure the best use of available resources to support growing and community development in Oldham.

4b	Have you done, or will you do anything differently, as a result of the EIA?	
	The focus of the programme will change from providing direct support to more signposting. The programme will change from employing staff to encouraging increasing role of volunteers and residents.	
4c	How will the impact of the project, policy or proposal and any changes made to reduce the impact be monitored?	
	Statistics from the Alexandra Park Hub will continue to be gathered and will pick up a reduction in numbers.	

Conclusion

This section should record the overall impact, who will be impacted upon, and the steps being taken to reduce / mitigate the impact

Reduction in support for community level growing and walking could lead to people doing less physical activity, less connections being made between people and less support for schools. This will have an impact on children, families and the general public particularly those on low incomes.

However, support will continue to be available to local residents through the 4 existing growing hubs and through training and other events organised by Get Oldham Growing although this will be more limited than current provision.

The Get Oldham Growing programme will focus on supporting the development of growing skills and building sustainability as well as providing support for groups wishing to establish growing projects/ hubs to access alternative funding sources. In addition the programme will work with other linked programmes, such as Growing Oldham Feeding Ambition, to ensure the best use of available resources to support growing and community development in Oldham.

Alternative mechanisms for supporting schools will be explored including developing a network of schools interested in growing to provide mutual support and the development of volunteer growing champions to support schools.

Service Area :	Democratic and Civic Services, Legal
Budget Reduction Title :	Constitutional & Civic and Political support services restructure

Budget Reduction Proposal - Detail and Objectives :

The budget reduction proposal is in relation to a restructure of the Constitutional Services and the Civic and Political support teams. The restructure has identified a budget reduction of £30k. The proposal is currently in the process of going out for consultation with affected staff.

The objective of the restructure is to provide greater resilience and efficiency in the teams and also to achieve a level of savings for the 2019-20 budget process.

BR1 - Section A

Service Area :	Corporate
Budget Reduction Title :	Fees and Charges additional income

Budget Reduction Proposal - Detail and Objectives :

Each year the Council undertakes an exercise to review Fees and Charges to the public.

The exercise generally increases charges by inflation to ensure costs are recovered and in some cases deliver a surplus. A detailed schedule of proposed fees and charges is presented for approval as an Appendix to the main budget report. It is anticipated that additional income of £0.020m can be generated, over and above that already included in service budgets (except where a service has an anticipated adverse income variance in which case the proposed increase will address the base budget position).

This proposal is cross-cutting over all Council Services that receive fees and charges income.

2018/19 Service Budget and Establishment

£000

Employees	18,258
Other Operational Expenses	13,060
Income	(20,907)
Total	10,411

Current Forecast (under) / overspend	940

Proposed Staffing Reductions (FTE)	0.00	0.00	0.00

Is your proposal a "one-off" in 2019/20 or is it ongoing?	Ongoing
---	---------

Section B

What impact does the proposal have on the following? :

Property
N/A
Service Delivery
The budgets of services which make charges have been reviewed and increases to fees and charges have been applied where applicable.
Future expected outcomes
No reduction in service use is anticipated.
Organisation
The organisation will continue to operate as it currently does. Charges will be increased having regard to market intelligence.
Workforce
No change with this proposal.
Communities and Service Users
It is anticipated that there will be no reduction in service use and increases in charges will be commensurate with inflationary increases or (where appropriate) charges made by competitors.
Oldham Cares
No impact expected.
Other Partner Organisations
No impact expected.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	Yes
Schools	Yes
Trade Unions	Yes
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	Yes
All	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements
An increase in revenue income to support the Council's 2019/20 budget.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Reduction in income arising from reduced service use.	Revisions to fees and charges have regard to market intelligence and are likely to be individually small changes.
Reduction in business demand arising from an increase in fees and charges.	An ongoing review of income will be undertaken on a service by service basis and fees and charges can be amended in year if required.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Initial review of fees and charges and market data (finance and services).	Late Summer / Autumn 2018.
Finalisation of fees and charges prior to consultation with services.	Early October 2018.
General consultation on revised fees and charges with services.	October to December 2018.
Approval (27 February 2019) followed by implementation of revised fees and charges.	Implementation: April 2019 for most but education/ schools related charges applied from September 2019 (start of the 2019/20 academic year).

BR1 - Section A

Service Area :	Corporate
Budget Reduction Title :	Supplies and Services

Budget Reduction Proposal - Detail and Objectives :

It is proposed to apply a cross cutting budget reduction to general supplies and service mainstream controllable budgets at a total of £1.000m with an aim to improve the efficiency of service delivery.

The mainstream controllable budgets for supplies and services for the Council in total are circa £50.000m and this budget reduction therefore reflects a 2% reduction in spending power.

It is proposed that each Service within the Council will have its budget reduced as per the 2% allocation and it will be the responsibility of the budget manager to ensure the saving is delivered having regard to the overall service budget for 2019/20.

Other Council Departments (if yes please specify below)	Yes
All departments	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

A £1.000m contribution to the achievement of the 2019/20 budget reduction target delivered through more efficient working and improved procurement practices.

Section C**Key Risks and Mitigations:**

Risk	Mitigation
Service budgets will overspend in 2019/20 due to non-achievement of required reduction in spending power.	Service and Budget managers to take action to control spending which will be reviewed through the monthly monitoring of budgets.
Service delivery will suffer due to the reduction in spending power.	It is anticipated that the reduction will be achieved through more efficient service delivery as opposed to cuts in services.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Service budget reductions are calculated and high level allocations communicated to service managers.	November - December 2018
Service managers to advise of the application of the reduction to individual budgets ensuring fair, realistic and achievable apportionment.	January - February 2019
Budget reductions are applied to individual service budgets prior to the commencement of the 2019/20 financial year.	March 2019
Monthly budget monitoring to ensure the delivery of the saving.	April 2019 - March 2020

BR1 - Section A

Service Area :	Corporate
Budget Reduction Title :	Introduction of vacancy factor

Budget Reduction Proposal - Detail and Objectives :

The Council currently prepares its budget estimates on the approved FTE establishment of each service and cost centre. The proposal is to apply a vacancy factor at a rate of 1.5% to mainstream employee budgets. Some posts will become vacant during 2019/20 due to staff turnover and it is a legitimate and reasonable action to create a budget reduction proposal to take advantage of this movement in staffing and the consequent impact of the recruitment process. The Council has a detailed recruitment review process. This should ensure the timing of the recruitment to posts is managed appropriately.

Based on the estimated staffing budget requirements for 2019/20 this will generate a saving of approximately £0.800m.

It should be noted that this is not a reduction in staffing FTE across the organisation but a change in the costing methodology for staffing budgets. Directorates will be expected to manage any recruitment to permanent or temporary posts whilst remaining aware of their vacancy management targets.

2018/19 Service Budget and Establishment

	£000
Employees	54,000
Other Operational Expenses	0
Income	(0)
Total	54,000

Current Forecast (under) / overspend

	0
--	---

Number of posts (Full time equivalent)

	0.00

	2019/20	2020/21	2021/22
Proposed Budget Reduction (£000)	(800)	0	0
Proposed Staffing Reductions (FTE)	0.00	0.00	0.00

Is your proposal a "one-off" in 2019/20 or is it ongoing?

	Ongoing
--	---------

Section B

What impact does the proposal have on the following? :

Property
There is no anticipated impact on property.
Service Delivery
There is no anticipated impact on service delivery, service staffing budgets will be managed within available resources.
Future expected outcomes
There is no anticipated impact on future expected outcomes.
Organisation
There is no anticipated impact on the organisation, service staffing budgets will be managed within available resources.
Workforce
There is no anticipated impact on the workforce.
Communities and Service Users
There is no anticipated impact on communities and service users.
Oldham Cares
There is no anticipated impact on Oldham Cares apart from Council staffing budgets within Adult Social Care carrying and managing the vacancy factor.
Other Partner Organisations
There is no anticipated impact on partner organisations.

Who are the key stakeholders?

Staff	Yes
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements
A £0.800m contribution to the achievement of the 2019/20 budget reduction target.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Service budgets will overspend in 2019/20 due to non-achievement of the vacancy management target.	There is an expectation that a percentage of posts will be vacant in year through natural turnover of staff, and services through to directorates will manage recruitment and cover arrangements accordingly.
Individual budget areas with low staff turnover will fail to meet the vacancy target.	Information on the achievement of vacancy management targets will be made available at service and directorate level to allow a wider analysis of progress against targets and allow offsets between over and under achieving service / directorate areas.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Vacancy management targets are calculated and allocations communicated to service and budget managers.	November - December 2018
Vacancy management targets are reviewed in line with any organisation change prior to the commencement of the 2019/20 financial year	November 2018 - February 2019
Vacancy management targets are applied to individual budgets prior to the commencement of the 2019/20 financial year.	March 2019
Production of vacancy management information is built into financial monitoring procedures.	March 2019

Section D

Consultation Required?	No
------------------------	----

	Start	Conclusion
Staff	not applicable	not applicable
Trade Union	not applicable	not applicable
Public	not applicable	not applicable
Service User	not applicable	not applicable
Other	not applicable	not applicable

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
This change in the costing methodology for staffing budgets will generate a saving of £0.800m. Vacancy management targets and their achievement will be closely monitored as part of the budget monitoring process.

BR1 - Section A

Service Area :	Corporate
Budget Reduction Title :	Development of the Unity Partnership operating model Phase 2

Budget Reduction Proposal - Detail and Objectives :

Following the successful delivery of budget reductions arising from the Council taking a 100% share ownership in the Unity Partnership, it is now deemed that further reductions of £0.250m are achievable as part of the continued reshaping of the Unity operating model.

It is anticipated that the identification and delivery of these reductions will allow their implementation for the start of 2019/20. Whilst some initial investment maybe required, it is expected that a net saving of £0.250m can be delivered in 2019/20 and future years from efficiencies and a more effective operating arrangement.

2018/19 Service Budget and Establishment

Proposed Staffing Reductions (FTE)	0.00	0.00	0.00

Is your proposal a "one-off" in 2019/20 or is it ongoing?

	Ongoing
--	---------

Section B

What impact does the proposal have on the following? :

Property
It is anticipated that property will be managed more effectively from 2019/20.
Service Delivery
Service delivery across all areas will be improved through enhanced contract management arrangements.
Future expected outcomes
Cost savings and more effective service delivery.
Organisation
There will be some revisions to service delivery within Unity.
Workforce
There is a potential for some changes to roles and responsibilities in delivering service improvements.
Communities and Service Users
There should be no specific impact on communities and service users should see improvements in performance.
Oldham Cares
There should be no impact on Oldham Cares.
Other Partner Organisations
There should be no impact on other partner organisations.

Who are the key stakeholders?

BR1 - Section A

Service Area :	Corporate and Commercial Services Management
Budget Reduction Title :	Council Traded Services/Unity Commercial Services Reviews

Budget Reduction Proposal - Detail and Objectives :

The proposal is in two parts: 1) Review the Council's commercial activity 2) Review Unity Partnership non-Council commercial activity following the share purchase transfer. The reviews aim to:

- Redesign the operating model to bring about a commercial focus ensuring services provide value for money
- Identify the market strategy in order to cluster commercial offerings for specific markets, e.g. schools.
- Review capabilities and capacity required to enable the model to function effectively
- Determine exit strategies from activity when required

The proposal will look to review the two activities on a phased basis over the next 2 years and implement actions identified in line with the drivers highlighted above.

The review will require some investment funded from the transformation reserve in order to resource the programme.

The specific information on budget and establishment numbers for each of the services will be collated and provided as each review commences.

2018/19 Service Budget and Establishment

	£000

Is your proposal a "one-off" in 2019/20 or is it ongoing?

	Ongoing
--	---------

Section B

What impact does the proposal have on the following? :

Property
None anticipated, any potential implications resulting from agreed service actions will be subject to a separate report.
Service Delivery
It is envisaged that service delivery will stay the same or improve as a result of changes.
Future expected outcomes
Incremental improvement in the performance of traded services.
Organisation
It is likely that there will be some changes in how certain traded services are delivered as part of the review. However, the intent is that they stay within the Council/Unity family.
Workforce
It is likely that there will be some workforce changes as part of the review which will be required to realise benefits.
Communities and Service Users
No impact is expected or planned.
Oldham Cares
No impact is expected or planned.
Other Partner Organisations
No impact is expected or planned.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	Yes
Schools	Yes
Trade Unions	Yes
External Partners (if yes please specify below)	Yes
Unity Partnership Limited	
Other Council Departments (if yes please specify below)	Yes
People and Place incl Children's Services, Strat Reform & Public Health.	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

- Commercial activities will be financially sustainable i.e. reduction/elimination of deficit or subsidy
- The Council's commercial risk profile is visible and well managed
- The Council's commercial capability is developing and maturing

Section C

Key Risks and Mitigations:

Risk	Mitigation
Skills and capacity within the Council to carry out the review that will be required to realise the benefits.	<ul style="list-style-type: none">• Assess skills and capacity• Draw in expertise as identified• Fund dedicated resource required to ensure deliverability of benefits
Unforeseen increase in liabilities within traded services.	Establish position of key traded services at the earliest opportunity and prioritising based on a risk approach.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Identify market strategy for the commercial offerings.	May 2019
Review of loss making services.	September 2019
Determine new models of delivery as necessary.	December 2019/January 2020

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	Yes
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	Yes
---	-----

Section E

Finance Comments
The Council and Unity Partnership provides a range of services which generate external income on either a fully or partly traded basis. The review will explore these services with a focus on market strategy and commercial viability in order to deliver the budget reduction. The review may conclude a requirement for service exit strategies and the financial impact will be quantified on a case by case basis during the course of the review.

Equality Impact Assessment Tool

Service Area:	Corporate and Commercial Services Management
Budget Reduction Title:	Council Traded Services/Unity Commercial Services Review

Stage 1: Initial Assessment

1a	Which service does this project, policy or proposal relate to?
	Various across all Directorates
1b	What is the project, policy or proposal?
	<p>1. Review the Council's traded services activity</p> <p>2. Review Unity Partnership non Council commercial activity following the share purchase transfer.</p> <p>Cleaning Services Home Help</p> <p>School Crossing Patrols</p> <p>Cleaning Services Building</p> <p>Catering – Primary</p> <p>Music Service</p> <p>Outdoor Education</p> <p>Governor Support and Training</p> <p>Sports Development</p> <p>Schools Swimming Services</p> <p>ICT Client - Schools</p> <p>Study Support Service</p>
1c	What are the main aims of the project, policy or proposal?
	<ul style="list-style-type: none"> • Redesign the operating model to bring about a commercial focus ensuring services provide value for money. • Identify the market strategy in order to cluster commercial offerings for specific markets. • Review capabilities and capacity required to enable the model to function effectively. • Determine new models of delivery as necessary.

The following techniques will be used to ensure the budget savings:

- Process redesign
- Technology refresh
- Staffing structure review
- Pricing review
- Cost base review
- Supplier and purchaser contract reviews
- Activity Based Costing review
- Understanding statutory and non-statutory services
- Ceasing services

1d Who, potentially, could this project, policy or proposal either benefit or have a detrimental effect on, and how?

- It is not anticipated that the application of the above techniques (selectively, dependent on service) will result in any negative equality impacts.
- It is envisaged service delivery will stay the same or improve as a result of changes.
- Incremental improvement in the performance of traded services.
- It is likely there will be some changes in how certain traded services are delivered as part of the review. There may be some externalisation required of certain traded activities in order to realise benefits.
- It is likely that there will be some workforce changes as part of the review which will be required to realise benefits.

1e Does the project, policy or proposal have the potential to disproportionately impact on any of the following groups?

	None	Positive	Negative	Not sure
Disabled people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Particular ethnic groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People on low incomes	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People in particular age groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
None	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

1f	What do you think the overall NEGATIVE impact on groups and communities will be?	None / Minimal	Significant
		<input checked="" type="checkbox"/>	<input type="checkbox"/>

1g	Using the screening and information in questions 1e and 1f, should a full assessment be carried out on the project, policy or proposal?	Yes <input type="checkbox"/>
		No <input checked="" type="checkbox"/>

1h	How have you come to this decision?
	<p>Change is typically achieved through process redesign, technology transformation, pricing adjustments and improved procurement. Very little impact on individuals is anticipated. Depending on the proposals it is not possible to identify the potential impact, this will be assessed with individual areas.</p> <p>When outlining the proposal in the BR1 form it was identified that there was a potential negative impact on <i>people on low incomes</i>. However, during the Stage 1 EIA process this impact had been mitigated.</p>

Stage 2: What do you know?

What do you know already?
<ul style="list-style-type: none"> • Accurate definition of service. • Income from customers. • Expenditure on delivery of services. • Surplus and subsidy for services. • Customer base. • View on sales and marketing functions. • FTE and headcount.
What don't you know?
<ul style="list-style-type: none"> • Detailed customer perspective on services. • Corporate acceptance of continued subsidy where required.
Further Data Collection
<ul style="list-style-type: none"> • Customer perspective.

Summary (to be completed following analysis of the evidence above)

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People on low incomes	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	People in particular age groups	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
	None	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Stage 3: What do we think the potential impact might be?

3a	Who have you consulted with?
	Service areas, Council Executives and Portfolio Holders.
3b	How did you consult? (include meeting dates, activity undertaken & groups consulted)
	Via Strategic Design Authority and Portfolio meetings.
3c	What do you know?
	Corporate perspective.
3d	What don't you know?
	Customer reaction to potential change.

3e	What might the potential impact on individuals or groups be?	
	Generic (impact across all groups)	None
	Disabled people	None
	Particular ethnic groups	None
	Men or women (<i>include impacts due to pregnancy / maternity</i>)	None
	People of particular sexual orientation/s	None
	People in a Marriage or Civic Partnership	None
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	None
	People on low incomes	None
	People in particular age groups	None
Groups with particular faiths and beliefs	None	
Other excluded individuals (<i>e.g. vulnerable residents, individuals at risk of loneliness, carers or service and ex-serving members of the armed forces</i>)	None	

Stage 4: Reducing / Mitigating the Impact

4a	What can be done to reduce or mitigate the impact of the areas you have identified?	
	Impact 1 N/A	Proposal
	Impact 2 N/A	Proposal
	Impact 3 N/A	Proposal

4b	Have you done, or will you do anything differently, as a result of the EIA?	
	No	

4c	How will the impact of the project, policy or proposal and any changes made to reduce the impact be monitored?
	Monitoring design and implementation so as to mitigate any evolving, unforeseen impacts.

Conclusion
<i>This section should record the overall impact, who will be impacted upon, and the steps being taken to reduce / mitigate the impact</i>
It is envisaged service delivery will stay the same or improve as a result of changes. It is likely that there will be some workforce changes as part of the review which will be required to realise benefits. Monitoring design and implementation so as to mitigate any evolving, unforeseen impacts.

BR1 - Section A

Service Area :	Corporate and Commercial Services Management
Budget Reduction Title :	Corporate & Commercial Services

Budget Reduction Proposal - Detail and Objectives :

All staffing and non-staffing budgets in the Corporate and Commercial Services Directorate are reviewed on an on-going basis so that efficiencies can be identified. As a consequence a budget saving of £0.200m should be delivered from activities that will improve the Directorate's overall efficiency and effectiveness. This will supplement the savings already identified within Finance (£0.200m).

Work is already progressing within People Services where a proportion of this saving will be made by implementing a revised People Services operating model and redesigning some posts to support new methodologies of working. Non value adding activity will be identified and eliminated. There will be some opportunities to identify process improvements.

This approach will be similarly undertaken across areas of the Corporate & Commercial Services Directorate.

2018/19 Service Budget and Establishment

£000

Employees	12,228
Other Operational Expenses	17,237
Income	(10,428)
Total	19,037

Proposed Staffing Reductions (FTE)	(5.00)	0.00	0.00

Is your proposal a "one-off" in 2019/20 or is it ongoing?

Ongoing

Section B

What impact does the proposal have on the following? :

Property
None anticipated.
Service Delivery
Included within additional information.
Future expected outcomes
It is expected that the new approaches will enhance the ability to deliver future outcomes.
Organisation
Services within the business will be guided to utilise corporate functions appropriately to avoid any unnecessary pull on the limited resources.
Workforce
No negative outcomes anticipated. New policies and processes will be implemented which seek to enhance efficiency and reduce potential for failure/non-compliance.
Communities and Service Users
As above, service users will be guided to access corporate services appropriately.
Oldham Cares
None.
Other Partner Organisations
None.

Who are the key stakeholders?

Staff	Yes
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	Yes
External Partners (if yes please specify below)	Yes
The Unity Partnership	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements
Cost reduction will be secured. A focused, proactive service will be provided.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Organisational Stakeholders are not sighted on operating model and have differing expectations/understanding of service delivery.	Early consultation with Executive/Directorate.
For the operating model to be successful then it is necessary to ensure, as appropriate, the services provided by Unity are aligned to the delivery model.	The Council is now able to effectively influence the service provision of our Unity colleagues.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Undertake further work to identify how services can make the required efficiencies and determine the resultant service model drawing up consultation documentation as necessary.	November 2018.
Consultation with Individuals/ TU's as appropriate.	November/December 2018.
Implementation of new service structures completed.	By April 2019.
N/A	N/A

Section D

Consultation Required?	Yes

Additional Information (if required)

Service Delivery

There will be a focus on continuing proactive service delivery within the directorate aligned to business requirements. Any non-value adding activity will be eliminated. We will continue to promote self-serve avoiding any unnecessary call upon resources and ensure that activities are carried out at the right level when supporting the business. As appropriate, new processes will be implemented which seek to enhance efficiency whilst reducing potential for failure/non-compliance with statutory business requirements.

Cabinet Member :	Cllr A Jabbar
Support Officer :	Nicola Strapps

BR1 - Section A

Service Area :	Customer Services
Budget Reduction Title :	Digital by Design

Budget Reduction Proposal - Detail and Objectives :

The Resident First programme has allowed several service areas to be accessed by residents via the internet with varying degrees of service redesign. The initial emphasis and investment has been on making services more accessible online.

The continuation of this digital by design platform will allow more services to be directly accessed online and it is proposed to look at what financial benefits can be achieved going forward and also by revisiting past project areas.

This proposal aims to:

- Redesign the operating model to enable a transformation from a mainly mediated customer service offer to a predominately self-service one
- Develop a resilient mediated offer that aims to ensure support those that need it
- Identify how best to utilise the redesigned web site as both a door to transactional self-service offers and also a valuable communication and information channel
- Identify where automation can make residents access to services easy and efficient

(Please see additional information)

2018/19 Service Budget and Establishment

*The proposal will cover a range of cross cutting budgets that are yet to be identified

	£000
Employees	0
Other Operational Expenses	0
Income	(0)
Total	0

Current Forecast (under) / overspend	0
--------------------------------------	---

Number of posts (Full time equivalent)	0.00
--	------

	2019/20	2020/21	2021/22
Proposed Budget Reduction (£000)	(500)	(1,500)	0
Proposed Staffing Reductions (FTE)	0.00	0.00	0.00

Is your proposal a "one-off" in 2019/20 or is it ongoing?	Ongoing
---	---------

Section B

What impact does the proposal have on the following? :

Property
None anticipated, any potential implications resulting from agreed service actions will be subject to a separate report.
Service Delivery
It is envisaged that service delivery will stay the same or improve as a result of changes.
Future expected outcomes
The proposal will contribute to the achievement of the 2019/20 budget reduction target.
Organisation
No impact is expected or planned.
Workforce
It is likely that there will be some workforce changes as part of the review which will be required to realise benefits.
Communities and Service Users
No impact is expected or planned.
Oldham Cares
No impact is expected or planned.
Other Partner Organisations
It is likely that there will be some workforce changes as part of the review which will be required to realise benefits.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	Yes
Local business community	Yes
Schools	Yes
Trade Unions	Yes
External Partners (if yes please specify below)	Yes
Unity Partnership Limited	
Other Council Departments (if yes please specify below)	Yes
All departments	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements	
<ul style="list-style-type: none"> • Better customer experience and improved resident satisfaction • Reduced transactional costs • Improved self-help and self-serve • Improved accessibility of services • Improved staff/job satisfaction 	

Section C

Key Risks and Mitigations:

Risk	Mitigation
There is insufficient investment in skills and capacity within the Council to carry out the review that will be required to realise the benefits.	Assess current skills and capacity and identify the resource gap. Secure expertise as identified. Fund dedicated resource required to ensure benefits realisation.
Reluctance to streamline certain services.	Early engagement with trade unions, workforce and Elected Members to inform the methods of improvement.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Transformation Roadmap agreed (aligned to related organisational strategies) e.g. assets – property, people, data	March 2019.
Services / thematic areas identified for change and associated benefits realisation plan for 2019/20/21.	March 2019.
Digital/Data Strategy agreed.	March 2019.
N/A	N/A

Section D

Consultation Required?	No

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	Yes
Particular Ethnic Groups	Yes
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	Yes
People in particular age groups	Yes
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	Yes
---	-----

Section E

Finance Comments
<p>The digital by design proposal will review the service areas that have already been through the Resident First improvement programme to realise financial benefits.</p> <p>Additionally, further areas of service improvements to the digital offer are being drawn up as part of the continuation of the Resident First programme incorporating the redesign of Access Oldham and Contact Centre. Any financial benefits identified will contribute to the budget reduction proposal.</p>

Cabinet Member Signature		
Name and Date	Cllr A Jabbar	14-Jan-2019

Additional Information (if required)

Detail and Objectives (Continued)

By using Residents First as the vehicle for Digital by Design we should aim within 2 years to remove £2.000m of costs by:

- Reducing mediated service costs across the whole organisation by 50%
- Digitalising the lines of service that make up 80% of the requests from residents for service, including deep service design to enable lean automated processes, thus reducing service costs by 20%

In order to achieve the savings and the improvements to customer service our residents demand, all Council Services will potentially be affected by this change programme. In order to prioritise the services and journeys to digitise/automate and improve, a criteria has been developed which considers the following areas;

- Ability to reduce demand
- Ability to achieve efficiency savings
- Ability to improve the customer experience
- Ease of delivery
- Service readiness and appetite

An initial assessment against the criteria has identified the following services / resident journeys for prioritisation as follows;

- Waste Services
- Environmental Health and Enforcement
- Environmental Management and Street Cleaning
- Highways
- Licensing
- Revenues and Benefits
- Planning

As the programme progresses and services are engaged the benefit profile will be reviewed.

Equality Impact Assessment Tool

Service Area:	Customer Services, Corporate and Commercial Services
Budget Reduction Title:	Digital by Design

Stage 1: Initial Assessment

1a	<p>Which service does this project, policy or proposal relate to?</p> <p>This proposal relates to a Council wide digital change programme and could affect all services / Directorates</p>
1b	<p>What is the project, policy or proposal?</p> <p>The Programme's aim is to make access to services easy and efficient by enabling residents to self-serve. This will enable the Council to save money (budget reduction target of £2million by 2021/22 - £0.5m in 19/20 and £1.5m in 20/21). The programme will re-design the resident journey in services where there is a high volume of simple interactions such as booking appointments, paying for services, reporting problems and advice on eligibility.</p>
1c	<p>What are the main aims of the project, policy or proposal?</p> <p>The main aim of the programme is to deliver a better customer experience (for the most relevant interactions/contacts) for our residents, by making it easier for residents to contact the council by self-serve online, removing the need for residents to call or visit the Council. A key aim of the programme is also to ensure that where residents need support there is adequate support at face to face locations/phone to go online and /or facilitate the appropriate support to ensure residents are not digitally excluded.</p> <p>Success will depend partly on the ability of customers to use the digital tools that the council may offer, such as online forms, voice recognition software or geolocation/GPS. It is also expected that the council will increasingly promote digital access as the preferred means of engaging with services, due to the typically lower cost and faster response of digital options. While the council would expect most people to find digital access to services quicker, easier and cheaper than other methods, it is possible that some will find digital services harder to use. The council will therefore need to mitigate this by continuing to provide alternative means of access where demand dictates this. This impact is most likely to be felt by older people, who may not have high levels of digital skills; those with disabilities that inhibit use of digital devices such as smartphones; and those on low incomes, who may not own or have access to digital devices. The impact will need to be continually assessed in the light of service and customer information arising from specific projects.</p> <p>For some resident interactions channels may be removed e.g. telephones for the reporting of new issues. A risk assessment however will be undertaken before any decisions are made which will be informed by demographic need and demand.</p>
1d	<p>Who, potentially, could this project, policy or proposal either benefit or have a detrimental effect on, and how?</p>

Positive impacts

This programme should have a positive impact on Council service satisfaction as we make it easier for all residents to access and deal with the Council, fulfilling more simple and straightforward requests online. There will be efficiency and productivity gains from using enabling technology – less data handling, less data duplication and quicker processing of requests.

Digital services are by their nature equally available to everyone who has access to the internet. In addition to the substantial majority of customers who own internet-enabled devices, the council provides free internet access at a number of libraries. The cost of digital access to council services will vary, but in most cases it is likely to be cheaper to use a digital option than to make a phone call to the council or visit a council office.

For many customers it will carry no cost at all. Digital access will mean that customers are able to engage with the council and its services at a time and place that suits them, rather than the council. This could, for example, avoid the need for someone with mobility difficulties to have to make a visit to a council office in person. Digital access allows fast or 'real time' responses to customers' enquiries, meaning that customers have to spend less time on their dealings with the council and get the information they need much sooner than they would otherwise have done.

Digital systems allow enormously expanded access to council information, thereby increasing transparency and democratic accountability. Digital technology such as social media also allows safety- or emergency-related information such as flood alerts or weather warnings to be disseminated within minutes. Online forms can currently involve completing or sending information to the council online through a website, including typing, reading and processing complex information. As the Digital Strategy is taken forward the need for this will reduce as the council offers services through voice-enabled applications, like Siri, Ask Google, Amazon Alexa or other 'bots'. This will offer increased accessibility and ease of use compared to current digital services. Staff, Members and organisations that deal with the council are likely to benefit from digital systems that enable greater productivity and integrate with each other, not just internally but with partner systems.

Negative impacts

The programme will have a detrimental effect on staff numbers by reducing overall staff numbers.

The programme, potentially could have an effect on residents not being able to access the Council, specifically residents who;

- do not have the digital skills to embrace technology
- do not have a mobile device / laptop or access to technology due to affordability
- have a disability where technology could be a barrier as opposed to an enabler (e.g. visually impaired, mobility problems)
- have language difficulties and those where English is not their first language. These residents may struggle more to understand the information online and translation services may not be available and / or have the desired effect

The impact will need to be continually assessed in the light of service and customer information arising from specific projects.

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?			
		None	Positive	Negative

Disabled people	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Particular ethnic groups	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Men or women (includes impacts due to pregnancy / maternity)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People on low incomes	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
People in particular age groups	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
None	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

1f	What do you think the overall NEGATIVE impact on groups and communities will be?	None / Minimal	Significant
		<input checked="" type="checkbox"/>	<input type="checkbox"/>

1g	Using the screening and information in questions 1e and 1f, should a full assessment be carried out on the project, policy or proposal?	Yes <input type="checkbox"/>
		No <input type="checkbox"/>

1h	How have you come to this decision?

Stage 2: What do you know?

What do you know already?
<p>A high volume of contact received at Access Oldham and at the Contact Centre could be fulfilled with better online provision and use of technology and automation to improve their experience. A high percentage of contact at the Contact Centre is failure demand - calling to request / report something, check where their report is up to and / or asking for information that can be found online.</p> <p>75% of people that took part in a customer satisfaction survey at the contact centre said that it was easier to call than go online. We need to change this and make it easier to do online.</p> <p>Mobile technology and infrastructure is no longer as significant a barrier as in the past. Recent statistics show that in Oldham;</p> <ul style="list-style-type: none"> • Superfast broadband is now available in 99.1% of areas • 88.2% of residents have access to a pc or laptop • 73% of people own a smartphone and • 27% of people go online every day, which is higher than the National average of 25%

We also know in what areas of the borough people are least engaged with the internet and have a low preference for access to the internet via smartphones. We also know that in some areas there is a correlation of older residents and low mobile usage. This data will help us to target assisted digital support.

Data that is readily available from the Council's Annual Equality Data report 2018 will inform how we design services and their access channels. Information available in the equality data report in relation to the ethnicity and age profile of Oldham residents and information about services users will also inform any changes we make. In relation to the resident age profile and ethnicity of the borough, the following information is helpful;

Age profile

- Oldham has a high proportion (22.6%) of residents aged under 16 and proportionally fewer (15.8%) aged 65 and over. Oldham's age structure is younger than the England and Wales average. There are higher-than-average levels of children – especially younger children – and lower-than-average numbers of over 75s. This is mainly due to the large South Asian communities, who have a younger age profile than the white population.
- While most age groups increase in size, there are projected to be particularly large increases in the numbers of older people, especially in the 75+ age group, up 40% from 2011 by 2026.

Ethnic Groups

- Oldham has become more diverse in terms of ethnic composition. There has been further growth in the Pakistani and Bangladeshi communities, as well as some growth in the white 'other' category – a group primarily made up of Polish and Romanian heritage communities. The overall structure of the population has shifted downwards given the growth in Oldham's Pakistani and Bangladeshi communities which have much more youthful age profiles. The White population of Oldham is projected to continue to fall in size, Pakistani and Bangladeshi populations are projected to grow significantly.

What don't you know?

Demand data by service and area is poor, which means it is difficult to accurately offer local support to residents who might struggle to get online or use a digital channel to meet a need.

Further Data Collection

Summary (to be completed following analysis of the evidence above)

1e	Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups?				
		None	Positive	Negative	Not sure
	Disabled people	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Particular ethnic groups	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Men or women	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

(includes impacts due to pregnancy / maternity)				
People of particular sexual orientation/s	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People in a Marriage or Civil Partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People on low incomes	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
People in particular age groups	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Groups with particular faiths or beliefs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Stage 3: What do we think the potential impact might be?

3a	Who have you consulted with?
	<p>In terms mitigating any negative impacts that could arise following digital service improvement (see section 1d) we have to date carried out the following user engagement / consultation;</p> <p>We have held resident drop ins at libraries, Hack Oldham and Access Oldham. We have involved members and staff in user acceptance testing. We have paid specific attention to accessibility features including online language translation tools to ensure that the online process is easy, effective and inclusive from a design perspective.</p> <p>We have also held digital drop ins in residential homes to identify what support elderly residents may need in accessing services online.</p> <p>For residents who require mediated support we have offered support on the telephone and at face to face locations (e.g. the do it online team at Access Oldham).</p> <p>To mitigate any negative impacts referred to in section 1d we will look to liaise with libraries staff and any other face to face settings to understand how staff can support residents to access services digitally and have the skills and access to knowledge to do this.</p> <p>With reference to those residents who may have language barriers we will consult with district teams in the first instance where we know from data that this could be a barrier.</p>
3b	How did you consult? (include meeting dates, activity undertaken & groups consulted)
	See 3a
3c	What do you know?
	See stage 2

3d	What don't you know?	
	The specific demographic of service users to know whether any groups will particularly struggle and take up may be negatively affected. It's not a requirement of the majority of journeys residents have with the Council for us to know what groups they identify with E.g. reporting a pothole.	
3e	What might the potential impact on individuals or groups be?	
	Generic (impact across all groups)	Reduced/increased service take up and poor/better accessibility
	Disabled people	Reduced/increased service take up and poor/better accessibility
	Particular ethnic groups	Reduced/increased service take up and poor/better accessibility
	Men or women (<i>include impacts due to pregnancy / maternity</i>)	None
	People of particular sexual orientation/s	None
	People in a Marriage or Civic Partnership	None
	People who are proposing to undergo, are undergoing, or have undergone a process or part of a process of gender reassignment	None
	People on low incomes	Reduced/increased service take up and poor/better accessibility
	People in particular age groups	Reduced/increased service take up and poor/better accessibility
	Groups with particular faiths and beliefs	None
	Other excluded individuals (<i>e.g. vulnerable residents, individuals at risk of loneliness, carers or service and ex-serving members of the armed forces</i>)	

Stage 4: Reducing / Mitigating the Impact

4a	What can be done to reduce or mitigate the impact of the areas you have identified?	
	Impact 1	Proposal
	Reduced service take up and poor accessibility	Ensure representatives are engaged and involved in the design and testing of changes Continue to offer a mediated support channel where support is required (telephony or face to face) Work with related face to face service staff to ensure they have the skills and access to knowledge to support residents.
	Impact 2	Proposal

	Impact 3	Proposal

4b	Have you done, or will you do anything differently, as a result of the EIA?
4c	How will the impact of the project, policy or proposal and any changes made to reduce the impact be monitored?
	To ensure the changes made minimise any negative impact projects will ensure as part of their methodology that a representative sample of its user base are consulted and engaged before and after any changes are implemented.

Conclusion	
<i>This section should record the overall impact, who will be impacted upon, and the steps being taken to reduce / mitigate the impact</i>	
<p>In conclusion, the overall impact we are expecting from the programme is positive and will aim to improve digital inclusion, rather than exclude. The people most likely to be impacted by the increased presence of digital services are;</p> <p>Particular ethnic groups - as language may be a barrier Disabled – people who may not have the skills to use technology People on low incomes – people who may not be able to afford / have access to technology People in older age group – people who may not have the digital skills</p> <p>Our approach to designing service changes (as highlighted above) will ensure that the above groups of people and in particular where it is known from demographic data that take up could be affected, will mitigate any negative impacts as far as possible.</p>

Budget Reduction Title : **Insurance Review**

Budget Reduction Proposal - Detail and Objectives :

Following on from the £0.500m saving achieved in 2018/19, it is now possible to reduce the insurance budget by an additional £0.300m from 2019/20. This can be achieved through a reduction in claims paid using embedded and robust fraud / defence strategies, alongside potential further benefits from the forthcoming tendering exercise.

The adequacy of the remaining insurance budget will be monitored throughout 2019/20 to allow an assessment to be made for 2020/21.

2018/19 Service Budget and Establishment

£000

Employees	134

Is your proposal a "one-off" in 2019/20 or is it ongoing?

Ongoing

Section B

What impact does the proposal have on the following? :

Property
Not applicable.
Service Delivery
No impact at this stage.
Future expected outcomes
Reduction to be monitored but should be achievable.
Organisation
No impact at this stage.
Workforce
No impact at this stage.
Communities and Service Users
No impact.
Oldham Cares
No impact.
Other Partner Organisations
No impact.

Who are the key stakeholders?

Staff	Yes
Elected Members	No
Residents	No
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	Yes
Insurance provider and brokers.	

Benefits to the organisation/staff/customers including performance improvements

Benefits are that there will be a reduction in insurance premiums/costs to provide savings, thus reducing the requirement for reductions in other Council service areas.

Staff continue to work efficiently to maintain and develop appropriate strategies to assist with the defence of insurance claims and hence manage resources effectively.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Insurers impose further premium increases during the period of insurance.	Re-tendering exercise will seek to drive down cost by competition.
Claims history could deteriorate.	Ongoing monitoring and review of cases on a monthly basis.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Review of insurance trends and claims to inform budget proposal.	Late summer 2018.
Further review of insurance position prior to final budget decision.	November 2018.
Reviewed position and confirmed that appropriate tender management and claims defence strategies will enable a £300k saving in 2019/20.	December 2018.
N/A	N/A

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
The increase of the repudiation of insurance related claims coupled with changes to the Authority's structure due to the Government's austerity measures has led to the Council being able to benefit in reduced external premia.

Budget Reduction Title : **Housing Benefit - Reduction in provision for loss of subsidy**

Budget Reduction Proposal - Detail and Objectives :

The roll out of Universal Credit is leading to fewer claimants receiving Housing Benefit. The reduction in claimant numbers for Housing Benefit is lowering the incidence and value of Housing Benefit overpayments. This means that the Council can amend its budgetary provision for the loss of Housing Benefit subsidy associated with such overpayments.

Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements

A £0.150m contribution to the achievement of the 2019/20 budget reduction target without an impact on Housing Benefit claimants.

Section C**Key Risks and Mitigations:**

Risk	Mitigation
That reductions in the number of Housing Benefit claimants do not lead to a reduction in the incidence of Housing Benefit overpayments. For example, due to unexpected delays in the migration of Housing Benefit clients to Universal Credit.	Regular monitoring will take place to ensure that Housing Benefit overpayments are reducing in line with expectations.
N/A	N/A
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Commence review of Housing Benefit claimant numbers, forecast reductions and associated impact on overpayment levels of Housing Benefit subsidy grant.	Autumn 2018.
Completion of initial review.	December 2018.
Further review to confirm estimates.	January 2019.

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
The rationale for a lower incidence of Housing Benefit overpayments, being associated with a reduction in numbers of Housing Benefit claimants is valid and reasonable. Reductions in overpayments should enable the Council to release resources currently set aside for associated losses of Housing Benefit subsidy.

BR1 - Section A

Service Area :	Finance
Budget Reduction Title :	Audit Fee Reduction

Budget Reduction Proposal - Detail and Objectives :

Since 2014 the appointment of the Council's External Auditor has been undertaken by Public Sector Audit Appointments (PSAA). A key feature of these arrangements has been the audit fee economies delivered via the national contractual arrangement.

Oldham Council opted into the next phase of the PSAA auditor appointment arrangements from 2018/19 which was a new process to let audit contracts from this financial year. PSAA carried out a robust procurement process applying various principles including ensuring auditor independence, accommodating joint/shared working arrangements and taking account of principal locations. The results of the procurement process indicate that the scale audit fees will be less than the budget currently provided for in 2019/20. This consolidates the fee reductions from previous years together with the reduction in fees associated with the audit of grant claims as grant funders now have greater reliance on internal audit assurance processes. This will allow a permanent adjustment to the budget. Oldham Council is therefore confident that this will translate to the delivery of a budget reduction of £0.050m which will be ongoing from 2019/20.

2018/19 Service Budget and Establishment

	£000
Employees	579
Other Operational Expenses	240

Section B

What impact does the proposal have on the following? :

Property
No impact.
Service Delivery
No impact.
Future expected outcomes
No impact.
Organisation
No impact.
Workforce
No impact.
Communities and Service Users
No impact.
Oldham Cares
No impact.
Other Partner Organisations
No impact.

Who are the key stakeholders?

Staff	Yes
Elected Members	Yes
Residents	No
Local business community	No
Schools	No
Trade Unions	No
External Partners (if yes please specify below)	No
N/A	
Other Council Departments (if yes please specify below)	No
N/A	
Other (if yes please specify below)	Yes
External Auditor (Mazars) & PSAA	

Benefits to the organisation/staff/customers including performance improvements

The procurement process carried out by PSAA ensures that a high level of performance is maintained whilst benefiting the Council through a reduced fee.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Unsuitability of auditor appointed.	PSAA's robust procurement process. Track record of Mazars in public sector audit.
Increase to the audit scale fee.	Contractual arrangements negotiated by the PSAA's robust procurement process.
N/A	N/A

Key Development and Delivery Milestones:

Milestone	Timeline
Confirmation of audit fee.	August 2018.
N/A	N/A

Equality Impact Screening

Is there the potential for the proposed budget reduction to have a disproportionate adverse impact on any of the following?

Disabled people	No
Particular Ethnic Groups	No
Men or women (including impacts due to pregnancy/maternity)	No
People who are married or in a civil partnership	No
People of particular sexual orientation	No
People who are proposing to undergo, undergoing or have undergone a process or part of a process of gender reassignment	No
People on low incomes	No
People in particular age groups	No
Groups with particular faiths and beliefs	No

EIA required? (automatically updates to Yes, if any of the above impacts are Yes)	No
---	----

Section E

Finance Comments
Providing the contract management process is effective a permanent reduction to the budget can be generated.

Investment Counterparties	

Benefits to the organisation/staff/customers including performance improvements
A £2.000m contribution to the achievement of the 2019/20 budget reduction target.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Treasury Management Investments carry a level of risk in relation to security of capital, liquidity and level of return.	The Council's Treasury Management Policy sets out how the Council will manage and mitigate these risks.
External factors such as the ongoing Brexit process may affect future interest rate levels and economic activity with adverse consequences for the cost of borrowing and returns from investment.	Interest rate and income forecasts are kept under review in order to mitigate this risk.
External income / interest on investments received is not at the level anticipated.	Budget estimates are risk adjusted meaning a degree of adverse variation can be absorbed. The strategy / approach to calculating the Council's minimum recommended level of General Fund balances is also prepared accordingly.

Key Development and Delivery Milestones:

Milestone	Timeline
Commencement of review of Treasury Management budget and commitments.	Autumn 2018.
Completion of initial review.	December 2018.
Further review to confirm estimates.	January 2019.
N/A	N/A

Section E

Finance Comments
The review of the Treasury Management activities and opportunities to maximise external income is a key function of the Finance Service. The budget proposal has therefore been subject to appropriate consideration and analysis and the £2.000m target is considered achievable.

BR1 - Section A

Service Area :	Finance
Budget Reduction Title :	Financial Services Redesign

Budget Reduction Proposal - Detail and Objectives :

The Finance Service has continued to deliver a high quality of service to the Council. However, the structure (of the Accountancy Function) requires realigning formally to reflect the revised operational management arrangements of the Council and to reflect efficiencies in operational practice which has reduced the head count requirement. The service has also revised its training policy to reflect opportunities arising from the Apprentice Levy so there is no further requirement for supernumerary training posts.

2018/19 Service Budget and Establishment

	£000

Other (if yes please specify below)	No
N/A	

Benefits to the organisation/staff/customers including performance improvements
A £0.200m contribution to the achievement of the 2019/20 budget reduction target.

Section C

Key Risks and Mitigations:

Risk	Mitigation
Concerns expressed by staff.	Consultation and discussions with staff.
Concerns expressed by service users.	The posts have been vacant for some time and service provision has not been compromised.
Increased requirement for financial advice and support from the finance service.	The service is flexible and responsive to the demands of customers and can prioritise key activities accordingly.

Key Development and Delivery Milestones:

Milestone	Timeline
Preparation of a consultation document for staff.	November 2018.
Consult with staff and Trade Unions.	December 2018.
Incorporation of any changes arising from consultation.	January / February 2019.
Implementation.	April 2019.

BR1 - Section A

Service Area :	People Management Inc. Unity Client for HR
Budget Reduction Title :	Transition AVC contributions to Salary Sacrifice

Budget Reduction Proposal - Detail and Objectives :

There are currently 119 employees that contribute to AVCs (Additional Voluntary Contributions) within the Local Government Pension Scheme at Oldham Council, MioCare and Schools.

New arrangements with HMRC allow the transition of these to a salary sacrifice arrangement. This produces savings for the Council through reduced National Insurance and Apprenticeship Levy liabilities. Equally employees save tax and NI contributions on the deduction increasing the value of their contributions. The 119 currently paying into AVCs are spread across Schools and the Council. The total savings are estimated at £0.052m with £0.040m of this being through the Council's workforce. As a salary sacrifice scheme is more attractive to employees alike and with the increased promotion of the scheme that a managed service can offer, uptake is anticipated to increase further increasing the savings (though the extent is presently unknown).

It is expected, and known to be the case for one such supplier, that fees are a percentage of the saving and therefore only applied if savings are realised.

24 January 2019

PAY POLICY STATEMENT 2019/20

Introduction & Purpose

1. Under section 112 of the Local Government Act 1972, the Council has the 'power to appoint officers on such reasonable terms and conditions as the authority thinks fit'. This Pay Policy Statement (the 'Statement') sets out the Council's approach to pay policy in accordance with the requirements of Section 38 to 43 of the Localism Act 2011.
2. The purpose of the Statement is to provide transparency and accountability with regard to the Council's approach to setting the pay of its employees (excluding teaching and other school staff working for the local authority under the purview of the School Governing Body) by identifying;
 - the methods by which salaries of employees are determined;
 - the detail and level of remuneration of its most senior staff, i.e. 'chief officers', as defined by the relevant legislation;
 - the Committee(s) responsible for ensuring the provisions set out in this statement are applied consistently throughout the Council and recommending any amendments to the full Council.

Publication

3. This statement will be reviewed and prepared for each financial year then approved by full Council, usually by the end of March each year, or at the earliest Council in the financial year for which it applies. It will be published on the Council's website as soon as it is reasonably practicable following any amendment and approval. For 2019/20 the approval will be at the Budget Council meeting of 27 February 2019.
4. Alongside this statement will be full details of all senior employees in the Council (excluding teachers and school based staff) that have a salary over the threshold outlined in the Localism Act 2011 and any associated Codes of Practice, including the Local Government Transparency Code 2015. The Pay Policy Statement will be linked to Council's Annual Statement of Accounts where we are required to publish the full time equivalent salaries which are at least £50,000 per annum.

Other Legislation Relevant To Pay And Remuneration

5. In determining the pay and remuneration of all of its employees, the Council will comply with all relevant employment legislation. This includes legislation such as the Equality Act 2010, inclusive of the Equality Act 2010 (Specific Duties and Public Authorities) Regulations 2017 which specifies Gender Pay Gap Reporting for public bodies with 250 employees or more, Part Time Employment (Prevention of Less Favourable Treatment) Regulations 2000, and where relevant, the Transfer of Undertakings (Protection of Employment) Regulations 2006 (TUPE).
6. The Council is committed to the principles of equal pay for all of its employees, and to ensure consistency and fairness within its pay structures. Differentials in grades can be objectively justified through the use of job evaluation mechanisms, which determine the relativities between posts according to the requirements, demands, skills and responsibilities of the role.

Pay Structure

7. The Council uses nationally negotiated pay spines with a defined list of salary points as the basis for its local pay structure. These salary scales determine the salaries of the majority of its non-schools workforce, together with the use of locally determined grades where these do not apply. The current salary scales in use by the Council are available to view on the Council's website.
8. The Council adopts the national pay bargaining arrangements in respect of the establishment and revision of the national pay spines. All other pay related allowances are the subject of either nationally or locally negotiated rates, having been determined from time to time in accordance with collective bargaining machinery.
9. The majority of staff at Oldham Council are employed under the National Joint Council (NJC) terms and conditions (Green Book) and salaries are determined by the points score associated with a job role through the appropriate job evaluation scheme. For employees within grades 1 to 10, the NJC Job Evaluation Scheme is used, created specifically for jobs within local government. Employees on senior management grades are evaluated through the HAY Scheme, widely used for evaluating senior jobs, in both the private and public sector, nationally and internationally. Single Status, harmonising former officers and former manual workers, was implemented at the Council on 1 January 2011.
10. In determining its grading structure and setting remuneration levels for any posts which fall outside this scope, the Council takes account of the need to ensure value for money in respect of the use of public expenditure, balanced against the need to recruit and retain employees who are able to meet the requirements of providing high quality services to the community, delivered effectively and efficiently and at times when those services are required.

11. New appointments will normally be made at the minimum of the grade for the relevant pay scale, although this can be varied where the successful candidate is currently on a spinal column point/salary that is higher than minimum of the grade/salary of the job being recruited to. Where this occurs there is guidance in the Council's Starting Salary Policy to ensure consistency of application across the organisation.
12. From time to time it may be necessary to take account of the external pay levels in the labour market in order to attract and retain employees with particular experience, skills and capability. Where necessary, the Council will ensure the requirement for such is objectively justified by reference to clear and transparent evidence of relevant market comparators and benchmark information, using data sources available from within the local government sector and outside, as appropriate.

Pension Contributions

13. Where employees have exercised their statutory right to membership of the Local Government Pension Scheme, the Council is required to make a contribution to the scheme representing a percentage of the pensionable remuneration due under the contract of employment for that employee. The rate of contribution is set by Actuaries advising the Greater Manchester Pension Fund and is reviewed on a triennial basis in order to ensure the scheme is appropriately funded. The new triennial period starts from 1st April 2017, and current rates can be found in the Actuarial Valuation Reports on the Greater Manchester Pensions Fund (GMPF) website. The employee contribution rates, are currently 5.5% to 12.5% depending on the level of annual salary.
14. Oldham Council has a flexible retirement scheme which is run in accordance with the Local Government Pension Scheme and Regulation 18 of the Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 (SI 2007/1166) as amended by the Local Government Pension Scheme (Miscellaneous) Regulations 2012 (SI 2012/1989).
15. There are other pension schemes which are in operation at the Council. There is a separate pension scheme for Teachers and a separate pension scheme for transferred NHS staff that still remain on their existing TUPE terms and conditions.

Senior Management Remuneration

16. For the purposes of this statement, senior management means 'chief officers' as defined within the Localism Act. This includes the Chief Executive and all senior management posts on Joint National Council (JNC) Chief Officer Terms and Conditions of Employment. The posts falling within these definitions are set out in Table 1, with details of their basic salary, typically shown within five thousand pound bandings.

17. Chart 1 shows the organisational chart of the job roles set out in Table 1, which are linked through the use of common job titles and a number referencing system. Table 1 shows for Directors and above; their grade, type of contract, salary, allowances, services directed, budget held and the approximate number of staff they are responsible for. For other senior managers covered in the scope of publishing this Pay Policy Statement, Table 1 gives details regarding their pay, services managed and their contract type.
18. It is the policy of the Council to establish a salary for each chief officer post that is sufficient to attract and retain an employee with the appropriate knowledge, experience, skills and abilities that are needed, at that time, by the Council.
19. The arrangements and factors considered in determining, where appropriate, an individual's progression through the relevant grade pay scale are set out at the time of appointment, with the individual 'chief officer'. The level of remuneration does not vary depending on the achievement of defined targets, although progression through the incremental scale of the relevant grade is subject to satisfactory performance, which is assessed on an annual basis. If a cost of living increase is awarded to JNC Chief Officers through national collective bargaining then it is fully applied at that time.
20. To meet specific operational requirements it may be necessary for an individual chief officer to temporarily take on additional duties to their identified role. The Council authorises such additional payments which may be relevant to those duties through the Selection Committee, or other constitutionally approved mechanism.
21. Some chief officer posts carry additional payments. These additional payments are supplementary to basic salary and may represent a contractual obligation. The amounts and types of additional payments are shown in Table 1.
22. The Chief Executive's salary does include payment for local election duties and no additional payment is made for those duties. Separate payments are received for any returning officer duties arising from parliamentary elections and referendums. It should be noted that payments for such elections are not funded by the Council.
23. Where the Council is unable to recruit chief officers, or there is a need for interim support to provide cover for a substantive chief officer post, the Council may, where necessary, consider engaging individuals under a 'contract for service' rather than making a temporary appointment. These individuals will be sourced through a relevant procurement process ensuring the Council is able to demonstrate the maximum value for money in securing the relevant service. In assessing such it should be noted that in respect of such engagements the Council will be fully compliant with the off payroll working rules and will only engage such workers where an arrangement is in place to deduct tax and national insurance contributions in line with off payroll working rules. The contractual arrangements for each of our chief officers are highlighted within Table 1.

Recruitment Of Chief Officers

24. The Council's procedure with regard to recruitment of chief officers is outlined within Part 4, Officer Employment Procedure Rules within the Council's Constitution and is undertaken by a Selection Committee, or other constitutionally approved mechanism. There is a copy of the Council's Constitution on the Council's website to view for further details.
25. When recruiting to all posts, the Council will take full and proper account of all provisions of relevant employment and equality law and its own Recruitment and Redeployment Policies.
26. When recruiting to a chief officer vacancy the Council may engage a recruitment agency to provide external objectivity to the process. In that event, the agency may be used to: determine the market rate for the role, in the market quartile the Council is seeking to compete in at that time; generate interest in the role from potential applicants from inside and outside the sector; conduct the long listing exercise; co-ordinate any personality assessment, group and technical exercises; conduct the short listing exercise with members of the Selection Committee, or other constitutionally approved mechanism, and facilitate the interview sessions, providing a technical advisor to the interview panel when necessary.
27. The selection of a chief officer is made by a panel of Elected Members and the Selection Committee, or other constitutionally approved mechanism, who have delegated authority to appoint through the Council's Scheme of Delegation. The only exception to this is the appointment of the Chief Executive (Head of Paid Service) whose appointment has to be recommended to and approved by full Council. The Selection Committee, or other constitutionally approved mechanism, is supported by the line manager of the post being recruited to and/or advised where necessary by a technical adviser on the service area in addition to the Director of People Services (or their nominee).
28. Full Council will consider the case for any salary in excess of £100,000, prior to any appointment to the 'chief officer' posts that it relates. The salary package will be defined as basic salary, any performance related pay, fees, routinely payable allowances and benefits in kind, that are due under the contract.

Payments On Termination

29. The Council's approach to statutory and discretionary payments on termination of employment of chief officers and its other employees, prior to reaching normal retirement age, and is covered within the Redundancy Policy, in accordance with regulations 5 and 6 of the Local Government (Early Termination of Employment) (Discretionary Compensation) Regulations 2006 and Regulation 12 of the Local Government Pension Scheme (Benefits, Membership and Contribution) Regulations 2007. This excludes teachers where there are different pension arrangements. The Council's current Redundancy Policy is available to view on the Council's website.

30. Any payments falling outside these provisions or the relevant periods of notice within the contract of employment shall be subject to a rigorous risk assessment, as they would be for any member of staff within the Council and a formal decision will be made by the Director of People and the Director of Legal Services of the Council. The Council is fully compliant on regulations and frameworks regarding exit payments, which ensures a fair and appropriate level of compensation is provided for employees who are required to leave public sector jobs.

Lowest Paid Employees

31. Oldham Council is committed to tackling positively the socio-economic and health inequalities associated with low pay. Since April 2012, the Council has implemented a Local Living Wage initially of £7.11 per hour, increasing to £7.24 per hour in April 2013. From April 2015, the Council has chosen to pay the Living Wage, as advocated by the Living Wage Foundation. This hourly rate has increased every November in line with the latest research, and the Council has updated its payline, effective from the following April. The Council retains its commitment to the Living Wage, subject to an ongoing financial impact assessment.
32. Full time hours at Oldham Council are 36 hours and 40 minutes per week for employees on NJC terms and conditions.
33. The relationship between the rate of pay for the lowest paid and the Chief Executive is determined by the processes used for determining pay and grading structures, as set out earlier in this policy statement. This relationship is expressed as a ratio in Table 2, which also shows the multiple between the median full time equivalent earnings and the earnings of the Chief Executive. Oldham Council has a commitment that the ratio between its highest earner, the Chief Executive, and those who are the lowest paid, will not exceed 1:11.

Accountability And Decision Making

34. In accordance with the constitution of the Council, the Selection Committee, or other constitutionally approved mechanism, is responsible for decision making in relation to the recruitment, pay, terms and conditions and severance arrangements in relation to chief officers. Accountability and decision making for all other employees of the Council is the responsibility of Executive Directors through the Council's Scheme of Delegation.

Re-Employment / Re-Engagement Of Former Employees

35. Oldham Council has an obligation to ensure that it is managing public monies responsibly against any requirements to achieve savings and reductions in posts through voluntary or compulsory redundancy, efficiency release or employer consent retirement which results in a cost to the Council.

36. The Council will not re-engage ex-employees who have left their prime employment with the Council on the grounds of voluntary or compulsory redundancy, efficiency release or employer consent retirement (where there is a cost to the Council) for a period of 12 months with effect from the date of leaving. This policy does not cover those employees who access their pension via the Council's Flexible Retirement Scheme or to employees who early retire where there is no cost to the council.

Report to Overview and Scrutiny Performance & Value for Money Select Committee

Capital Strategy and Capital Programme 2019/20 to 2023/24

Portfolio Holder: Cllr Abdul Jabbar MBE, Deputy Leader and Cabinet Member for Finance and Corporate Resources

Report Author: Anne Ryans, Director of Finance

Officer Contact: Lee Walsh, Finance Manager

Ext. 6608

24 January 2019

Reason for Decision

To set out the Capital Strategy for 2019/20 to 2023/24 and thereby the proposed 2019/20 capital programme, including identified capital investment priorities, together with the indicative capital programme for 2020/21 to 2023/24, having regard to the resources available over the life of the programme.

Executive Summary

The Capital Strategy

The Council's Capital Strategy and capital programme are set over a five year timeframe. The proposed Capital Strategy and programme for 2019/20 to 2023/24 takes the essential elements of the 2018/22 and previous years' strategies and programmes and moves them forward in the context of the financial and political environment for 2019/20.

The Strategy does however include a longer term vision, a forward look at those projects that are likely to run beyond the five year strategy and programme period or be initiated subsequently. This covers a timeframe for the 10 years from 2024/25 to 2033/34.

In 2017 the Chartered Institute of Public Finance & Accountancy (CIPFA) issued revised Prudential and Treasury Management Codes. The main requirement was that for 2019/20, all Local Authorities have to prepare an additional report, a Capital Strategy report. The Council has traditionally prepared a Capital Strategy, however under the new guidance additional disclosures have been added to ensure compliance.

The Strategy is presented so that it provides:

- A high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
- An overview of how the associated risk is managed
- The implications for future financial sustainability

It is prepared in 15 sections and ensures that all Council Members are presented with the overall long-term capital investment policy objectives and resulting capital strategy requirements, governance procedures and risk appetite. The sections are:

1. The Aims of the Capital Strategy and linkages to other key Strategies
2. The Principles of the Capital Strategy
3. Priority Areas for Investment
4. Supporting Greater Manchester Devolution
5. Affordability, Delivery and Risk Associated with the Capital Schemes
6. Knowledge and Skills
7. Treasury Management
8. Long Term Loans
9. Commercial Activity
10. Capital Resources to Support Capital Expenditure
11. Capital Investment and Disposal Appraisal
12. How the Capital Requirement will be Prioritised
13. How the Council will Procure its Capital Projects
14. How the Council will Measure the Performance of the Capital Programme
15. The Capital Investment Programme Board

Flexible use of Capital Receipts Strategy

The Strategy also advises that the Council is proposing to utilise the flexibility provided by the Ministry of Housing, Communities and Local Government (MHCLG) to use capital receipts to fund the revenue cost of transformation. The 2019/20 revenue budget will rely on up to £3m of such funding from capital receipts. Annex D sets out the required Flexible Use of Capital Receipts Strategy which advises of the summary of planned receipts, use and savings.

Capital Programme 2018/19 to 2022/23

Capital spending in relation to the 2018/19 capital programme is a key determinant of the 2019/20 programme. As many schemes span more than one year, the anticipated level of reprofiling between years sets the underlying position. The latest available capital monitoring report for the 2018/19 to 2022/23 at month 8 includes capital expenditure totalling £48.952m for 2018/19 matched with corresponding financing.

The People and Place Directorate which manages all of the major regeneration projects, constitutes the main area of expenditure (£31.265m). Prudential Borrowing provides the main source of financing (£26.995m) followed by Grants and Other Contributions (£16.068m).

Actual expenditure to 30 November 2018 was £24.637m (50.33% of forecast outturn). This spending profile is in line with previous years, however the position will be kept under review and budgets will continue to be managed in accordance with forecasts.

Capital Programme 2019/20 to 2023/24

The Council has set out its capital programme for the period 2019/20 to 2023/24 based on the principles of the Capital Strategy. The Capital Programme and Capital Strategy have been influenced by the level of resources considered available. The level of prudential borrowing included reflects the financing available in the revenue budget, capital receipts align with forecasts and grant funding and other contributions are based on already notified allocations or best estimates at time of preparation. If additional resources become available, projects that meet the Council's strategic capital objectives will be brought forward for approval.

Anticipated expenditure and matched financing for the period 2019/20 to 23/24 totals £262.198m. This incorporates resources expected to be carried forward from 2018/19 and reflects the month 8 position together with an enhanced projection of expenditure for 2019/20 to 2023/24 incorporating anticipated spending on new initiatives and an allowance, at funds yet to be allocated for new priorities (£12.500m over the life of the Capital Strategy). The detailed programme is set out at Annex D of Appendix 1 on a Portfolio basis.

A review of the capital programme has highlighted that there is already a full range of commitments for the period 2019/20 to 2023/24 but additional funding allocations totalling £53.742m have been added to support a number of schemes, however, due to the revision in contribution to schemes from external funders, the anticipated grant contribution element of the funding has reduced by £6.823m, leaving an increase from the 2018/19 projected capital programme of £46.919m.

The capital programme includes proposed expenditure for 2019/20 of £81.812m, with the largest area of expenditure being on schools, development and infrastructure projects within People and Place Directorate. Total expenditure decreases to £78.546m in 2020/21, then £82.465m in 2021/22, and £13.411m in 2022/23 and in the final year of the current programme 2023/24 spend is estimated at £5.964m.

Resources Available to Support the Capital Programme

The Government is continuing to provide significant levels of grant funding, after an initial reduction at the start of the austerity period. The main source of grant income remains education-related with Basic Need Capital grant funding allocations totalling £20.310m for 2019/20 and £9.819m for 2020/21. The grant funding provided by Government can be split into two categories: un-ringfenced and ringfenced resources, as explained in Section 10 of the Capital Strategy. The vast majority of capital Government Grant funding is un-ringfenced. Resources classified as ringfenced have to be utilised to finance particular categories of expenditure and therefore are restricted in their use. The 2019/20 capital programme relies on £26.972m of un-ringfenced and £7.689m of ringfenced grants.

As in previous years, a major source of financing remains prudential borrowing; the amount required in 2019/20 (£24.193m) includes borrowing attributed to schemes that have slipped from prior years. In addition, the timing of the borrowing is linked to the cash position of the Council and may therefore not mirror the spending/financing profile set out above.

On-going Review of the Capital Programme

There will be a continued review of capital spending requirements as the Council has further regeneration ambitions but affordability and deliverability will be key consideration in this regard. It is, however, likely that the capital position will change prior to the start of 2019/20 and during the year as:

- There may be further Government funding allocations announced prior to the start of 2019/20.
- The outcome of specific grant bids will be announced during 2019/20.
- It is also likely that there will be new initiatives announced later in the financial year.
- There may also be the opportunity to bid for additional funding.
- The Council may identify other funding sources, including capital receipts, to finance additional capital expenditure.

Therefore the overall capital programme position will be kept under review and any new information about funding allocations will be presented to Members in future reports.

Recommendations

The Overview and Scrutiny Performance and Value for Money Select Committee is requested to consider and comment on:

- i) The Capital Strategy for 2019/20 to 2023/24 at Appendix 1 of this report and summarised at section 2.1.
- ii) The capital programme for 2019/20 and indicative programmes for 2020/21 to 2023/24 at Annex C of Appendix 1 and summarised at section 2.2 to 2.6 of this report.

Overview and Scrutiny Performance & Value for Money (PVFM) Select Committee

Capital Strategy and Capital Programme 2019/20 to 2023/24

1. Background

- 1.1 In accordance with good practice, the Council has traditionally prepared a Capital Strategy, the overarching aim of which is to provide a framework within which the Council's capital investment plans will be delivered. This Capital Strategy for 2019/20 to 2023/24 has been prepared to cover an initial five year time-frame to align with the Medium Term Financial Strategy of which it is an integral part. Recognising that there is some uncertainty, especially in relation to funding in later years, the Strategy therefore focuses on 2019/20 and 2020/21 in detail.
- 1.2 The Strategy does however include a longer term vision, which also covers the time frame for 10 years from 2024/25 to 2033/34. This takes a forward look at those projects that are likely to run beyond the initial five year strategy and programme period.
- 1.3 The format of the Capital Strategy has been amended to reflect the Prudential and Treasury Management Codes issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) in 2017 which requires Authorities to prepare a Capital Strategy and include specific information within it. The Strategy therefore presents:
- A high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
 - An overview of how the associated risk is managed
 - The implications for future financial sustainability
- 1.4 This report therefore summarises the key elements of the Capital Strategy which are outlined in more detail at Appendix 1.
- 1.5 The report also presents the proposed 2019/20 to 2023/24 capital spending plans of the Council and together with an update on spending in 2018/19, which has a significant influence over the profiling of expenditure into future years.

2 Current Position

2.1 Capital Strategy 2019/20 to 2023/24

- 2.1.1 The overarching aim of the Oldham Capital Strategy is to provide a framework within which the Council's capital investment plans will be delivered over a five year timeframe 2019/20 to 2023/24 but as advised above, the format and content of the Capital Strategy has been changed to reflect the Prudential and Treasury Management Codes issued by CIPFA in 2017 which for the first time requires Authorities to prepare a Capital Strategy and include specific information within it.
- 2.1.2 The Capital Strategy is therefore prepared to ensure that all Council Members are presented with the overall long-term capital investment policy objectives and resulting Capital Strategy requirements, governance procedures and risk appetite.
- 2.1.3 The Capital Strategy, which now incorporates specific information on non-treasury investments, is aligned to but reported separately from the Treasury Management

Strategy Statement. This ensures the separation of commercial investment, usually driven by expenditure on an asset, from the core treasury function which operates under the principles of security, liquidity, yield and an ethical approach.

2.1.4 Specifically in relation to non-treasury investments, the Capital Strategy includes, where appropriate:

- The corporate governance arrangements;
- Any service objectives relating to the investments;
- The expected income, costs and resulting contribution to support the Councils budget;
- The debt related to the activity and the associated interest costs;
- The payback period (MRP policy);
- For non-loan type investments, the cost against the current market value; and
- The risks associated with each activity.

2.1.5 The proposed Capital Strategy and capital programme for 2019/20 to 2023/24 takes the essential elements of previous Capital Strategies and programmes and moves them forward in the context of the financial and political environment for 2019/20 onwards. The Capital Strategy is attached at Appendix 1, with the capital programme, which reflects the principles of the Strategy, attached at Annex C of Appendix 1.

2.1.6 The Council has an ongoing investment programme to support a range of regeneration priorities and due to the re-profiling of the delivery of some schemes and the approval of new schemes, the programme has now been revised. Given the size of the regeneration programme, it is an important focus for Council spending within the period covered by this Capital Strategy. This investment is mostly being financed by prudential borrowing which requires financing from the revenue budget. Where possible this funding is generated from increasing income streams from new developments and new schemes. The 2019/20 revenue budget has been prepared to accommodate this with future years' projected costs included in the Medium Term Financial Strategy. Whilst in the current financial climate this capital investment is a considerable sum, it reflects the Council's commitment to the regeneration of the borough.

2.1.7 The regeneration of Oldham town centre is a Council priority with a number of major schemes either having been completed or are currently in train. During 2018/19 the vision for the town centre was revisited but during 2019/20 work will be taken forward with the Oldham Museum of Arts / Archives (OMA) and the Tommyfield market as priorities. The finalisation of the town centre vision will determine specific projects, and the extent of the resources required.

2.1.8 The Capital Strategy and spending plans of the Council are driven by the Corporate Plan which was refreshed and updated to sharpen its focus and ensure alignment with the Oldham Plan. The Oldham Plan was endorsed by Council in July 2017. In addition there are two other key strategies that underpin the Council's approach to capital expenditure:

- a) During 2017/18, Cabinet approved the Commercial Property Investment Strategy and Fund (CPIS). This formally established an approach and resources to facilitate the development of a robust, property investment portfolio in order to generate a sustainable future income stream to support the Council's mainstream service delivery. With the revised Prudential Code guidance issued in 2017 and in the context of the Capital Strategy, the CPIS has approval to use capital receipts to invest in property to create a revenue return.

- b) In August 2018, the Council adopted a Medium Term Property Strategy (MTPS) which set out the general direction that the property portfolio will take over the next 5-10 years, the approach to be adopted in getting there and the policies that will be applied to decision making.

The Council's approach is to have a high level MTPS that incorporates a detailed Asset Management Plan for every property asset / group of assets the Council has, together with a Commercial Property Investment Strategy to guide and set principles of how investment in property is undertaken and income generated.

- 2.1.9 Aligned to corporate and service priorities, individual schemes are included within approved capital spending plans or are to be considered for a resource allocation over the period of the Capital Strategy, having regard to the MTPS and CPIS.

The Principles of the Capital Strategy

- 2.1.10 The Capital Strategy has 16 principles outlined in Appendix 1 Section 2. These are largely unchanged from previous years and emphasise the role of the CIPB in leading the strategic direction for capital investment with the Terms of Reference of the CIPB included at Annex B of the Appendix 1. The principles include:

- The requirement for all capital schemes to have a sponsor and to undergo a rigorous options appraisal process
- The pooling of all un-ringfenced funds but having regard to specific obligations
- No ringfencing of capital receipts but with some specified exceptions
- Utilising resources to work collaboratively with the Greater Manchester Combined Authority (GMCA) and other public sector agencies to support the evolving devolution agenda
- Supporting greater integration with Oldham Clinical Commissioning Group (CCG) and other NHS partners by making Council capital resources available for joint projects.

These principles frame decision making on capital expenditure and underpin the Council's approach to capital investment.

Priority Areas for Investment

- 2.1.11 Section 3 of Appendix 1 advises of the priority investment areas identified for the 2019/20 to 2023/24 period that will be taken forward subject to the availability of resources and the approval of a full business case.
- 2.2.12 There is a requirement for continued funding of existing programmes of work on:
- Corporate Major Repairs /Disability Discrimination Act (DDA) Adaptations/ Legionella / Health and Safety Projects (Corporate Landlord Function)
 - School Condition Works
 - ICT Strategy
 - Social Care
 - Environmental Services
 - District Investment Fund

In addition to the projects specifically referred to above, the following is a list of further/new projects for which funding may be required:

- a) Adult Social Care
- b) Better Care Fund (Disabled Facilities Grant)
- c) Upgrade to Crematorium Facilities
- d) Low Carbon and Energy Efficiency Initiatives
- e) School Investment/ Pupil Places Pressures
- f) Surplus Sites
- g) Working with NHS Partners
- h) AGMA investment Fund Loans
- i) Town Centre Regeneration
- j) Borough-Wide Regeneration
- k) Car Parking
- l) Housing Initiatives
- m) GM Devolution and Related Initiatives
- n) Matched Funding For Grant Bids
- o) Northern Roots
- p) Royton Town Centre Development
- q) Transport Capital Programme
- r) Fleet Management

- 2.1.13 The Strategy does however include a longer term vision, a forward look at those projects that are likely to run beyond the five year strategy and programme period or be initiated subsequently. This covers a timeframe for the 10 years from 2024/25 to 2033/34.

Supporting Greater Manchester Devolution

- 2.1.14 Section 4 of Appendix 1 advises that devolution continues to transfer more powers and responsibilities from Central Government to Greater Manchester and that as Greater Manchester's local Councils have a history of working together, the Council will strive through its capital programme, to continue to support devolution activities.

Affordability, Delivery and Risk Associated with the Capital Schemes

- 2.1.15 One of the new requirements for 2019/20 is to state how the Council will ensure that its capital spending plans are affordable, how delivery of projects will be ensured and how risks associated with the capital programme are managed. This is outlined at Section 5 of Appendix 1.

Knowledge and Skills

- 2.1.16 Another new requirement for 2019/20 is a section on the knowledge and skills of the staff who have responsibility for preparing and on-going management of the capital and treasury management strategies and other key activities in relation to the management of the capital programme. Members can be assured that the Council has suitably skilled and experienced staff and appropriate governance arrangements are in place, as set out more fully in Section 6 of Appendix 1.

Treasury Management

- 2.1.17 The Capital and Treasury Management Strategies of the Council are closely linked and Section 7 of Appendix 1 therefore sets out how each are prepared to have regard to the key issues and ensuring a complementary and fully aligned approach.

Long Term Loans

- 2.1.18 Section 8 of Appendix 1 advises that the Council has the ability, should it choose to exercise its powers, to enter into loan arrangements to support delivery of strategic corporate priorities. It also advises that the Council has chosen to make limited use of its ability to enter into loan arrangements, but there is strong governance in place to ensure robust decision making should it be required.

Commercial Activity

- 2.1.19 Section 9 of Appendix 1 advises that the Corporate Property Investment Strategy gives the Council approval to invest in property solely to generate additional income to support the Council's mainstream service delivery and that the Council also has Treasury Management investments that generate an income stream from property. However, Members can be assured that any such investments are only undertaken after an appropriate due diligence exercise.

Capital Resources to Support Capital Expenditure

- 2.1.20 Section 10 of Appendix 1 sets out the range of resources that the Council will rely on to support capital spending. In addition to prudential borrowing and Government grants, which together are the main financing source for the capital programme, the Council will, depending on the circumstances, consider using a range of resources and opportunities to finance capital expenditure and will continue to monitor the availability and suitability of alternative sources of financing. Financing decisions will, however, be made in the context of the schemes being considered for approval and the financial position of the Council at the time a decision is required.

This section also highlights the circumstances where capital receipts will be ringfenced to support specific purposes. This includes ringfencing of up to £3m to support the Council's use of flexibility in the utilisation of the capital receipts (see section 2.1.26).

Capital Investment and Disposal Appraisal

- 2.1.21 Section 11 of Appendix 1 advises that all capital investment will be commissioned on the recommendation of the CIPB which will enable any expenditure and its funding to be better aligned with corporate priorities, partners and funding sources. It also advises that the:
- Governance of the Council's land and property portfolio is provided via the Land and Property Protocols which form part of the Council's Constitution; and
 - The Corporate Property Board oversees acquisition and disposal of land and property assets and monitors the progress of the asset rationalisation programme and performance of the investment portfolio.

How the Capital Requirement will be Prioritised

- 2.1.22 Section 12 of Appendix 1 advises that once a bid for capital expenditure has passed through the Gateway process, has demonstrated that it meets Council Objectives, and

links to the Greater Manchester Strategy (if appropriate), and it has been agreed that it is suitable for capital investment, the strategic requirements will be prioritised using a range of criteria which are not mutually exclusive or in ranking order. Detailed in full at Section 12, these include:

- The relationship to mandatory, contractual or legislative service delivery requirements.
- Whether the project is required to achieve the delivery of a specific revenue budget saving within the revenue budget setting process.

How the Council will Procure its Capital Projects

- 2.1.23 Section 13 of Appendix 1 advises that the structure of the Council's procurement and strategic relationship management function includes designated Commercial Procurement Managers whose focus it is to support all capital projects and can therefore take advantage of opportunities for greater efficiency by selection of the most effective procurement processes to ensure the best commercial solution.

How the Council will Measure the Performance of the Capital Programme

- 2.1.24 Section 14 of Appendix 1 highlights the approach to managing the performance of the Capital Programme. It advises that the Council's strong programme management approach is modelled on the PRINCE 2 project management methodology and the Office of Government Commerce (OGC) Gateway Review System. This ensures that investments are planned, managed and delivered prudently. In addition, the CIPB has a remit to review the financial performance of the capital programme and it receives a monthly monitoring report and undertakes a detailed annual review of the capital programme.

The Capital Investment Programme Board

- 2.1.25 Section 15 of Appendix 1 advises that the CIPB will continue in its role as an Advisory Board chaired by the Deputy Leader and Cabinet Member for Finance and Corporate Resources. The Board is supported by a range of key officers. The CIPB will make recommendations which can be approved under delegated powers as appropriate. Its terms of reference are presented at Annex B to Appendix 1.

Flexible use of Capital Receipts Strategy

- 2.1.26 The Council is proposing to utilise the flexibility provided by the Ministry of Housing, Communities and Local Government (MHCLG) to use capital receipts to fund the revenue cost of transformation. The 2019/20 revenue budget will rely on up to £3m of such funding from capital receipts. Annex D sets out the required Flexible Use of Capital Receipts Strategy which advises of the summary of planned receipts and summary of planned use and savings.

2.2 Capital Programme 2019/20 to 2023/24

2.2.1 The Council is required to set out its capital programme for the period 2019/20 to 2023/24 based on the principles of the Capital Strategy. As previously advised, an initial timeframe of five years has been adopted. The Capital Programme and Capital Strategy have, at this stage, been influenced by the level of resources considered available. The level of prudential borrowing included reflects the financing available in the revenue budget, capital receipts align with forecasts and grant funding and other contributions are based on already notified allocations or best estimates at time of preparation. If additional resources become available, projects that meet the Council's strategic capital objectives will be brought forward for approval.

2.2.2 Clearly, the capital programme for 2019/20 is influenced by the performance of the capital programme for 2018/19. A review has taken place of planned spending in 2018/19 and the programme has been re-profiled as necessary with future years estimates updated.

Update on the 2018/19 Capital Programme

2.2.3 Capital spending in relation to the 2018/19 capital programme is a key determinant of the 2019/20 programme. As many schemes span more than one year, the anticipated level of reprofiling between years sets the underlying position.

2.2.4 The capital programme for 2018/19 was approved at the Council meeting of 28 February 2018, with expenditure of £89.658m and supporting financing. This was supplemented by re-profiling of £1.342m from the previous year and has subsequently been amended month on month to reflect agreed changes. This includes the actions arising from the findings of the 2018/19 annual review of the capital programme, a comprehensive project by project scrutiny of all schemes in the programme. This was conducted by the CIPB over the summer/autumn months of 2018.

2.2.5 The latest available capital monitoring report for the 2018/19 to 2022/23 Capital Programme at month 8 (a separate item on the agenda) includes capital expenditure totalling £48.952m for 2018/19 matched with corresponding financing. The People and Place Directorate which manages all of the major regeneration projects, constitutes the main area of expenditure (£31.265m). Prudential Borrowing provides the main source of financing (£26.995m) followed by Grants and Other Contributions (£16.068m).

2.2.6 Actual expenditure to 30 November 2018 was £24.637m (50.33% of forecast outturn). This spending profile is in line with previous years, however the position will be kept under review and budgets will continue to be managed in accordance with forecasts.

2.2.7 The month 8 2018/19 capital spending and financing position is set out in the table below.

Table 1 - Revised 2018/19 Capital Programme

Directorate Expenditure	Capital Programme as at M08 £000
Corporate and Commercial Services	14,174
People and Place	31,265
Health & Adult Social Care Community Services	1,894
Reform	216
Housing Revenue Account	1,097
Funds yet to be Allocated	306
Total Expenditure	48,952
Grants and Other Contributions	(16,068)
Prudential Borrowing – General	(26,995)
Revenue (HRA & General Fund)	(96)
Capital Receipts Required	(5,793)
Total Resources	(48,952)

2.2.8 The revised capital programme requires the availability of £5.793m of capital receipts in 2018/19 for financing purposes. The total net usable capital receipts currently received in year, inclusive of £8.747m carried forward from 2017/18, is £12.350m.

2.2.9 The capital receipts position as at 30 November 2018 is as follows:

Table 2 - Capital Receipts Position

Capital Receipts Position	£000
Capital Receipts Available	(12,350)
Expenditure to be Funded from Capital Receipts	5,793
Forecast Capital Receipts Carried Forward (including anticipated receipts)	(6,557)

2.2.10 The level of Capital Receipts anticipated in 2018/19 is in excess of in year funding requirements and will enable £6.557m of resources to be carried forward to support expenditure in 2019/20.

2.2.11 As referred to at 2.2.4 above, the annual review of the capital programme examined all schemes to give Members confidence that planned expenditure remained relevant and aligned with corporate objectives. The capital programme for 2019/20 (and future years) reflects the results of the review.

2.2.12 It is anticipated that the 2018/19 position will still continue to change as Cabinet reports are approved and with amendments reviewed by the CIPB and approved under delegated authority as a result of the on-going monitoring process.

2.3 Proposed Expenditure for 2019/20 to 2023/24

2.3.1 The table below sets out the summary of the anticipated expenditure and matched financing of £262.198m, which incorporates resources expected to be carried forward from 2018/19. The proposed 2019/20 to 2023/24 programme reflects the 2018/19 month 8 position (summarised previously) together with an enhanced projection of expenditure for 2019/20 to 2023/24 incorporating anticipated spending on new initiatives and an allowance, at funds yet to be allocated for new priorities to be supported. The detailed programme is set out at Annex D of Appendix 1 on a Portfolio basis.

Table 3 - Capital Programme 2019/20 to 2023/24

Proposed Capital Spending	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
Corporate and Commercial Services	15,392	9,333	8,399	1,614	249
People and Place	54,403	63,081	70,544	8,897	3,615
Health & Adult Social Care	2,682	1,400	400	400	400
Community Services	100	100	700	200	200
Reform	4,235	1,632	922	800	0
Housing Revenue Account	5,000	3,000	1,500	1,500	1,500
Funds Yet to be Allocated					
Total Expenditure	81,812	78,546	82,465	13,411	5,964

Funding	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
Grants and Other Contributions	(34,661)	(25,375)	(17,776)	(6,973)	(1,973)
Prudential Borrowing - General	(24,193)	(44,759)	(50,238)	(3,064)	(42)
Revenue (HRA & General Fund)	(3,916)	(4,106)	(5,822)	(800)	0
Capital Receipts	(19,042)	(4,306)	(8,629)	(2,574)	(3,949)
Total Funding	(81,812)	(78,546)	(82,465)	(13,411)	(5,964)

2.4 Resources Available to Support the Capital Programme

2.4.1 The Government is continuing to provide significant levels of grant funding, after an initial reduction at the start of the austerity period. Some new funding initiatives have been introduced, some of which carry through to 2019/20 and beyond. Grants have been awarded/anticipated for Education, Social Care and Transport projects. The Council has not yet received all grant allocations for 2019/20. The grants will be incorporated into the capital programme when the notifications have been received.

2.4.2 The main source of grant income remains education-related with Basic Need Capital grant funding allocations totalling £20.310m for 2019/20 and £9.819m for 2020/21. The School Condition Allocation grant is anticipated with an indicative allocation of £1.700m for 2019/20, which acknowledges some funding will be lost as more schools convert to academy status. This has been part re-profiled to 2020/21 to reflect the current planned work programme. The resources available to support the programme are described in more detail in the following sections.

Government Grant Funding

- 2.4.3 The Government resources available to the Council can be split into two categories: un-ringfenced and ringfenced resources, as explained in Section 10 of the Capital Strategy.
- 2.4.4 Some Government grant resources have been moved between financial years in order to support re-profiled expenditure as detailed in Annex C of Appendix 1.
- 2.4.5 The resources available can also be split between those which do not have revenue consequences and those that do have revenue consequences and therefore require financing through the revenue budget.

Funding With No Revenue Consequences

1) Government Grants and other external grants and contributions

This is funding provided directly by Government or other external providers. It can be ringfenced, specific and un-ringfenced. Un-ringfenced resources are those that can be utilised to finance any project (albeit there is usually an expectation of use for a specific purpose). The vast majority of capital Government Grant funding is un-ringfenced. Resources classified as ringfenced have to be utilised to finance particular categories of expenditure and therefore are restricted in their use. The 2019/20 capital programme relies on £26.972m of un-ringfenced and £7.689m of ringfenced grants.

2) Capital Receipts

This is income received from the sale of Council assets and is usually un-ringfenced. The 2019/20 programme relies on £19.042m of capital receipts. As highlighted at 2.2.9, £6.557m of which will be carried forward from 2018/19.

In general it should be noted that a prudent approach has been taken in relation to the anticipated level of receipts with no resources assumed in excess of the requirement to support already approved schemes. However, taking advantage of flexibilities around the use of capital receipts introduced by the Government, the Council anticipates using up to £3m of capital receipts in 2019/20 to support transformational projects which would otherwise be financed by revenue resources.

Funding With Revenue Consequences

1) Prudential Borrowing

This is borrowing undertaken by the Council for specific projects. It is financed by revenue resources and is entirely at the discretion of the Council. Prudential borrowing has been used to support the major investment programme which could not otherwise have been funded. The 2019/20 programme relies on £24.193m of prudential borrowing which has been fully financed.

- 2.4.6 As in previous years, the major source of financing remains prudential borrowing; the amount required in 2019/20 includes borrowing attributed to schemes that have slipped from prior years. The Council will aim to reduce the amount of borrowing and associated financing costs by maximising grant income and capital receipts. Some borrowing, in relation to commercial activities, will be financed by increased income and revenue streams generated at the point when projects are completed and become operational. In addition, the timing of the borrowing is linked to the cash position of the Council and may therefore not mirror the spending/financing profile set out above.

2.5 Capital Requirements for 2019/20

Resources Committed in 2019/20 to 2023/24

- 2.5.1 A review of the capital programme has highlighted that there is already a full range of commitments for the period 2019/20 to 2023/24 and additional funding allocations totalling £46.919m have been added to support a number of schemes. The table below shows the associated financing:

Table 4 - Additional Resources Included in the Capital Programme 2019/20 to 2023/24

Financing	£000
Prudential Borrowing	(25,212)
Capital Receipts	(18,051)
Revenue Contributions	(4,844)
Grants & Contributions	(5,635)
Total	(53,742)

However, due to the revision in contribution to schemes from external funders, the anticipated grant contribution element of the funding has reduced by £6.823m. In overall terms the increase from the 2018/19 projected capital programme is £46.919m.

The capital commitments are set out in the following paragraphs and are shown in detail at Annex C of Appendix 1 of this report.

- 2.5.2 There will be a continued review of capital spending requirements as the Council has further regeneration ambitions. This will however require a further phase of investment and the preparation of a new investment programme.

Corporate and Commercial Services Directorate

- 2.5.3 Total projected spending on Corporate and Commercial Services projects is £34.987m over the strategy period. A total of £11.377m relates to ICT related schemes and the Investment/Income Generation Opportunities totals £20.610m. The funding for Investment/Income Generation opportunities is intended to enable the Council to take advantage of schemes which provide a sustainable income stream to support the Council's budget from the acquisition or investment in property assets whilst having regard to risk management considerations. Planned Directorate spending is phased as set out below:

Table 5 - Corporate and Commercial Directorate Expenditure over the Capital Strategy 2019/20 to 2023/24

	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
Information Technology	6,212	1,583	1,719	1,614	249
Investment / Income Generation Opportunities	6,180	7,750	6,680	0	0
Flexible Use of Capital Receipts	3,000	0	0	0	0
TOTAL	15,392	9,333	8,399	1,614	249

People and Place Directorate

2.5.4 There is planned Directorate expenditure of £200.539m over the period 2019/20 to 2023/34 as shown below:

Table 6 People and Places Directorate Expenditure over the Capital Strategy 2019/20 to 2023/24

	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
People and Place Directorate	54,403	63,080	70,544	8,897	3,615

The major areas of expenditure in relation to 2019/20 are as follows:

Table 7 - People and Places Directorate Expenditure 2019/20

Service Area	£000
Corporate Property including Major Repairs/DDA & Schools Condition works	3,381
Neighbourhood Development Fund	97
Other Regeneration Priorities including Hollinwood/ Langtree, Public Realm, Environment & Strategic Acquisitions	1,868
Private Sector Housing	2,808
Royton Town Centre Development	1,693
Schools – General	10,435
Schools – Primary	161
Schools – Secondary	12,229
Schools - Special	1,000
Town Centre & Borough-wide Regeneration	7,694
Transport (including Fleet)	13,037
TOTAL	54,403

2.5.5 Clearly, the main focus of spending is schools, town centre and borough-wide regeneration. These areas encompass a wide range of high priority schemes as detailed in Annex A of Appendix 1. It is however, possible that some of this spending maybe re-profiled as 2019/20 progresses.

2.5.6 Another significant area of spending is transport, covering a wide range of major highways schemes together with the continuation of the planned £18.000m investment in the carriageway improvement programme approved at Cabinet in November 2017.

Health and Adult Social Care Community Services Directorate

2.5.7 There is planned Directorate expenditure of £5.282m phased over the 5 year programme as set out below:

Table 8 - Health and Adult Social Care Community Services Directorate Expenditure over the Capital Strategy 2019/20 to 2023/24

	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
Health and Adult Social Care Community Services Directorate	2,682	1,400	400	400	400

This area of spending is focused on Social Care. The major areas of expenditure in relation to 2019/20 are as follows:

- Resources of £0.549m are specifically allocated in 2019/20 to support local Social Care Schemes. (including re-phasing of £0.149m from 2018/19).
- Indicative funding of £2.133m relating to the expansion of the Disabled Facilities Grant (including re-phasing of £0.219m from 2018/19).

Housing Revenue Account

2.5.8 Projected spending on Housing Revenue Account of £7.590m over the life of the programme is phased as follows:

Table 9 - Housing Revenue Account Expenditure over the Capital Strategy 2019/20 to 2023/24

	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
Housing Revenue Account	4,235	1,633	922	800	0

The primary focus of this the Supported Housing for adults with a Learning Disability and/or complex behaviour (SHALD), a key element of the Housing Initiatives Programme.

Reform Directorate

2.5.9 There is planned Directorate expenditure of £1.300m over the 5 year life of the programme as shown below.

Table 10 Reform Directorate Expenditure over the Capital Strategy 2019/20 to 2023/24

	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
District Investment Fund	100	100	700	200	200

- All the spending in the Reform Directorate reflects spending in relation to the District Investment Fund. The majority of spend is expected in the later years of the programme.

2.6 Proposed Capital Programme

2.6.1 Annex C of Appendix 1 of this report details the proposed 2019/20 Capital Programme and the indicative programme for the period 2020/21 to 2023/24. The strategy of the Council is to prepare a capital programme that balances over the life of the programme so that resources equal overall expenditure. Within the programme, there is currently an unallocated resource of £12.500m as highlighted below:

Table 11 - Funds yet to be allocated Expenditure over the Capital Strategy 2019/20 to 2023/24

	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000
Funds yet to be allocated	5,000	3,000	1,500	1,500	1,500

2.6.2 The use of these unallocated resources will be prioritised by the CIPB including any realignment into future years. It is expected that all of these resources will be used over the life of the programme.

2.6.2 Total expenditure in 2019/20 is planned at £81.812m. However, the position is anticipated to evolve as:

- There may be further Government funding allocations announced prior to the start of 2019/20.
- The outcome of specific grant bids will be announced during 2019/20.
- It is also likely that there will be new initiatives announced later in the financial year.
- There may also be the opportunity to bid for additional funding.
- The Council may identify other funding sources, including capital receipts, to finance additional capital expenditure.

2.6.3 Therefore the overall capital programme position will be kept under review and any new information about funding allocations will be presented to Members in future reports.

3. Options/Alternatives

3.1 Members may choose to accept the proposed Capital Strategy and capital programme, or revise and suggest an alternative approach to capital investment, including the revision of capital priority areas.

4. Preferred Option

4.1 The preferred option is that Members of the Select Committee consider the proposed Capital Strategy and Capital Programme as set out in this report, including priority investment proposals.

5. Consultation

5.1 Consultation has taken place with the members of the CIPB which includes Cabinet Members. Members of the CIPB have contributed to the preparation of the 2019/20 to 2023/24 Capital Strategy and Capital Programme. Presentation of this report to the Overview and Scrutiny Performance and Value for Money Select Committee is a key element of the consultative process.

6. **Financial Implications**

- 6.1 By the very nature of this report, it contains financial details of the capital expenditure and financing associated with the delivery of the 2019/20 capital programme.
- 6.2 In overall terms, the planned programme for 2019/20 to 2023/24 totals £262.198m which is fully financed. The revenue consequences of the anticipated prudential borrowing of £122.296m is included within the estimates underpinning the proposed revenue budget and MTFS.

7. **Legal Services Comments**

- 7.1 Under the Local Authorities (Functions and Responsibilities) (England) Regulations 2000 the responsibility for approving any plan or strategy for the control of Local Authority borrowing, investment or Capital Strategy or for determining the Minimum Revenue Provision is a decision of the full Council. The function of the Executive is to prepare and propose the relevant Strategy to the Council. The Council may require the Cabinet to reconsider, amend, modify, revise, vary, withdraw or revoke the strategy.

8. **Co-operative Agenda**

- 8.1 The Capital Strategy and capital programme have been prepared so that they embrace the Council's co-operative agenda with resources being directed towards projects that support the aims, objectives and co-operative ethos of the Council.

9. **Human Resources Comments**

- 9.1 None.

10. **Risk Assessments**

- 10.1 The main risk foreseen at this stage is whether the planned level of capital receipts can be achieved to finance the current capital programme. In order to minimise the risk, a prudent estimate of capital receipts has been made, having regard to the prevailing economic climate which may have an impact on both the timing and level of receipts that can be achieved. The overall level of capital receipts is therefore kept under review and any significant changes are reflected in capital programme forecast outturn figures.
- 10.2 Actual and potential revisions to Government policy present new risks. The Council must ensure that these are successfully managed, over and above those that are a consequence of any traditional capital programme. In particular these cover risks around expenditure that has already been committed in future years where there is no certainty of continued funding, potential unfunded ongoing legal liabilities, potential overspending requiring an unbudgeted allocation of resources and the general risks around the uncertainty over the nature and level of the 2019/20 and future years' capital funding.
- 10.3 Following the issue of the revised Prudential and Treasury Management codes a section on the risks associated with the Capital Programme must be included within the Capital Strategy document. The risk section can be found in Appendix 1, paragraph 5.13 to 5.21.

11. **IT Implications**

- 11.1 Other than the delivery implications of the specific IT projects being put forward there are no IT implications. The programme of ICT investment contained within the capital programme will enable the Council to transform many of its operations and introduce

new ways of working. This will contribute to the achievement of existing savings targets and enable the Council to make further efficiencies.

12. Property Implications

12.1 The level of capital receipts generated from reductions in the corporate estate and the asset rationalisation programme underpins the financing of the capital programme. Every effort will be made to maximise capital receipts while delivering outcomes that support corporate priorities.

12.2 Any proposed new capital projects and capital programme developments will be considered and reviewed in the context of the Medium Term Property Strategy and Commercial Property Investment Strategy and Fund.

13. Procurement Implications

13.1 None.

14. Environmental and Health & Safety Implications

14.1 The Capital Programme includes resources that will enable corporate health and safety, legionella, asbestos and Disability Discrimination Act projects to be undertaken in accordance with identified priorities.

15. Equality, community cohesion and crime implications

15.1 None.

16. Equality Impact Assessment Completed?

16.1 Not applicable.

17. Key Decision

17.1 Yes

18. Forward Plan Reference

18.1 FCR-11-18

19. Background Papers

19.1 The following is a list of background papers on which this report is based in accordance with the requirements of Section 100(1) of the Local Government Act 1972. It does not include documents which would disclose exempt or confidential information as defined by the Act:

1 Aims of the Capital Strategy and its Links to the Council's Corporate Plan, Medium Term Property Strategy, Commercial Property Investment Strategy and Fund and Budget Framework

- 1.1 In accordance with good practice, the Council has traditionally prepared a Capital Strategy, the overarching aim of which has been to provide a framework within which the Council's capital investment plans will be delivered. This Capital Strategy for 2019/20 to 2023/24 has been prepared to cover a five year time-frame from 2019/20 to 2023/24 to align with the Medium Term Financial Strategy which it is an integral part. Recognising that there is some uncertainty, especially in relation to funding in later years, the Strategy therefore focuses on 2019/20 and 2020/21 in detail.
- 1.2 The Strategy does however include a longer term vision, which also covers the time frame for 10 years from 2024/25 to 2033/34. This takes a forward look at those projects that are likely to run beyond the initial five year strategy and programme period.
- 1.3 The format of the Capital Strategy has been amended to reflect the Prudential and Treasury Management Codes issued by CIPFA in 2017 which requires Authorities to prepare a capital strategy and include specific information within it. The strategy therefore presents:
- A high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
 - An overview of how the associated risk is managed
 - The implications for future financial sustainability
- 1.4 The Capital Strategy is therefore prepared to ensure that all Council Members are presented with the overall long-term capital investment policy objectives and resulting capital strategy requirements, governance procedures and risk appetite.
- 1.5 This Capital Strategy, which now incorporates specific information on non-treasury investments, is aligned to, but reported separately from the Treasury Management Strategy Statement. This ensures the separation of commercial investment, usually driven by expenditure on an asset, from the core treasury function which operates under the principles of security, liquidity, yield and an ethical approach.
- 1.6 Specifically in relation to non-treasury investments, the capital strategy includes, where appropriate:
- The corporate governance arrangements;
 - Any service objectives relating to the investments;
 - The expected income, costs and resulting contribution to support the Councils budget;
 - The debt related to the activity and the associated interest costs;
 - The payback period (Minimum Revenue Provision policy);
 - For non-loan type investments, the cost against the current market value;
 - The risks associated with each activity.
- 1.7 A requirement is that the Capital Strategy demonstrates the concept of proportionality between the treasury operations and the non-treasury operations. High-level indicators are referred to in Section 5.

The Council's Corporate Plan

- 1.8 Capital investment plans are driven by the Council's Corporate Plan. The Corporate Plan is the Council's key strategic document and outlines the Council's contribution to achieving the vision and outcomes detailed in the Oldham Plan, as well as priority areas of focus and delivery aimed at taking forward our vision of a co-operative future where everyone does their bit to create a confident and ambitious borough. All capital investment proposals will therefore be evaluated in accordance with a range of criteria, a key one of which the contribution to the delivery of the aims of the corporate plan.
- 1.9 The Oldham Plan, the Oldham Partnership's plan for the borough, was endorsed by Council in July 2017. It is a collective action statement covering the period 2017-2022 and sets out the areas where the Oldham Partnership will add the most value as a partnership to achieve the ambition for Oldham to be a productive and co-operative place with healthy, aspirational and sustainable communities. The three key strands underpinning the plan are:
- **Inclusive Economy**
The vision is for Oldham to become Greater Manchester's Inclusive Economy capital by making significant progress in living standards, wages and skills for everyone.
 - **Thriving Communities**
The vision is for people and communities to have the power to be healthy, happy and able to make positive choices and both offer and access insightful and responsive support when required.
 - **Co-operative Services**
The vision is to collaborate, integrate and innovate to improve outcomes for residents and create the most effective and seamless services in Greater Manchester.
- 1.10 The Corporate Plan 2015-2020 was refreshed and updated to sharpen its focus and ensure alignment with the Oldham Plan and was approved by Council, alongside the Oldham Plan, in July 2017. Work on the new Corporate Plan for 2020 – 2025 will begin in 2019. The new Corporate Plan will reflect the revised administration priorities, as well as providing stronger links with the Greater Manchester priorities.
- 1.11 Having regard to the requirement for the demonstration of the delivery of corporate and service priorities, individual scheme proposals will only be included within approved capital spending plans or considered for a resource allocation over the period of the Capital Strategy where this is considered appropriate in the context of the Medium Term Property Strategy and the Commercial Property Investment Strategy.

Medium Term Property Strategy

- 1.12 In August 2018, the Council adopted a Medium Term Property Strategy (MTPS). This, at a high level, incorporates a detailed Asset Management Plan for every group of assets the Council has. This plan was agreed at Cabinet for the term 2018 to 2022.
- 1.13 For any organisation such as the Council, with a diverse property portfolio, best practice recommends that the Property Strategy describes the general direction that the organisation's property portfolio will take over the next 5-10 years, the approach to be adopted in getting there and the policies that will be applied to decision making. The Property Strategy presents such a vision and reflects the operational and business strategy of the organisation.

- 1.14 The MTP Strategy and its implementation will be key to the Council achieving both cost savings and a more efficient use of the corporate estate, which will contribute to the delivery of approved and proposed budget reductions. During 2018/19, the first year of the MTPS, a significant amount of benchmarking and work has taken place to develop relevant and robust financial indicators to ensure that the Strategy is fit for purpose and able to achieve its aims and objectives.

Commercial Property Investment Strategy and Fund

- 1.15 In December 2017, Cabinet approved the Commercial Property Investment Strategy and Fund (CPIS). This established a fund to facilitate development in a robust, property investment portfolio in order to generate a sustainable future income stream to support the Council's mainstream service delivery. With the revised Prudential Code guidance issued in 2017 and in the context of the Capital Strategy, the CPIS provides the necessary approval to use capital resources to invest in property assets to create a revenue return.

- 1.16 The Commercial Property Investment Strategy sets out the following:

- The Council's objective to acquire property assets for investment purposes thereby generating a sustainable future income stream to support the Council's mainstream service delivery.
- The role of property acquisition within that objective, recognising the possible risks together with Financial and Legal implications and clarifying the legal power used to operate the Strategy and ensures continued compliance.
- The acquisition process;
- The financial resources available to facilitate the acquisition strategy; and
- The future management of property held specifically for income generation purposes.

- 1.17 The Council is therefore seeking property investments that produce the highest returns possible, whilst carrying an acceptable level of risk. The main mitigation measures in managing risk is to target investments which are let to nationally recognised, well established and financial sound tenants and on relatively long leases, and having a diversified investment portfolio by sector and geography.

- 1.18 Although the detailed financing decision will be dealt with on a case by case basis, resources are available in the capital programme for property acquisitions. However, acquisitions will be financed from a combination of:

- a) Earmarked Reserve
- b) Unallocated capital resources
- c) Prudential Borrowing
- d) Capital Receipts from the disposal of investment properties managed through the CPIS

- 1.19 In addition, the 2019/20 to 2023/24 Capital Strategy is influenced by the principles which frame the overarching budget process for 2019/20 and are driven by the concept of a Co-operative Council. The Council is therefore aiming to take a strategic view in relation to capital investment so that it can be directed to make a real and demonstrable impact on the economy of Oldham by:

- a) Regenerating the borough, building on the established investment programme, by attracting and securing significant amounts of external investment to supplement Council resources and deliver an enhanced borough-wide regeneration offer.

- b) Prioritising the regeneration investment to develop the local economy and to support job creation and the Get Oldham Working initiative.
- c) Using the regeneration investment to drive up Gross Value Added (GVA) and increase the yield from business rates, taking advantage of the 100% Business Rates Retention Pilot scheme which commenced across Greater Manchester on 1 April 2017. This is providing additional resources in 2019/20 which are being used to support the Council's budget.

1.20 The Council will also:

- a) Work with partners as a co-operative and commissioning borough particularly with regard to the integration of health and social care to take advantage of joint investment opportunities, co-location and the release of surplus assets.
- b) Instigate further transformational approaches to the delivery of services with and by communities and staff, that maximise involvement and delivery at a more local level, working with residents to reset priorities, manage expectations and promote self-help.
- c) Get the basics right, drive improved business performance with more flexible ICT systems and instigate new delivery models with place-based working.
- d) Focus on effective service delivery, achieving social value and maximising the impact of the resources invested.

1.21 The corporate objectives therefore also help underpin one of the main priorities of the Council which is the continuing development of a new relationship with citizens, communities, partners and staff.

Working with Partners

1.22 The Council is a key member of and a driving force in the activities of the Oldham Strategic Estates Group (SEG). The Department of Health initially required all Clinical Commissioning Groups (CCG) to establish a SEG within their locality, and whilst the group initially had a 'Health' focus, this has been broadened to encompass a 'One Oldham Estate' approach, closely aligned to the Government's One Public Estate (OPE) principles which in essence seek to maximise the efficient use of the public sector estate by co-location/joint service delivery, releasing surplus land and property to support regeneration, residential development and inward investment. The Oldham SEG has a 'strategic' rather than 'operational' focus, and has developed a Strategic Estates Plan (SEP), identifying development of integrated public sector hubs and mapping existing estate and utilisation as key priorities. The SEP is closely aligned to and supports delivery of Oldham's Locality Plan for Health and Social Care.

1.23 The Strategic Estates Group (SEG) in Oldham is attended by a wide range of public sector partners, including the Clinical Commissioning Group (CCG), NHS Property Services Ltd (NHSPS), Greater Manchester Police (GMP), North West Ambulance Service (NWAS), North West Fire Service (NWFS), Community Health Partnerships (CHP), Action Oldham, and Pennine Care NHS Foundation Trust. Recognising the strategic focus of the group it has been supplemented in 2018/19 with the formation of the Operational Working Group. The group functions as the 'delivery arm' to ensure that the SEG remains strategic and One Public Estate focused. It reports to the SEG on key work areas, such as the project pipeline and increasing building utilisation.

2 The Principles of the Capital Strategy

2.1 Having regard to the aims of the Capital Strategy in the achievement of corporate objectives and in order to focus capital resources and to gain maximum benefit from their

use, the overarching principles of the Capital Strategy are summarised in paragraphs 2.2 to 2.17 and detailed in the rest of the document.

- 2.2 The Capital Investment Programme Board (CIPB) will lead the strategic direction of capital investment for the Council. The CIPB will operate on a commissioning basis. This will enable funding to be better aligned with other partners and funding sources and will link into the principles of the Co-operative Council. In accordance with the commissioning approach being championed within the Council, there continues to be a requirement for links to regional strategies and programmes. As such, the Council must ensure that, when it applies for funds on a regional basis (either individually or part of a collective bid), it uses its best endeavours to reflect local and regional priorities. The Council must therefore ensure that its Capital Strategy reflects the Greater Manchester (GM) Strategy and links into those strategies of other GM Authorities and partners.
- 2.3 All schemes already approved in the capital programme or contractually committed will be supported and sufficient resources will be provided to enable them to proceed or complete. These schemes are presented in Annex A, Current Capital Priorities.
- 2.4 A capital project sponsor must also be able to demonstrate that a rigorous process of options appraisal has been followed, requiring evidence of need, cost, risk, outcomes and methods of financing. Capital investment proposals which will result in a revenue cost saving or efficiency are encouraged. The Strategic Regeneration Project Management Office has a clear role in ensuring that all the key questions have been asked at the initiation stage of a project.
- 2.5 All capital investment decisions will be made with reference to Council objectives and regional strategies and, only after a positive contribution to one or more of the objectives has been demonstrated, is a project to be considered for resource allocation.
- 2.6 The CIPB will ensure that the Council can take full advantage of the freedom and flexibility afforded by the removal of ringfencing from most funding allocations to facilitate achievement of the Council's objectives. All un-ringfenced capital funding and other non-specific Council capital resources that are not required to support existing commitments will initially be pooled into one central fund. Regard will however be had to obligations around the:
- a) Transport agenda and transport grant funding.
 - b) Current pressure on primary and secondary school places in certain areas of Oldham and the lack of capacity in the current school stock and the Education Basic Need Government grant funding allocation to address such issues.
 - c) Funding of adaptations to homes for the disabled and Disabled Facilities Grant funding.
 - d) Social Care funding requirements arising from pooled budget arrangements.

Un-ringfenced grants received in support of the above initiatives will be passported in full to these four areas.

- 2.7 There will be no ringfencing of capital receipts to specific projects, with the exception of those detailed in section 10.3.14.
- 2.8 The capital strategy will support the implementation of the approved CPIS by the allocation of resources and facilitating the introduction of activities required to promote the objectives of the strategy which include providing a sustainable income stream to support the Council's revenue budget from the acquisition of property assets.

- 2.9 For the purposes of preparing the Capital Strategy and Capital Programme for 2019/20, an assumption has been made that all resources that remain unallocated within the 2018/19 programme will be treated as though they are fully-committed and carried forward into 2019/20 as a central pool for reallocation to other projects.
- 2.10 As well as using traditional funding mechanisms to finance capital schemes, the Council will also consider the use of new initiatives and develop these options if it is considered financially advantageous in the context of the Council achieving its capital investment objectives.
- 2.11 Any public/private partnerships and initiatives requiring the deployment of Council capital resources or impacting in any way on the overarching capital investment policies or plans of the Council should be presented for consideration to the CIPB. The resources deployed to support such projects will also be subject to on-going review by the CIPB.
- 2.12 The Council is conscious that the Government could in the future introduce a range of grant funding opportunities for which bids must be submitted at short notice, some of which may have a matched funding requirement. The Council will respond as it considers appropriate to bidding opportunities, ensuring that bids are submitted which align with its objectives and capital investment priorities and that matched funding requirements are considered on a scheme by scheme basis with resource requirements prioritised accordingly.
- 2.13 The development of new or replacement schools will be led by the Education and Skills funding Agency (ESFA) and such schools will be created as academies. Mindful of its overarching responsibility for the provision of education, where necessary, the Council will support increased ESFA projects using its land assets and/or financial resources.
- 2.14 Given the evolving devolution agenda and the expectation that the Council will work in a collaborative manner with the Greater Manchester Combined Authority (GMCA), AGMA and NHS partners, bids to the GMCA, the NHS or other organisations which may have a matched-funding requirement will be prioritised. Regard will be had during the appraisal process to ensure that the Council's objectives and capital investment priorities are achieved.
- 2.15 As the Council moves towards greater integration with Oldham CCG and other NHS partners, the Council will prioritise the allocation of capital resources to support cross sector projects including facilities for joint service provision and the co-location of teams, with any consequent asset rationalisation.
- 2.16 The Council will seek to make best use of opportunities offered by the Government from a range of policy announcements including the 2018 Autumn Budget. The Budget announced additional transport funding for major local routes and potholes and confirmed that the Housing Revenue Account (HRA) borrowing cap has been removed. Additional money will be allocated to the Housing Infrastructure Fund to try achieve the target of unlocking up to 650,000 new homes nationally.
- 2.17 The Council will have a number of capital investment priorities. Whilst these are initially set on an annual basis, it will review and update the priorities in accordance with in-year developments, responding to local and national emerging issues. The priorities for 2019/20 to 2023/24 are set out in Section 3.

3 Priority Areas for Investment

3.1 The priority investment areas identified for the 2019/20 to 2023/24 period are covered below. This section highlights potential priority investment areas for 2019/20 onwards. These will be taken forward subject to the availability of resources and the approval of a full business case.

3.2 There is a requirement for continued funding of existing programmes of work on:

- Corporate Major Repairs /Disability Discrimination Act (DDA) Adaptations/ Legionella / Health and Safety Projects (Corporate Landlord Function)
- School Condition Works
- ICT Strategy
- Social Care
- Environmental Services
- District Investment Fund

3.3 In addition to the projects specifically referred to above, the following is a list of further/new projects for which funding may be required:

- a) Social Care
- b) Better Care Fund (Disabled Facilities Grant)
- c) Upgrade to Crematorium Facilities
- d) Low Carbon and Energy Efficiency Initiatives
- e) School Investment/ Pupil Places Pressures
- f) Surplus Sites
- g) Working with NHS Partners
- h) AGMA investment Fund Loans
- i) Town Centre Regeneration
- j) Borough-Wide Regeneration
- k) Car Parking
- l) Housing Initiatives
- m) GM Devolution and Related Initiatives
- n) Matched Funding For Grant Bids
- o) Northern Roots
- p) Royton Town Centre Development
- q) Transport Capital Programme
- r) Fleet Management

The Strategy does however include a longer term vision, a forward look at those projects that are likely to run beyond the five year strategy and programme period or be initiated subsequently. This covers a timeframe for the 10 years from 2024/25 to 2033/34.

3.4 Further details of the capital priorities can be found in Annex A of this Capital Strategy.

4 Supporting Greater Manchester Devolution

4.1 Devolution continues to transfer more powers and responsibilities from Central Government to Greater Manchester. Greater Manchester's local Councils have a history of working together. This record of co-operation, and the creation of the GMCA, helped Greater Manchester lead the way on city-region devolution through the original 2014 Devolution Agreement.

4.2 The agreement gives the region additional powers, and greater accountability through an elected Mayor. In May 2017 Andy Burnham was elected Mayor of Greater Manchester and he chairs a review of the Greater Manchester Strategy. Of the transferred powers,

the most significant in relation to the Council's capital strategy have regard to Housing and Infrastructure.

4.3 Housing is a major policy initiative at both a regional and local level over the next five years. Oldham has a strong pipeline of housing projects and work has been taking place with First Choice Homes Oldham (FCHO) on a number of future funding opportunities that may come available.

4.4 The Council will continue to align the use of its capital resources to support GM initiatives and work with partners accordingly.

5 Affordability, Delivery and Risk Associated with the Capital Strategy

5.1 In compliance with the requirements of the Prudential and Treasury Code, the following sections look at the Council's capital financing and treasury management activity and its contribution to the provision of services along with an overview of how associated risk is managed and the implications for future sustainability looking at Prudence, Affordability and Sustainability.

5.2 The table below shows the Council's current borrowing position and its borrowing need including the Council's Capital Financing Requirement (CFR). The CFR represents total historic outstanding capital expenditure which has not yet been financed from either revenue or capital resources (£522.485m for 2019/20). It is essentially a measure of the Council's underlying borrowing need. Any capital expenditure, which is not immediately financed from cash backed resources, will increase the CFR.

5.3 The Council has a number of on-going Private Finance Initiative arrangements for the delivery of assets and services, presented at Other Long Term Liabilities (OLTL*) in the table below (£246.143m at the start of 2019/20) which has the effect of inflating the CFR. As can be seen, the Council's actual level of borrowing at the start of 2019/20 is expected to be £147.849m

	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000	2022/23 Estimate £'000	2023/24 Estimate £'000
External Debt					
Debt at 1st April	147,849	167,849	200,349	258,849	258,849
Expected change in debt	20,000	32,500	58,500	0	0
Other long-term liabilities	246,143	235,395	224,125	213,263	204,350
Expected change in OLTL*	(10,747)	(11,270)	(10,862)	(8,912)	(10,672)
Actual gross debt at 31 March	403,245	424,474	472,112	463,199	452,528
The Capital Financing Requirement	522,485	544,822	572,302	553,418	528,861
Under / (over) borrowing	119,240	120,348	100,190	90,219	76,333

5.4 The CFR does not increase indefinitely, as the Council makes 'prudent' provision for debt repayment which broadly reduces indebtedness in line with each asset's life and so charges the economic consumption of capital assets as they are used. The approach to making prudent provision is known as the Minimum Revenue Provision (MRP), in other words, making a direct charge to the Council's revenue budget to reflect the cost of repaying the borrowing. The Council's MRP Policy Statement is set out in the Treasury Management Strategy 2019/20.

- 5.5 It is important to note that the Council has for a number of years been projecting a borrowing requirement but has not needed to undertake any borrowing as there has been reprofiling of the capital programme and cash balances available, thus resulting in the under borrowed position. This under borrowing is expected to prevail in 2019/20 (£119.1m) and continue beyond 2023/24.

The Affordability, Delivery and the Risks associated with the Strategy

- 5.6 The Prudential Code states that it is the responsibility of the Councils Chief Finance Officer (Director of Finance) to explicitly report on the affordability, delivery and the risks associated with this Strategy. These key elements are set out in the following paragraphs.

Affordability

- 5.7 Affordability is a key criterion when considering whether a project should be approved for inclusion within the Capital Programme. Before any decisions are made new schemes are underpinned by a business case identifying the expenditure and funding, appraisal of alternative options and the risks and rewards for the approval of the scheme. The Business Case preparation and consideration process is set out fully in Section 11 of this strategy.
- 5.8 All projects must also have a clearly identified capital funding source with a definite commitment of financial support if external funding, such as an external grant, is to be used. Also there must an identified source of funding to support any on-going revenue costs associated with the use of a capital asset.
- 5.9 Where borrowing is to be used, the affordability test is the ability to fund interest costs linked to the borrowing together with the repayment of the borrowing (the MRP charge). This repayment is matched to a prudent asset life and any income streams estimated to fund this asset must be sustainable. The Prudential Code sets out the requirements for the appropriate governance of such borrowing and the Council's processes comply with the requirements of the Code.

Delivery

- 5.10 The delivery of the individual schemes within the Capital programme is directly linked to the process of approving the capital scheme. Each scheme has a project sponsor and a project manager responsible the delivery and the subsequent achievement of the scheme objectives.
- 5.11 Project updates are provided at the monthly meetings of CIPB as well as an overarching update on the Capital Programme. This facilitates the review and challenge to the delivery of projects and any changes to both the timing and value of the programme. In addition an Annual Review of the capital programme is completed each year in accordance with the terms of reference of CIPB. The Annual Review process ensures that all schemes are examined to determine whether they still meet corporate priorities. The review also considers the deliverability and progress of schemes including any reasons for delayed starts or variations to approved budgetary allocations. It also considers rephasing of planned expenditure and identifies any unutilised or underutilised resources which can be reallocated to other projects.
- 5.12 The Council's senior officers also have the opportunity to review and challenge project and programme delivery via monthly updates on the changes/re-profiling of expenditure.

Risks

- 5.13 The Council is exposed to a range of risks with regard to the continued affordability and delivery of it's the Capital Programme and CPIS as follows:
- Financial risks related to the investment of the Council's assets, cash flow and market volatility.
 - Macroeconomic risks related to the growth or decline of the local economy, interest rates, inflation and the wider national and global economy.
 - Credit and counterparty risks related to investments, loans to public and private institutions.
 - Operational risks related to operational exposures within its organisation, its counterparties, partners and commercial interests.
 - Strategic risks related to key initiatives undertaken by the Council such as areas of organisational change deemed necessary to enable the Council to meet its goals and objectives, significant capital schemes and major purchases and new ventures.
 - Reputational risks related to the Council's dealings and interests, and the impact of adverse outcomes on the Council's reputation and public perception.
 - Environmental and social risks related to the environmental and social impact of the Council's strategy and interests.
 - Governance risks related to ensuring that prudence and careful consideration are prominent in the Council's decision-making, augmented by quality independent advice and appropriate checks to ensure that the Council has the correct level of oversight, scrutiny and efficiency.
- 5.14 Managing the Council's risks is an area of significant focus for senior management and Members, and the Council adopts an integrated view to the management and qualitative assessment of risk. The Council aims to minimise its exposure to unwanted risks through a range of mitigation strategies that are considered with each individual business case or capital project.
- 5.15 However, it is important to recognise that there are significant risks associated with a large Capital Programme and associated borrowing, but these can be mitigated and indeed are mitigated as business as usual. As advised above the robust capital business plan process, together with adequate project management arrangements and/or project boards are in place and projects are delivered by suitably skilled staff. Appropriate consideration is given to tax planning, cash flow and the operational planning for the use of any asset. Governance is addressed by the establishment of officer/Member working groups with regular and transparent reporting. Due diligence is undertaken on loans and purchases and external advice is sought where necessary.
- 5.16 There are clear links from the Capital Strategy to the Treasury Management Strategy, prudential indicators, authorised borrowing limits and the revenue budget. These are also subject to review and oversight by Members at CIPB, Audit Committee, Cabinet and Council.
- 5.17 Members recognise that risk increases with any new borrowing, and are mindful of this when considering funding arrangements. New borrowing will increase the Council's annual level of fixed interest and repayment costs which are already currently forecast to increase in the coming years and could exceed a borrowing liability of £451.528m from 2023/24.

5.18 Investment properties carry a different type and level of risk relating to variations in income streams (tenant non-renewal etc.) and from asset values (impact economic conditions and retail trends etc.). The Council has established a clear strategy, criteria and a governance process around such investment purchases (as is demonstrated in the CPIS) to minimise the risk. This includes detailed due diligence, second opinion on asset values, site visits, surveys etc.

Concept of Proportionality

5.19 The Council has approval via the CPIS to invest in acquiring property assets for Investment purposes to generate sustainable future income stream to support the Council's mainstream service delivery. At this current time the Council has not made any purchases.

5.20 However, by having a policy to increase its commercial activities, including potentially funding activities by borrowing, the Ministry of Housing, Communities and Local Government (MHCLG) now requires that regard is had to the "concept of proportionality" and the resulting "level of debt and aggregate risk being proportionate to the size of the authority".

5.21 Although the Council has not to date entered into any commercial activity purely for the purpose of income generation, if it had to demonstrate the concept of proportionality it would use the following indicators:

- Contribution Investment Properties make to core functions – these would include net estimated surplus for the year compared to the Net Revenue Budget for purchases only and the estimated rental income of purchases compared to the Net Revenue Budget
- Total Borrowing related to Investment properties – The % of borrowing related to investment purchases as a % of the total borrowing

6 Knowledge and Skills

6.1 The Capital and Treasury Finance Team has responsibility for preparing and on-going management of the capital and treasury management strategies and capital programme. The team is staffed by professionally qualified accountants with extensive Local Government finance experience. Team members attend all relevant training courses, workshops and events to ensure that their knowledge and skills are up to date and the Council is in a position to address all new technical developments. They all follow a Continuous Professional Development Plan (CPD) as part their individual accounting accreditation. The overall responsibility for capital and treasury activities lies with the Council's Section 151 officer who, in accordance with statute, is professionally qualified and is suitably experienced to hold the post.

6.2 The Council provides training to Members on an annual basis, which is delivered by Council officers and external advisors. This ensures Members have a full understanding of key issues and have the appropriate knowledge and skills to make capital and treasury decisions. Members are updated on developments and any issues of significance throughout the year with information presented to the Audit Committee (responsible for Treasury Management), CIPB (responsible for the Capital Programme) and at Cabinet Member briefings.

6.3 The Council uses Link Asset Services, Treasury Solutions as its external Treasury Management advisors. The Council recognises that it is essential to engage with external providers of Treasury Management services in order to acquire access to specialist skills and resources.

- 6.4 When looking at commercial activity transactions either expenditure included in the capital programme or treasury management investments, officers from relevant professional disciplines from across the Council are involved in conducting due diligence exercises. Alongside the internal teams the Council also uses external advisors to complete the due diligence process. As previously mentioned the Council has not yet undertaken and significant investment in property assets or entered into any commercial investment transactions, solely for the aim of income generation.
- 6.5 As approved in the Council's CPIS all purchase of Investment Property will be considered by Property Appraisal Group comprised of both Members and Officers. In order to act within the timescales required when undertaking commercial negotiations, the group has delegated powers to approve any acquisitions and instruct and appoint appropriate advisors and to close deals. However, there is a clear framework within which the group operates having regard to legislation, the Council's Constitution, policies and procedures and professional body regulations.

7 Treasury Management

- 7.1 The Council produces a Treasury Management Strategy which is approved by full Council annually as part of the Budget Setting process.
- 7.2 The Capital Strategy and Treasury Management strategy are closely linked as the capital programme determines the borrowing need of the Council, essentially the long term cash flow planning and ensures that the Council can meet its capital spending obligations. The capital strategy is integral to treasury management activities throughout the year in the management of long term cash that may involve arranging long or short term loans or investing longer term cash flow surpluses. A treasury action is to look for opportunities to restructure any existing borrowing in support of the Council's budget process.
- 7.3 At the end of the five year Capital Strategy period the Council's forecast debt will be £452.528m. Included within the Council's CFR under long term liabilities are items such as Private Finance Initiative (PFI) and leasing arrangements. The Council currently has £246.143m of such liabilities in for 2019/20 which will reduce to £204.350m by the end of the capital strategy period. The Council's Operational Boundary for 2019/20 is forecast to be £525.000m. The Council's Authorised Borrowing limit will be £545.000m for 2019/20.
- 7.4 The Council is required to set aside 'prudent' provision for debt repayment where borrowing or credit arrangements have been used to finance capital expenditure. This is known as Minimum Revenue Provision (MRP). Over the Capital strategy period the Council has a MRP provision of £66.428m.
- 7.5 The Audit Committee is responsible for scrutiny and governance of Treasury Management within the Council. It reviews the Treasury Management policy and procedures and all Treasury Management reports. However the Overview and Scrutiny Performance and Value for Money Select Committee scrutinises the Treasury Management Strategy alongside the full suite of budget prior to their presentation to Cabinet and Council for final approval. As both the Treasury and Capital Strategies are reviewed together, it allows for a joined up scrutiny process.
- 7.6 Throughout the year the Audit Committee receives regular updates on performance and emerging issues and the Mid-Year Review report which is also reported to full Council. It is also important to note that the Treasury Management function is subject to regular Internal and External Audit reviews.

7.7 Further detail can be found in the Treasury Management Strategy 2019/20.

8 Long Term Loans

8.1 The Council has the ability, should it choose to exercise its powers, to enter into loan arrangements to support delivery of strategic corporate priorities.

8.2 The Council has chosen to make limited use of its ability to enter into loan arrangements, but in such instances, all loans have been and will be approved in line with the Council's Constitution under the Financial Procedures Rules which ensures that they are prudent and secured by:

- A full independent due diligence process
- Ensuring adequate security for the loan is in place
- Continuous monitoring of the loans and undertaking review meetings
- Ensuring the financial exposure of the Council's is proportionate to its size.

8.3 The Council may choose to provide assistance to organisations where they have experienced difficulty in securing funds from other sources at affordable interest rates. In order to deliver corporate priorities loans to third parties may be offered at an interest rate below the market rate. Where the loan is advanced at less than a market interest rate there is an associated loss of investment return which would otherwise have been earned on these funds. The cost to the Council in this respect would be reflected in the Council's accounts. Any loans to third parties are recognised as investments and detailed within the Annual Investment Report in the Treasury Management Strategy.

9 Commercial Activity

9.1 As previously mentioned the CPIS gives the Council approval to invest in property solely to generate additional income to support the Council's mainstream service delivery. The Council will continue to look for appropriate property investments and, where if required, continue to complete substantial due diligence on all possible investments.

9.2 The Council also has investments in the Charities, Churches and Local Authorities (CCLA) property fund. As advised within the Treasury Management Strategy due to the anticipated fluctuations in price this is an investment with a minimum time horizon of 5 years. The Council currently holds £15m in the property fund and the investment generates a return of approximately 4.5% per annum.

9.3 Following the Brexit decision, in the initial months property funds saw a small decline in the value due mainly to valuer caution rather than any significant increase in pressure to sell properties. In contrast, occupier trends continued to strengthen and the dividends remained constant at approximately 4.5%. This initial decline in value has started to unwind and prices are now at the same levels prior to Brexit.

9.4 Any CCLA or such commercial investments that the Council investigates will only be undertaken after an appropriate due diligence exercise and having regard to the Treasury Management principles of security, liquidity, yield and ethical investments.

9.5 In order to support investment and commercial decisions the Council also relies upon the principles established in the Income Strategy approved at Cabinet September 2017. This sets out the framework for and the objective of the maximisation of new and existing income streams to support service provision.

10 Capital Resources to Support Capital Expenditure

10.1 The Utilisation of Capital Resources

10.1.1 The Council's strategy for deploying resources is to ensure that all resources are utilised to achieve Council objectives. With the Government placing a greater emphasis on regional initiatives, the Council's Capital Strategy and capital planning arrangements need to be consistent with, and linked to, the Greater Manchester Strategy but also enhance the Council's own co-operative ethos and other corporate initiatives such as Get Oldham Working, with some devolving of resources and decision-making to Districts and Neighbourhoods. As such, the aspirations of District Partnerships need to be considered and they will be consulted, as appropriate, over possible bids for any available funding. The District Investment Fund included in the capital programme is currently £1.300m in the financial years 2019/20 to 2023/24 with the major spend expected in the later years of the programme.

10.1.2 As most capital financing can be used for projects at the Council's discretion, the Council is able to address its own priorities and shape the capital programme to a locally, rather than a nationally, driven agenda.

10.2 Creation of a Central Pool of Capital Resources

10.2.1 The Council will ensure that it takes full advantage of the freedom and flexibility arising from the removal of ringfencing of most resources to facilitate the achievement of Council objectives. All un-ringfenced capital funding and other non-specific Council capital resources, that are not required to finance existing commitments, will be pooled into one central fund. This corporate resource will then be managed so that only schemes which can demonstrate the attainment of Council capital priorities will be allocated funds. The Capital Investment Programme Board (CIPB) will review all bids for resources, evaluate them and then make recommendations to:

- a) Cabinet/Council on the prioritisation of resources for the initial 2019/20 to 2023/24 capital programme
- b) The appropriate decision-maker for any subsequent revisions to the capital programme

10.2.2 The Cabinet/Council will make the final decision on the overarching capital programme for 2019/20 to 2023/24 and will subsequently delegate (subject to the provisions in the Council's Constitution) the updating of the programme and revisions to projects following review and recommendations by the CIPB.

10.2.3 The CIPB will review the usage of any ringfenced resources to ensure alignment with other spending plans and the maximisation of benefits to the Council.

10.2.4 In determining the size of the central fund, the CIPB will have regard to the following:

- a) The statutory fourth Greater Manchester Local Transport Plan (GMLTP4) is a long-term transport strategy for Greater Manchester to 2040 with a five year delivery plan.
- b) The current pressure on primary and secondary places in certain areas of Oldham and the lack of capacity in the current stock.

- c) The Disabled Facilities Grant (DFG) is to meet the Council's obligation to finance adaptations to the homes of disabled residents and its commitments to wider social care. The Council receive the DFG funding via the Better Care Fund (BCF).
- d) Any resources allocated by Central Government after approval of the Council's 2019/20 – 2023/24 Capital Strategy/Capital Programme.

The Council will therefore passport all of the un-ringfenced resources for transport, schools, via the Education Basic Need grant and Disabled Facilities Grant to support spending in the respective areas.

- 10.2.5 Grant funding allocations notified to the Council also include information about capital maintenance funding for Voluntary Aided (VA) schools. This grant is paid directly to the Church of England and Roman Catholic Diocesan authorities and is not therefore included within the Council's capital programme. Expenditure undertaken by the Council on VA schools is planned with regard to the availability of contributions from these grant and diocesan resources.

10.3 Methods of funding capital expenditure

- 10.3.1 There are a range of methods of funding capital expenditure as follows.

a) Government Grants and Non-Government Contributions

- 10.3.2 Capital resources from Central Government can be split into two categories:

- i) Un-ringfenced – resources which are delivered through grant that can be utilised on any project (albeit that there may be an expectation of use for a specific purpose). This now encompasses the vast majority of Government funding
- ii) Ring-fenced – resources which are ringfenced to particular areas and therefore have restricted uses.

- 10.3.3 Where there is a requirement to make an application to an external agency for external funding and, when appropriate, to commit Council resources as matched funding to any bid for external resources, a business case (following the three stage process described at Section 11) must be presented to the CIPB for approval. This must justify the bid for external resources and any Council matched funding prior to submission of the bid.

b) Prudential Borrowing

- 10.3.4 The Council will investigate opportunities to resource capital projects using prudential borrowing where plans are sustainable, affordable and prudent. Full appraisal will take place to ensure that, where appropriate, sufficient revenue returns are generated to cover the cost of borrowing and this will be especially important when undertaking property acquisition under the Commercial Property Investment Strategy (CPIS) where, in addition, a revenue income stream is required to support the revenue budget.
- 10.3.5 Where it is considered that Prudential Borrowing is the appropriate method of funding, but it requires additional revenue financing, the cost will be reflected in the revenue budget planning process.
- 10.3.6 Since 2012 the Council has been able to take advantage of the Public Works Loans Board (PWL) certainty rate, whereby there is a 20 basis points discount on standard loans from the PWLB under the prudential borrowing regime for Authorities that provide improved information on their long term borrowing and associated capital spending

plans. The obvious benefit to the Council of the certainty rate is reflected in reduced Treasury Management borrowing costs in relation to any PWLB borrowing undertaken. It has been confirmed that the Council has qualified for the certainty rate for the period 1 November 2018 to 31 October 2019.

- 10.3.7 In the Autumn Budget 2017 the Government confirmed that it will lend Local Authorities in England up to £1 billion at a new discounted interest rate of gilts + 60 basis points to help incentivise local authorities to construct infrastructure that otherwise would not be considered to be affordable. There has already been one bidding round with a provisional allocation of £500m. The second bidding round will commence from 1 January 2019 – 31 March 2019, there may be an opportunity for the Council to bid in this round. There is a maximum of £100 million of Local Infrastructure Rate borrowing per any one applicant.

c) Capital Receipts

- 10.3.8 Section 9 (1) of the Local Government Act 2003 defines a capital receipt as “a sum received by the authority in respect of the disposal by it of an interest in a capital asset”.

- 10.3.9 Section 9 (2) of the Act defines a capital asset as “an asset is a capital asset if, at the time of the disposal, expenditure on the acquisition of the asset would be capital expenditure”.

- 10.3.10 Capital receipts are usually restricted to use for:

- i) Financing new capital investment.
- ii) Reducing borrowing under the Prudential Framework.
- iii) Paying a premium charged in relation to any amounts borrowed.
- iv) Meeting any liability in respect of credit arrangements.
- v) Meeting disposal costs (not exceeding 4% of the receipt).

- 10.3.11 In general, capital receipts arising from the disposal of housing assets and for which account is made in the Housing Revenue Account (HRA), are governed by the Local Authorities (Capital Finance and Accounting) (England) Regulations 2003. In summary the regulations require that receipts arising from:

- i) Right to Buy (and similar) sales may be retained to cover the cost of transacting the sales and to cover the debt on the properties sold, but a proportion of the remainder must be surrendered to Central Government;
- ii) All other disposals may be retained in full provided they are spent on affordable housing, regeneration or the paying of housing debt.

Such receipts have reduced substantially since the transfer of the housing stock to First Choice Homes Oldham (FCHO).

- iii) Value Added Tax (VAT) Shelter

- 10.3.12 As part of the Housing Stock transfer that took place in February 2011 a Value Added Tax (VAT) shelter agreement was entered into with FCHO. This allows FCHO to obtain the same VAT exemption on its capital works as the Council. The shelter only applies for first-time improvements and is expected to run to 2024/25. FCHO retained all the benefits in the first four years and the savings thereafter are split 50:50 with the Council, although the first £6.000m may be top-sliced to deal with outstanding FCHO asbestos liabilities.

10.3.13 FCHO has provided indicative notification of the release of resources from the VAT shelter for 2019/20 and this is being used to support the capital receipt requirement underpinning the capital programme.

Ringfencing of Capital Receipts

10.3.14 Where the sale of an asset leads to the requirement to repay grant, the capital receipt will be utilised for this purpose. Once this liability has been established and provided for, capital receipts will be available to support the capital programme as a corporate resource.

The only areas where the Council ringfences capital receipts is in respect of:

- i) The Equity Home Loan Initiative
- ii) Saddleworth School as part of the Priority Schools Build Programme
- iii) Recycling of capital receipts to support the sustainability of the Commercial Property Investment Strategy and Fund.
- iv) The Flexible Use of Capital Receipts Strategy – in 2019/20 the first £3m of unfettered receipts will be used to support the revenue budget via the financing of transformational projects.

Flexible Use of Capital Receipts

10.3.15 As part of the Local Government Finance Settlement (LGFS) in March 2016, the Secretary of State for Housing, Communities and Local Government provided Local Authorities with the opportunity to use capital receipts to fund the revenue costs of transformation. This flexibility was then extended to 2021/22 as part of the 2018/19 LGFS. The Council intends to use up to £3m of capital receipts to fund elements of Oldham's transformational agenda in line with the Directive guidance and therefore in 2019/20 the first £3m of unfettered receipts will be used to support the revenue budget via the financing of transformational projects.

10.3.16 The flexible use of capital receipts is designed to offset the revenue cost of transformational projects which are expected to deliver future ongoing revenue savings for either the Council or other public sector delivery partners.

10.3.17 In order to take advantage of the change of use to capital receipts, the Council must act in accordance with the statutory guidance issued by the Secretary of State. This guidance requires the Council to prepare, publish and maintain a Flexible Use of Capital Receipts Strategy. The Council's Flexible Use of Capital Receipts Strategy is included in Annex D.

Availability of Capital Receipts

10.3.18 In considering the 2019/20 capital programme, and given the position with regard to capital receipts, a prudent approach has been taken and with capital receipts assumed in accordance with an anticipated timeline for asset disposal. However as advised above, the Council anticipates using up to £3m under the Flexible Use of Receipts of Capital Receipts Strategy in 2019/20 to support transformational projects.

10.3.19 The level of receipts upon which the programme relies to fund existing and new commitments has in the past been affected by the property market which has impacted on the:

- i) Ability of the Council to sell assets within the timescale anticipated.
- ii) Level of receipt actually generated, which has sometimes been less than originally expected. However, recent years has seen some improvement with receipts matching or exceeding expectation.

10.3.20 The Council's objective to rationalise the corporate estate, the marketing of increasing numbers of surplus assets has the potential to affect both (i) and (ii) above. This is being carefully managed to ensure that the Council receives the best sales price possible. The Council has specific staffing resources to manage the phased disposal of former schools sites, residual Housing Market Renewal sites and other strategic regeneration sites.

10.3.21 The availability of sites for sale could potentially be reduced if there is earmarking of key plots for inclusion in any future Joint Venture opportunity for or any regeneration project throughout the Borough. Again, this position will be carefully managed in the context of the overall financial position of the Council.

10.3.22 Monitoring of capital receipts is undertaken through an officer sub-group that reports to the CIPB and the Corporate Property Board (CPB); follow-up actions are initiated to address any comments raised. The capital monitoring report presented to Cabinet at months 3, 6, 8 and 9 also advises Members of receipts compared to target.

d) Revenue Contributions

10.3.23 A service or school may wish to offer some of its revenue budget or reserves to support the financing of a capital project. This is acceptable if it can be demonstrated that this funding is unfettered.

e) Use of Leasing

10.3.24 Some of the assets used by the Council are financed by a lease arrangement, for example vehicles. With the advent of Prudential Borrowing leasing has become less attractive. Indeed, the replacement fleet management policy demonstrates this development. There may however be instances where leasing could offer value for money and it will remain a consideration when options are being appraised.

f) Section 106 Agreements

10.3.25 In considering an application for planning permission, the Council may seek to secure benefits to an area or restrict uses or activities related to a proposed development through the negotiation of a 'planning obligation' with the developer. Such obligations, authorised by Section 106 of the Town and Country Planning Act 1990, generally either improve the quality of the development, or overcome difficulties which would otherwise result in planning permission being refused. A planning obligation must be:

- i) Necessary to make the development acceptable in planning terms;
- ii) Directly related to the development; and
- iii) Fairly and reasonably related in scale and kind to the development.

As such, therefore, the Council may in some instances receive funds to enable it to undertake works arising from these planning obligations. Examples of the use of planning obligations are the:

- i) Provision of affordable housing.
- ii) Improvement to community facilities - Public open space/play areas, educational facilities.
- iii) Improved transport facilities - contributions have previously been used towards Oldham bus station, park and ride and provision of cycle lanes.
- iv) Public art.
- v) Renewable energy measures.
- vi) Specific measures to mitigate impact on a local area - parking restrictions, landscaping or noise insulation.

The use of any Capital Section 106 funding will be presented to the CIPB for review.

g) Community Infrastructure Levy

10.3.26 The Community Infrastructure Levy (CIL) is a planning charge based on legislation that came into force on 6 April 2010. When adopted, a CIL levy allows the Council to raise contributions from new development to help pay for infrastructure that is needed to support planned growth. CIL contributions can be used to supplement other funding streams and can wholly or partly fund a variety of strategic infrastructure projects ranging from transport, green infrastructure, flood defences, education and health, subject to pooling restrictions.

10.3.27 The Council commissioned a Viability Study that informed a Preliminary Draft Charging Schedule (PDCS) that set out proposed CIL charges per square metre on new floor space for different types and locations of development in Oldham.

10.3.28 The PDCS and the Economic Viability Study were issued for public consultation in February 2015. Following this consultation, and as a result of internal discussion, the Council commissioned consultants to prepare an Addendum Report to review consultation responses, review the evidence feeding into the Viability Study and update the proposed CIL Charging Schedule based on the renewed evidence.

10.3.29 The CIL Addendum Report was completed in September 2015 and the Council considered the impact of the proposed CIL charges on key future development in the borough. However, no firm decision was reached on whether to adopt CIL and its implementation was overtaken by the need to progress the Greater Manchester Spatial Framework (GMSF) and Council's Local Plan. There are no plans to progress the CIL at this time but this position will be reviewed as work progresses on the GMSF and Local Plan throughout 2019.

h) Private Finance Initiative (PFI)

10.3.30 This is a means by which the Council can facilitate major new infrastructure projects. Typically the schemes involve partnerships between the public and private sector to fund public sector infrastructure projects with private capital. Oldham has considerable experience of PFI with two schools projects, two housing projects, the Library and Lifelong Learning Centre and the street lighting initiative.

10.3.31 As part of the Autumn Budget 2018 the Government announced that there will no longer be the use of PFI for major investments and a new centre of excellence will be established to manage existing deals "in the taxpayer's interest". The Government emphasised its commitment to maintaining current commitments on PFI contracts. As a result no new PFI projects or similar initiatives are anticipated within the strategy period.

Any such proposals would be presented to the CIPB for evaluation before presentation for Members' approval.

i) Local Capital Finance Company (formerly UK Municipal Bonds Agency Plc)

10.3.32 The Local Government Association (LGA) has now set up the Local Capital Finance Company (formerly known as the UK Municipal Bonds Agency) the aim of which is to seek to provide Councils with a cheaper source of long term borrowing and to introduce sector owned diversity into the Local Government lending market. The Council has invested a total sum of £0.100m in the equity of the Company. The Council will keep under review the availability and cost of funds from the Company as an alternative source of finance with a view to borrowing at an appropriate time if terms are preferential.

11. Capital Investment and Disposal Appraisal

11.1 Capital Investment

11.1.1 All capital investment will be commissioned on the recommendation of the Capital Investment Programme Board (CIPB) which will enable any expenditure and its funding to be better aligned with corporate priorities, partners and funding sources. Partners, from both the public and private sector will be at regional and local levels as well as at a district level.

11.1.2 Within the Council, a concept for a potential capital project should originate from, or at least be 'owned' by Senior Management Teams (SMTs) or Directorate Management Teams (DMTs). The SMT or DMT that 'owns' the concept should prepare, or direct the preparation of a Strategic Business Case (SBC) for the proposed project. The Strategic Business Case should be submitted to CIPB for consideration, with the exception of Strategic Regeneration projects where the Project Management Board (PMB) first reviews the SBC.

11.1.3 If the CIPB (or the PMB in the case of Strategic Regeneration Projects) is satisfied that the proposal meets investment criteria, it will be given approval to progress to Stage 2 of the process – the completion of an Outline Business Case (OBC). The OBC builds on the SBC providing more detailed information including the benefits that could be realised and may include a number of options to deliver the proposed benefits. The OBC will be submitted to the CIPB for consideration, and if it is satisfied with the proposal will give guidance for the development of a preferred option.

11.1.4 Stage 3 of the process entails the completion of a Final Business Case (FBC) which will then be submitted to the CIPB for final consideration. Again, building on the OBC, the FBC will contain evidence of a:

- a. Detailed financial analysis of all costs/income including how the project is financially sustainable and that any adverse revenue implications can be dealt with within existing budgets.
- b. Robust delivery plan including how the chosen option delivers the highest impact in achieving the required outcomes with identified key project milestones enabling progress review.
- c. Risk assessment and that appropriate actions to negate these risks have been identified.
- d. Full exit strategy where the project involves a disposal.
- e. Method of procurement that represents value for money.

- 11.1.5 By adopting the process outlined above, CIPB exercises control over capital projects through the recommendation of approval of:
- a. Strategic Business Cases (SBC) outlining the initial idea or 'concept' for a project.
 - b. Outline Business Cases (OBC) which will focus on links to the Corporate Plan and outcomes.
 - c. Full Business Cases (FBC) – the final investment decision. This will focus on the how the priorities set out in the OBC will be delivered, including:
 - i) Project description
 - ii) Consultation
 - iii) Expenditure and funding including whole life costs and revenue implications
 - iv) Outputs
 - v) Option Appraisal
 - vi) Value for Money
 - vii) Delivery
 - viii) Risk Management
 - ix) Sustainability, Forward strategy and evaluation
 - x) Asset Management
 - xi) Procurement
 - xii) Equality Impact Assessment
 - xiii) Environmental Impact Assessment
 - xiv) Contribution to the achievement of corporate initiatives including Get Oldham Working
- 11.1.6 Depending on the circumstances of the bid for resources, the CIPB has the discretion to vary the three stage review process and omit one or more of the stages.

Gateway Review System

- 11.1.7 The Council has adopted a gateway review system for all projects within the capital programme to promote the following principles:
- a. Carrying out structured reviews at decision checkpoints, defined by boundaries between management stages, to test the project's management and its readiness to progress to the next stage.
 - b. Promoting project assurance through the application of a structured project management system.
 - c. Informing the governance process.
- 11.1.8 The Gateway Review structure is designed to be efficient by only requiring detail when it is needed to get to the next stage. It also tries to minimise additional work for team members by using templates that build on each other, reducing the need for reworking.
- 11.1.9 Gateway Reviews are undertaken by the Strategic Regeneration Project Management Office which has been specifically set up to ensure there is a robust review process in place to support the delivery of capital schemes and therefore to support the work of the CIPB.
- 11.1.10 There are four Gateway Reviews which are initiated at key milestones in the delivery of a programme, Gateways 1 to 3 are undertaken in the approval process for the Strategic, Outline and Final business cases respectively, Gateway 4 is undertaken in support of the delivery and handover phase. It is important to note that the Gateway report is used

to advise and inform those responsible for making the investment decision, the decision will not be made by the Gateway Review team.

11.2 Service Challenge & Review, Efficient Use of Assets

- 11.2.1 In light of unprecedented financial challenges in recent years, the Council embarked on an ambitious programme of transformation utilising the corporate estate as a key driver for change.
- 11.2.2 A strategic review of the Council's operational land and property portfolio was approached within a tri-track framework;
- a. The core office estate
 - b. The operational asset base used for district based service delivery
 - c. Land
- 11.2.3 The Smarter Workplaces programme radically reviewed the Council's wider 'office portfolio', and realised significant efficiency savings by vacating a number of properties, and consolidating provision of back office functions within three key buildings. Significant capital receipts were also realised by asset disposal.
- 11.2.4 Opportunities have recently been identified to further streamline the Council's core office accommodation, working collaboratively with other public sector partners, to exploit collective town centre property ownerships to maximise benefits from regeneration, inward investment and improve efficiency in operating costs. Options are currently being explored and external funding being sought via the Government's One Public Estate (OPE) Programme to support feasibility work. This links into the work undertaken by the Strategic Estates Group (SEG).
- 11.2.5 With regard to the review of operational district assets, the Property Team and services continue to work closely alongside wider public and third sector partners to ensure that portfolios are best fit for purpose and efficient usage is maximised. Work with NHS partners is being accelerated to support the integrated working agenda.
- 11.2.6 Disposal of land and property assets is being progressed with alignment to corporate objectives and incorporated into the asset rationalisation programme.
- 11.2.7 The planned review of the Council's existing investment portfolio will be accelerated as part of proposals to further streamline the Council's Asset Estate, in line with required capital receipts target and proposed revenue savings.
- 11.2.8 Governance of the Council's land and property portfolio is provided via the Land and Property Protocols which form part of the Council's Constitution, providing a strategic governance framework within which land and property transactions are undertaken and the corporate portfolio is managed in a consistent, transparent and appropriate manner. The Protocols are regularly updated to reflect Statutory, Administrative and Organisational changes.
- 11.2.9 The Corporate Property Board oversees acquisition and disposal of land and property assets and monitors the progress of the asset rationalisation programme and performance of the investment portfolio.

12 How the Capital Requirements Will Be Prioritised

- 12.1 Once a bid for capital expenditure has passed through the Gateway process and has demonstrated that it meets Council Objectives and links to the Greater Manchester Strategy (if appropriate) and it has been agreed that it is suitable for capital investment, the strategic requirements will be prioritised using the following criteria (it should be noted that these are not mutually exclusive or in ranking order):
- 12.2 The criteria examine whether the proposal is:
- a. Related to mandatory, contractual or legislative service delivery requirements.
 - b. Required to achieve the delivery of a specific revenue budget saving within the revenue budget setting process.
 - c. Required to support Service Plan priorities.
 - d. Enhancing the Co-operative Council agenda and demonstrating the enhancement of Social Value.
 - e. Supporting the Get Oldham Working priority initiative and demonstrating how it delivers the aim of local jobs for local people.
 - f. Supporting integrated working with NHS partners or in support of other GM devolution objectives
 - g. Linked into other regional objectives.
 - h. Enhancing the asset management/estate management agenda.
 - i. Providing general revenue saving or offering the delivery of a more efficient service.
 - j. Fully-funded from external resources.
 - k. Bringing in substantial external resources for which Council matched funding is required.
 - l. Likely to have the highest impact on achieving improved performance against the Council's key objectives.
 - m. Making a contribution to carbon reduction targets and renewable energy initiatives.
 - n. Supporting regeneration and economic growth, particularly in the town centre and district centres.
 - o. Supporting the implementation of the CPIS
- 12.3 The results of this process will be presented to Members each year as part of the capital budget setting process, or during the year if projects come forward outside the normal timeframe.

13 How the Council Will Procure its Capital Projects

- 13.1 The structure of the Council's procurement and strategic relationship management function includes designated Commercial Procurement Managers whose focus is to support all capital projects.
- 13.2 Integration of revenue and capital financial planning provides opportunities for greater efficiency by selection of the most effective procurement processes to ensure the best commercial solution.
- 13.3 The Council is keen to ensure that Social Value, particularly contributions to the Get Oldham Working initiative, is demonstrated during the procurement process, linked to the principles of the co-operative agenda. Therefore this is of key importance in the procurement of all capital schemes. The social value deliverables are actively monitored by the procurement team throughout the life of the contract.

- 13.4 Efficiency gains via procurement will be achieved by:
- a. Efficient procurement processes which are constantly being enhanced with opportunities being developed to ensure the best commercial solution is selected and delivered.
 - b. Expanding the range of providers included within the Council's early payment discount scheme.
 - c. Strategic contract management of the wider supply chain to ensure continuous savings through the life of the project.
 - d. Procuring fixed price contracts with risk/reward terms to incentivise further efficiencies.
 - e. Joining in Association of Greater Manchester Authorities (AGMA) wide procurement initiatives which will provide savings through economies of scale.
 - f. Public Private Partnership (PPP) agreements and other innovative financing arrangements where practicable.
 - g. Leasing/borrowing strategies which will consider the most effective means of acquiring assets.

14 How the Council Will Measure the Performance of the Capital Programme

- 14.1 The capital commissioning approach that has been adopted by the Council is supported by a strong programme management process in order to ensure a coordinated corporate approach to the strategic alignment of investments. The process has been modelled on PRINCE 2 project management methodology and the Office of Government Commerce (OGC) Gateway Review System, incorporating risk assessment, risk management, option appraisal, cost v benefit analysis, etc. This ensures that investments are planned, managed and delivered prudently.
- 14.2 The Capital Investment Programme Board (CIPB) has a remit to review the financial performance of the capital programme and it receives a monthly monitoring report. In addition financial monitoring reports will be considered by Cabinet at months 3, 6, 8 and 9, together with a capital outturn report. Issues that have been considered and agreed at the CIPB can be reported to Cabinet as necessary via the regular financial monitoring reports.
- 14.3 The undertaking of the detailed annual review of the capital programme provides the opportunity to review all schemes or focus on specific areas of concern.
- 14.4 Where a potential cost overrun has been identified, the CIPB will explore possible solutions in detail. It will also consider any under spending or identified surplus resources which can be added to the central pool of resources. The CIPB may also suggest a reallocation of resources to other projects.
- 14.5 Where there is a delay in the commitment of programme/project resources, the CIPB will require project managers to report the reasons for the delay and consider whether it would be appropriate to recommend the decommissioning of the project and the reallocation of un-ringfenced resources to other projects.
- 14.6 The performance of the capital programme is also measured by the prudential indicators which are reported to Cabinet/Council as part of the Treasury Management Strategy, the Treasury Management half-yearly review, and the annual review.

15 The Capital Investment Programme Board

- 15.1 The Capital Investment Programme Board (CIPB) is an Advisory Board and is chaired by the Deputy Leader and Cabinet Member for Finance and Corporate Resources. The

lead Chief Officer for CIPB is the Deputy Chief Executive People and Place. The Leader of the Council has a standing invitation to all meetings. The Board is supported by the Director of Finance, the Director of Economy, the Director of Education and Early Years and the External Funding Manager. The Board has Terms of Reference and detailed reporting performance processes which are included at Annex B.

- 15.2 All Directorates are represented at Director level by invitation to attend CIPB as and when projects for which they are responsible are being considered. The Chair may also invite the relevant Cabinet Member to attend when a project within their portfolio is being discussed.

Priority Areas for Investment

The priority investment areas identified for the 2019/20 to 2023/24 period covered by this Capital Strategy document are set out below, along with information about longer term projects which are emerging through the vision for the borough.

The breakdown of funding by project area is shown across the current programme to 2023/24 at Annex C. The narrative supporting the programme is set out below together with information about projects which the Council plans to take forward in the following 5 to 10 years and beyond 2024/25 to 2033/34.

1 Continuation Funding

There are requirements for continued annual funding of existing programmes of work across the current 5 year programme and beyond, these are summarised as follows:

- a) Corporate Major Repairs /Disability Discrimination Act (DDA) Adaptations/ Legionella / Health and Safety Projects (Corporate Landlord Function)

Spending in this area aims to enable the Council to secure the integrity of the corporate estate and ensures that the Council is compliant with its statutory obligations under DDA and Health and Safety legislation.

- b) School Condition Works

The Council has provided resources to address the most immediate needs (priority 1) for condition works within the school estate. There is however, increasing demand on the school condition works budget to address priority 1 condition issues as well as other preventative works prior to arrival at priority 1 status.

- c) ICT Strategy

The strategy has been formulated through a pipeline which addresses delivering a customer focused service; digital by design, harnessing the power of data, strengthening governance and capability and integration of information to be an agile and efficient Council.

- d) Social Care

This resource will provide additional support for disabled adaptations, transformational schemes to further health and social care integration, and wider social care initiatives.

- e) Environmental Services

To support the purchase of environmental machinery.

- f) District Investment Fund

The District Investment Fund (DIF) was created in 2011 and is now a well-established concept. It is intended to fund larger scale neighbourhood investments that meet local needs and achieve value for money. The capital programme currently includes £1.300m in the financial years 2019/20 to 2023/24 with the major spend expected in year 2021/22.

An annual base budget allocation of £2.449m has been included in the capital programme to fund these continuation projects in 2019/20, which incorporates £1.500m per year to cover Corporate Major Repairs, DDA Adaptations, Legionella, Health and Safety Projects (Corporate Landlord Function) and also school condition works. In 2019/20 this has been supplemented with carried forward resources. Funding for Social care is provided at a value of £0.400m per annum in addition to the funding received through the Better Care Fund. Resources of £0.249m has also been allocated to ICT, £0.200m to the District Investment Fund per year together with £0.100m for the purchase of environmental machinery.

2 New Projects

New emerging projects for which funding may be required and for which funds could be allocated are set out in the following paragraphs. Each of these projects would need to be progressed by the submission of detailed and fully costed business cases demonstrating how they achieve corporate priorities. Projects have been categorised based on current information over a delivery timeframe focussed on;

- those that will be initiated and delivered in the 5 years of this strategy period (2019/20 to 2023/24) and
- those which will progress from 2024/25 to 2033/34 (a 6 to 10 year timeline).

It is probable that due to rephrasing some projects will move from the first to the second delivery period.

Projects to be Delivered in Years 0-5 (2019/20 to 2023/24)

a) Social Care

Mindful that the Council has extensive responsibilities to deliver an adequate standard of social care, and the increasing level of joint working with National Health Service partners, the Council will continue to consider the utilisation of available Government resources and any local funding to address identified needs or opportunities to facilitate enhanced service provision and support income generation. An allocation of £0.400m is available for such investment.

b) Better Care Fund (Disabled Facilities Grants)

The demand for major property adaptations to premises continues to rise, particularly because of the increase in numbers of elderly clients, also of very disabled children where medical advances have seen improvements in life expectancy and the increase request to adaptations to FCHO properties.

For 2018/19, the Better Care Fund (BCF) capital allocation in the form of Disabled Facilities Grant (DFG) was £1.914m, the grant was un-ringfenced but, given the Council's obligation to undertake adaptations, the strategy of the Council is to passport the full grant allocation for the intended purpose; to support housing adaptations. Where 2018/19 resources have not been utilised, they will be carried forward into 2019/20 (estimated at £1.250m). At present, there is no notification of funding allocations for 2019/20. There is however an anticipation that it will be of a similar amount and any funding received will be allocated using the same principles as were applied in 2018/19.

c) Upgrade to Crematorium Facilities

Significant investment will be required to the plant and equipment at the crematorium to ensure continuity of service and efficient use of the facilities. This is funded initially from the income receipts from services users but as a capital scheme, it is then incorporated into the capital programme. Depending on when the investment will be required this may fall in to the 6-10 year timeframe.

d) Low Carbon and Energy Efficiency Initiatives

The Council wishes to invest to support its pursuit of the green agenda and address carbon reduction requirements. The Council has a requirement to ensure that it is seeking to maximise energy efficiency. Most energy efficiency and renewable energy projects the Council would like to undertake can be delivered through a number of efficient Official Journal of the European Union (OJEU) compliant framework agreements and pay back their investment over varying periods of time from a combination of Government subsidies and the actual energy savings themselves, making prudential borrowing a viable option for such schemes. The Council will also consider options to work jointly with other Local Authorities on out of borough projects that will benefit Oldham and enhance the Council's contribution to energy efficiency.

e) School Investment / Pupil Place Pressures

There continues to be pressure on primary and secondary places within areas of Oldham, with little capacity at a number of schools as the school population continues to increase. School capacity and the standard of the facilities within schools remains a priority and the Council will consider additional investment in its own right or to complement any Government resources that may become available.

There are a number of school extensions in progress such as Crompton House, Greenfield Primary and Oasis. There are also opportunities to utilise funding from the Department of Education (DfE) for new schools with an academy partner. Schemes of this nature require the Council to release land for the school to be built upon. In such instances the Council will dispose of land without recompense via a land swap or other such appropriate land transaction. The Council may also deem it appropriate to allocate its own resources to support schemes as it sees fit.

On 17 December 2018, the Secretary of State for Education announced funding of £100m nationally to top up the Special Provision Capital Fund in 2019/20. This is for investment in new places and improved facilities in Special Educational Needs units, resourced provision in mainstream schools, special schools or other facilities used for pupils and students with Education Health and Care plans. The Councils funding allocation has yet to be announced but it will be utilised to the maximum benefit to support high needs educational provision. Schools specific investment in 2019/20 is anticipated at £23.825m.

f) Surplus Sites

The Council has an extended portfolio of surplus sites scheduled for disposal, for which up front capital funding may be required for enabling and other works to ensure that the land is suitable for commercial redevelopment. The Capital Strategy 2019/24 includes an allocation of £0.500m to support this enabling work. The capital programme is reliant on the income generated from these sales in the form of capital receipts.

g) Working with NHS Partners

Work continues on the integration agenda with NHS partners and other related stakeholders. The focus is predominantly based around co-located, integrated team working within five identified neighbourhood clusters and centrally. Capital investment opportunities will increasingly be considered and evaluated to optimise benefits and outcomes for the economy as a whole rather than being specific to one organisation.

h) Association of Greater Manchester Authorities (AGMA) GM Investment Fund Loans

In line with the approved AGMA scheme initiated and underwritten by the Greater Manchester Combined Authority (GMCA), the Council may manage loans to qualifying businesses to support the growth ambitions as set out in the GM strategy.

i) Town Centre Regeneration

The Council is continuing to make a considerable investment in the town centre and plans which span over a number of years. The long term vision for the town centre is still being developed and is likely to include the strategic acquisition of properties. However, plans for the Oldham Museum of Arts / Archives (OMA) have been approved and progressed and the scheme has received significant external grant support. The Market Hall will see a transformation within the 2019/24 capital programme in support of the vision for the Town Centre and the changing retail market within the UK. The development / refurbishment of other Town Centre heritage assets and the regeneration of the Cultural Quarter will complement the investment in both these projects as well as the flagship Old Town Hall. The Council is also still committed to have a theatre / performance space within the Town Centre and plans will be developed over the life of the capital strategy period.

j) Borough-Wide Regeneration

The Council is investing in borough-wide regeneration initially through initiatives through housing and employment sites at Broadway Green and Hollinwood and further development phases of both sites are expected to come online over the next five years. The Council will take advantage of suitable investment opportunities throughout Oldham in order to advance its regeneration objective.

Town Centre and Borough-Wide Regeneration is planned at £79.288m over the life of the capital programme.

k) Car Parking

There is a requirement to invest in town centre car parking along with changes to borough wide parking initiatives to ensure residents have adequate parking in the correct zones. As the Town Centre vision progresses parking and the need for pedestrian areas will be designed and developed.

l) Housing Initiatives

Work is currently on-going to deliver on the Council's Housing Strategy in respect of the private sector. Recent initiatives launched by the Council have sought to increase the Council's engagement in the private sector, with a focus on driving up standards in neighbourhoods and increasing housing supply in the private rented sector.

The following schemes are to be financed from the Housing Revenue Account:

Developing our Extra Care offer

A rolling programme of capital works has been identified to make best effect of the transformational change in service delivery. Examples of projects to be taken forward are the development of a re-ablement offer and continuation of the installation and improvement of landscaping, sensory and outside garden spaces at Tandle View Court, Trinity House and Old Mill House.

Retrofit of a fire suppressant systems to Stockfield Mount and Landsdowne Court high rise blocks of flats.

In light of the events of the Grenfell Tower disaster the spotlight has been placed upon any high-rise accommodation and the safety of high rise blocks and the Council tenants who dwell therein. The refurbishment of the blocks did not include any external cladding nor were any additional fire suppression systems fitted yet future proofing to ensure safety is required.

Supported Housing for Adults with Complex Learning Disabilities (SHALD)

The development of new build accommodation for adults with learning difficulties and complex behaviours is in train, supported by grant funding from Homes England and the NHS. The scheme is due for completion in summer 2019.

Town Centre Affordable Housing

A key element of the vision for the Town Centre Masterplan is the development of new affordable housing. External funding from Homes England has been secured to progress schemes.

Developing temporary accommodation to meet homelessness demands.

There has been a significant spike in the number of homeless households who need help and support. To address this, a range of sustainable options are being considered including the purchasing of a building which could accommodate 18 self-contained flats, and a long term lease on a building which could accommodate 25 units of mixed accommodation (Self-contained and shared). Pursuing these types of long-term arrangement would not only address a definite need but also support the revenue budget by reducing the high levels of reactive costs such as bed & breakfast accommodation charges.

Developing our response pilots in the private rented sector

The Council has launched a pilot empty homes intervention project to work with owners of empty homes to bring their properties back into use through one of the two options available from the Council. A combination of HRA funding and Homes England Grant funding have enable the development of a Purchase & Repair and Lease & Repair options; design to financially support landlords in bringing their properties back into use.

It is envisaged that this scheme will be widened post the pilot phase. This accommodation will be used to prevent homelessness by offering suitable, long term accommodation for people. This accommodation will also assist with the 'move-on' options from those households in temporary accommodation by providing a suitable, longer term, settled abode.

m) Greater Manchester Devolution and Related Initiatives

Development under the devolution agenda is an evolving programme of activity at the wider GM level. Working in partnership with the GMCA and other Local Authorities, the Council will seek to support new initiatives.

n) Matched Funding for Grant Bids

The Council is conscious that the Government or the Greater Manchester Combined Authority may introduce a range of grant funding opportunities for which bids must be submitted at short notice, some of which may have a matched funding requirement. The Council's strategy will be to respond as it considers appropriate to bidding arrangements, ensuring that bids are submitted which align with its objectives and that matched funding requirements are considered on a scheme by scheme basis with resource requirements prioritised accordingly.

o) Northern Roots

This new scheme is part of a long term vision to develop Snipe Clough in the east of the borough to an agri-park. This would incorporate a wide range of initiatives and include growing hubs, recreation areas, contribute to social prescribing and boost tourism. The first phase of this development is the refurbishment of the existing depot at Alexandra Park.

p) Royton Town Centre Development

In line with the Co-operative Council ethos, a capital priority is investment in neighbourhoods, in particular the creation of hubs around neighbourhood town halls. An allocation of resource of £3.193m has been included in the capital programme for schemes in Royton, spread across the financial years 2019/20 and 2020/21. The first development in Royton is the refurbishment of the Town Hall and Library. This will make better use of the current buildings and incorporate both Council and commercial activities.

q) Transport Capital Programme

The Council secures capital funding for investment in the highway network from a number of different sources, including Central Government which allocates funding largely through the Greater Manchester Transport Strategy and Local Transport Plan (LTP). The majority of this funding sits in the transport capital programme, except where it forms an integral part of a regeneration project and therefore sits within the Regeneration Capital Programme, such as the Growth Deal 2 grant of £0.800m in 2019/20, which will support delivery of the highway infrastructure for the Albert Street development at Hollinwood.

The Local Transport Plan is a statutory document prepared by Transport for Greater Manchester (TfGM) and Greater Manchester's ten local Councils on behalf of the GMCA and the Greater Manchester Local Enterprise Partnership. The current Local Transport Plan includes a long-term GM 2040 Transport Strategy to improve transport across the city region and a five-year delivery plan based on committed resources which is updated annually. The Council has adopted the principle that all un-ringfenced grants secured through the GM Local Transport Plan be passported for investment in the highway network.

The Council prepares a transport capital programme to cover a three year time-frame for the resources allocated through the LTP, with the current programme covering the period 2018/19 - 2020/21. A list of reserve schemes is also approved which sits alongside the 3-year LTP programme. These are updated annually.

Key elements of the transport capital programme include:

- A £6.000m investment of Devolved Growth Deal funding through the Growth Deal 3 Oldham Town Centre Regeneration and Connectivity scheme with a spend deadline of March 2021;
- An annual programme of minor LTP funded works that includes highway maintenance, bridges and structures, road safety, traffic management and cycling and walking schemes, which is dependent on GMCA distributing the LTP resource in line with the indicative local authority allocations calculated by the Department for Transport; and
- A £12.000m Highway Improvement Programme that the Council is funding with Prudential Borrowing to improve the condition of the network over the period 2019/20 – 2021/22. (in addition to the £6.000m included in the 2018/19 programme)

Additional grant is anticipated from some sources these include the Department for Transport's Safer Roads Fund award for the A670 Oldham – Tameside (£0.762m for 2019/20) and the GM Mayor's Cycling and Walking Challenge Fund. Securing additional grant funding for investment in the transport network and to support the regeneration of the borough is a Council priority. Potential bidding opportunities that may arise, and may or may not require a financial contribution, include:

- The Department for Transport's Highway Maintenance Challenge Fund;
- The GM Mayor's Cycling and Walking Challenge Fund; and
- Environment Agency (EA) Flood Management Programme (Grant in Aid and Local Levy Fund).

r) Fleet Management

Oldham Council introduced the existing Fleet Replacement Programme in 2012/13 as per the strategy approved at the Cabinet meeting on 6 February 2012. The objective was to gradually replace leased and hired vehicles with purchased vehicles that would have a useful economical life ranging from 3 to 7 years. This objective has now been achieved apart from the short term hire of a small number of vehicles. Since then the Fleet Management Service has carried out this policy whenever a vehicle is due to be replaced.

The financial year 2018/19 is the final year of this seven year programme. A request to extend the programme by five years, covering 2019/20 to 2023/24, has been made to Cabinet in a report running concurrently with this document. The funding programme being sought includes the acquisition of 89 vehicles at a cost of £5.570m. The first tranche of purchases will be the replacement in 2019/20 of 18 refuse collection vehicles at a cost of £3.186m. All spending will require inclusion in the capital programme and will be financed from prudential borrowing, with annual repayments being made from within existing revenue resources.

Projects to be delivered in years 6-10 (2024/25 to 2033/34)

The Council has a longer term vision for capital spending outside the initial 5 year timeframe. The schemes below have an implementation period of between 6 to 10 years

covering the period 2024/25 to 2033/34. The majority of schemes are the longer term development of projects already within the initial 0 to 5 year timeline, but each will move through different phases with different objectives and expected outcomes.

a) Town Centre Vision

Sites at Princes Gate are being redesigned to align with the development of the market and to align with the wider vision. The extent of capital funding required by the Council is currently uncertain and will need to be kept under review. As the programme of work evolves, this may require complementary investment for additional strategic acquisitions, car parking, public realm works or other regeneration developments, particularly around improving the retail offer, including the market.

b) Borough-Wide Regeneration

The Council is currently investing in borough-wide regeneration initiatives through housing and employment sites at Broadway Green and Hollinwood, and again, as the position evolves, there may be a requirement for increased investment in new or existing projects including strategic acquisitions.

c) Partnership and Joint Working

The Council will aim to pursue joint partnership working with other public bodies, not for profit organisations and the private sector where it is commercially advantageous to do so and to keep under review existing relationships

d) Northern Roots

As outlined earlier, this scheme is a long term vision to develop Snipe Clough in the east of the borough to an agri-park. It will be delivered in phases over an expected 10 year programme.

e) Housing

The Council is currently updating the Local Housing Strategy (LHS) which be the major strategic visioning document that will provide a robust housing strategy and identification of priority areas required to meet the overall housing needs of the borough. Once the strategy is finalised new business cases to take forward specific initiatives will be developed over an expected 5 year plus programme.

Capital Investment Programme Board

1 Terms of Reference

- 1.1 The Capital Investment Programme Board (CIPB)'s terms of reference are:
- a) To develop the overall Capital Strategy and annual programme in accordance with the priorities set out in the Council's corporate plan.
 - b) The recommendation of the overall Capital Strategy and programme to Cabinet and Council.
 - c) Once the overall Strategy and annual programme of expenditure have been approved at Council:
 - i) The consideration and recommendation of approval of the detail of the thematic programmes (e.g. Highways Capital Programme).
 - ii) The consideration and recommendation of approval of any amendments to the annual programme.
 - iii) The recommendation of approval of any new capital projects.
 - iv) The detailed appraisal of projects, taking into consideration the Council's Capital Strategy, priorities and annual aims and objectives.
 - v) The review of potential commercial risk and Value for Money issues on any proposal for the use of capital.
 - vi) To provide a forum for establishing and providing robust challenge and debate around the capital programme.
 - vii) To undertake a detailed annual review of the capital programme.
 - viii) The review of the Council's capital programme on an on-going basis and to ensure it is achieving the agreed outcomes and consideration of the financial monitoring report.
 - ix) The monitoring of the performance of projects and programmes within the Council's capital programme.
- 1.2 The Board oversees capital projects from inception to completion to ensure they are delivered efficiently and effectively and in line with the Council's corporate objectives.
- 1.3 The Board assesses all submissions for capital expenditure prior to them entering into the normal reporting process for approval. The Board therefore makes recommendations to the appropriate decision maker/forum, whether this is a Member under delegated responsibility, Cabinet or Council.

2 Membership

- 2.1 The Chair of the CIPB is the Deputy Leader and Cabinet Member for Finance and Corporate Resources. The Leader of the Council has a standing open invitation, other Cabinet Members may be invited to attend CIPB at the discretion of the Chair.

The lead Chief Officer for CIPB is the Deputy Chief Executive, People and Places.

Officers in attendance at CIPB are:

- a) The Director of Economy
 - b) The Director of Finance
 - c) Senior Members of the Finance Team.
 - d) Director of Education and Early Years
 - e) External Funding Manager.
 - f) Representatives from Legal Services, Human Resources, Procurement and Information Technology as required.
- 2.2 All Directorates will be represented at Director level by invitation to attend CIPB as and when projects for which they are responsible are being considered. The Chair may also invite the relevant Cabinet member to attend when a project within their portfolio is being discussed.
- 2.3 The CIPB is supported in its work by the Strategic Regeneration Project Management Office which oversees the management and governance of strategic regeneration projects.

3 Reporting and Performance Process

- 3.1 CIPB will report to Cabinet, Council and the Overview and Scrutiny Performance and Value for Money Select Committee as appropriate.
- 3.2 CIPB has a remit to review the financial performance of the capital programme and it will receive a monthly monitoring (highlight) report.
- 3.3 The Board meets on a monthly basis to ensure there is a managed approach to:
- a) Discussing and recommending actions in relation to capital issues
 - b) Developing the Capital Strategy,
 - c) Developing the capital programme for the year ahead
 - d) Considering and approving business cases
 - e) Monitoring performance of individual capital projects and the whole capital programme
 - f) Reviewing the availability of capital resources and reprioritisation of resources as required
- 3.4 The CIPB also undertakes an annual review of the capital programme which will examine all schemes in the programme to:
- a) Ensure that schemes still meet corporate priorities
 - b) Review their continued relevance in the context of a dynamic and constantly developing organisation
 - c) Consider the progress of schemes including any reasons for delayed starts or variations to approved budgetary allocations and rephasing of planned expenditure
 - d) Identify any unutilised or underutilised resources
 - e) Consider any reallocation of resources

- 3.5 It will also initiate periodic reviews of the whole or part of the programme as required in response to specific issues or concerns.
- 3.6 Issues that have been considered and agreed at the CIPB can be reported to Cabinet as necessary via the regular financial monitoring reports, presented at months 3, 6, 8 and 9.
- 3.7 Pooled and locally ring-fenced corporate resources will be managed by the CIPB; it will review all bids for resources, evaluate them and then agree on the prioritisation of resources accordingly. A proposal will be prioritised in accordance with criteria set out in Section 12 of the Strategy.
- 3.8 The CIPB will also review any bids for and use of any ringfenced resources to ensure alignment with other spending plans and the maximisation of benefits to the Council and achievement of Council objectives.
- 3.9 The CIPB will recommend the use of both un-ringfenced and ringfenced resources and also the general prioritisation of resources so that Council, Cabinet and Cabinet Members exercising delegated authority can make a final well-informed decision on the utilisation of resources, as appropriate.

4 Decision Making

- 4.1 In relation to the approved capital programme, CIPB will make recommendations regarding the approval of business cases and virements both within and between approved programme areas. In all such cases, the decision maker is the Deputy Leader and Cabinet Member for Finance and Corporate Resources, in consultation with the Deputy Chief Executive, People and Place and the Director of Finance.

5 Decision Recording

- 5.1 CIPB will make recommendations on receipt of a formal delegated decision report which will be presented to the appropriate Members/Officers for approval. Key decisions must be included in the published key decision document and all decisions taken (see above) will be recorded on Modern.gov

6 Governance

- 6.1 CIPB is the only group within the Council (below Council level) that can recommend investment in projects within the approved capital programme. Therefore, the key role of CIPB is to consider the following milestones which define key stage boundaries that require investment decisions. A project can only progress to the next stage on the recommendation of CIPB.
- a) Strategic business case – initial concept/scope of a project.
 - b) Outline business case - delivery strategy to design and procurement stage.
 - c) Full business case - design and procurement stage to delivery and handover stage.
- 6.2 The Council has agreed that prudential borrowing provision is not necessary for capital expenditure incurred in lieu of capital receipts. Any such schemes will be classified by the CIPB as 'Borrowing in Lieu of Capital Receipts'. CIPB will also determine which capital receipts will be used to finance the scheme and as the receipts are achieved they will be applied to repay the debt.

7 CIPB Sub-groups

- 7.1 CIPB may at its discretion convene a sub-group for a specific purpose or purposes. Updates from these meetings are reported to CIPB.

Current sub-groups are:

- a) Major Projects and Joint Ventures Programme Board
- b) Corporate Property Board
- c) Schools Capital Programme Board
- d) ICT Programme Board
- e) Transport Programme Board
- f) Residential Development Board

The core officer membership for each sub-group comprises:

- a) The relevant Director for specific Boards as Chair; e.g. the Director of Education & Skills chairs the Schools Capital Programme Board.
- b) The Director of Legal Services
- c) The Director of Finance

- 7.2 In addition there is an External Funding Group, chaired by the Director of Finance. The remit of this Group is to:

- a) Manage external funding at a strategic level.
- b) Identify potential grants and additional sources of funding.
- c) Manage the process for applying the funding and approve all bids for funding.
- d) Monitor on-going compliance with grant terms and conditions and assess any financial risk including grant claw back.
- e) Provide a Regeneration Plan/framework that can enable the Council to proactively react to funding opportunities as they arise.
- f) Ensure there are sufficient resources for the Council to be fully embedded within Association of Greater Manchester Authorities (AGMA), particularly important in light of devolution.
- g) Ensure there are sufficient personnel to enable the Council to proactively react to funding opportunities as they arise.

Capital Programme 2019/20 to 2023/24

Expenditure	2019/20 £000	2020/21 £000	2021/22 £000	2022/23 £000	2023/24 £000

Flexible Use of Capital Receipts Strategy

Introduction

In March 2016, the Secretary of State for Housing, Communities and Local Government issued Statutory Guidance that permitted Local Authorities to use capital receipts to fund the revenue costs of transformation for the period 1 April 2016 to 31 March 2019. This flexibility was then extended to 31 March 2022 as part of the 2018/19 Local Government Finance Settlement (LGFS).

Statutory Guidance

The Statutory Guidance and supporting ‘informal commentary’ published in March 2016 states that Qualifying Expenditure is “expenditure on any project that is designed to generate ongoing revenue savings in the delivery of public services and/or transform service delivery to reduce costs and/or transform service delivery in a way that reduces costs or demand for services in future years for any of the public sector delivery partners. Within this definition, it is for individual Local Authorities to decide whether or not a project qualifies for the flexibility”.

Examples of Qualifying Expenditure

The MHCLG has indicated types of qualifying expenditure:

- Sharing back office and administrative services with one or more other Council or public sector bodies.
- Investment in service reform feasibility work e.g. setting up pilot schemes.
- Collaboration between Local Authorities and central Government departments to free up land for economic use.
- Funding the cost of service reconfiguration, restructuring or rationalisation (staff or non-staff), where this leads to ongoing efficiency savings or service transformation.
- Sharing Chief Executives, management teams or staffing structures.
- Driving a digital approach to the delivery of more efficient public services and how the public interacts with constituent authorities where possible.
- Aggregating procurement on common goods and services where possible, either as part of local arrangements or using Crown Commercial Services or regional procurement hubs or Professional Buying Organisations.
- Improving systems and processes to tackle fraud and corruption in line with the Local Government Fraud and Corruption Strategy – this could include an element of staff training.
- Setting up commercial or alternative delivery models to deliver services more efficiently and bring in revenue (e.g. through selling services to others).
- Integrating public facing services across two or more public sector bodies (for example Children’s Social Care, trading standards) to generate savings or to transform service delivery.

The Council has used these definitions to determine qualifying expenditure in the context of Oldham Council as highlighted in Table 1.

The Council's Strategy

The Council intends to make use of this flexibility for the three financial years covering the period 1 April 2019 to 31 March 2022.

The Council can only use capital receipts to finance Qualifying Expenditure as defined in this strategy (see above) from the disposal of property, plant and equipment assets received in the year in which this flexibility is offered. The Council will not utilise capital receipts generated on or before 31 March 2019 to finance Qualifying Expenditure.

The direction states that the Council cannot borrow to finance the revenue costs of service reform and the Council will comply with this requirement.

This Strategy outlines the projects which plan to make use of the capital receipt flexibility and provides details of the expected savings/service transformation on a scheme by scheme basis. The Strategy can be replaced at any point during the financial year with a revised Strategy outlining an up to date position.

Council approval for the use of this flexibility is required on at least an annual basis, with plans published on the Council's website and notification of planned use sent to the Ministry of Housing, Communities and Local Government (MHCLG).

Summary of planned receipts

The Council's Capital Strategy and Capital Programme 2019/20 to 2023/24 anticipates that new capital receipts in 2019/20 of £4.558m will be generated to support the Capital Programme. In addition £3.000m has been added to the capital strategy, increasing the capital receipt requirement for 2019/20 to £7.558m – bringing the total capital receipts requirement for 2019/20 to £19.042m. The first call on new capital receipts received in 2019/20 will fund qualifying revenue expenditure as detailed within the Flexible Use of Capital Receipts Strategy.

Summary of planned use and savings

It is intended that capital receipts of £3.000m above will fund the following transformational projects/expenditure as set out in Table 1 (note there is a small element of contingency to allow for variation).

Table 1 – Planned qualifying expenditure

Scheme Description	Qualifying Expenditure	£000 2019/20
Children's transformation - operating model and structural resourcing plan	Funding the cost of service reconfiguration, restructuring and redesign to drive to on-going efficiency, improving working practices including the use of new technology, delivering service transformation and cost savings as evidenced in Table 2.	845
Phase 2 Integration of the Community Provider – to bring together services to work as part of an effective and efficient group, focused on the person at the centre of service delivery	Investment in service reform and collaborative working arrangements as a means to deliver financial and operational efficiencies and an improved customer experience.	51
Joint Commissioning across Oldham Council and Oldham CCG to create efficiencies, streamline provision and improve contract monitoring	Sharing of commissioning expertise, facilities and technology together with the Oldham CCG to drive economies and efficiencies.	206
Delivery of the community enablement programme which will focus on new ways of delivering intermediate care, reablement services and related community based services	Funding the cost of service reconfiguration, restructuring and redesign leading to on-going efficiency savings and service transformation in tandem with an enhanced customer experience.	300
Local Asset Review to deliver rationalisation of the Council's estate as part of the Medium Term Property Strategy	The rationalisation of the Councils office accommodation (and other corporate property assets) to maximise efficiencies and to drive forward integrated working across the public sector, building on the principles of the One Public Estate. Anticipated savings are evidenced at Table 2.	150
Digital by Design - Redesigning the operating model of services to enable a transformation from a mainly mediated customer service offer to a predominately self-service one	Driving a digital approach to the delivery of more efficient public services by improving the Council's digital offer to the people of Oldham. Anticipated savings are evidenced at Table 2.	105
Digital approach - using specialist ICT skills to transform services and develop digital solutions to enable transformation	Driving a digital approach to the delivery of more efficient public services by improving the Council's digital offer to the people of Oldham and the systems technology underpinning the delivery of Council Services. Anticipated savings are evidenced at Table 2.	369

Scheme Description	Qualifying Expenditure	£000 2019/20
The engagement of external transformational skills and expertise – A dedicated resources to develop and implement service transformation	Professional service advice, support and guidance leading to service reconfiguration, restructuring and transformation underpinning a range of work streams.	225
Programme Management Office – internal Council support to the facilitation of the organisation's transformational projects	Professional service advice, support and guidance leading to service reconfiguration, restructuring and transformation underpinning a range of work streams.	192
Professional services supporting the delivery of the organisation's range of transformational projects	Professional service advice, support and guidance to service reconfiguration, restructuring and transformation across a range of service areas.	620
Total		3,063
Contingency for variation		(63)
Flexible Use of Capital Receipts Relied on to support the revenue budget		3,000

The current forecast of revenue savings are set out in table 2. This is an initial view and will be developed further as the projects are taken forward through the delivery stages.

Table 2 – Forecast revenue savings generated

Scheme Description	£'000 2019/20	£'000 2020/21	£'000 2021/22
Transformation of the Children's services operating model	0	(1,660)	0
Property Savings and Accommodation Review	(500)	(2,000)	(2,000)
Digital by Design	(500)	(1,500)	0
Total	(1,000)	(5,160)	(2,000)

Forecast service transformation

The Revenue Budget for 2019/20 includes significant investment in Children's and Social Care services. The justification for this investment is the delivery of long term efficiencies and improved service delivery as shown in Table 2.

Alongside the financial savings that are forecast to be generated, the investment of capital receipts into the support and delivery of the Oldham Locality Plan with health partners will enable significant service transformation that will benefit residents across the borough as a whole.

The introduction of a joint commissioning function and a redesigned community enablement programme are key strands in delivering the Health and Social Care devolution agenda in Oldham as set out in the Locality Plan; the joint Council and Oldham Clinical Commissioning Group (CCG) vision for the greatest and fastest possible transformation and improvement in the health and wellbeing of our residents by 2021. This improvement will be achieved by supporting people to be more in control of their lives by having a health and social care system that is geared towards wellbeing and the prevention of ill health; access to health services at home and in the community; and social care that works with health and voluntary services to support people to look after themselves and each other therefore transforming the relationship between the population and the health and social care providers within the system.

The Local Asset Review and digital by design initiatives are key elements in the delivery of significant savings for the Council in the Medium Term as referenced in the Council's MTFs. Both underpin the movement of the Council to a leaner and more customer focused organisation.

Impact on Prudential Indicators

The prudential indicators that will be impacted by this strategy are set out below:

- Estimates of Capital Expenditure Indicator increased by £3.000m.
- Capital Financing Requirement increased by £3.000m as these capital receipts were intended to support schemes within the existing programme that will now be financed through prudential borrowing.
- Financing costs as a percentage (%) of net revenue stream 13.62%.

The Prudential Indicators show that this Strategy is affordable and will not impact on the Council's operational and authorised borrowing limits. Further details on the Council's Prudential Indicators can be found within the Treasury Management Strategy.

Monitoring

This Strategy will be monitored throughout the financial year and may be updated and replaced as proposals are developed and expenditure incurred.

Report to Overview and Scrutiny Performance and Value for Money Select Committee

Housing Revenue Account Estimates for 2019/20 to 2023/24 and Proposed Outturn for 2018/19

Portfolio Holder:

Joint Report of the Deputy Leader and Cabinet Member (Finance and Corporate Resources), Councillor Abdul Jabbar MBE and Cabinet Member (Housing), Councillor Hannah Roberts

Officer Contact: Anne Ryans, Director of Finance

Report Author: John Hoskins, Finance Manager
Ext. 1323

24 January 2019

Reason for Decision

The report sets out the latest Housing Revenue Account (HRA) outturn estimate for 2018/19, the detailed budget for 2019/20 and strategic estimates for the four years 2020/21 through to 2023/24. The report also sets out the recommended dwelling and non-dwelling rents and service charge increases to be applied from April 2019.

Executive Summary

The report sets out the HRA proposed 2019/20 original budget and the forecast outturn for 2018/19. The opportunity is also taken to present the provisional strategic budgets for 2020/21 through to 2023/24.

After taking all relevant issues into account, the projected financial position for 2018/19 is estimated to be a £2.506m positive variance when compared to the original budget forecast for 2018/19 approved at the February 2018 Budget Council meeting. The majority of this variance is attributable to the re-profiling of HRA funded capital schemes into later years due to revisions to planned spending profiles.

The financial position for 2019/20 shows an estimated HRA closing balance of £19.477m which is considered to be sufficient to meet future operational commitments and the potential financial pressures identified in the risk assessment.

The 2019/20 position has been presented after allowing for an increase in rent of 3.4%.

Members will recall that the Government has already advised that PFI properties are exempt from Central Government's 1% Social Rent Reduction Programme. As all Oldham housing stock is contained within two PFI schemes the 2019/20 budget will follow historic rent setting guidance of CPI plus 1%, resulting in an increase of 3.4% (CPI is taken as at September 2018).

Recommendations

That PVFM considers and comments on the:

1. Forecast HRA outturn for 2018/19 (as per Appendix A)
2. Proposed HRA budget for 2019/20 (as per Appendix B)
3. Strategic estimates for 2019/20 to 2023/24 (as per Appendix D)
4. Proposed increase to dwelling rents for all properties of 3.4%.
5. Proposed increase to non-dwelling rents as per individual contracts.
6. Proposal that PFI 2 and 4 service charges are unchanged.
7. Proposal to set PFI 2 concierge charges in line with actual costs for full recovery.

Overview and Scrutiny Performance and Value for Money Select Committee

Housing Revenue Account Estimates 2018/19 to 2023/24

1 Background

The budget and policy framework sets out an annual timetable for the HRA budget process. Production of this report and the ability to scrutinise the budget are key features of that framework, along with consultation with tenants. The HRA Budget report for 2019/20 is presented here with the intention that it will be considered by Cabinet on 11 February 2019 and Council on 27 February 2019.

2 Current Position

Housing Stock

- 2.1 The Council's housing stock currently comprises 2,062 properties with all properties being managed and maintained within two Private Finance Initiative (PFI) schemes.

PFI 2 Sheltered Housing

- 2.2 The PFI 2 Contract between the Council and Housing 21 was signed in 2006 to provide 1,431 (plus one additional property subsequently added in 2016) sheltered accommodation dwellings in a mixture of bungalows and group schemes with construction finishing in May 2012. The operational contract runs to September 2036. The total construction value was £105m, all of which is payable through an annual unitary charge and funded by the annual PFI grant alongside rental income received.

PFI 4 Gateways to Oldham

- 2.3 The Gateways to Oldham PFI 4 scheme reached financial close in November 2011 and has seen the refurbishment of 317 existing properties and the creation of 317 new homes, with a total capital value of £77m. The Council has entered into a 25 year contract with Inspiral Oldham who utilised private finance to fund the construction works and to manage and maintain the properties for the duration of the contract through to October 2036. Construction was completed in December 2014 (317 refurbishments and 317 new homes in total) with all the required highway works and public open space improvements finalised in November 2015. The Council has subsequently sold four properties under the Right to Buy Scheme (RTB).

The Self-Financing Housing Revenue Account

- 2.4 April 1 2012 saw the introduction of the Self Financing Housing Revenue Account, replacing the Government housing subsidy regime. In practical terms the HRA is now a self-sufficient ring-fenced account which will retain and utilise rental income, and in the case of Oldham, PFI credits, to meet all its management, maintenance and repairs commitments, including the respective unitary charges. The aim of the reforms was to enable Councils to manage their housing stock for the benefit of local residents in a transparent, accountable and cost effective way.
- 2.5 As part of the self-financing settlement the Department for Communities & Local Government (DCLG) fully re-paid the debt allocated to the HRA. Linked to the settlement,

DCLG also issued a 'limit of indebtedness', which in practical terms enabled the Council's HRA to raise approximately £9m in new borrowing.

- 2.6 A further key element of the self-financing arrangement was a decision taken by Government to provide a five year transition period, during which depreciation need not be charged to the HRA. This transitional period finished in 2016/17 with the first actual depreciation charge against the HRA due to be made in 2017/18. Charging depreciation within the HRA is aimed at ensuring Authorities are accumulating appropriate balances in order to have sufficient resources to allow for any repairs needed to their housing stock.
- 2.7 As Oldham's entire housing stock is contained within two PFI schemes, there already exists an allocation of funding for ongoing repairs and maintenance within the unitary charge paid. Based on conversations with the Ministry of Housing, Communities and Local Government (MHCLG) Oldham has been advised that this directive does not apply to our housing stock given its PFI status. However discussions have been ongoing with Central Government and External Audit for some time with the aim of formally approving an approach that reflects stock contained within PFI contracts. Despite pressing for a response the Council has not yet received official confirmation from the MHCLG. However, guidance and advice received to date suggests that the Council has interpreted the policy correctly. As a result the HRA Business Plan has been calculated assuming that all future repairs and maintenance will be catered for within the unitary charge payments.

Rent Restructuring

- 2.8 Rent restructuring (convergence) was originally introduced in 2002/03. This set out a new methodology for the calculation of dwelling rents, attempting to equalise rent charges between Local Authorities and Housing Associations over ten years.
- 2.9 Oldham Council has complied with all proposed Central Government rent restructuring guidance in every year from 2002/03 to the present day.
- 2.10 In October 2013 the Government issued consultation papers entitled "Rents for Social Housing from 2015/16" and also "Direction on the Rent Standard 2013" in which it recommended that the date of convergence be brought forward by one year from 2015/16 to 2014/15. In addition the paper also outlined a move away from annual increases in weekly rents from RPI + 0.5% to CPI + 1% (effective from April 2015). These proposals were formalised in the Government document, "Direction on the Rent Standard 2014" published 23 May 2014. Reasons for the shift to CPI were that the move brought with it increased stability for both tenants and landlords as the calculations did not include mortgage costs which in previous years had led to increased rate volatility.
- 2.11 In the Chancellor's Summer Budget announcement in July 2015 and the subsequent Welfare Reform and Work Act, Government detailed legislative moves to impose social rent reductions at 1% for four years (2016/17 to 2019/20), in effect unwinding previous policies of rent convergence. The Chancellor indicated that given the level of social rents funded by Housing Benefit the move would lead to significant public sector savings. However an exemption to this was issued for properties covered by PFI contracts meaning that Oldham has continued to determine rents based on the Government guidance set out in paragraph 2.10.
- 2.12 The level of rents recommended for approval for 2019/20 and included in the 2019/20 budget projections follows current Government guidance. The 2019/20 proposed annual rents for all HRA tenants will therefore see rents increase by 3.4% (based on CPI as at September 2018 of 2.4% plus 1%).

2.13 Based on this Government guidance, it is estimated that the average rent increase from April 2019 will be £1.10 per week (from £84.87 to £85.97). The weekly increase has been mitigated in part because 2019/20 has 49 chargeable weeks rather than the 48 in 2018/19).

The Revised HRA Budget 2018/19

2.14 The 2018/19 estimated outturn is attached at Appendix A and shows an estimated year end working balance of £21.366m, £2.506m higher than the original budget approved at the February 2018 Budget Council meeting. The majority of the 'in-year' variance can be attributed to the re-profiling of HRA funded capital schemes into later years. Members will also note that the final outturn position for 2017/18 resulted in HRA Balances brought forward of £20.162m, £0.575m higher than the position reported at the February 2018 Budget Council Meeting.

2.15 The composition of the balance is summarised below:

Analysis of HRA Balances 2018-19	Original Budget £000	Revised Budget £000	Variance £000
HRA Balances b/fwd	(19,587)	(20,162)	(575)
(Surplus)/Deficit for the year on HRA Services	727	(1,204)	(1,931)
HRA Balances c/fwd	(18,860)	(21,366)	(2,506)

The HRA Budget 2019/20

2.16 The proposed HRA budget for 2019/20 is attached at Appendix B including all income and expenditure due to be funded from HRA Balances.

2.17 PFI credits for the two schemes are paid on an annuity basis; that is, they remain constant throughout the life of the contracts. In the early years of the schemes, these credits exceed the unitary charges and other costs payable. These early year surpluses, together with any interest earned, are retained to meet later year deficits as unitary charge payments to the service provider are increased year on year by an inflationary factor. All HRA balances are specifically earmarked for these contracts and associated capital schemes, as identified in Appendix B.

2.18 Other key assumptions made in determining the budget are that:

- 1) Average rents are 3.4% higher than for 2018/19 for all HRA tenants;
- 2) Void levels have been assumed at 2% per annum on PFI 4 properties and at 3% per annum on PFI 2 properties. PFI 2 void percentages have historically been higher as a result of the ongoing tenancy placement work, ensuring tenant mixes in the six Extra Care Schemes are appropriate to the levels of care provision required. The 3% void levels have been considered to be a more prudent assessment of the PFI 2 property void position;
- 3) There are 49 chargeable rent weeks in 2019/20;
- 4) Service Charges and Extra Care Housing charges are continued/applied from April 2019 in line with previous approvals.

2.19 The estimated 2019/20 HRA closing balance of £19.477m is considered to be sufficient to meet future operational commitments and the potential financial pressures identified in the

risk assessment. Appendix B presents the projected 2019/20 HRA budget based on the proposed position.

- 2.20 The estimated HRA budget for 2019/20 to 2023/24 is detailed at Appendix D. Expenditure includes the use of a Revenue Contributions to Capital Outlay (RCCO) to support the expected level of capital expenditure being funded.

Dwelling Rent, Non-Dwelling Rents and Services Charges Increases 2019/20

- 2.21 The proposed 2019/20 HRA budget is based on dwelling rents increasing in line with current rent setting Government guidance as outlined in paragraph 2.10 above. Non-dwelling rents will be increased in line with individual agreements. It is the Council's intention not to increase service charges.
- 2.22 Central heating charges remain for some of the PFI properties and it is proposed to continue recharging tenants on the basis of actual costs incurred.
- 2.23 Service charges will continue to be passed on to all tenants in 2019/20. After a period of transitional charges on PFI 2 properties all tenants are now paying full charges.
- 2.24 From the Council's perspective, service charges were deemed necessary as it helped minimise long term risk to the Council's HRA Business Plan, whilst also allowing the establishment of a more stable and realistic financial environment in which to manage the housing stock.
- 2.25 The Council has recognised the financial pressure that a 3.4% rent uplift will have on tenants and for this reason it has chosen to freeze service charges for a second consecutive year at 2017/18 prices.

Extra Care Housing (ECH)

- 2.26 All six ECH schemes (Trinity House, Aster House, Charles Morris House, Tandle View Court, Old Mill House and Hopwood Court) have now completed their phased 3 year charging period for Concierge Services. It is proposed that the weekly charge is increased in line with Housing and Care 21's pay inflation from £19.39 to £19.69 reflecting the actual cost incurred by the Council.

Sale of High Value Council Homes

- 2.27 Members will recall that there was a proposed Government policy, first announced in 2015, that recommended a requirement that all Councils sell high value Council stock once a property becomes vacant. The aim of the policy was to encourage Councils to sell properties in their higher value areas and use the capital receipt to build an increased number of houses where housing costs are lower.
- 2.28 As part of the Social Housing Green Paper published in August 2018, this policy has now officially been dropped.

Extension of Right To Buy (RTB)

- 2.29 The Government has also announced plans to extend the Right to Buy (RTB) legislation to include Housing Associations. A pilot project of this offer was announced for the Midlands area starting in April 2018. As this only affects Housing Associations there are no direct implications for the Council, however the Council will continue to monitor the situation as the scheme progresses.

Local Housing Allowance (LHA)

- 2.30 The Government had announced that it will not apply the LHA to Supported Housing and the wider social rented sector and had suggested an alternative funding method from April 2020. After consultation, the Government announced in August 2018 that it had abandoned plans to bring in grants and a sheltered rent to fund social housing and that it would continue to be funded via Housing Benefits.

Increase in Borrowing Limits

- 2.31 Within the November 2017 Autumn Budget it was announced that Local Authorities in high demand areas would be invited to bid to allow for an increase in their borrowing caps. This was intended to stimulate the growth in the provision of Social Housing. In order to be eligible to bid, the qualifying criteria was such that average private rent within an area needed to be at least more than £50 per week higher than average social rent. However, once the list of eligible authorities was announced it was confirmed that Oldham would not qualify.
- 2.32 In the Budget Announcement of October 2018 the Government revealed plans to remove the borrowing cap for all authorities by the end of the month. A draft determination statement was issued by The Secretary of State for Housing, Communities and Local Government, the Rt Hon James Brokenshire MP stating that Councils would be able to borrow for new build, provided they followed current prudential borrowing guidelines. Comments were invited on the draft determination by the 24th October 2018, following which the determination came into force on the 1st November 2018. While this offers great potential for funding larger projects, consideration needs to be given around the length of time the loan would take to repay along with the interest payable. Lending and borrowing interest rates currently make it prudent to use balances before any loan is sought. There are already a number of planned capital projects which will utilise some of the HRA balances and detailed consideration is needed to determine, what if any, prudential borrowing is appropriate given the requirement to finance the cost of any such borrowing from the HRA.

Strategic HRA Estimates 2020/21 to 2023/24

- 2.33 The projected forecasts for 2020/21 to 2023/24 are attached at Appendix D. As per paragraph 2.1, the HRA only includes properties which are managed under the two PFI contracts. Based on current estimates, it is expected that the HRA balance will be £17.351m at the end of 2020/21, £13.365m at the end of 2021/22, £14.417m at the end of 2022/23 and £16.174m at the end of 2023/24.
- 2.34 It should be noted that in both PFI schemes a proportion of the unitary charge is indexed with reference to inflation based on the Retail Prices Index (RPI) rather than the Consumer Price Index (CPI).

3 Options/Alternatives

- 3.1 In order for the Council to comply with legislative requirements, it must consider and approve a HRA budget for 2019/20.
- 3.2 Within the Summer Budget Announcement of July 2015, the Government announced legislation to impose a 1% per annum social rent reduction for 4 years. All Oldham housing stock is exempt from this decrease and therefore an increase has been applied since this date in accordance with previous Government rent setting guidance.

3.3 Should the Council wish to move away from the established practice of following Government guidelines, then two potential scenarios have been assessed by way of example, the:

- proposed rent increase of 3.4% is amended to 2%
- proposed rent increase is removed altogether.

The loss to the HRA for 2019/20 in terms of rental income would be, £0.114m at a 2% rent increase and £0.278m with no rent increase, as shown below.

Average Increase in Rent	2% £000	0% £000
Impact in 2019/20	114	278
Impact over remaining life of Business Plan	4,150	10,077

3.4 Although losses in income for 2019/20 could be considered manageable, it is the cumulative impact of sustained losses of income that would have a lasting and significant impact on the long term financial strength of the HRA and potentially its ability to meet its current and future financial commitments. This is emphasised with the inflation factor built into the Unitary Charge. A proportion of the Unitary Charge expenditure currently increases by an inflation factor linked to the Retail Price Index (RPI), therefore were the Council not to introduce the proposed rent increase, or to increase rents at a level below the current proposal, it would limit the ability of the HRA to meet its future financial commitments.

4 Preferred Option

4.1 The preferred option is that dwelling rent increases of 3.4% are considered together with other recommendations of the report as listed in the summary.

5 Consultation

5.1 Consultation has taken place with Executive Members, Service Providers and Tenants throughout the year. Where schemes have had a significant impact on a particular group of tenants or subsequently had a material impact on the HRA budget, the Council has endeavoured to undertake a thorough consultation with tenants. For example the Council has staged additional, more frequent drop-in sessions and Court Voices meetings where tenants are encouraged to raise any concerns thus allowing a forum for further consultation. It was through Court Voices that tenants, in conjunction with Housing Officers, compiled a list of specific wants which were then considered and approved as part of the HRA element of the Council's Capital Strategy. A key element of this consultation process is the consideration of the HRA budget by this Select Committee along with its progression to Cabinet and Council.

6 Financial Implications

6.1 The proposals set out in this report are based upon the best assessment of the likely financial position of the Council's HRA for 2018/19 to 2023/24. Prudent assessments have been included within these estimates and the financial impact of any variances is identified in the Risk Assessments undertaken.

6.2 At this time, the HRA balances are deemed sufficient to meet known obligations for the foreseeable future. (John Hoskins)

- 7 Legal Services Comments**
- 7.1 It is a statutory requirement that the Authority set a balanced HRA budget, having due regard to an appropriate level of working balances and giving due consideration to the risks involved. (Colin Brittain)
- 8 Co-operative Agenda**
- 8.1 The HRA budget has been prepared so that resources are utilised to support the aims, objectives and co-operative ethos of the Council.
- 9 Human Resources Comments**
- 9.1 None.
- 10 Risk Assessments**
- 10.1 The HRA budget set out in this report is based on the best assessment of the likely financial position of the HRA in 2018/19 to 2023/24. Attached at Appendix C is a risk register as at January 2019. Forecasting remains challenging and there are a number of key issues that, should they change, affect the proposed budget.
- 11 IT Implications**
- 11.1 None.
- 12 Property Implications**
- 12.1 None.
- 13 Procurement Implications**
- 13.1 None.
- 14 Environmental and Health & Safety Implications**
- 14.1 There are non-specific at this stage.
- 15 Equality, community cohesion and crime implications**
- 15.1 Continuation of a robust consultation process open to all tenants and tenants representatives will ensure maximum engagement and provide the opportunity for the views of all groups to be considered in setting the HRA budget and the provision of services to tenants.
- 16 Equality Impact Assessment Completed?**
- 16.1 Not Applicable
- 17 Key Decision**
- 17.1 Yes
- 18 Key Decision Reference**
- 18.1 FCR-14-18

19 Background Papers

- 19.1 The following is a list of the background papers on which this report is based in accordance with the requirements of Section 100(1) of the Local Government Act 1972. It does not include documents, which would disclose exempt or confidential information as defined by that Act.

File Ref: Background papers are attached as Appendices A to D

HOUSING REVENUE ACCOUNT

2019/20 – 2023/24 RISK ASSESSMENT AS AT JANUARY 2019

<u>RISK EVENT/ DESCRIPTION</u>	<u>LIKELIHOOD</u>	<u>IMPACT</u>	<u>RESERVE POSITION</u>
1. The void level assumed on dwelling properties increases.	The proposed budget assumes a void rate of 2% on PFI 4 properties and a 3% void rate on PFI 2 properties. These are believed to be realistic estimates at this time; however the full impact of welfare reform from a limit on Housing Benefits could force more tenants out of social housing and increase void levels.	A change in the void percentage of 1% (approximately 21 properties) has the impact, in a full year, of £0.087m.	The loss of income arising from movement in void levels would need to be met from HRA balances. The HRA has sufficient balances to absorb small movements on voids.
2. Impact of changes in rental income collection rates.	The collection of rental income is a key performance indicator and one in which the PFI providers have performed at the highest level. Historically it has been considered a low risk that this collection rate will deteriorate to a level to the point where it has a significant impact on the HRA budget. However, Welfare Reform has the potential to impact on rent collection levels.	Rental income is accounted for within the HRA on a rents receivable not received basis. Continuous monitoring of the levels of uncollected income will help inform the provisions position needed for bad or doubtful debts.	The current HRA bad debt provision is considered to be prudent for the levels of uncollected income currently being held/forecast within the HRA. Balances are considered sufficient to deal with any impending changes to the benefits system
3. Service Charge Recovery	Service charges are currently eligible for Housing Benefits so it is relatively low risk that the majority of service charge costs will be unrecovered. Self-payers may incur some level of difficulty however the percentage of self-payers as part of the overall tenancy profile is relatively small.	In 2019/20 the total level of service charges is budgeted in excess of £0.500m (excluding concierge and court manager costs). Any reduction in this could impact the HRAs ability to maintain and develop new schemes and services.	Tenants failing to pay their service charges will have a detrimental effect on the HRA reserve, although given the high number of tenants on Housing Benefit, the level of collection is still expected to remain high.
4. Extra Care Housing (ECH) Charge Recovery	ECH charges are eligible for Housing Benefits so it is of relatively low risk that the majority of ECH charge costs will be unrecovered. Self-payers may incur some level of difficulty.	In 2019/20 it is expected each qualifying tenant i.e. a tenant within one of the six approved Extra Care Housing Group Schemes, will need to pay approx £950 pa towards	Tenants failing to pay their ECH charge will have a detrimental effect on the reserve, although given the close correlation to Housing Benefit, the levels of

<u>RISK EVENT/ DESCRIPTION</u>	<u>LIKELIHOOD</u>	<u>IMPACT</u>	<u>RESERVE POSITION</u>
	However the percentage of self-payers as part of the overall tenancy profile is relatively small.	ECH charges. Costs of chasing recovery will also need to be considered.	collection are expected to remain high.
5. Rent Restructuring	In October 2013 the DCLG approved a move to CPI plus 1% as the basis of the annual rental increase calculation as opposed to previously using the index of RPI plus 0.5%. The largest inflationary cost increase to the HRA is the uplift in the unitary charge which is linked to RPI. The move to different measures of inflation potentially being applied to income and expenditure, may introduce increased risk exposure to an inflationary pressure in the event that CPI+1% falls below RPI+0.5%.	As of September 2018, the month used for all rent calculations, the difference between the two indices was under 1.0%. The business plan has been modelled on this basis.	The movement in the respective indices will be monitored on an on-going basis, it is however considered that there is sufficient tolerance within the predicted cumulative HRA balances to manage this risk
6. Change in Guidance on the charging of depreciation	The transitional period for how the HRA accounts for depreciation ceases on 31 March 2017 so from 2017/18 onwards there is now a requirement to set aside an amount equal to depreciation into the Major Repairs Reserves (MRR) to cover repairs and maintenance on HRA stock. However all Oldham Council stock of approx. 2,000 properties are covered under PFI contracts whereby the Unitary Charge paid has an element included for repairs and maintenance (R&M). This will mean that if there is a transfer into the MRR The Council will accumulate a high level of reserves that are required as all the R&M has already been paid financed. Despite pressing the MHCLG on the subject, the Council has yet to receive official clarification on this matter. Guidance and advice received to date suggests that the Council has interpreted the policy correctly.	The current forecast amount that would need to be set aside from 2019/20 is approx. £4.9m per annum. This would soon place the HRA in deficit but at the same time create an unrequired MRR.	Continuing advice is being sort from MHCLG, External Auditors and other stock owning Authorities. The position will be reviewed once the guidance has been issued.

<u>RISK EVENT/ DESCRIPTION</u>	<u>LIKELIHOOD</u>	<u>IMPACT</u>	<u>RESERVE POSITION</u>
	The Council is advised that any change from the assumed approach would not become a material issue in the auditing of the accounts for several years.

Report to Overview and Scrutiny Performance & Value for Money Select Committee

Treasury Management Strategy Statement 2019/20

Including the Minimum Revenue Provision Policy Statement, Annual Investment Strategy and Prudential Indicators

Portfolio Holder: Cllr Abdul Jabbar MBE, Deputy Leader and Member for Finance and Corporate Resources

Officer Contact: Anne Ryans, Director of Finance

Report Author: Lee Walsh, Finance Manager

Ext. 6608

24 January 2019

Reason for Decision

To present to Overview and Scrutiny Performance & Value for Money (PVFM) Select Committee, the strategy for 2019/20 Treasury Management activities including the Minimum Revenue Provision Policy Statement, the Annual Investment Strategy and Prudential Indicators together with linkages to the Capital Strategy.

Executive Summary

The report outlines the Treasury Management Strategy for 2019/20 including the Minimum Revenue Provision Policy Statement, Annual Investment Strategy and Prudential Indicators together with linkages to the Capital Strategy.

The Strategy for 2019/20 covers two main areas.

Capital Issues

- The Capital Strategy and the Prudential Indicators
- The Minimum Revenue Provision (MRP) Policy Statement

Treasury Management Issues:

- The Current Treasury Position
- Treasury Indicators which limit the treasury risk and activities of the Council
- Prospects for Interest Rates
- The Borrowing Strategy
- The Policy on Borrowing in Advance of Need
- Debt Rescheduling
- The Investment Strategy
- The Creditworthiness Policy
- The Policy regarding the use of external service providers.

The report therefore outlines the implications and key factors in relation to each of the above Capital and Treasury Management issues and makes recommendations with regard to the Treasury Management Strategy for 2019/20.

Recommendation

That PVFM Select Committee considers the:

- 1 Capital Expenditure Estimates as per paragraph 2.1.2;
- 2 MRP policy and method of calculation as per Appendix 1;
- 3 Capital Financing Requirement (CFR) Projections as per paragraph 2.2.4;
- 4 Projected treasury position as at 31/03/2018 as per paragraph 2.4.4;
- 5 Treasury Limits as per section 2.4;
- 6 Borrowing Strategy for 2019/20 as per section 2.6;
- 7 Annual Investment Strategy as per section 2.10 including risk management and the creditworthiness policy at section 2.11.
- 8 Level of investment in specified and non-specified investments detailed at Appendix 5

Treasury Management Strategy Statement 2019/20 Including the Minimum Revenue Provision Policy Statement, Annual Investment Strategy and Prudential Indicators

1 Background

- 1.1 The Council is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the Treasury Management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in low risk counterparties or instruments commensurate with the Council's low investment risk appetite, providing adequate liquidity initially before considering investment return.
- 1.2 The second main function of the Treasury Management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning to ensure that the Council can meet its capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion any debt previously drawn may be restructured to meet Council risk or cost objectives.
- 1.3 The contribution the treasury management function makes to the authority is critical, as the balance of debt and investment operations ensure liquidity or the ability to meet spending commitments as they fall due, either on day-to-day revenue or for larger capital projects. The treasury operations will see a balance of the interest costs of debt and the investment income arising from cash deposits affecting the available budget. Since cash balances generally result from reserves and balances, it is paramount to ensure adequate security of the sums invested, as a loss of principal will in effect result in a loss to the General Fund Balance.
- 1.4 Whilst any commercial initiatives or loans to third parties will impact on the treasury function, these activities are generally classed as non-treasury activities, (arising usually from capital expenditure), and are separate from the day to day treasury management activities.
- 1.5 Treasury management is defined as:
- “The management of the local authority's borrowing, investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.”
- Source: CIPFA Treasury Management in the Public Service's Code of Practice.*
- 1.6 Revised reporting is required for the 2019/20 reporting cycle due to revisions of the Ministry of Housing, Communities and Local Government (MHCLG) Investment Guidance, the MHCLG Minimum Revenue Provision (MRP) Guidance, the CIPFA Prudential Code and the Chartered Institute of Public Finance and Accountancy (CIPFA) Treasury Management Code. The primary reporting changes include the introduction of a capital strategy, to provide a longer-term focus to the capital plans, and greater reporting requirements surrounding any commercial activity undertaken under the Localism Act 2011. The Council has traditionally prepared a Capital Strategy in line with good practice, however additional disclosures have been added to ensure it is compliant with all the revised guidance and aligns fully with the issued outlined in the Treasury Management Strategy.

1.7 Reporting Requirements – Capital Strategy

- 1.7.1 The CIPFA revised 2017 Prudential and Treasury Management Codes require, for 2019/20, all Local Authorities to prepare an additional report, a capital strategy report, which will provide the following:
- a high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
 - an overview of how the associated risk is managed
 - the implications for future financial sustainability
- 1.7.2 The capital strategy is therefore prepared to ensure that all Council Members are presented with the overall long term capital investment policy objectives and resulting capital strategy requirements, governance procedures and risk appetite.
- 1.7.3 This capital strategy is reported separately from the Treasury Management Strategy Statement; non-treasury investments will be reported through the former. This ensures the separation of the core treasury function under security, liquidity and yield principles, and the policy and commercialism investments, usually driven by expenditure on an asset. Specifically in relation to non-treasury investments, the capital strategy includes, where appropriate:
- The corporate governance arrangements;
 - Any service objectives relating to the investments;
 - The expected income, costs and resulting contribution to support the Councils budget;
 - The debt related to the activity and the associated interest costs;
 - The payback period (MRP policy);
 - For non-loan type investments, the cost against the current market value;
 - The risks associated with each activity.
- 1.7.4 Where a physical asset is being bought, details of market research, advisers used, (and their monitoring), ongoing costs and investment requirements and any credit information will be disclosed, including the ability to sell the asset and realise the investment cash.
- 1.7.5 Should the Council borrow to fund any non-treasury investment, there will be an explanation of why borrowing was required and why the MHCLG Investment Guidance and CIPFA Prudential Code have not been adhered to (note, to date there has been no such borrowing).
- 1.7.6 If any non-treasury investment sustains a loss during the final accounts and audit process, the strategy and revenue implications will be reported through the same procedure as the capital strategy (again, to date there have been no such losses).
- 1.7.7 To demonstrate the proportionality between the treasury operations and the non-treasury operation, high-level comparators are shown throughout this report.

1.8 Treasury Management reporting

- 1.8.1 The Council is currently required to receive and approve, as a minimum, three main treasury reports each year, which incorporate a variety of policies, estimates and actuals.
- a. Prudential and treasury indicators and treasury strategy (this report)
- The first, and most important report is forward looking and covers:

- the capital plans, (including prudential indicators);
- a minimum revenue provision (MRP) policy, (how residual capital expenditure is charged to revenue over time);
- the treasury management strategy, (how the investments and borrowings are to be organised), including treasury indicators; and
- an investment strategy, (the parameters on how investments are to be managed).

b. A mid-year treasury management report

This is primarily a progress report and will update Members on the capital position, amending prudential indicators as necessary, and whether any policies require revision.

c. An annual treasury report

This is a backward looking review document and provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.

1.8.2 The above reports are required to be adequately scrutinised before being recommended to the Council. The Overview and Scrutiny Performance and Value for Money (PVFM) Select Committee scrutinises the Treasury Management Strategy Statement report together with all the other reports which are presented to the annual Budget Council meeting. The Audit Committee, the body charged with the detailed scrutiny of Treasury Management activities will also consider this report and the mid-year and annual review reports.

1.9 Treasury Management Strategy for 2019/20

1.9.1 The strategy for 2019/20 covers two main areas:

1.9.2 Capital issues:

- the capital expenditure plans and the associated prudential indicators;
- the minimum revenue provision (MRP) policy.

1.9.3 Treasury management issues:

- the current treasury position;
- treasury indicators which limit the treasury risk and activities of the Council;
- prospects for interest rates;
- the borrowing strategy;
- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- the policy on use of external service providers.

1.9.4 These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential Code, MHCLG MRP Guidance, the CIPFA Treasury Management Code and MHCLG Investment Guidance.

1.10 Training

- 1.10.1 The CIPFA Code requires the responsible officer to ensure that Members with responsibility for treasury management receive adequate training in treasury management. This especially applies to Members responsible for scrutiny. Training was provided to Cabinet Members and Senior Council Officers on 22 October 2018. The Audit Committee receive regular updates regarding any issues that affect Treasury Management. Further training will be arranged as required.
- 1.10.2 The training needs of treasury management officers are periodically reviewed. The team is staffed by professionally qualified accountants with extensive Local Government finance experience. Team members attend all relevant training courses, workshops and events to ensure that their knowledge and skills are up to date and the Council is in a position to address all new technical developments. They all follow a Continuous Professional Development Plan (CPD) as part their individual accounting body accreditation. The overall responsibility for capital and treasury activities lies with the Council's Section 151 officer who, in accordance with statute, is professionally qualified and is suitably experienced to hold the post.

1.11 Treasury Management Consultants

- 1.11.1 The Council uses Link Asset Services, Treasury solutions as its external treasury management advisors.
- 1.11.2 The Council recognises that responsibility for treasury management decisions remains with the organisation at all times and will ensure that undue reliance is not placed upon the services of our external service providers. All decisions will be undertaken with regards to all available information, including, but not solely, our treasury advisers.
- 1.11.3 It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.
- 1.11.4 Commercial type investments will require specialist advice that Link Asset Services do not provide. Prior to any commercial investments being made external advice will be sought and due diligence will be undertaken.

2 Capital Plans & Prudential Indicators 2019/20 – 2021/22

2.1 Capital Plans

- 2.1.1 The Council's capital expenditure plans are the key driver of Treasury Management activity. The output of the capital expenditure plans is reflected in Prudential Indicators, which are designed to assist Members' overview and confirm capital expenditure plans. These indicators as per the Capital Programme include previous years' actual expenditure, forecast expenditure for this current year 2018/19 and estimates for the next three year period, the timeframe required by CIPFA's guidance.

Capital Expenditure Estimates

- 2.1.2 This first Prudential Indicator is a summary of the Council's capital expenditure plans, both those agreed previously, and those forming part of this budget cycle. The PVFM Select Committee is asked to consider the capital expenditure forecasts included the table below:

Table 1 - Capital Expenditure Estimates

Capital Expenditure	2017/18 Actual £'000	2018/19 Estimate £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
Corporate and Commercial Services *	1,463	14,174	9,212	1,583	1,719
Health and Wellbeing	1,493	0	0	0	0
Health & Adult Social Care					
Community Services	0	1,894	2,682	1,400	400
Economy, Skills and Neighbourhoods	22,058	0	0	0	0
People & Place	0	31,265	54,403	63,081	70,544
Reform	0	216	100	100	700
Funds yet to be allocated	0	306	5,000	3,000	1,500
General Fund Services	25,014	47,855	71,397	69,164	74,863
Housing Revenue Account (HRA)	789	1,097	4,235	1,632	922
HRA	789	1,097	4,235	1,632	922
Commercial Activities / Non-Financial Investments **	0	0	6,180	7,750	6,680
Commercial Activities / Non-Financial Investments	0	0	6,180	7,750	6,680
Total	25,803	48,952	81,812	78,546	82,465

* Excludes commercial activities which are which are included in the Corporate and Commercial Services capital programme

** Relate to areas such as capital expenditure on investment properties, loans to third parties etc.

2.1.3 The capital expenditure shown above excludes other long term liabilities, such as Private Finance Initiative (PFI) and leasing arrangements which already include borrowing instruments. It should be noted that any new expenditure commitments are likely to increase the borrowing requirement.

2.1.4 Table 2 below summarises the above capital expenditure plans and how these plans are being financed by capital or revenue resources. Any shortfall of resources results in a funding need (borrowing).

2.1.5 The borrowing need for capital expenditure in 2019/20 is currently expected to be £24.193m. This will however change if there is a revision to the spending profile of the capital programme.

2.1.6 As at the present time the Council has not invested in any property purchases solely for the generation of additional income. To date the Council's property acquisitions have been undertaken for the regeneration of the borough with income generation a secondary consideration. The commercial activities/non-financial investment in table 1 above from 2019/20 relates to current estimated spend in the capital programme.

Table 2 - Funding of the Capital Programme

Capital Expenditure	2017/18 Actual £'000	2018/19 Estimate £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
General Fund Services	25,014	47,855	71,397	69,164	74,863
HRA	789	1,097	4,235	1,632	922
Commercial Activities			6,180	7,750	6,680
Total	25,803	48,952	81,812	78,546	82,465
Financed by:					
Capital receipts	(6,780)	(5,793)	(19,042)	(4,306)	(8,629)
Capital grants	(10,821)	(16,068)	(34,661)	(25,375)	(17,776)
Revenue	(7,458)	(8)	(67)	(73)	0
HRA Resources	(744)	(88)	(3,849)	(4,033)	(5,822)
Net financing need for the year	0	26,995	24,193	44,759	50,238

2.1.7 All other prudential indicators included within this report are based on the above capital estimates.

2.2 The Council's Borrowing Need - the Capital Financing Requirement (CFR)

2.2.1 The second Prudential Indicator is the Council's CFR. The CFR represents total historic outstanding capital expenditure which has not yet been financed from either revenue or capital resources. It is essentially a measure of the Council's underlying borrowing need. Any capital expenditure above, which has not immediately been financed from cash backed resources, will increase the CFR.

2.2.2 The CFR does not increase indefinitely, as the Council makes 'prudent' provision for debt repayment which broadly reduces indebtedness in line with each asset's life and so charges the economic consumption of capital assets as they are used. The approach to making prudent provision is set out in the MRP Policy Statement at Appendix 1.

2.2.3 The MRP policy for 2019/20 has not been amended since its inclusion at 1.4.2 in Appendix 1 in the 2018/19 Treasury Management Strategy report approved at Council on 28 February 2018.

2.2.4 The CFR includes other long term liabilities (e.g. Private Finance Initiative (PFI) schemes, finance leases etc.). Whilst these arrangements increase the CFR, and therefore the Council's borrowing requirement, such schemes also include a 'loan' facility meaning the Council is not required to make separate borrowing arrangements. The Council currently has a net figure of £235.396m of such schemes within the CFR for 2019/20, decreasing to £213.263m in 2021/22.

Table 3 Capital Financing Requirement (CFR)

	2017/18 Actual £'000	2018/19 Estimate £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000

Movement in CFR	(16,741)	14,491	2,945	22,337	27,480

2.3 Borrowing

2.3.1 The capital expenditure plans set out in section 2.1 to a large extent drive the borrowing estimates included in this report. The Treasury Management function ensures that the Council's cash is organised in accordance with the relevant professional codes, so that sufficient cash is available to meet this service activity and the Council's capital strategy. This will involve both the organisation of the cash flow and, where capital plans require, the organisation of appropriate borrowing facilities. The strategy covers the relevant Treasury and Prudential Indicators, the current and projected debt positions and the Annual Investment Strategy.

Current Borrowing Portfolio Position

2.3.2 The overall treasury management portfolio as at 31 March 2018 and for the position as at 2 January 2019 are shown below for both borrowing and investments.

Table 4 Current Treasury Position

Treasury Investments	Actual 31/03/2018 £'000	Actual 31/03/2018%	Current 02/01/2019 £'000	Current 02/01/2019 %
Banks	20,000	27.16%	26,500	32.03%

2.3.3 The Council's forward projections for borrowing are summarised below. The table shows the actual external debt, the Treasury Management operations, against the underlying capital borrowing need, the CFR, highlighting any over or under borrowing.

2.3.4 Table 5 shows the forecast position of gross borrowing as at 31 March 2019 at £393.992m and an under borrowed position of £125.549m. The PVFM Select Committee is asked to note the expected year end position.

Table 5 Current and Forecast Treasury Portfolio

	2017/18 Actual £'000	Forecast position as at 31/3/19 £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
External Debt					
Debt at 1st April	147,866	147,851	147,849	167,849	200,349
Expected change in debt	(15)	(2)	20,000	32,500	58,500
Other long-term liabilities	263,947	256,115	246,143	235,395	224,125
Expected change in OLTL*	(7,832)	(9,972)	(10,747)	(11,270)	(10,862)

The Capital Financing Requirement	505,049	519,540	522,485	544,822	572,302
Under / (over) borrowing	101,083	125,548	119,240	120,348	100,190

* Other Long Term Liabilities

2.3.5 Table 5 above shows the Council will need to undertake significant additional borrowing in future years if capital programme expenditure matches the anticipated spending profile. The borrowing requirement is a key driver of the borrowing strategy as set out in section 2.6 below. However, the Council has yet to draw down additional borrowing and the timing of the borrowing is being closely monitored. Members will recall that capital spending plans have been reprofiled year on year and it is possible that the trend could be repeated in 2019/20.

2.3.6 Included within the figures in Table 5 is the level of debt relating to commercial activities / non-financial investment this is shown in Table 6 below. This is a new requirement and shows a minimal impact to date on debt of potential investments in commercial activities.

Table 6 Commercial Activities Debt

	2017/18 Actual £'000	Forecast position as at 31/3/19 £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
External Debt for commercial activities / non-financial investments	0	0	1,180	8,930	15,610
Actual Debt at 31 March	147,851	147,849	167,849	200,349	258,849
Percentage of total external debt	0%	0.00%	0.70%	4.46%	6.03%

2.3.7 There are a number of key Prudential Indicators to ensure that the Council operates its activities within well-defined limits. The Council must ensure that gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2019/20 and the following two financial years. This allows some flexibility for limited early borrowing for future years, but ensures that borrowing is not undertaken for revenue or speculative purposes. It is clear from the table above that the Council's gross borrowing position remains within these limits.

2.3.8 The Council has complied with this Prudential Indicator in the current year and does not envisage any difficulties with compliance in the future. This view takes into account current commitments, existing plans, and the proposals set out in this report.

2.4 Treasury Limits for 2019/20 to 2021/22

2.4.1 The Council is required to determine its operational boundary and authorised limit for external debt for the next three financial years.

Operational Boundary

2.4.2 The forecast operational boundary for 2018/19 together with the proposed operational boundaries for 2019/20 to 2021/22 are set out in Table 7 below. The boundary reflects the maximum anticipated level of external debt which is not expected to be exceeded. In most cases, this would be a similar figure to the CFR, but may be lower or higher depending on levels of actual debt and the ability to fund under-borrowing by other cash resources. This boundary will be used as a management tool for ongoing monitoring of external debt, and may be breached temporarily due to unusual cash flow movements. However a sustained or regular trend above the operational boundary should trigger a review of both the operational boundary and the authorised limit.

Table 7 Operational Boundary

Operational boundary	2018/19 Forecast £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
Borrowing	280,000	285,000	312,000	345,000
Other long term liabilities	245,000	235,000	225,000	215,000
Commercial activities / non-financial investments	0	5,000	10,000	15,000
Total	525,000	525,000	547,000	575,000

Authorised Limit

2.4.3 A further key Prudential Indicator, the Authorised Limit controls the maximum level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit may only be determined by the full Council. It reflects the level of external debt which, while not desirable, is affordable in the short term, but is not sustainable in the longer term. This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all Councils' plans, or those of a specific Council, although this power has not yet been exercised.

2.4.4 The PVFM Select Committee is asked to note and comment on the proposed Operational Boundary for each financial year from 2018/19 to 2021/22 as set out in Table 7 above and Authorised Limit as set out in Table 8 below:

Table 8 Authorised Limit

Authorised Limit	2018/19 Forecast £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
Borrowing	290,000	290,000	317,000	350,000
Other long term liabilities	250,000	240,000	230,000	220,000
Commercial activities / non-financial investments	0	15,000	15,000	15,000
Total	540,000	545,000	562,000	585,000

2.4.5 The graphs below disclose how the two indicators above, the Operational Boundary and the Authorised Limit compare to actual external debt and the CFR.

Table 9 Estimate Capital Financing Requirement

Capital Financing Requirement (CFR) including PFI and finance leases	Actual 2017/18 £m	2018/19 Estimate £m	2019/20 Estimate £m	2020/21 Estimate £m	2021/22 Estimate £m
General Fund CFR	505.0	520.0	517.0	535.0	562.0
Commercial activity / non-financial investments	0.0	0.0	5.0	10.0	10.0
Total CFR	505.0	519.5	522.5	544.8	572.3
External Borrowing	147.9	147.8	167.8	200.3	258.8
Other long term liabilities	256.1	246.1	235.4	224.1	213.3
Total Debt	404.0	394.0	403.2	424.5	472.1
Operational Boundary	530.0	525.0	525.0	547.0	575.0
Authorised Limit	545.0	540.0	545.0	562.0	585.0

2.5 Prospects for Interest Rate

2.5.1 The Council has appointed Link Asset Services as its Treasury Adviser and part of its service is to assist the Council to formulate a view on interest rates. The table below gives Link Asset Services central view of interest rates from December 2018 to March 2019.

Table 10 Interest Rate Forecast

Timeline	Bank Rate	PWLB Borrowing Rates %			
	%	5 year	10 year	25 year	50 year
March 2019	0.75	2.10	2.50	2.90	2.70
June 2019	1.00	2.20	2.60	3.00	2.80
September 2019	1.00	2.20	2.60	3.10	2.90
December 2019	1.00	2.30	2.70	3.10	2.90
March 2020	1.25	2.30	2.80	3.20	3.00
June 2020	1.25	2.40	2.90	3.30	3.10
September 2020	1.25	2.50	2.90	3.30	3.10
December 2020	1.50	2.50	3.00	3.40	3.20
March 2021	1.50	2.60	3.00	3.40	3.20
June 2021	1.75	2.60	3.10	3.50	3.30
September 2021	1.75	2.70	3.10	3.50	3.30
December 2021	1.75	2.80	3.20	3.60	3.40
March 2022	2.00	2.80	3.20	3.60	3.40

- 2.5.2 The flow of generally positive economic statistics after the quarter ended 30 June meant that it came as no surprise that the Monetary Policy Committee (MPC) came to a decision on 2 August to make the first increase in Bank Rate above 0.5% since the financial crash, from 0.5% to 0.75%.
- 2.5.3 Growth has been healthy since that meeting, but is expected to weaken somewhat during the last quarter of 2018. At its November meeting, the MPC left Bank Rate unchanged, but expressed some concern at the Chancellor's fiscal stimulus in his Budget, which could increase inflationary pressures.
- 2.5.4 However, it is unlikely that the MPC would increase Bank Rate in February 2019, ahead of the deadline in March for Brexit. The next increase in Bank Rate is therefore forecast to be in May 2019, followed by increases in February and November 2020, before ending up at 2.0% in February 2022.
- 2.5.5 The overall longer run future trend is for gilt yields, and consequently Public Works Loan Board (PWLB) rates, to rise, albeit gently. However, over about the last 25 years, there has been a period of falling bond yields as inflation subsided to, and then stabilised at, much lower levels than before, and supported by central banks implementing substantial quantitative easing purchases of Government and other debt after the financial crash of 2008.
- 2.5.6 Quantitative easing, conversely, also caused a rise in equity values as investors searched for higher returns and purchased riskier assets. In 2016, there was the start of a reversal of this trend with a sharp rise in bond yields after the US Presidential election in November 2016, with yields then rising further as a result of the big increase in the US Government deficit aimed at stimulating even stronger economic growth.
- 2.5.7 That policy change also created concerns around a significant rise in inflationary pressures in an economy which was already running at remarkably low levels of unemployment. Unsurprisingly, the US Federal Reserve (Fed) has continued on its series of robust

responses to combat its perception of rising inflationary pressures by repeatedly increasing the Fed rate to reach 2.00 – 2.25% in September 2018.

- 2.5.8 It has also continued its policy of not fully reinvesting proceeds from bonds that it holds as a result of quantitative easing, when they mature. US 10 year bond Treasury yields rose above 3.2% during October 2018 and investors have caused a sharp fall in equity prices as they sold out of holding riskier assets.
- 2.5.9 Rising bond yields in the US have also caused some upward pressure on bond yields in the UK and other developed economies. However, the degree of that upward pressure has been dampened by how strong or weak the prospects for economic growth and rising inflation are in each country, and on the degree of progress towards the reversal of monetary policy away from quantitative easing and other credit stimulus measures.
- 2.5.10 From time to time, gilt yields, and therefore PWLB rates, can be subject to exceptional levels of volatility due to geo-political, sovereign debt crisis, emerging market developments and sharp changes in investor sentiment. Such volatility could occur at any time during the forecast period.
- 2.5.11 Economic and interest rate forecasting remains difficult with so many external influences weighing on the UK. The above forecasts, (and MPC decisions), will be liable to further amendment depending on how economic data and developments in financial markets transpire over the next year.
- 2.5.12 Geopolitical developments, especially in the EU, could also have a major impact. Forecasts for average investment earnings beyond the three-year time horizon will be heavily dependent on economic and political developments.

Investment and borrowing rates

- 2.5.13 Investment returns are likely to remain low during 2019/20 but to be on a gently rising trend over the next few years.
- 2.5.14 Borrowing interest rates have been volatile so far in 2018/19 and have increased modestly since the summer. The policy of avoiding new borrowing by running down spare cash balances has served well over the last few years. However, this needs to be carefully reviewed to avoid incurring higher borrowing costs in the future when Authorities may not be able to avoid new borrowing to finance capital expenditure and/or the refinancing of maturing debt. The Council will be mindful of this in considering its borrowing arrangements.
- 2.5.15 There will remain a cost of carry (the difference between higher borrowing costs and lower investment returns), to any new long-term borrowing that causes a temporary increase in cash balances as this position will, most likely, incur a revenue cost.

2.6 Borrowing strategy

2.6.1 The factors that influence the 2019/20 strategy are:

- The movement in CFR as set out in Table 3 above;
- Forthcoming 'Option' dates on £44m of Lender Option Borrower Option loans (LOBO's) in 2019/20;
- The interest rate forecasts (set out in Table 10 above);
- Aiming to minimise revenue costs to reduce the impact on the Council Tax Requirement;
- The impact of the Council's Capital and Property Investment Programmes.

- 2.6.2 The Council is currently maintaining an under-borrowed position. This means that the CFR has not been fully funded with loan debt as cash supporting the Council's reserves, balances and cash flow has been used as a temporary measure. This strategy is prudent as investment returns are low and counterparty risk is still an issue that needs to be considered. However, as interest rates are low, as advised in 2.5.13-15 consideration will be given to taking advantage of this by securing fixed rate funding and reducing the under borrowed position.
- 2.6.3 Against this background and the risks within the economic forecast, caution will be adopted with the 2019/20 treasury operations. The Treasury Management team will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances so that:
- if it was considered that there was a significant risk of a sharp fall in long and short term rates (e.g. due to a marked increase of risks around relapse into recession or of risks of deflation), then long term borrowing will be postponed, and potential rescheduling from fixed rate funding into short term borrowing will be considered.
 - if it was considered that there was a significant risk of a much sharper rise in long and short term rates than that currently forecast, perhaps arising from an acceleration in the start date and in the rate of increase in central rates in the USA and UK, an increase in world economic activity or a sudden increase in inflation risks, then the portfolio position will be re-appraised. The likely action would be that fixed rate funding will be drawn whilst interest rates are still lower than they will be in the next few years.
- 2.6.4 The gross borrowing requirement in Table 5 at 2.3.4 above shows, based on current estimates, that the Council will need to drawdown a significant amount of new borrowing, to support the capital programme. Any additional borrowing will be completed with regard to the limits, indicators and interest rate forecasts set out above. As noted previously, estimates of borrowing have changed in previous years due to the reprofiling of the capital programme.
- 2.6.5 During 2019/20, £44m of LOBO (Lender Option Borrower Option) debt will reach the option renewal date. Table 11 below, sets out the maturity structure of fixed rate debt. At the renewal date the loans will either:
- Move to the option rate of interest, which in all cases will be the same as the current rate or:
 - Be offered at a rate above the option rate, in which case the Council has the option to repay. This would then require refinancing at the prevailing market rates.

Table 11 Maturity Structure of Fixed Rate Debt

Maturity Structure of fixed interest rate debt	2019/20 Actual
under 12 months	29.94%
12 months and within 24 months	10.31%
24 months and within 5 years	22.39%
5 years and within 10 years	5.07%
10 years to 20 years	5.24%
20 years to 30 years	0.00%
30 years to 40 years	3.38%
40 years to 50 years	10.15%
50 years to 60 years	13.53%
60 years and above	0.00%

- 2.6.6 Due to the current interest rate forecast it is not anticipated that any of these LOBO loans will be called.
- 2.6.7 The 2019/20 capital programme now shows anticipated prudential borrowing of £119.190m with £24.193m in 2019/20, £44.759m in 2020/21 and £50.238m in 2021/22. These figures have been reflected in this report and factored into the borrowing strategy for 2019/20 and future years.
- 2.6.8 Members are advised that indicators for interest rate exposure are no longer a requirement under the new Treasury Management Code however as interest rate exposure risk is an important issue. Officers will monitor the balance between fixed and variable interest rates for borrowing and investments. This will aim to ensure the Council is not exposed to adverse fluctuations in fixed or variable rate interest rate movements.
- 2.6.9 This is likely to reflect higher fixed interest rate borrowing if the borrowing need is high or fixed interest rates are likely to increase, or a higher variable rate exposure if fixed interest rates are expected to fall. Conversely if shorter term interest rates are likely to fall, investments may be fixed earlier, or kept shorter if short term investments are expected to rise.
- 2.6.10 The balance between variable rate debt and variable rate investments will be monitored as part of the overall treasury function in the context of the overall financial instruments structure and any under or over borrowing positions.
- 2.7 Policy on Borrowing in Advance of Need
- 2.7.1 The Council will not borrow more than or in advance of its needs, purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved CFR estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds.
- 2.7.2 Borrowing in advance will be made within the constraint that the Council would not look to borrow more than 24 months in advance of need.
- 2.7.3 Risks associated with any borrowing in advance of activity will be subject to prior appraisal and subsequent reporting through the mid-year or annual reporting mechanism.

2.8 Debt Rescheduling

- 2.8.1 As short term borrowing rates are considerably lower than longer term fixed interest rates, there may be potential opportunities to generate savings by switching from long term debt to short term debt. However, these savings will need to be considered in the light of the prevailing treasury position and the size of the cost of debt repayment (premiums incurred).
- 2.8.2 The reasons for any rescheduling to take place will include:
- the generation of cash savings and/ or discounted cash flow savings;
 - helping to fulfil the treasury strategy;
 - enhancing the balance of the portfolio (amending the maturity profile and/or the balance of volatility).
- 2.8.3 Consideration will also be given to identifying if there is any residual potential for making savings by reducing investment balances to repay debt prematurely as short term rates on investments are likely to be lower than rates paid on current debt.
- 2.8.4 All re-scheduling will be reported to Cabinet and Council at the earliest meeting following its action.

2.9 Local Capital Finance Company (originally Municipal Bond Agency)

- 2.9.1 It is possible that Local Capital Finance Company will be offering loans to Local Authorities in the future. It is also hoped that the borrowing rates will be lower than those offered by the Public Works Loan Board (PWLB).
- 2.9.2 The Council has currently invested £0.100m in the Company and intends to make use of this new source of borrowing as and when appropriate.

2.10 Annual Investment Strategy

Investment Policy – Management of Risk

- 2.10.1 The MHCLG and CIPFA have extended the meaning of ‘investments’ to include both financial and non-financial investments. This report deals solely with financial investments, (as managed by the treasury management team). Non-financial investments, essentially the purchase of income yielding assets, are covered in the Capital Strategy.

The Council's investment policy has regard to the following: -

- MHCLG's Guidance on Local Government Investments (“the Guidance”)
- CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes 2017 (“the Code”)
- CIPFA Treasury Management Guidance Notes 2018

- 2.10.2 The Council's investment priorities will be:

- firstly, the security of capital;
- secondly, the liquidity of its investments;
- thirdly, the optimum return on its investments commensurate with proper levels of security and liquidity;
- finally, ethical investments.

- 2.10.3 The above guidance from the MHCLG and CIPFA place a high priority on the management of risk. This authority has adopted a prudent approach to managing risk and defines its risk appetite by the following means: -

- Minimum acceptable credit criteria are applied in order to generate a list of highly creditworthy counterparties. This also enables diversification and thus avoidance of concentration risk. The key ratings used to monitor counterparties are the short term and long-term ratings.
- Other information: ratings will not be the sole determinant of the quality of an institution; it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To achieve this consideration the Council will engage with its advisors to maintain a monitor on market pricing such as “credit default swaps” and overlay that information on top of the credit ratings.
- Other information sources used will include the financial press, share price and other such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.

2.10.4 This Council has defined the list of types of investment instruments that the treasury management team are authorised to use. There are two lists in Appendix 5 under the categories of ‘specified’ and ‘non-specified’ investments.

- Specified investments are those with a high level of credit quality and subject to a maturity limit of one year.
- Non-specified investments are those with less high credit quality, may be for periods in excess of one year, and/or are more complex instruments which require greater consideration by members and officers before being authorised for use.

2.10.5 For non-specified investments, the Council has determined that it will limit the maximum total exposure to non-specified investments as being 50% of the total investment portfolio.

2.10.6 Lending limits, (amounts and maturity), for each counterparty will be set through applying the matrix table in paragraph 2.11.3.

2.10.7 Transaction limits are set for each type of investment in 2.11.3.

2.10.8 The Council has set a limit for the amount of its investments which are invested for longer than 365 days, (see paragraph 2.13.7.)

2.10.9 Investments will only be placed with counterparties from countries with a specified minimum sovereign rating, (see paragraph 2.12.3) and Appendix 6.

2.10.10 The Council has engaged external consultants, (see paragraph 1.11), to provide expert advice on how to optimise an appropriate balance of security, liquidity and yield, given the risk appetite of this Authority in the context of the expected level of cash balances and need for liquidity throughout the year.

2.10.11 All investments will be denominated in sterling.

2.10.12 As a result of the change in accounting standards for 2018/19 under IFRS 9, consideration will be given to the implications of investment instruments which could result in an adverse movement in the value of the amount invested and resultant charges at the end of the year to the General Fund. (In November 2018, MHCLG concluded a consultation for a temporary

override to allow English Local Authorities time to adjust their portfolio of all pooled investments by announcing a statutory override to delay implementation of IFRS 9 for five years commencing from April 2018).

2.10.13 However, the Council will also pursue value for money in treasury management and will monitor the yield from investment income against appropriate benchmarks for investment performance, (see paragraph 2.14). Regular monitoring of investment performance will be carried out during the year.

2.10.14 The above risk management criteria are unchanged from last year.

2.11 Creditworthiness policy

2.11.1 Oldham Council applies the creditworthiness service provided by Link Asset Services. This service employs a sophisticated modelling approach utilising credit ratings from the three main credit rating agencies - Fitch, Moodys and Standard and Poor. The credit ratings of counterparties are supplemented with the following overlays:

- credit watches and credit outlooks from credit rating agencies;
- Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

2.11.2 This modelling approach combines credit ratings, credit watches and credit outlooks in a weighted scoring system which is then combined with an overlay of CDS spreads for which the end product is a series of colour coded bands which indicate the relative creditworthiness of counterparties. These colour codes are used by the Council to determine the duration and maximum investment value for each counterparty.

2.11.3 Institutions are split into colour bandings and the Council will therefore use counterparties within these colours, durational bands and investment limits. Table 12 below shows these limits.

Table 12 Investment Criteria

Counter Party	Link Colour Band and Long Term Rating where applicable	Maximum Duration	Maximum Principal Invested per Counterparty
Banks	Yellow (Note 1)	5 Years	£10m
Banks	Dark Pink (Note 2)	5 Years	£10m
Banks	Light Pink (Note 3)	5 Years	£10m
Banks	Purple	2 Years	£20m
Banks	Blue (Note 4)	1 Year	£20m
Banks	Orange (Note 5)	1 Year	£15m
Banks	Red	6 months	£10m
Banks	Green	100 days	£10m
Banks	No Colour	Not to be used	Not to be used
Local Authorities/ Public Bodies	Internal Due Diligence	5 Years	£10m
GMCA	Internal Due Diligence (Note 6)	5 Years	£30m
Debt Management Account Deposit Facility (DMADF)	UK Sovereign rating	6 months	£20m
	Fund Rating	Maximum Duration	Maximum Principal Invested per Counterparty
Money Market Fund			
Constant	AAA	Liquid	£20m
Low Volatile	AAA	Liquid	£20m
Variable	AAA	Liquid	£20m

Note 1 – UK Government debt or equivalent

Note 2 – Enhanced money market funds (EMMF) with a credit score of 1.25

Note 3 – Enhanced money market funds (EMMF) with a credit score of 1.5

Note 4 – Blue Institutions only applies to nationalised or semi nationalised UK Banks, which currently include the RBS Group (Royal Bank of Scotland, NatWest Bank and Ulster Bank).

Note 5 - Includes the Council's banking provider (currently Barclays), if it currently falls into category below this colour band.

Note 6 – The higher maximum principal is to facilitate joint initiatives and activities related to the devolution agenda.

2.11.4 The Link Asset Services creditworthiness service uses a wider array of information than just primary ratings and by using a risk weighted scoring system, does not give undue preponderance to just one agency's ratings.

2.11.5 Typically the minimum credit ratings criteria the Council uses will be a Short Term rating (Fitch or equivalents) of F1 and a Long Term rating of A-. There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but

may still be used. In this instance consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

2.11.6 All credit ratings will be monitored on a weekly basis. The Council is alerted to changes to ratings of all three agencies through its use of the Link Asset Services creditworthiness service.

- If a downgrade results in the counterparty / investment scheme no longer meeting the Council's minimum criteria, its further use as a new investment will be withdrawn or notice given to withdraw immediately.
- In addition to the use of credit ratings the Council will be advised of information in movements in the Credit Default Swap Index against the iTraxx benchmark and other market data on a daily basis via its Passport website, provided exclusively to it by Link Asset Services. Extreme market movements may result in the downgrading of an institution or its removal from the Council's lending list.

2.11.7 Sole reliance will not be placed on the use of this external service. In addition the Council will also use market data and market information, information on any external support banks to help support the decision making process.

UK banks – ring fencing

2.11.8 The largest UK banks, (those with more than £25bn of retail / Small and Medium-sized Enterprise (SME) deposits), are required, by UK law, to separate core retail banking services from their investment and international banking activities by 1 January 2019. This is known as "ring-fencing". Whilst smaller banks with less than £25bn in deposits are exempt, they can choose to opt up. Several banks are very close to the threshold already and so may come into scope in the future.

2.11.9 Ring-fencing is a regulatory initiative created in response to the global financial crisis. It mandates the separation of retail and SME deposits from investment banking, in order to improve the resilience and resolvability of banks by changing their structure. In general, simpler, activities offered from within a ring-fenced bank, (RFB), will be focused on lower risk, day-to-day core transactions, whilst more complex and "riskier" activities are required to be housed in a separate entity, a non-ring-fenced bank, (NRFB). This is intended to ensure that an entity's core activities are not adversely affected by the acts or omissions of other members of its group.

2.11.10 While the structure of the banks included within this process may have changed, the fundamentals of credit assessment have not. The Council will continue to assess the new-formed entities in the same way that it does others and those with sufficiently high ratings, (and any other metrics considered), will be considered for investment purposes.

2.12 Country and Sector Limits

2.12.1 It is not proposed to restrict the Council's investment policy to only UK banks and building societies, however in addition to the credit rating criteria set out above consideration will be given to the sovereign rating of the country before any investment is made.

2.12.2 In February 2013 the UK lost its AAA rating and moved to an AA rating. The Council will continue to invest with UK Banks, providing the individual institutions still meet the relevant criteria.

2.12.3 The Council has determined that it will only use approved counterparties from non UK countries with a minimum sovereign credit rating of AAA from Fitch (or equivalent). The list of countries that qualify using this credit criteria as at the date of this report are shown in Appendix 6. This list will be added to, or deducted from, by officers should ratings change in accordance with this policy, therefore for illustrative purposes the appended list is extended to also show AA- i.e. the countries currently assessed to be in the rating below those that currently qualify. It is important to note that although able to, the Council has chosen not to invest overseas in recent years.

2.13 Investment Strategy

2.13.1 Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months). Greater returns are usually obtainable by investing for longer periods. While most cash balances are required to manage the ups and downs of cash flow, any cash identified that could be invested for longer periods will be carefully assessed.

- If it is thought that bank rate is likely to rise significantly within the time horizon being considered, then consideration will be given to keeping most investments as being short term or variable.
- Conversely, if it is thought that bank rate is likely to fall within that time period, consideration will be given to locking in higher rates currently obtainable, for longer periods.

2.13.2 The Council currently has investments totalling £14m which span the financial year as shown in Table 13. These investments are current as at December 2018.

Table 13 Investments maturing in 2019/20

Counterparty	Amount	Maturity Date	Rate
Surrey Heath Borough Council	£1,000,000	17/04/2019	0.90%
Goldman Sachs International Bank	£3,000,000	01/05/2019	0.95%
Thurrock Council	£2,500,000	26/09/2019	1.07%
Thurrock Council	£2,500,000	04/10/2019	1.07%
North Tyneside Council	£5,000,000	10/10/2019	1.07%
Total	£14,000,000		

2.13.3 The Bank Rate is forecast to increase steadily but slowly over the next few years to reach 2.00% by quarter 1 2022. Bank rates forecasts for financial year ends are:

- 2018/19 0.75%
- 2019/20 1.25%
- 2020/21 1.50%
- 2021/22 2.00%

2.13.4 The suggested budgeted investment earnings rates for returns on investments placed for periods up to 100 days during each financial year are as follows.

- 2018/19 0.75%
- 2019/20 1.00%

- 2020/21 1.50%
- 2021/22 1.75%
- 2022/23 1.75%
- 2023/24 2.00%
- 2024/25 2.50%

2.13.5 The overall balance of risks to economic growth in the UK is probably neutral.

2.13.6 The balance of risks to increases in bank rate and shorter term PWLB rates, are also even and are dependent on how strong Gross Domestic Product (GDP) growth turns out, how slowly inflation pressures subside and how quickly the Brexit negotiations move forward positively.

Investment Treasury Indicator and Limit

2.13.7 This indicator considers total principal funds invested for greater than 365 days. These limits have regard to the Council's liquidity requirements and to reduce the need for the early redemption of investments, and are based on the availability of funds after each year end.

Table 14 – Maximum principal sum invested greater than 365 days

Upper Limit for principal sums invested for longer than 365 days	2019/20 Estimate	2020/21 Estimate	2021/22 Estimate	2022/23 Estimate
Principal sums invested for longer than 365 days	£50m	£50m	£50m	£50m
Current investments as at 2 January 2019 in excess of 1 year	£15m	£15m	£15m	£15m

2.13.8 For its cash flow generated balances, the Council will seek to utilise its business reserve instant access and notice accounts, money market funds and short dated deposits, in order to benefit from the compounding of interest.

2.14 Investment Risk Benchmarking

2.14.1 These benchmarks provide simple guides to maximum risk, and may be breached from time to time, depending on movements in interest rates and counterparty criteria. These benchmarks provide officers with a baseline against which current and trend positions can be monitored. It may be necessary to amend the operational strategy to manage risk as conditions change. Any breach of the benchmarks will be reported, with supporting reasons in the mid-year or Annual Report to Members.

Liquidity – in respect of this area the Council seeks to maintain:

- Bank overdraft facility of £0.100m
- Liquid short term deposits of at least £10m available with a week's notice.

Yield - local measures of yield benchmarks are:

- Investments – internal returns above the 7 day LIBID (London Interbank Bid Rate) rate multiplied by 5%
- Investments – internal returns above the 1 month LIBID rate multiplied by 5%
- Investments – internal returns above the 3 month LIBID rate multiplied by 5%
- Investments – internal returns above the 6 month LIBID rate multiplied by 5%
- Investments – internal returns above the 12 month LIBID rate multiplied by 5%

2.14.2 At the end of the financial year, the Council will report on its investment activity as part of its Annual Treasury Report, which is in accordance with required practice and is presented to Cabinet and then Council for approval.

2.15 Other Treasury Management Issues

2.15.1 The Council is currently involved in legal action against Barclays Bank with regards to certain Lender Option Borrower Option (LOBO) transactions. This is based on the Bank's involvement in manipulation of the LIBOR benchmark rate and the subsequent impact on the Council's financial position. This matter is on-going.

2.15.2 Brexit

The Council is mindful of the Brexit timetable and will ensure that treasury activity is managed to minimise any risk to the Council as 29 March 2019 approaches.

3 Options/Alternatives

3.1 In order to comply with the CIPFA Code of Practice on Treasury Management, the Council has no option other than to consider and approve the contents of the report. Therefore no options/alternatives have been presented.

4 Preferred Option

4.1 The preferred option is that the contents of this report are considered by the PVFM Select Committee.

5 Consultation

5.1 There has been consultation with Link Asset Services, Treasury Management Advisors. The consideration of the Treasury Management Strategy for 2019/20 by the Overview and Scrutiny Performance and Value for Money Select Committee is a key strand in the consultation process.

6 Financial Implications

6.1 Financial Implications are detailed within the report.

7 Legal Services Comments

7.1 There are no legal implications.

8 Co-operative Agenda

8.1 The Treasury Management strategy embraces the Council's cooperative agenda. The Council will develop its investment framework to ensure it complements the co-operative ethos of the Council.

9 Human Resources Comments

9.1 There are no Human Resource Implications.

10 Risk Assessments

- 10.1 There are considerable risks to the security of the Authority's resources if appropriate Treasury Management strategies and policies are not adopted and followed. The Council has established good practice in relation to Treasury Management which has previously been acknowledged in the Internal and External Auditors' reports presented to the Audit Committee. An issue dependent upon market developments which may need to be considered in the future is refinancing some of the long term loans. This can be mitigated by effective monitoring of the market.

11 IT Implications

- 11.1 There are no IT Implications

12 Property Implications

- 12.1 There are no Property Implications.

13 Procurement Implications

- 13.1 There are no Procurement Implications.

14 Environmental and Health & Safety Implications

- 14.1 There are no Environmental and Health & Safety Implications.

15 Equality, community cohesion and crime implications

- 15.1 There are no Equality, community cohesion and crime implications.

16 Equality Impact Assessment Completed?

- 16.1 No

17 Key Decision

- 17.1 Yes

18 Key Decision Reference

- 18.1 FCR -17 -18

19 Background Papers

- 19.1 The following is a list of background papers on which this report is based in accordance with the requirements of Section 100(1) of the Local Government Act 1972. It does not include documents which would disclose exempt or confidential information as defined by the Act:

File Ref: Background papers are provided in Appendices 1 - 8
Officer Name: Lee Walsh / Talei Whitmore
Contact No: 0161 770 6608/ 4924

20 **Appendices**

- Appendix 1 Minimum Revenue Provision (MRP) Policy Statement
- Appendix 2 Prudential and Treasury Indicators 2019/20 – 2021/22
- Appendix 3 Link Asset Services - Treasury Advisor's Interest Rate Forecast 2018-2021
- Appendix 4 Economic Background
- Appendix 5 Treasury Management Practice (TMP1) – Credit and Counterparty Risk Management
- Appendix 6 Approved Countries for Investments
- Appendix 7 Treasury Management Scheme of Delegation
- Appendix 8 Treasury Management Role of the Statutory Chief Finance Officer (Director of Finance)

Appendix 1 – Minimum Revenue Provision (MRP) Policy Statement

1.1 General Principles and Practices

1.1.1 Local Authorities are required to set aside ‘prudent’ provision for debt repayment where they have used borrowing or credit arrangements to finance capital expenditure. Ministry for Housing, Communities and Local Government (MHCLG) regulations require the full MRP Statement to be decided upon at least annually and reported to the Council Meeting. The Council has to ensure that the chosen options are prudent.

1.2 Link to Asset Life/Economic Benefit

1.2.1 Where capital expenditure on an asset is financed wholly or partly by borrowing or credit arrangements, MRP will normally be determined by reference to asset life, economic benefit or MHCLG Guidance.

1.2.2 To the extent that expenditure cannot be linked to the creation/enhancement of an asset and is of a type that is subject to estimated life periods that are referred to in the MHCLG guidance (paragraph 24), these periods will generally be adopted by the Council.

1.2.3 Where certain types of capital expenditure incurred by the Council are not capable of being related to an individual asset, asset lives will be assessed on a basis which most reasonably reflects the anticipated period of benefit that arises from the expenditure.

1.2.4 Whatever type of expenditure is involved, it will be grouped together in a manner which reflects the nature of the main component of expenditure and will only be divided up in cases where there are two or more major components with substantially different useful economic lives.

1.3 Methods for Calculating MRP

1.3.1 Any of the methods for calculating MRP that are set out below may be used. MRP will commence in the financial year after the completion of assets rather than when expenditure is incurred. All methods, with the exception of the approach taken to Previously Supported General Fund Borrowing are based on Asset Life/Economic Benefit. These methods include but are not limited to:

The Annuity Method

1.3.2 This calculation seeks to ensure the revenue account bears an equal annual charge (for principal and interest) over the life of the asset by taking account of the time value of money. Since MRP relates only to ‘principal’, the amount of provision made annually gradually increases during the life of the asset. The interest rate used in annuity calculations will be referenced to either prevailing or average PWLB rates.

Equal Instalments of Principal

1.3.3 MRP is an equal annual charge calculated by dividing the original amount of borrowing by the useful life of the asset.

Previously Supported General Fund Borrowing

1.3.4 General Fund Borrowing that was previously supported through the Revenue Support Grant (RSG) system will be provided for in equal annual instalments over a 50 year period commencing 1 April 2016. As at 1 April 2016, the value of this borrowing equalled £134,376,866 and results in an equal annual minimum revenue provision of £2,742,385; the final instalment of which will be provided for by no later than 31 March 2066. In the event of:

- transfers of Capital Financing Requirement between the General Fund element and Housing element;
- additional voluntary revenue provision being made

the annual MRP charge will be adjusted to ensure that full provision will continue to be made by no later than 31 March 2066.

Bespoke Repayment Profiles:

1.3.5 With regard to credit arrangements that are implicit in Finance Lease or PFI arrangements, any 'debt' repayment element (notional or otherwise) included in charges associated with these arrangements will be classified as MRP.

1.4 Voluntary Revenue Provision

1.4.1 The Council has the option of making additional Voluntary Revenue Provision (VRP) in addition to MRP. The Council may treat VRP as 'up-front' provision (having a similar impact to the early repayment of debt) and thus recalculate future MRP charges accordingly. Where the Council has made additional VRP's for debt repayment in previous years, in year MRP charges may be adjusted to reflect this provided it does not result in a negative MRP charge. To the extent charges are adjusted, current and future year's charges will be recalculated to ensure the Council continues to make prudent provision for debt repayment in relation to historic capital expenditure. The Council may in some circumstances apply VRP to relatively short-life assets/expenditure in order to facilitate a reduction in the future base revenue budget needed to fund capital financing costs.

1.5 Local Exceptions to the Guidance

1.5.1 The Council reserves the right to determine useful life periods and prudent MRP in certain circumstances or where the recommendations of the MHCLG guidance are not appropriate to local circumstances. Examples include:

Assets under Construction

1.5.2 No MRP charge will be made until the financial year after that in which an item of capital expenditure is fully incurred and, in the case of a new asset, comes into service use.

Local Authority Mortgage Scheme (LAMS)

- 1.5.3 The Council currently operates a Local Authority Mortgage Scheme (LAMS) using the cash backed option. The mortgage lenders require a five year deposit from the Local Authority to match the five year life of the indemnity. The deposit placed with the mortgage lender provides an integral part of the mortgage lending and is treated as capital expenditure and a loan to a third party. The CFR will increase by the amount of the total indemnity. The cash advance is due to be returned in full at maturity, with interest paid annually. Once the cash advance matures and funds are returned to the Local Authority, the returned funds are classed as a capital receipt, which will be applied to reduce the CFR. As this is a temporary (five years) arrangement and the funds will be returned in full, there is no need to set aside MRP to repay the debt liability in the interim period.

Loans to third parties

- 1.5.4 The Council has considered the Statutory Guidance, which recommends a 25 year repayment charge for loans to third parties, and concluded that provision is not necessary. The Council considers an MRP charge is not necessary in respect of any loans made to third parties as the debt liability is covered by the existence of a debtor and the associated obligation to make repayments.

1.6 Borrowing in Lieu of Capital Receipts

- 1.6.1 The Council has concluded that MRP provision is not necessary for capital expenditure incurred in lieu of capital receipts. Any such schemes will be classified by the Capital Investment Programme Board (CIPB) as 'Borrowing in Lieu of Capital Receipts'. CIPB will also determine which capital receipts will be allocated to the scheme and as the receipts are achieved they will be applied to repay the debt.

The Application of Capital Receipts in Lieu of MRP

- 1.6.2 Where the Council has received uncommitted and unapplied Capital Receipts, it retains the option to set aside those Capital Receipts as part of its arrangements for making 'prudent' provision for debt repayment rather than using them for capital financing purposes.
- 1.6.3 As Capital Receipts may form part of the Councils arrangements for making 'prudent' provision, setting aside Capital Receipts in this manner can be carried out in lieu of MRP whereby the MRP charge will be reduced by an amount equal to that set aside from Capital Receipts.

1.7 HRA Capital Financing Requirement (CFR)

- 1.7.1 MRP will equal the amount determined in accordance with the former regulations 28 and 29 of the 2003 Regulations (SI 2003/3146) as if they had not been revoked. This approach is consistent with paragraph 7 of the MHCLG Guidance on MRP.
- 1.7.2 The basic MRP charge relating to the HRA CFR is therefore nil. However, the Council may make 'Voluntary Revenue Provision' provided such an approach is prudent and appropriate in the context of financing the HRA capital programme and is consistent with the delivery of the HRA Business Plan.

Appendix 2 Prudential and Treasury Indicators 2019/2020 – 2021/22

The Council's capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist members' overview and confirm capital expenditure plans.

Capital expenditure

Capital Expenditure	2017/18 Actual £'000	2018/19 Estimate £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
Corporate and Commercial Services *	1,463	14,174	9,212	1,583	1,719
Health and Wellbeing	1,493	0	0	0	0
Health & Adult Social Care					
Community Services	0	1,894	2,682	1,400	400
Economy, Skills and Neighbourhoods	22,058	0	0	0	0
People & Place	0	31,265	54,403	63,081	70,544

Funds yet to be allocated	0	306	5,000	3,000	1,500
General Fund Services	25,014	47,855	71,397	69,164	74,863
Housing Revenue Account (HRA)	789	1,097	4,235	1,632	922
HRA	789	1,097	4,235	1,632	922
Commercial Activities / Non-Financial Investments **	0	0	6,180	7,750	6,680
Commercial Activities / Non-Financial Investments	0	0	6,180	7,750	6,680
Total	25,803	48,952	81,812	78,546	82,465

* Excludes commercial activities which are included in the Corporate and Commercial Services capital programme

** Relate to areas such as capital expenditure on investment properties, loans to third parties etc.

Affordability prudential indicators

The previous sections cover the overall capital and control of borrowing prudential indicators, but within this framework prudential indicators are required to assess the affordability of the capital investment plans. These provide an indication of the impact of the capital investment plans on the Council's overall finances. The PVFM Select Committee is asked to consider the following indicators:

Ratio of financing costs to net revenue stream

This indicator identifies the trend in the cost of capital, (borrowing and other long term obligation costs net of investment income), against the net revenue stream.

	2017/18 Actual £'000	2018/19 Estimate £'000	2019/20 Estimate £'000	2020/21 Estimate £'000	2021/22 Estimate £'000
General Fund excluding DSG*	11.52%	12.68%	12.88%	12.75%	13.41%

*Dedicated Schools Grant

The estimates of financing costs include current commitments and the proposals in the budget report.

Maturity structure of borrowing

Maturity structure of borrowing. These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

The PVFM Select Committee is asked to consider the following treasury indicators and limits:

Maturity Structure of fixed interest rate debt 2019/20	Lower Limit	Upper Limit
Under 12 months	0.00%	40.00%
12 months and within 24 months	0.00%	40.00%
24 months and within 5 years	0.00%	40.00%
5 years and within 10 years	0.00%	40.00%
10 years to 20 years	0.00%	50.00%
20 years to 30 years	0.00%	50.00%
30 years to 40 years	0.00%	50.00%
40 years to 50 years	0.00%	50.00%
50 years to 60 years	0.00%	50.00%
60 years and above	0.00%	50.00%

Control of interest rate exposure

Members are advised that indicators for interest rate exposure are no longer a requirement under the new Treasury Management Code however as interest rate exposure risk is an important issue. Officers will monitor the balance between fixed and variable interest rates for borrowing and investments. This will aim to ensure the Council is not exposed to adverse fluctuations in fixed or variable rate interest rate movements.

This is likely to reflect higher fixed interest rate borrowing if the borrowing need is high or fixed interest rates are likely to increase, or a higher variable rate exposure if fixed interest rates are expected to fall. Conversely if shorter term interest rates are likely to fall, investments may be fixed earlier, or kept shorter if short term investments are expected to rise.

The balance between variable rate debt and variable rate investments will be monitored as part of the overall treasury function in the context of the overall financial instruments structure and any under or over borrowing positions.

Appendix 3 – Link Asset Services Interest rate forecast 2018 – 2021

PWLB rates and forecast shown below take into account the 20 basis point certainty rate reduction effective as of the 1st November 2018 for 2018/19 and 2019/20.

Bank Rate

Appendix 4: Economic Background

Set out below is a more detailed analysis of the Economic background used to support the preparation of the 2019/20 Treasury Management Strategy Statement.

Global Outlook

World growth has been doing reasonably well, aided by strong growth in the US. However, US growth is likely to fall back in 2019 and, together with weakening economic activity in China, overall world growth is likely to weaken.

Inflation has been weak during 2018 but, at long last, unemployment falling to remarkably low levels in the US and UK has led to a marked acceleration of wage inflation which is likely to prompt central banks into a series of increases in central rates. The EU is probably about a year behind in a similar progression.

Key Risks - central bank monetary policy measures

Looking back on ten years since the financial crash of 2008 when liquidity suddenly dried up in financial markets, it can be assessed that central banks' monetary policy measures to counter the sharp world recession were successful. The key monetary policy measures they used were a combination of lowering central interest rates and flooding financial markets with liquidity, particularly through unconventional means such as quantitative easing (QE), where central banks bought large amounts of central government debt and smaller sums of other debt.

The key issue now is that that period of stimulating economic recovery and warding off the threat of deflation, is coming towards its close. A new period has already started in the US, and more recently in the UK, of reversing those measures i.e. by raising central rates and, (for the US), reducing central banks' holdings of Government and other debt. These measures are now required in order to stop the trend of a reduction in spare capacity in the economy, and of unemployment falling to such low levels that the re-emergence of inflation is viewed as a major risk. It is, therefore, crucial that central banks get their timing right and do not cause shocks to market expectations that could destabilise financial markets. In particular, a key risk is that because QE-driven purchases of bonds drove up the price of Government debt, and therefore caused a sharp drop in income yields, this also encouraged investors into a search for yield and into investing in riskier assets such as equities. Consequently, prices in both bond and equity markets rose to historically high valuation levels simultaneously. This now means that both asset categories are vulnerable to a sharp downward correction. It is important, therefore, that central banks only gradually unwind their holdings of bonds in order to prevent destabilising the financial markets. It is also likely that the timeframe for central banks unwinding their holdings of QE debt purchases will be over several years. They need to balance their timing to neither squash economic recovery, by taking too rapid and too strong action, nor, conversely, let inflation run away by taking action that was too slow and/or too weak. The potential for central banks to get this timing and strength of action wrong are now key risks.

The world economy also needs to adjust to a sharp change in liquidity creation over the last five years where the US has moved from boosting liquidity by QE purchases, to reducing its holdings of debt. In addition, the European Central Bank has cut back its QE purchases substantially and is likely to end them completely by the end of 2018.

United Kingdom

The flow of positive economic statistics since the end of the first quarter this year has shown that pessimism was overdone about the poor growth in quarter 1 when adverse weather caused a temporary downward blip. Quarter 1 at 0.1% growth in GDP was followed by a return to 0.4% in

quarter 2; quarter 3 is expected to be robust at around +0.6% but quarter 4 is expected to weaken from that level.

At their November meeting, the MPC once again advised that future Bank Rate increases would be gradual and would rise to a much lower equilibrium rate, (where monetary policy is neither expansionary or contractionary), than before the crash; indeed they gave a figure for this of around 2.5% in ten years' time but declined to give a medium term forecast. However, with so much uncertainty around Brexit, they warned that the next move could be up or down, even if there was a disorderly Brexit. While it would be expected that Bank Rate could be cut if there was a significant fall in GDP growth as a result of a disorderly Brexit, so as to provide a stimulus to growth, they warned they could also raise Bank Rate in the same scenario if there was a boost to inflation from a devaluation of sterling, increases in import prices and more expensive goods produced in the UK replacing cheaper goods previously imported, and so on. In addition, the Chancellor has held back some spare capacity to provide a further fiscal stimulus if needed.

It is unlikely that the MPC would increase Bank Rate in February 2019, ahead of the deadline in March for Brexit. Getting parliamentary approval for a Brexit agreement on both sides of the Channel will take the early part of 2019. However, in view of the hawkish stance of the MPC at their November meeting, the next increase in Bank Rate is now forecast to be in May 2019. The following increases are then forecast to be in February and November 2020 before ending up at 2.0% in February 2022.

Inflation

The Consumer Price Index (CPI) measure of inflation has been falling from a peak of 3.1% in November 2017 to 2.4% in October. In the November Bank of England quarterly inflation report, inflation was forecast to still be marginally above its 2% inflation target two years ahead, (at about 2.1%), given a scenario of minimal increases in Bank Rate. This inflation forecast is likely to be amended upwards due to the Bank's inflation report being produced prior to the Chancellor's announcement of a significant fiscal stimulus in the Budget; this is likely to add 0.3% to GDP growth at a time when there is little spare capacity left in the economy, particularly of labour.

As for the labour market figures in September, unemployment at 4.1% was marginally above a 43 year low of 4% on the Independent Labour Organisation measure. A combination of job vacancies hitting an all-time high, together with negligible growth in total employment numbers, indicates that employers are now having major difficulties filling job vacancies with suitable staff. It was therefore unsurprising that wage inflation picked up to 3.2%, (3 month average regular pay, excluding bonuses). This meant that in real terms, (i.e. wage rates less CPI inflation), earnings are currently growing by about 0.8%, the highest level since 2009. This increase in household spending power is likely to feed through into providing some support to the overall rate of economic growth in the coming months. This tends to confirm that the MPC was right to start on a cautious increase in Bank Rate in August as it views wage inflation in excess of 3% as increasing inflationary pressures within the UK economy.

In the political arena, there is a risk that the current Conservative minority Government may be unable to muster a majority in the Commons over Brexit. However, the current view is that our central position is that Prime Minister May's Government will endure, despite various setbacks, along the route to reaching an orderly Brexit in March 2019. If, however, the UK faces a general election in the next 12 months, this could result in a potential loosening of monetary and fiscal policy and therefore medium to longer dated gilt yields could rise on the expectation of a weak pound and concerns around inflation picking up.

United States of America

President Trump's massive easing of fiscal policy is fuelling a, (temporary), boost in consumption which has generated an upturn in the rate of strong growth which rose from 2.2%, (annualised rate), in quarter 1 to 4.2% in quarter 2 and 3.5%, (3.0% year on year (y/y)), in quarter 3, but also an upturn in inflationary pressures. In particular, wage rates were increasing at 3.1% y/y in October and heading higher due to unemployment falling to a 49 year low of 3.7%. With CPI inflation over the target rate of 2% and on a rising trend towards 3%, the Fed increased rates another 0.25% in September to between 2.00% and 2.25%, this being the fourth increase in 2018. They also indicated that they expected to increase rates four more times by the end of 2019. The dilemma, however, is what to do when the temporary boost to consumption wanes, particularly as the recent imposition of tariffs on a number of countries' exports to the US, (China in particular), could see a switch to US production of some of those goods, but at higher prices. Such a scenario would invariably make any easing of monetary policy harder for the Fed in the second half of 2019. However, a combination of an expected four increases in rates of 0.25% by the end of 2019, together with a waning of the boost to economic growth from the fiscal stimulus in 2018, could combine to depress growth below its potential rate, i.e. monetary policy may prove to be too aggressive and lead to the Fed having to start on cutting rates. The Fed has also been unwinding its previous quantitative easing purchases of debt by gradually increasing the amount of monthly maturing debt that it has not been reinvesting.

The tariff war between the US and China has been generating a lot of heat during 2018, but it is not expected that the current level of actual action would have much in the way of a significant effect on US or world growth. However, there is a risk of escalation. The results of the mid-term elections are not expected to have a material effect on the economy.

Eurozone

Growth was 0.4% in quarters 1 and 2 but fell back to 0.2% in quarter 3, though this is probably just a temporary dip. In particular, data from Germany has been mixed and it could be negatively impacted by US tariffs on a significant part of manufacturing exports e.g. cars. For that reason, although growth is still expected to be in the region of nearly 2% for 2018, the horizon is less clear than it seemed just a short while ago. Having halved its quantitative easing purchases of debt in October 2018 to €15bn per month, the European Central Bank (ECB) has indicated it was likely to end all further purchases in December 2018. Inflationary pressures are starting to build gently so it is expected that the ECB will start to increase rates towards the end of 2019.

China

Economic growth has been weakening over successive years, despite repeated rounds of central bank stimulus; medium term risks are increasing. Major progress still needs to be made to eliminate excess industrial capacity and the stock of unsold property, and to address the level of non-performing loans in the banking and credit systems. Progress has been made in reducing the rate of credit creation, particularly from the shadow banking sector, which is feeding through into lower economic growth. There are concerns that official economic statistics are inflating the published rate of growth.

Japan

Has been struggling to stimulate consistent significant GDP growth and to get inflation up to its target of 2%, despite huge monetary and fiscal stimulus. It is also making little progress on fundamental reform of the economy. It is likely that loose monetary policy will endure for some years yet to try to stimulate growth and modest inflation.

Emerging countries

Argentina and Turkey are currently experiencing major headwinds and are facing challenges in external financing requirements well in excess of their reserves of foreign exchange. However, these countries are small in terms of the overall world economy, (around 1% each), so the fallout from the expected recessions in these countries will be minimal.

Interest Rate Forecasts

The interest rate forecasts provided by Link Asset Services in paragraph 2.5.1 are predicated on an assumption of an agreement being reached on Brexit between the UK and the EU. In the event of an orderly non-agreement exit, it is likely that the Bank of England would take action to cut Bank Rate from 0.75% in order to help economic growth deal with the adverse effects of this situation. This is also likely to cause short to medium term gilt yields to fall. If there was a disorderly Brexit, then any cut in Bank Rate would be likely to last for a longer period and also depress short and medium gilt yields correspondingly. It is also possible that the government could act to protect economic growth by implementing fiscal stimulus.

The balance of risks to the UK

- The overall balance of risks to economic growth in the UK is probably neutral.
- The balance of risks to increases in Bank Rate and shorter term PWLB rates, are probably also even and are broadly dependent on how strong GDP growth turns out, how slowly inflation pressures subside, and how quickly the Brexit negotiations move forward positively.

One risk that is both an upside and downside risk, is that all central banks are now working in very different economic conditions than before the 2008 financial crash as there has been a major increase in consumer and other debt due to the exceptionally low levels of borrowing rates that have prevailed for ten years since 2008. This means that the neutral rate of interest in an economy, (i.e. the rate that is neither expansionary nor deflationary), is difficult to determine definitively in this new environment, although central banks have made statements that they expect it to be much lower than before 2008. Central banks could therefore either over or under do increases in central interest rates.

Downside risks to current forecasts for UK gilt yields and PWLB rates currently include:

- **Brexit** – if it were to cause significant economic disruption and a major downturn in the rate of growth.
- **Bank of England monetary policy** takes action too quickly, or too far, over the next three years to raise Bank Rate and causes UK economic growth, and increases in inflation, to be weaker than we currently anticipate.
- A resurgence of the **Eurozone sovereign debt crisis**, possibly in **Italy**, due to its high level of Government debt, low rate of economic growth and vulnerable banking system, and due to the election in March of a Government which has made a lot of anti-austerity noise. At the time of writing, the EU has rejected the proposed Italian budget and has demanded cuts in Government spending which the Italian Government has refused. The rating agencies have started on downgrading Italian debt to one notch above junk level. If Italian debt were to fall below investment grade, many investors would be unable to hold it. Unsurprisingly, investors are becoming increasingly concerned by the actions of the Italian Government and consequently, Italian bond yields have risen sharply – at a time when the Government faces having to refinance large amounts of debt maturing in 2019.
- Weak capitalisation of some **European banks**. Italian banks are particularly vulnerable; one factor is that they hold a high level of Italian Government debt - debt which is falling in

value. This is therefore undermining their capital ratios and raises the question of whether they will need to raise fresh capital to plug the gap.

- **German minority Government.** In the German general election of September 2017, Angela Merkel's CDU party was left in a vulnerable minority position dependent on the support of the SPD party. Then in October 2018, the results of the Bavarian and Hesse state elections radically undermined the SPD party and showed a sharp fall in support for the CDU. As a result, the SPD is reviewing whether it can continue to support a coalition that is so damaging to its electoral popularity. After the result of the Hesse state election, Angela Merkel announced that she would not stand for re-election as CDU party leader at her party's convention in December 2018. However, this makes little practical difference as she is still expected to aim to continue for now as the Chancellor. However, there are five more state elections coming up in 2019 and EU parliamentary elections in May/June; these could result in a further loss of electoral support for both the CDU and SPD which could also undermine her leadership.
- **Other minority eurozone Governments.** Spain, Portugal, Netherlands and Belgium all have vulnerable minority Governments dependent on coalitions which could prove fragile. Sweden is also struggling to form a Government due to the anti-immigration party holding the balance of power, and which no other party is willing to form a coalition with.
- **Austria, the Czech Republic and Hungary** now form a strongly anti-immigration bloc within the EU while **Italy**, this year, has also elected a strongly anti-immigration Government. Elections to the EU parliament are due in May/June 2019.
- Further increases in interest rates in the US could spark a sudden flight of investment **funds** from more risky assets e.g. shares, into bonds yielding a much improved yield. In October 2018, there was a sharp fall in equity markets but this has been limited, as yet. Emerging countries which have borrowed heavily in dollar denominated debt, could be particularly exposed to this risk of an investor flight to safe havens e.g. UK gilts.
- There are concerns around the level of US corporate debt which has swollen massively during the period of low borrowing rates in order to finance mergers and acquisitions. This has resulted in the debt of many large corporations being downgraded to a BBB credit rating, close to junk status. Indeed, 48% of total investment grade corporate debt is now rated at BBB. If such corporations fail to generate profits and cash flow to reduce their debt levels as expected, this could tip their debt into junk ratings which will increase their cost of financing and further negatively impact profits and cash flow.
- **Geopolitical risks**, especially North Korea, but also in Europe and the Middle East, which could lead to increasing safe haven flows.

Upside risks to current forecasts for UK gilt yields and PWLB rates

- **Brexit** – if both sides were to agree a compromise that removed all threats of economic and political disruption.
- **The Fed causing a sudden shock in financial markets** through misjudging the pace and strength of increases in its Fed. Funds Rate and in the pace and strength of reversal of QE, which then leads to a fundamental reassessment by investors of the relative risks of holding bonds, as opposed to equities. This could lead to a major flight from bonds to equities and a sharp increase in bond yields in the US, which could then spill over into impacting bond yields around the world.
- The **Bank of England is too slow** in its pace and strength of increases in Bank Rate and, therefore, allows inflation pressures to build up too strongly within the UK economy, which then necessitates a later rapid series of increases in Bank Rate faster than we currently expect.
- **UK inflation**, whether domestically generated or imported, returning to sustained significantly higher levels causing an increase in the inflation premium inherent to gilt yields.

Appendix 5: Treasury Management Practice (TMP1) – Credit and Counterparty Risk Management

Specified Investments: All such investments will be sterling denominated, with **maturities up to a maximum of 1 year**, meeting the minimum ‘high’ quality criteria where applicable.

Non-specified Investments: These are any investments which do not meet the specified investment criteria. A maximum of 50% will be held in aggregate in non-specified investment

A variety of investment instruments will be used, subject to the credit quality of the institution, and depending on the type of investment made it will fall into one of the above categories.

The criteria, time limits and monetary limits applying to institutions or investment vehicles are:

Specified Investments

	Minimum credit criteria / colour band	** Max % of total investments/ £ limit per institution	Max. maturity period
DMADF – UK Government Debt Management Account Deposit Facility	N/A	100%	6 months
UK Government gilts	UK sovereign rating	£20m	12 months
UK Government Treasury bills	UK sovereign rating	£20m	12 months
Bonds issued by multilateral development banks	AAA	£10m	6 months
Money Market Funds	AAA	£20m	Liquid
Enhanced Cash Funds with a credit score of 1.25	AAA	£20m	Liquid
Enhanced Cash Funds with a credit score of 1.5	AAA	£20m	Liquid
Public Bodies	N/A	£20m	12 months
Term deposits with banks and building societies	Blue Orange Red Green No Colour	£20m £15m £10m £10m Not for use	12 months 12 months 6 months 100 days Not for use
CDs or corporate bonds with banks and building societies	Blue Orange Red Green No Colour	£20m £15m £10m £10m Not for use	12 months 12 months 6 months 100 days Not for use
Gilt funds	UK sovereign rating	£10m	12 months
REPO's (Collateralised deposit)	100% Collateral	£5m	12 months
GMCA	Internal Due Diligence	£30m	12 months
GM Public Bodies	Internal Due Diligence	£30m	5 years

Accounting treatment of investments. The accounting treatment may differ from the underlying cash transactions arising from investment decisions made by the Council. To ensure that the Council is protected from any adverse revenue implications, which may arise from these differences, the accounting implications of new transactions will be reviewed before they are undertaken.

Non-specified Investments: A maximum of 50% will be held in aggregate in non-specified investments

Maturities in excess of 1 year

	* Minimum Credit Criteria	Use	£ limit per institution	Max. maturity period
Term deposits – local authorities and other public institutions	--	In-house	£10m	5 years
Term deposits – banks and building societies	Yellow Purple	In-house	£10m £10m	5 years 2 years
Certificates of deposit issued by banks and building societies	Yellow Purple	In-house	£10m £10m	5 years 2 years

Appendix 7: Treasury Management Scheme of Delegation

The scheme of delegation is as follows:

Full Council is the responsible body for:

- receiving and reviewing reports on Treasury Management policies, practices and activities;
- the approval of the annual strategy, mid-year review and outturn report.
- approval of/amendments to the organisation's Treasury Management Policy Statement and Treasury Management Practices;
- budget consideration and approval;
- approval of the division of responsibilities;
- receiving and reviewing regular monitoring reports and acting on recommendations;

Cabinet is the responsible body for:

- considering the Treasury Management Policy and Procedures and making recommendations to the responsible body.
- considering Treasury Management reports and commending to Council.

Audit Committee is responsible for scrutiny:

- reviewing the Treasury Management Policy and Procedures and making recommendations to the responsible body.
- Reviewing Treasury Management reports and making recommendations to the responsible body.

Cabinet Member for Finance and and Corporate Services is responsible for:

- approving the selection of external service providers and agreeing terms of appointment

Note : The Overview and Scrutiny Performance and Value for Money Select Committee reviews and scrutinises the Annual Treasury Management Strategy report along with the suite of other budget reports (including the Capital Strategy)

Appendix 8: The Treasury Management Role of the Statutory Chief Finance Officer (Director of Finance)

The Statutory Chief Financial Officer will discharge the Treasury Management role by:

- recommending Treasury Management Policy/Practices for approval, reviewing the same regularly, and monitoring compliance;
- submitting regular Treasury Management policy reports;
- submitting budgets and budget variations;
- receiving and reviewing Treasury Management information reports;
- reviewing the performance of the Treasury Management function;
- ensuring the adequacy of Treasury Management resources and skills, and the effective division of responsibilities within the Treasury Management function;
- ensuring the adequacy of internal audit processes, and liaising with external audit;
- recommending the appointment of external service providers.
- preparation of a capital strategy to include capital expenditure, capital financing, non-financial investments and treasury management, with a long term timeframe
- ensuring that the capital strategy is prudent, sustainable, affordable and prudent in the long term and provides value for money
- ensuring that due diligence has been carried out on all treasury and non-financial investments and is in accordance with the risk appetite of the authority
- ensures that the authority has appropriate legal powers to undertake expenditure on non-financial assets and their financing
- ensuring the proportionality of all investments so that the authority does not undertake a level of investing which exposes the authority to an excessive level of risk compared to its financial resources
- ensuring that an adequate governance process is in place for the approval, monitoring and ongoing risk management of all non-financial investments and long term liabilities
- the provision to Members of a schedule of all non-treasury investments including material investments in subsidiaries, joint ventures, loans and financial guarantees
- ensuring that Members are adequately informed and understand the risk exposures taken on by an authority
- ensuring that the authority has adequate expertise, either in house or externally provided, to carry out the above
- the creation of Treasury Management Practices which specifically deal with how non treasury investments will be carried out and managed, to include the following -
 - Risk management (TMP1 and schedules), including investment and risk management criteria for any material non-treasury investment portfolios;
 - Performance measurement and management (TMP2 and schedules), including methodology and criteria for assessing the performance and success of non-treasury investments;
 - Decision making, governance and organisation (TMP5 and schedules), including a statement of the governance requirements for decision making in relation to non-treasury investments; and arrangements to ensure that appropriate professional due diligence is carried out to support decision making;

- Reporting and management information (TMP6 and schedules), including where and how often monitoring reports are taken;
- Ensuring appropriate training and qualifications (TMP10 and schedules), including how the relevant knowledge and skills in relation to non-treasury investments will be arranged.

Report to Overview and Scrutiny Performance and Value for Money Select Committee

Council Tax Reduction Scheme 2019/20

Portfolio Holder:

Cllr A Jabbar MBE, Deputy Leader and Cabinet Member for Finance and Corporate Resources

Officer Contact: Anne Ryans, Director of Finance

Report Author: Caroline Lee, Head of Revenues and Benefits
Ext. 4905

24th January, 2019

Reason for Decision

The purpose of the report is to present the proposed Council Tax Reduction Scheme for 2019/20.

Executive Summary

Members will recall that there is a requirement to have a Council Tax Reduction (CTR) scheme to support residents who qualify for assistance in paying Council Tax. The Local Government Finance Act 2012 places a requirement that each year a billing authority must consider whether to revise its Council Tax Reduction scheme or to replace it with another scheme. Any change to the 2019/20 scheme must be agreed by full Council in line with budget setting and no later than 10 March 2019. For Oldham, this requires the Council to agree a revised 2019/20 scheme at the 27 February 2019 Council meeting.

The Council's CTR scheme has been largely un-amended since April 2015 when the Council introduced a scheme that:

- Limited CTR to a maximum of 85% of Council Tax for a Band A property
- Removed second adult discount for those of working age.

The scheme was initially calculated to generate an amount of funding that, when taken alongside the direct grant received, additional income from the treatment of local discounts and premiums for empty properties, made the scheme viable. The CTR element of this calculation works on the basis of an assumed collection rate.

A full examination of all the changes that might be considered for the 2019/20 scheme was explored by Cabinet in August 2018. This included potential changes to be considered following a wider understanding gained of the impact of Universal Credit (UC) full service on residents since its roll out in April 2017. Members agreed to approve a public consultation focusing on areas of

review that either maintained the status quo or introduced changes that would be beneficial for the claimant. With this in mind, the consultation sought views on the maintenance of the maximum support afforded under the scheme of 85% of a Band A Council Tax property charge, a range of changes to the calculation of CTR for UC claimants and bringing some income disregards, already in place in the national Housing Benefit scheme, into alignment with the local CTR scheme.

A public consultation was carried out over the period 12 September 2018 to 24 October 2018. Overall respondents were in favour of the proposals with an average 77% agreement across the four proposed changes and 71% in favour of maintaining the current 85% scheme.

Recommendations

It is recommended that the Select Committee considers the proposed Council Tax Reduction scheme changes for 2019/20:

- i. To continue to limit support to a maximum of 85% of Council Tax of a Band A property
- ii. Treat information received from the Department for Work and Pensions (DWP) about Universal Credit entitlement as a claim for Council Tax Reduction
- iii. Apply earnings disregards for Universal Credit/Council Tax Reduction (UC/CTR) claims as set out below
 - a. Single claimant £5 per week
 - b. Couple £10 per week
 - c. Disabled/Carer £20 per week
 - d. Lone Parent £25 per week
- iv. Incorporate housing costs into the UC/CTR calculation
- v. Apply disregards for Bereavement Support Allowance and post graduate master's degree loan and special support payments in the assessment of Council Tax Reduction.

Council Tax Reduction Scheme 2019/20

1 Background

- 1.1 Prior to April 2013, Council Tax Payers who qualified for assistance could apply for Council Tax Benefit (CTB) to help pay their Council Tax. The CTB scheme was administered by Local Authorities on behalf of the Department for Work and Pensions (DWP) and was assessed on a means tested basis. Under this national scheme, Council Tax payers could receive benefit of up to 100% of their Council Tax liability. The Council then received full funding from the Government for all correct CTB awards made. Changes introduced by the Government abolished CTB from 1 April 2013 and made Local Authorities responsible for setting up their own local Council Tax Reduction schemes (CTR) for working age people. The Government also reduced the amount of funding given to Councils to pay for the schemes in 2013/14 by 10%. The CTR scheme for pensioners is set by the Government and is not subject to the changes applied to those of working age. In devising new CTR schemes, the majority of Local Authorities have largely adopted schemes that replicate the old CTB schemes and then applied a minimum payment for working age customers to make up the funding difference.
- 1.2 Since 2014/15, the amount of grant received from Government to pay for CTR has been included within the general grant (Revenue Support Grant) that the Council receives and the amount to support CTR schemes is not specifically identified year on year. Revenue Support Grant (RSG) continues to be significantly reduced each year and with the introduction of the pilot of 100% Business Rates Retention and the subsuming of RSG into the Councils Business Rates Top Up Grant, it is fair to say the link between Central Government funding and Central Government support for CTR has been cut.
- 1.3 The legislation confers an obligation on the Council to consider whether to review the CTR scheme on an annual basis. This consideration needs to be given by full Council prior to the deadline for the setting of the Council's budget (which for 2019/20 is no later than 10 March 2019). The last Council meeting before this date is 27 February 2019.

2 Current Position

- 2.1 The Council currently has a CTR scheme that awards a maximum payment of 85% of a Band A rate of Council Tax and has removed the provision to award second adult rebate for claimants of working age.
- 2.2 Current projections for the annual collection rates for CTR cases due in 2018/19 suggest a collection rate between 80% and 85%. This is a similar CTR collection rate to that recovered in 2017/18 (the 2017/18 collection rate was 81.47%). An additional 5% collection of CTR debt could result in an extra £239k in Council Tax receipts for 2018/19.
- 2.3 There have been a number of changes to the Housing Benefit (HB) scheme since April 2016. This means that the CTR scheme does not align with revised Housing Benefit regulations. The main HB changes are:

-
- The family premium was removed for all new claimants
 - In households with two or more children, any subsequent children born after April 2017 are no longer be eligible for further support
 - Limiting backdating to one month (previously this was six months)
 - Changes to the temporary absence for a rule (this limits housing benefit payments to 4 weeks from 13 weeks for those travelling abroad)
 - There is an Employment and Support Allowance Work related activity component from 3 April 2017
 - There is a disregard of Post Graduate Master's degree loan and special support loans
 - Disregard of bereavement payments from 3 April 2017

2.4 Prior to Cabinet approval on 20 August 2018 to carry out a public consultation, a number of options for changing the CTR scheme were considered. These options included reducing the maximum level of CTR support to 82.5%, aligning the CTR scheme to reflect some or all of the changes made to HB, introducing a minimum income floor for self-employed claimants and changing the method of assessment for Universal Credit/Council Tax Reduction (UC/ CTR) cases.

2.5 Members agreed to consult on options that would either maintain the current level of CTR offered or would result in increased levels of CTR for working age residents on low incomes. In particular, it was felt that Oldham, as an early adopter of Universal Credit, was well placed to identify areas where the UC/CTR claiming process could be adjusted to better meet the needs of residents.

3 Options/Alternatives

3.1 A public consultation was therefore carried out from 12th September to 24th October 2018, covering 5 key areas:

- Continuing to limit support to a maximum of 85% of Council Tax of a Band A property
- Treating information received from the Department for Work and Pensions (DWP) about Universal Credit entitlement as a claim for Council Tax Reduction
- Incentivising work for those in receipt of UC/CTR by aligning with the treatment of earnings made in Housing Benefit (HB)
- Including housing costs in the way CTR is calculated for UC claimants
- Applying income disregards for bereavement support payments, post graduate degree loans and special support payment.

3.2 A total of 129 residents responded to the consultation, 31.6% of whom receive CTR. The consultation was conducted online on the Council's website. A hard copy version of the survey document was also made available at Access Oldham, where face to face contact with residents with Council Tax and Benefit issues is handled. Access Oldham officers actively encouraged residents to complete the survey when they visited the Council during the consultation period. Partner and stakeholder organisations were directly asked to participate in the consultation and a separate survey link for organisations was set up on the website. A total of 7 responses were received from 5 organisations.

3.3 The consultation was communicated by an extensive media campaign involving Twitter, Facebook, the Council's website and via local media. Overall the campaign achieved a reach of more than 10,000; however the levels of engagement were very low. The low levels of engagement are indicative of the experience of the Council when

conducting a similar CTR consultation for 2015/16 and also reflect the experience of other local authorities when carrying out CTR consultations. Low engagement levels are also expected when the detail of the consultation is particularly technical.

3.4 Overall Response to the Consultation

Overall, respondents were in favour of the proposed changes with an average of 77% agreement across the four proposed changes and 71% in favour of maintaining the current scheme.

Table 1: Summary of Resident's views

Table 1: Key

Key		
Questions	No of respondents	Summary Name
Current Scheme	113	Maintaining the 85% scheme
Change 1	114	Making a CTR claim – UC claimants
Change 2	110	Earnings disregards
Change 3	111	Housing Costs
Change 4	111	Income disregards

Paragraphs 3.5 to 3.10 set out the background and responses to each of the consultation proposals in more detail.

3.5 Current Scheme: Maintain the current 85% maximum scheme

The current scheme limits the maximum CTR award to 85% of Council Tax for a Band A property. The scheme is understood and established within Oldham and the basis of the calculation is very similar to the Housing Benefit and Pensioner CTR scheme. This scheme requires minimum payments towards Council Tax as set out below (alongside a comparison table of other local CTR schemes). An overall CTR collection rate of 80% rate would support the delivery of the income needed to meet the Council Tax income requirements for 2019/20.

Table 2a: Council Tax charges: CTR limited to 85% maximum of Council Tax for a Band A property

Council Tax Charge(Working Age, Maximum LCTR Award, No Single Person Discount Applied)						
Band	Charge	Maximum Support	Annual	Monthly (12 Months)	Monthly (10 Months)	Weekly
A	£1,202.85	£1,022.42	£180.43	£15.04	£18.04	£3.46
B	£1,403.33	£1,022.42	£380.91	£31.74	£38.09	£7.31
C	£1,603.80	£1,022.42	£581.38	£48.45	£58.14	£11.15
D	£1,804.29	£1,022.42	£781.87	£65.16	£78.19	£14.99
E	£2,205.24	£1,022.42	£1,182.82	£98.57	£118.28	£22.68
F	£2,606.20	£1,022.42	£1,583.78	£131.98	£158.38	£30.37
G	£3,007.14	£1,022.42	£1,984.72	£165.39	£198.47	£38.06
H	£3,608.58	£1,022.42	£2,586.16	£215.51	£258.62	£49.60
Council Tax Charge(Working Age, Maximum LCTR Award, Single Person Discount Applied)						
Band	Charge	Maximum Support	Annual	Monthly(12 Months)	Monthly(10 Months)	Weekly
A	£902.14	£766.82	£135.32	£11.28	£13.53	£2.60
B	£1,052.50	£766.82	£285.68	£23.81	£28.57	£5.48
C	£1,202.85	£766.82	£436.03	£36.34	£43.60	£8.36
D	£1,353.22	£766.82	£586.40	£48.87	£58.64	£11.25
E	£1,653.93	£766.82	£887.11	£73.93	£88.71	£17.01
F	£1,954.65	£766.82	£1,187.83	£98.99	£118.78	£22.78
G	£2,255.36	£766.82	£1,488.54	£124.04	£148.85	£28.55
H	£2,706.44	£766.82	£1,939.62	£161.63	£193.96	£37.20

Table 2b: Neighbouring Local Authority minimum CTR payments for 2018/19 are detailed below

Council Tax Charge(Working Age, Maximum LCTR Award, No Single Occupier Discount Applied)				
LA	Council Tax Band A 18/19	Maximum Support %	Annual Charge	Minimum Weekly Payment if in receipt of Full CTR
Oldham	£1,202.85	85%	£180.43	£3.46
Rochdale	£1,175.78	85%	£176.37	£3.38
Tameside	£1,103.46	75%	£275.87	£5.29
Stockport	£1,226.63	100%	£0.00	£0.00
Manchester	£1,044.52	82.50%	£182.79	£3.51
Trafford	£989.92	100%	£0.00	£0.00
Bury	£1,165.91	80%	£233.18	£4.47

Respondents were asked if they agreed that the current level of CTR support should be maintained i.e. keeping the maximum level of CTR support at 85% of Council Tax for a Band A property.

Overall, 71% of respondents agreed that the current level of support should be maintained.

Agreement for this arrangement was lower for Council Tax payers (72%) than those in receipt of CTR (78%) and those in receipt of Universal Credit (78%).

Those in part time employment were least likely to agree with the change (61.5%).

By paying a small charge towards Council tax it encourages responsibility and financial budgeting, female, 45-54 Full time employed.

3.6 **Change 1: Making a CTR claim – Universal Credit claimants**

The roll out of the full service of Universal Credit (UC) commenced in Oldham from April 2017 and the UC/CTR caseload is increasing as a result. The number of UC /CTR cases in December 2018 amounts to 4,337 of an overall CTR caseload of 22,026. The overall CTR caseload has reduced from 23,411 since the introduction of UC.

- 3.7 Universal Credit replaces six working age benefits including Housing Benefit. It is claimed online directly at Gov.uk. CTR must be applied for separately online with the Council. The Council has worked with the DWP closely to ensure that UC customers are signposted directly to the Council to claim CTR and the Council has also undertaken take up activity over recent months to ensure residents are claiming what they are entitled to. To support this activity, it was proposed that information received by the Council from the DWP relating to a claim for Universal Credit could be treated as a claim for CTR. This would help to maximise entitlement to CTR at the earliest opportunity.

This proposal had the highest number of respondents in favour of the change at 82.5%

Agreement for this arrangement was lower for Council Tax payers (81%) than those in receipt of CTR (86%) and those in receipt of Universal Credit.

I think it's an excellent idea as a resident and a front-line worker in the third sector I see the misery and stress it causes due to lack of information and people assuming this has automatically been applied for as it was when making a Housing Benefit claim in the past. Female, 45-54 Full Time employed

3.8 **Change 2: Earnings disregards – Universal Credit claimants**

When UC was originally introduced, the calculation of the UC award included generous work allowances. When UC was introduced, the Government made it clear that work allowances were deliberately higher than earnings disregards in legacy benefits as part of a commitment to 'make work pay'. The work allowance is the amount an individual or family can earn before their maximum UC award starts to be reduced. However, these were cut in 2016. The reductions meant that work allowances for childless claimants reduced to zero i.e. the UC award for childless claimants will begin to reduce as soon as they enter paid work. The work allowances were also cut significantly for lone parents.

Table 3: Universal Credit Work Allowances

Universal Credit work allowances

£ per year

	Without housing costs			With housing costs		
	2015-16	2016-17	Change	2015-16	2016-17	Change
Single or couple: no children (not disabled)	£1,332	£0	-£1,332	£1,332	£0	-£1,332
Lone parent (adults not disabled)	£8,808	£4,764	-£4,044	£3,156	£2,304	-£852
Couple with children (adults not disabled)	£6,432	£4,764	-£1,668	£2,664	£2,304	-£360
Single or couple: one or both are disabled	£7,764	£4,764	-£3,000	£2,304	£2,304	£0

Note For purposes of this table "disabled" indicates the presence of an adult with a "limited capability for work". Also note that different work allowances apply according to whether the household is getting help with Housing Costs.]

The Council Tax Reduction Schemes (Default Scheme) (England) Regulations 2013 did not set a specific provision for earnings to be disregarded when determining income for UC claimants (potentially as a result of the work allowances intended for the UC scheme). The earnings disregards used in Housing Benefit and for other earnings in the CTR scheme are set out below.

Table 4: Housing Benefit earnings disregards

Table 4 : Earnings Disregards	
A. Only apply one of these	£ (weekly disregard)
Single Person	£5
Couple (at least one working)	£10
Disabled/Carer	£20
Lone Parent	£25
B. Plus additional earnings disregard	
If working over 16 or 30 hours (qualifying conditions apply)	£17.10

For the 2019/20 scheme, the consultation set out these earnings disregards and asked if residents supported their introduction for UC/CTR cases. The introduction of this measure would support work incentives and potentially mitigate the impact of the Government's cut in work allowances in the assessment of UC awards.

The cost of introducing the earnings disregards is estimated at £200k per annum for the standard earnings disregards (Table 4, Section A - £5, £10, £20, £25) rising to an estimated £313k per annum if the additional earnings disregards (Table 4, Section B £17.10) is also included. Estimating the cost of introducing these changes is contingent on the rate of transition to UC for Oldham residents in 2019/20 and making assumptions about the hours that will be worked by qualifying residents over the year. The CTR is a demand led scheme and so financial estimates for the full range of changes could be as high as £426k in 2019/20 (although this higher level is much less likely). While residents were consulted on the full range of earnings disregards and were supportive of their introduction, limiting the earnings disregards in 2019/20 to those set out in Section A of Table 4 may be a prudent option in 2019/20. This will allow for the introduction of disregarded earnings not currently covered in the UC/CTR scheme for residents and would give the Council the advantage of running the scheme for a year (thus providing more certainty around the full financial impact of introducing the complete range of earnings disregards into the scheme before actually doing so).

Overall, 80% of respondents agreed with this proposed change.

Agreement with this proposal was lower with Council Tax payers (80%) than those in receipt of CTR (82%) and those in receipt of Universal Credit (88%).

Those not in employment were least likely to agree to the change (74%).

As UC roll out continues, there will be increasing numbers of CTR claimants in receipt of Universal Credit. The DWP reviews real time earnings information and other changes to the claimant's income for each 5 week assessment period, even for very slight changes in income. In November 2018, the service received a weekly average of 1,560 items of post from the DWP in relation to claimants in receipt of UC. This compares with an average of 500 items a week in June /July 2017 and 400 items per month prior to the roll out of Universal Credit full service. This increases the administrative burden for Local Authorities and impacts on Council Tax collection and recovery, particularly if a new Council Tax bill and payment instalment plan is issued every month. Some Local Authorities have started to automate some of these DWP notifications. The application of earnings disregards does not require a system upgrade but would limit the ability of the Council to automate some of the UC notifications from the DWP in the future.

3.9 **Change 3 Housing Costs - Universal Credit claimants**

The current UC/CTR calculation does not take housing costs into account. Although for the majority of cases, the inclusion of housing costs as income and in the maximum UC award has no effect on entitlement, there are a small number of cases that have been identified where it would be more beneficial to the claimant to include this as part of the calculation. This change would cost the Council £41k p.a. to implement.

Overall, 66% of respondents agreed with this change

Agreement with this proposal was lower for Council Tax payers (65%) than those in receipt of CTR (71%) and those in receipt of Universal Credit (77%).

3.10 **Change 4 Disregarded Income – CTR**

Some income claimants receive is 'disregarded', i.e. not taken into account, when calculating benefit entitlement. Some changes which are beneficial to the residents, have been made to Housing Benefit regulations but have not been incorporated into the CTR scheme. This includes the treatment of Bereavement Support Payments, Post Graduate Degree loans and special support payments. The consultation sought agreement to including these provision within the CTR scheme. This affects a very small number of claimants and the changes are estimated to cost less than £10k p.a. cumulatively.

Overall 80% of respondents agreed with the change.

Agreement for this proposal was lower for Council Tax payers (78%) than those in receipt of CTR (85%) and those in receipt of Universal Credit (82%).

3.11 In addition to any changes to the 2019/20 scheme, the CTR scheme document at Appendix 3 will also be subject to any changes resulting from prescribed requirements issued by the Secretary of State under paragraph 2(8) of Schedule 1A of the Local Government Finance Act 1992 and any changes from time to time to the figures prescribed by the Government for welfare benefit purposes.

4 Preferred Option

- 4.1 The preferred option following the consultation and further financial analysis is to:
- i. Continue to limit support to a maximum of 85% of Council Tax of a Band A property
 - ii. Use information received from the DWP about UC entitlement as a claim for CTR
 - iii. Apply earnings disregards for UC/CTR claims as set out below
 - a. Single claimant £5 per week
 - b. Couple £10 per week
 - c. Disabled / Carer £20 per week
 - d. Lone Parent £25 per week
 - iv. Incorporate housing costs into the UC/CTR calculation
 - v. Apply disregards for Bereavement Support Allowance and post graduate master's degree loan and special support payments in the assessment of CTR.
- 4.2 Following further financial profiling, it is considered prudent not to apply the additional earnings disregard of £17.10 per week for those working additional hours in 2019/20. The impact of this will be monitored in 2019/20 with a view to inclusion in the scheme for 2020/21.
- 4.3 Following member approval of the 2019/20 scheme and the inclusion of prescribed scheme regulations for 2019/20, the Council's revised CTR scheme will be published on the Council's website and included in the Council report for 27 February 2019.

5 Consultation

- 5.1 The Council has consulted with the major preceptor, the Greater Manchester Combined Authority (GMCA) with regard to the provision of Police and Fire Services. A public consultation on the above options took place between 12th September, 2018 and 24th October, 2018. The consultation was conducted online on the Council's website. Two versions of the survey were prepared, one for residents and one for organisations to complete. A number of stakeholder and partner organisations were contacted directly to encourage participation in the survey. A hard copy version of the survey document was also made available at Access Oldham, where face to face contact with residents on Council Tax and Benefit issues is handled. Access Oldham officers actively encouraged residents to complete the survey when they visited Access Oldham during the consultation period.
- 5.2 The consultation was communicated via an extensive media campaign involving Twitter, Facebook, the Council's website and via press releases to local media. The social media campaign achieved a reach of 10,000. Consultation responses are detailed in the body of this report and are also set out in the Consultation feedback summary report at Appendix 1.

6 Financial Implications

- 6.1 The direct grant previously paid by the Department for Communities and Local Government (now the Ministry for Housing, Communities and Local Government) for Council Tax Reduction Support has now been subsumed within the Council's Settlement Funding Assessment and Revenue Support Grant (RSG) figure which has itself been incorporated within Business Rate Top Up grant under the piloting of 100% Business Rate Retention. The link between CTR arrangements and grant compensation is no longer evident, given the level of grant funding that has been reduced under the Government's austerity agenda.

6.2 As at the time of preparing this report, 85% of claimants have made some payment towards their 2018/19 Council Tax bills, suggesting a collection rate of approximately 80%. As outlined above, data is not available to assess how many of these claimants making payments will fall into arrears during the rest of the year, however it is envisaged that proactive collection methods implemented by the Unity Partnership Ltd will enable the Council to collect an amount between 80% and 85% of the amount due in 2018/19. Weekly monitoring of the collection rate is being maintained to manage the risk of non-collection. One perceived risk at this stage is that the present collection rate will reduce throughout the remainder of the financial year and beyond as the Government's welfare change programme progresses. The amount of disposable income many of the scheme's claimants will have available to meet Council Tax and other financial commitments is likely to reduce. This will have the impact of increasing the risk of arrears from those who are currently paying their Council Tax.

6.3 The table below summarises the current scheme and potential options for consideration. Each option assumes collection rate of 80% (deemed feasible given current projected collection levels).

Scheme Options	% Band A Property	CTR Billed	Collection Rate	CTR Income
	%	£m	%	£m
	87.5	4.475	80	3.580
	85	4.772	80	3.818
	82.5	5.069	80	4.055
	80	5.366	80	4.293

6.4 For each 2.5% movement of CTR benefit, Council Tax income shifts by approximately £297k. However, this is the Council Tax income figure prior to apportionment over the appropriate precepting percentages. In 2018/19, the present allocation percentages are Oldham Council 86.61%, GMCA for Police Services 9.63% and finally GMCA for Fire Services at 3.76%. Therefore a £297k movement would benefit Oldham Council's available funding by approximately £257k.

6.5 The average impact to claimants assuming December caseload numbers of 14,144 claimants remain constant is that for each 2.5% CTR move, a claimant is likely to see a +/-£21.00 adjustment to their CTR benefit depending on whether the CTR scheme is made more or less beneficial.

6.6 As a consequence of not including all the Housing Benefit changes within the Council Tax Reduction Scheme, this scheme is effectively more generous to its recipients than the Housing Benefit regime.

6.7 The introduction of earnings disregards for UC cases is estimated to cost £200k p.a. for the standard earnings disregards rising to a possible £313k if the additional earnings disregards are also introduced. CTR is a demand led scheme and so financial estimates for the full range of changes could be as high as £426k p.a. in 2019/20 (although this higher level is much less likely). Estimates are contingent on the rate of transition to UC for these claimants in 2019/20.

6.8 Incorporating Housing Costs into the assessment of UC/CTR awards is likely to cost £41k in 2019/20.

-
- 6.9 Further decisions regarding disregarded bereavement support and postgraduate loan claimants are deemed immaterial from a financial perspective given the very limited numbers of cases within these fields estimated to amount for less than £10k cumulatively.
- 6.10 The Council currently applies a Council Tax Empty Property Premium of 50% for properties empty and unfurnished for over two years, This was introduced from 1st April 2013 to encourage owners of empty properties to bring properties back into use and to help mitigate the impact of reduced central government funding. From 1st April 2019, the Government has given discretion to local authorities to increase the Council Tax Empty Property premium to a maximum of 100% and the Council intends to apply this new premium. It is anticipated that any adverse implications from the introduction of CTR changes in 2019/20 could be mitigated by income from additional empty premium charges. These changes have also been accommodated within Council Tax base calculations.
- 6.11 The Council has an exceptional hardship fund for those residents who are struggling to pay their Council Tax. This fund is a discretionary fund and will continue to be utilised in 2019/20 to support those residents experiencing severe financial difficulty.
- 6.12 However, as set out in paragraph 2.2 of this report, the collection rate is on an upward trajectory and expected to achieve somewhere between 80% and 85%. This level of collection in addition to the growing Council Tax tax base is deemed sufficient to meet the 2019/20 budgeted Council Tax Income requirements as included in the current Medium Term Financial Strategy (John Hoskins).

7 Legal Services Comments

- 7.1 The legislation states that each year an authority must give consideration to whether to revise its Council Tax Reduction scheme.
- 7.2 The revision of a scheme is a decision that the legislation reserves to full Council. Any revision to apply to the scheme for the following year must be made no later than 10 March of the preceding financial year.
- 7.3 No revision of a scheme can occur unless the authority has, in the following order:
1. Consulted with the major precepting authority – The Greater Manchester Combined Authority for Police and Fire services
 2. Published a draft proposed scheme
 3. Consulted with others likely to have an interest in the scheme
- 7.4 The authority has undertaken consultation as above and is therefore able to revise its scheme should it wish to do. If so, the matter goes to full Council.
- 7.5 If following consultation it is proposed that no revision is made, it is still recommended that the matter goes to full Council. The legislation does not expressly state that the consideration of whether to revise a scheme, as opposed to actual revision, is reserved for full Council. Given the lack of clarity in the legislation, authorities would be wise to approach the matter with caution even if no revision is proposed.
- 7.6 In order to discharge its duties under the Equality Act 2010, the authority will need to consider the effects of proposals on people with a protected characteristic as defined by the Act, which can be done by way of an equality impact assessment as happened before the present scheme was made. This is set out at Appendix 2.

7.7 Any scheme to be implemented by the Council shall apply from April 2019 and shall be in terms of the Oldham Council Tax Reduction Scheme at Appendix 3 of the report subject to:

- Any changes resulting from prescribed requirements from time to time issued by the Secretary of State under paragraph 2(8) of Schedule 1A of the Local Government Finance Act 1992
- Any changes from time to time to the various figures in Appendix 3 that are figures prescribed by central government for welfare benefits purposes (Alex Bougatef)

8. **Co-operative Agenda**

8.1 The approval of support for residents who are of working age and on low incomes is consistent with and embraces the principles of the co-operative agenda.

9 **Human Resources Comments**

9.1 None

10 **Risk Assessments**

10.1 There are a number of risks to be managed in this process:

- Ensuring the revised scheme is not subject to a legal challenge on the basis of equality legislation
- Developing a scheme which is both fair and affordable to the Council in 2019/20 particularly as it will only be based on limited collection rates information early in the financial year and assumptions on grant funding previously made
- Linking in Council Tax Collection Processes to the Council's Council Tax Collection Strategy (Mark Stenson)

11 **IT Implications**

11.1 None

12 **Property Implications**

12.1 None

13 **Procurement Implications**

13.1 None

14 **Environmental and Health & Safety Implications**

14.1 None

15 **Equality, community cohesion and crime implications**

15.1 In taking financial decisions, the Council must demonstrate that it has given 'due regard' to the need to eliminate discrimination, promote equality of opportunity and promote good relations between different groups.

15.2 Demonstrating that 'due regard' has been given involves:

- Assessing the potential equality impacts of proposed decisions at an appropriate stage in the decision making process so that it informs the development of policy and is considered before a decision is taken

-
- Ensuring that decision makers are aware of equality duties and any potential equality issues when making decisions.

N.B. Having due regard does not mean the Council cannot make decisions which have the potential to impact disproportionately. It means that we must be clear where this is the case and must be able to demonstrate that we have consulted, understood and mitigated the impact.

- 15.3 To ensure that the process of impact assessment is robust, it needs to:
- Be specific to each individual proposal
 - Be clear about the purpose of the proposal
 - Consider available evidence
 - Include consultation and involvement with those affected by the decision, where appropriate
 - Consider proposals for mitigating any negative impact on particular groups
 - Set out arrangements for monitoring the actual impact of the proposal

- 15.4 As with previous Council Tax Reduction Schemes from 2013, an Equality Impact Assessment is being undertaken to try to identify any potential disproportionate adverse Impacts arising from the proposed scheme and also identify any actions which might mitigate these impacts (Dominic Coleman)

16 **Equality Impact Assessment Completed?**

- 16.1 An Equality Impact Assessment has been completed and is set out at Appendix 2

17 **Key Decision**

- 17.1 Yes

18 **Key Decision Reference**

- 18.1 FCR - 22- 18

19 **Background Papers**

- 19.1 The following is a list of background papers on which this report is based in accordance with the requirements of Section 100(1) of the Local Government Act 1972. It does not include documents which would disclose exempt or confidential information as defined by the Act:

20 **Appendices**

- 20.1 Appendix 1: Consultation Feedback Summary Report
Appendix 2: Equality Impact Assessment
Appendix 3: Council Tax Reduction Scheme 2019/20 (this will be available following inclusion of prescribed requirement amendments on www.oldham.gov.uk by 27 February 2019)

Map 2: Distribution of respondents	8

Executive Summary

1.1 Overall Summary

Overall, respondents were in favour of the proposed changes to the Council Tax Reduction (CTR) scheme in 2019/20 with an average 77% agreement across the four proposed changes and 71% in favour of maintaining the current scheme.

Table 1: Summary of Resident views

Table 1: Key

Key		
Questions	No of respondents	Summary Name
Current Scheme	113	Maintaining the 85% scheme
Change 1	114	Making a CTR claim – UC claimants
Change 2	110	Earnings disregards
Change 3	111	Housing Costs
Change 4	111	Income disregards

- In total, 129 responses were received. As such, any findings reported in this document must be indicative of the view of the 14,144 potentially affected by any proposed changes to Council Tax Reduction.

-
- Less than one third (31.6%) respondents indicated that they receive Council Tax Reduction.
 - Due to the low number of responses received from organisations, it was deemed inappropriate to conduct quantitative analysis of responses for this data. Instead qualitative feedback has been shared with those responsible for developing the changes.
 - Several comments received alluded to the changes being difficult to understand, this was particularly relevant to change three.

1.2 Current Scheme

This question covered maintaining the present level of support i.e. limiting the level of CTR support at 85% of Council Tax for a Band A property.

- Overall **71%** of respondents agreed that the current levels of discount should be maintained.
- Those aged 35-44 were least likely to agree the change (61%) whilst those aged 45-54 were the most likely.
- Agreement for this arrangement were lower with Council Tax payers (72%) than those in receipt of CTR (78%) and those in receipt of Universal Credit (UC) (78%).
- Those in part time employment were least likely to agree with the change to maintain the current scheme (61.5%).
- Only one in five of those with a disability agreed with the change.
- Comments received indicated that some felt that the scheme was unfair on low income households, whilst six respondents were either unsupportive of local government support or disparaging of those in receipt of support.
- There was a mixture of respondents reporting that they felt the discount too high or in contrast did not go far enough.

1.3 Change One: Making a CTR claim - Universal Credit claimants

This proposal covered whether the Council should treat the information that the Council receives from the Department for Work and Pensions (DWP) telling us about a UC claim as a claim for CTR

- Overall **82.5%** respondents agreed that the information received from the DWP for UC claimants should be used in the CTR application process.
- Those aged 35-44 were least likely to agree the change (75%) whilst those aged 45-54 (92%) were the most likely.
- Agreement for this arrangement was lower with Council Tax payers (81%) than those in receipt of CTR (86%) and those in receipt of Universal Credit (94%).
- Those in full time employment were least likely to agree with the change (77%).
- Only one in five of those with a disability agreed the change.
- Overall comments received were positive around the change with agreement about the proposed process in particular how it was felt it would speed up the process.

1.4 Change Two: Disregards

Incentivising work for UC claimants by aligning with some or all of the treatment of earnings made in Housing Benefit (HB).

- Overall **80%** respondents agreed with the change.

-
- Those aged 35-44 were least likely to agree the change (71%) whilst those aged 45-54 (96%) were the most likely.
 - Agreement for this arrangement was lower with Council Tax payers (80%) than those in receipt of CTR (82%) and those in receipt of Universal Credit (88%).
 - Those not in employment were least likely to agree with the change (74%).
 - Only 18% of those with a disability agreed with the change.
 - Seven respondents were unclear about the change.

1.5 Change Three: Housing costs

Including housing costs in the way CTR is calculated for UC claimants

- Overall two thirds (**66%**) of respondents agreed with the Change.
- Those aged 35-44 were least likely to agree the change (57%) whilst those aged 55-64 (72%) were the most likely.
- Agreement for this proposal was lower with Council Tax payers (65%) than those in receipt of CTR (71%) and those in receipt of Universal Credit (UC) (77%).
- Those in part time employment were least likely to agree with the change (56%).
- Only 18% of those with a disability agreed with the change.

1.6 Change Four: Disregarded Income

Application of income disregards for Bereavement Support Payments, Post Graduate Degree Loans and Special Support payments to align with the treatment of this income in HB

- Overall **80%** respondents agreed with the Change.
- Those aged 35-44 were least likely to agree the Change (70%) whilst those aged 45-54 (72%) were the most likely.
- Agreement for this proposal was lower with Council Tax payers (78%) than those in receipt of CTR (85%) and those in receipt of UC (82%).
- Those in part time employment were least likely to agree with the Change (75%).
- Only 18% of those with a disability agreed with the Change.

Section One: Background

The Council's CTR scheme has been largely un-amended since April 2015 when the Council introduced a scheme that:

- Limited CTR to a maximum of 85% of Council Tax a Band A property
- Removed second adult rebate for those of working age

Between 12 September and 24 October 2018, Oldham Council conducted a consultation around proposed changes to Council Tax Reduction for 2019/20. This consultation follows Cabinet approval of this consultation on 20 August 2018. The consultation sought the views of residents and stakeholders around 5 areas. The changes set out for consideration were:

<i>Change</i>	<i>Text Summary</i>	<i>Summary name</i>
Current Scheme	Maintaining the present level of support i.e. limiting the level of support at 85% of Council Tax for a Band A property as the maximum amount available.	The Current Scheme
Change 1	Proposal to treat the information that the Council receives from the DWP telling us about a UC claim as a claim for CTR	Making a CTR claim - Universal Credit claimants
Change 2	Incentivising work for UC claimants by aligning with some or all of the treatment of earnings in Housing Benefit (HB)	Earnings disregards
Change 3	Including housing costs in the way CTR is calculated for UC claimants	Housing costs
Change 4	Application of income disregards for Bereavement Support Payments, Post Graduate Degree Loans and Special Support payments to align with the treatment of this income in HB	Income disregards

Methodology

Eligible Population

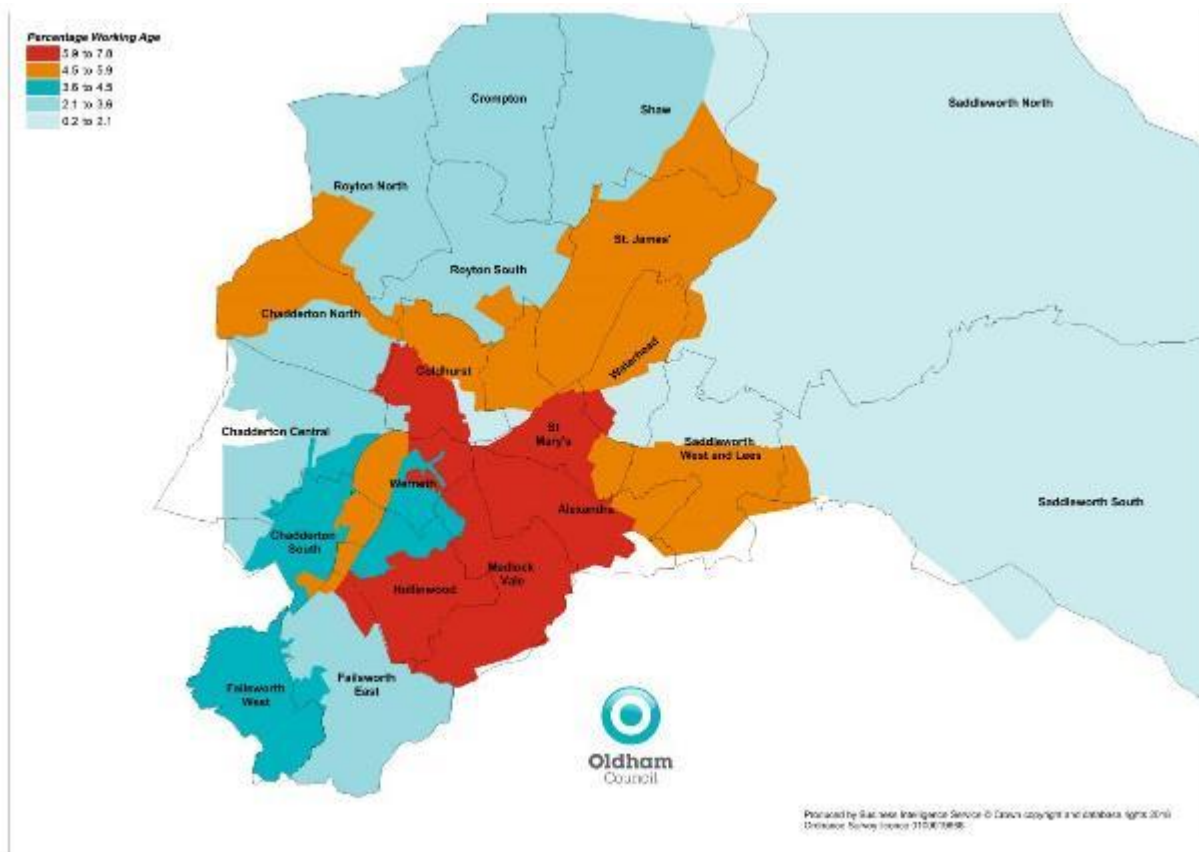

Figures provided by the Oldham Council Revenues and Benefits client team indicate an eligible population of 14,144 claimants of working age. Table one provides a breakdown of claims by claimant type. It shows that those people of working age (64% of the entire claimant group) are affected by the changes (there is a mandatory requirement to protect those of pension age.)

Type of Recipient	Number	%
Pension Age	7,809	35.57%
Working age - passported benefits	6,118	27.87%
Working age – UC	4,452	20.28%
Working age – other	3,574	16.28%
Eligible population	14,144	
Overall Total	21,953	100%

Table 1: Working Age Claimants Oldham Jan 2019

Working Age Claimant Distribution

Map 1 illustrates the distribution of working age claimants in Oldham.

Map 1: Map to show distribution of claimants October 2019

Respondent location

Overall, 97% respondents indicated that they live in the town of Oldham. When asked to state the first four digits of their postcode, 98 provided details of their location. The analysis below is based upon the 71 respondents who provided their information in the requested format (i.e. OL1 1)

Map 2 below illustrates the approximate location of respondents. Overall this reflects the distribution of working age claimants shown in Map 1.

Map 2: Distribution of respondents

Resident Consultation

The public consultation took place between 12 September 2018 and 24 October 2018. The consultation was conducted online on the Council's website. A hard copy version of the survey document was also made available at Access Oldham, where face to face contact with residents on Council Tax and Benefit issues are handled. Access Oldham officers actively encouraged residents to complete the survey when they visited Access Oldham during the consultation period.

Consultation communications¹

The consultation was communicated by an extensive media campaign involving Twitter, Facebook, Oldham Council website and local media. Further analysis found that the campaign achieved a reach of more than 10,000; however, the levels of engagement were extremely low. ⁱ Figure 1 shows that respondents were most likely to respond via their smartphone (57%)

¹ Communications Business Partner (Corporate and Commercial Services and Unity Partnership)
Oldham Council Communications team

Table 2: Method of completion

Stakeholder Consultation

Oldham Council was keen to engage with organisations both local and national to gather views on Changes for Council Tax Reduction in Oldham. As such fifteen organisations were invited to contribute via an online survey. A separate online link was also provided for other organisations to contribute to the survey on the website. Further details of the responses received can be found in Section 4 of this report.

Analysis and reporting

Overall, 129 responses from residents were received. As such any findings reported in this document must be indicative of the view of the 14,144 potentially affected by any proposed changes to Council Tax Reduction.

Due to the low number of responses received from organisations (7 responses from 5 organisations), it was deemed inappropriate to conduct quantitative analysis of responses this data. Instead qualitative feedback has been shared with those responsible for developing the changes and is set out in section 4

- Analysis was conducted using a combination of the SNAP survey tool and Microsoft excel. All figures quoted within this report are based upon known data. Figures have been rounded to the nearest whole number.
- A thematic analysis of comments received from residents and professionals was conducted using NVIVO and MS Excel.
- The number of respondents for each question and where appropriate subgroup can be found in appendix one.
- Any concerns addressed by both respondent cohorts will be recorded in Section 5 Mitigation.

Section Two: Oldham Residents

Overall views

Figure 2 provides an overall summary of resident's views to the changes consulted on for the Council Tax Reduction Scheme in Oldham in 2019/20.

Figure 2: Key

Key		
Questions	No of respondents	Summary Name
Current Scheme	113	Maintaining the 85% scheme
Change 1	114	Making a CTR claim – UC claimants
Change 2	110	Earnings disregards
Change 3	111	Housing Costs
Change 4	111	Income disregards

- Overall there are high levels of agreement to the changes proposed. The most favoured being Changes 1, 2 and 4.
- Respondents were least likely to support Change 3 with around two thirds declaring their agreement with the proposed change.

Council Tax payers

Figure 3 considers the agreement, or not with these respondents with the various changes. There are considerable levels of support across three of the four proposed changes and in the maintenance of the current scheme.

Council Tax Reduction

Less than one third (31.6%) respondents indicated that they receive CTR. Figure 4 shows the differences in agreement of the changes between those in receipt of CTR and those not.

- Respondents from both cohorts were shown to be least likely to agree with Change 3
- The greatest discrepancy in views between the two cohorts was around Change 4 with a gap of ten percentage points

Figure 4: % agreement ctr/non-ctr respondents

	CTR Respondent (no)	Non- CTR Respondent (no)
Current Scheme	36	77
Change 1	36	78
Change 2	34	76
Change 3	34	77
Change 4	34	77

Universal Credit

Overall, only 18 (15.8%) of respondents stated that they are in receipt of Universal Credit (UC) Figure 5 shows the differences in agreement of the changes between those in receipt of CTR and those not.

- For those in receipt of UC, respondents were most likely to agree with change 1 and least likely to agree with change 3.
- For those not in receipt of UC, again the highest levels of agreement came for change 1 (Q2) whilst agreement was lowest with change 3.
- The greatest discrepancy in levels of agreement between the two cohorts came with change 1.

	UC Respondent (no)	Non- UC Respondent (no)
Current Scheme	18	95
Change 1	18	96
Change 2	17	93
Change 3	17	94
Change 4	17	94

Employment

When asked if they work, (Figure 6) most commonly respondents indicated that they were in either full time (45%) or part time employment (23%) and almost a third indicated that they do not work. Figure 6 provides a comparison of the views of these different cohorts across the Changes laid out.

Respondents in part time employment were least likely to agree with plans to maintain the current scheme as well as changes 3 and 4

Only two thirds of full-time workers agreed with change 3. This contrasted with approaching 80% of those not in employment

Equalities

Ethnic Group

Over 80% respondents are White British; numbers for other ethnic groups are too low to provide meaningful analysis.

Age

Table 1 provides a summary of agree with Changes by age group. Due to the low number of responses by those aged 16 to 24, figures have been redacted.

Table 1: Agreement with Changes by broad age group	Current Scheme	Change 1	Change 2	Change 3	Change 4
Age range (number of respondents)					
	% Agreement with Changes				
16 to 24 (n3)					
25 to 34 (n23)	61%	78%	82%	65%	82%
35 to 44 (n24)	67%	75%	71%	57%	70%
45 to 54 (n25)	92%	92%	96%	65%	89%
55 to 64 (n26)	77%	89%	77%	72%	69%
65 + (n14)	57%	71%	67%	69%	85%

Gender

53% respondents are female and 41% male. 6% preferred not to state their gender. The findings indicated here are based where the respondent gender is known. Figure 7 considers how, if at all, the views of male and female respondent differed.

- Female respondents were considerably more likely to agree with the Changes laid out for CTR in 2019/20 than male respondents.
- The greatest discrepancy in views came in change 3(Q4) where a gap of 20.6 percentage points existed.

Disability

Only 18 respondents indicated the presence of a disability (15%). The findings indicated here are based where the respondent’s disability status is known. Figure 8 shows a distinction in levels of agreement with changes between those stating a disability and those not.

Figure 8: Respondents Agreement with proposals by disability

	Disability (no)	No Disability (no)
Current Scheme	18	95
Change 1	18	96
Change 2	17	93
Change 3	17	94
Change 4	17	94

Section Three: Residents views

Section three focuses on the comments received from Oldham residents on the proposed changes to CTR in 2019/20. A total of 86 comments emerged from residents. Over 45 (50%) were in support of one or more changes. Figure 9 shows the key themes that emerged across the five changes

The Current Scheme

36 residents provided extra narrative to their response to this question. Of these 10 were in favour of the Change and 24 were not. Figure 10 shows the key issues emerging from respondents. It shows that most respondents were keen to share their ideas around the scheme, most commonly the level of discount being too high (n9) or too low (n3).

Figure 10: Summary of views on the current scheme

By paying a small charge towards Council tax it encourages responsibility and financial budgeting, female, 45-54 Full time employed

Far too cheap, unfair on full time working families! Why should we pay more and have use of the same services? Male, 25-34 Full time employed

I feel that people that don't get benefits that struggle on low incomes should be the area that is supported more and helped rather than the long term unemployed. Female 35-44, Full Time employed, Chadderton

Change 1 – Making a CTR claim (UC claimants)

22 residents provided extra narrative to their response to this question. Of these 10 were in favour of the change and 6 were not. Figure 11 provides a summary of these comments

Figure 11: Comments Summary - Change 1

I think it's an excellent idea as a resident and a front-line worker in the Third sector I see the misery and stress it causes due to lack of information and people assuming this has automatically been applied for as it was when making a Housing Benefit claim in the past. Female, 45-54 Full Time employed

This would make more sense for all parties if they are still given this amount of benefit for council tax and I am sure more cost effective when dealing with applications Female, 35-44
Full time employed, Chadderton

Change 2 – Earnings Disregards

21 residents provided extra narrative to their response to this question. Of these 10 were in favour of the Change and 10 were not. Key themes are extracted in Figure 12

*not all 21 comments are included in the themes in Figure 12

Figure 12 shows that most commonly respondents were unclear about the change, with respondents raising questions the impact on those who are disabled, families without children and the favourable impact on lone parents. One respondent also noted that it was unclear if the level of disregard offered mirrored those stated by the national Government

Should be the same for everyone. Again! Kids get more but childless adults are discriminated against. If you can't make it fair? Then don't bother. Male, 25-34, Full Time employed, Royton

I don't know if the disregard mirrors the Government's, but it would be easier all round if it did. Female 65+ Saddleworth and Lees

I would have supported this Change except for one thing - I don't see why a Lone Parent should get £25 disregard.... This should be £5 the same as a single person. Lone parents already get the relevant 'benefits' for themselves and their child(ren) as per their personal situation. Female 65+ Royton

Change 3 – Housing Costs

8 residents provided extra narrative to their response to this question. All but one comment received was from respondents in favour of the Change. Of these, three were unsupportive of local government assisting with Council Tax payment and two felt the Change was not clear.

The change isn't clearly defined here, but if the change is what you currently do, then I agree with the change. I don't see why you should increase the amount of CTR some claimants are entitled to (Oldham needs every penny of Council Tax it can get!!) Female 65+ Royton

Change 4 – Income disregards

7 residents provided extra narrative to their response to this question. Of these, 4 were in favour of the Change and 3 were not. Figure 13 provides a summary of the key themes emerging.

*not all 7 comments are included in the themes in Figure 13

¹ This is likely due to the technical nature of the content. Because of the complex nature of the way Council Tax Reduction is setup, it is extremely difficult for non-Council Tax experts and professionals to understand and engage with the content.

Section Four: Organisations

A total of 7 representations were received from 5 organisations. (Figure 14) Given the low number of responses, section 4 of this report will focus on the qualitative feedback received.

Figure 14: Responses received

The Current Scheme

All but two organisations responding agreed that Oldham Council should maintain the current scheme. The following comments were received

- ***I support this proposal as we support a lot of vulnerable adults to live independently. The majority of adults we support would not be able to pay their full Council Tax and would end up with debt and court cost***
- ***The people I support rely on this deduction to make ends meet. Paying Council Tax is difficult enough for some people on benefits, some people are taken to court for non-payment adding additional costs.***
- ***Band A should have more relief as they are often earning a lot less and struggling to meet basic needs to run their households.***
- ***Agree maximum award 85% (If no scope to increase), but do not agree restricting to a Band A charge, should be 85% of that person's banding. It does not make sense that they would have to pay £215pm for living in a Band H property which is 67% of their UC standard allowance.***

Change 1

All responding organisations agreed with this change. The following comments in support were received:

- ***This will protect the vulnerable who are most likely not to claim their entitlement.***
- ***The separation of UC and CTCS now does not work and leaves people confused and in debt with their council tax as they automatically presume that the CT runs alongside UC***

-
- ***This would greatly assist claimants as not all are aware that there needs to be a separate claim for CTR resulting in loss of benefits and a debt.***
 - ***Particularly useful for vulnerable claimants who would find it difficult to make the claim.***

Change 2

All responding organisations agreed with this change. The following comments in support were received:

- ***This incentive will help people earning the minimum wage. We will be encouraging in-work progression the disregard will help people transition as they increase their pay. I assume when they earn above the threshold taking them off Universal Credit there will be a process to remove the disregard.***
- ***I do agree with this proposal but could be too complicated***
- ***This will support people in work on low incomes***

Change 3

All but one respondent agreed with change 3. The one respondent in disagreement indicating that the change may be difficult to understand.

Change 4

All responding organisations agreed with this change.

Section Five: Summary

Following other similar exercises and the experience of other Local Authorities conducting consultation on CTR schemes, it was anticipated that the consultation would not receive a high number of responses due its technical nature. This proved to be true with only 129 responses received; a third of whom were in receipt of Council Tax Reduction. The overall response to all changes, including the maintaining of the current scheme has been positive, particularly with those who currently pay Council Tax. The lower number of responses and comments received indicated that participants were less clear around changes 2 and 3.

Section Six: Mitigation

Based on the feedback received from this consultation exercise, a list of issues and questions has been included for response in the mitigation log below

Who You are asking - Stakeholder Group e.g. Residents, businesses, service users etc.	How information is received e.g. via questionnaire, focus groups, letter, phone call, email etc.	Feedback (if possible specific details, including any concerns about the Changes)	Further explanation
Residents	Questionnaire	Low levels of response	Extensive levels of media coverage reaching c.10, 000 residents.
Residents	Questionnaire	Inaccessible to those without internet	Residents able to take part using hard copy questionnaire at Access Oldham
Residents	Questionnaire	Changes unclear	All changes went through several revisions before publication. The technical nature is unavoidable
Residents	Questionnaire	Changes are unfair on low income working families "Why should we pay more for the same services?"	The proposed changes are all aimed at increasing CTR entitlement. In particular, the earnings disregards proposal is designed to support those who are working and on a low income
Residents	Questionnaire	Council Tax in Oldham is too high	Maintaining the 85% scheme aims to ensure that the maximum

			award of CTR remains comparatively high (in comparison with other local authorities CTR schemes)
Residents	Questionnaire	Change one: Include others who are excluded due to being on the bottom of threshold for no universal credit. Make it individualised.	CTR is calculated on a means tested basis so those with lower levels of income are taken into account when assessing benefit
Residents	Questionnaire	Change one: Are checks in place to ensure only the right people are getting CTR.	All claim go through an assessment and checking process to ensure the correct CTR is awarded
Residents	Questionnaire	Change Two: it is unclear whether people would be better or worse off than at present. Illustrative examples would have been helpful.	Examples are included in the Equalities Impact Assessment (EIA) Those in work will be better off if the changes are adopted.
Residents	Questionnaire	Change Two: Only helps those who qualify for tax credits and reductions	The proposal supports those who are in work as some of their earnings are disregarded (i.e. not taken into account) when assessing entitlement
Residents	Questionnaire	Change Two: How does this impact on disabled residents who cannot work	This proposal is specifically aimed at supporting those in work. There are other adjustments to UC in place as a result of a claimant's limited capability for work.
Residents	Questionnaire	Change Two: Does the change reflect disregard outlined by the Government	The change reflects the earnings disregards in place for HB and other non UC CTR claims
Residents	Questionnaire	Change Two: Why do lone parents receive higher levels of disregard than single person	This replicates the earnings disregards in Housing Benefit and supports those in work looking after children in lone parent households

Residents	Questionnaire	Change Three: Unfair on UC claimants who already have limited finances	This change increases entitlement and only affects a limited number of people
Residents	Questionnaire	Change Four: All calculations should be shown	Due to its technical nature, it was difficult to express this simply in a sample calculation
Residents	Questionnaire	Change Four: Streamline guidelines to mirror the Governments	The proposal suggests doing just this.
Residents	Questionnaire	Change Four: What changes are proposed for those who are exempt due to SMI	A council tax exemption applies if you are severely mentally impaired.

Equality Impact Assessment Tool

Stage 1: Initial screening

Lead Officer:	Caroline Lee
People involved in completing EIA:	Caroline Lee Yvette Maguire
Is this the first time that this project, policy or proposal has had an EIA carried out on it? If no, please state date of original and append to this document for information.	No An EIA on the 2013/14 scheme accompanied the scheme for approval to Council on 12 December 2013. An EIA was also completed for the review of the scheme for 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19. This EIA is for the scheme for 2019/20 onwards.

General Information

1a	Which service does this project, policy, or proposal relate to?	This proposal relates to the Council Tax Reduction (CTR) scheme which is the responsibility of the Revenues and Benefits service within the Finance directorate. The CTR scheme is administered by the Unity Partnership Ltd on behalf of the Council.
1b	What is the project, policy or proposal?	<p>The proposal is the approval of Oldham's CTR scheme for 2019/20 onwards.</p> <p>From 2013/14, all local authorities were placed under a duty to agree a localised Council Tax Support Scheme for those of working age at full Council to replace Council Tax Benefit (CTB) by 31st January 2013.</p> <p>Previously, the CTB scheme was administered nationally.</p> <p>There was additional complexity in developing a scheme given that the resource envelope, in which we had to deliver any scheme, was 10% smaller than the funding we had received to cover CTB the previous year. The Councils desire was to ensure the scheme was self-financing to ensure no additional burden to the financial position of the Authority.</p> <p>The scheme was calculated to generate an amount of funding that when taken alongside the direct grant</p>

		<p>received and additional income from technical reforms made the scheme viable. The CTR element of this calculation works on the basis of a presumed collection rate.</p> <p>There is an obligation within existing the legislation (Local Government Finance Act 2012) on the Council to consider whether to review this scheme on an annual basis. If the Council wants to revise the scheme, any revised scheme for 2019/20 needs to be approved by full Council on a date before 10th March 2019.</p> <p>The Council made a change to the Council Tax Reduction Scheme in 2015/16 increasing the maximum reduction awardable from 80% of the Band A rate of Council Tax to 85%. That meant an extra £53.43 per year for someone who is entitled to the maximum award. This was agreed by Full Council in December 2014.</p> <p>Since 2015/16, apart from updated prescribed changes to the CTR scheme, there have been no further changes.</p>
1c	<p>What are the main aims of the project, policy or proposal?</p>	<p>There are three key aims of the proposals:</p> <ol style="list-style-type: none"> 1. To continue to use a scheme that is affordable. As at December, 2018, 85% of claimants have made some payment towards their 2018/19 bills suggesting a collection rate of approximately 80%. Weekly monitoring of the collection rate is being maintained to manage the risk of non-collection. One perceived risk is that claimants begin to find it harder to make payments as the Government's welfare reform agenda progresses. If the amount of disposable income claimants have to meet Council Tax and other financial commitments reduces, this could have the impact of increasing the risk of arrears from those who are currently paying their Council Tax. <p>The Authority continues to face significant challenges in order to balance the budget in 2019/20. We are therefore once again looking to maintain a local scheme that is affordable and balances the impact of welfare reforms against the cost of providing a local Council Tax reduction scheme.</p> <p>We are acutely aware that shortfalls in Council Tax collection mean creating a budget pressure that has the potential to require further savings to be made from within council services.</p>

2. To continue to use a scheme that limits the financial impact across all Council Tax Reduction recipients.

The protection of pensioners must be kept in place in line with the current national scheme, and the cost of doing this needs to be aligned with our need to protect vulnerable groups and provide incentives to work.

Whilst not providing a specific definition for vulnerable groups, the Government did advise that Authorities should consider their duties under specific legislation when designing a scheme, namely:

The Equality Act 2010
Child Poverty Act 2010
The Housing Act 1996

Whilst we have no legal duty to protect people on low incomes (this was revoked in December 2010), as a borough with a number of deprived areas, Oldham still chooses to continue considering the impact of any decisions on this group. This Council continues to consider people on low incomes as part of our equality impact assessment (EIA) process.

We have undertaken in-depth research into the scale of the impact of welfare reforms on Oldham and its people.

A report in January 2015 on the impact of welfare highlighted the following groups as particularly vulnerable:

- Single people, in particular young single people in rented accommodation
- Younger people in general
- Older people with disabilities.

A report in August 2015 looking at the new Government proposals for welfare and tax reform (now the 2016 Welfare Reform and Work Act) showed that those not in work, especially those with children as well as lone parents overall and families with only one earner will be the most heavily affected by the latest changes.

In January 2016, we looked in detail into one of the groups most affected by these reforms, namely those aged between 18-24.

In September 2016, we investigated the impact of welfare reform on the debt and finances of local people.

		<p>These findings are factored in when identifying those who are most vulnerable under the scheme.</p> <p>3. To continue to maintain a scheme that will enable the Council to collect as much Council Tax as possible, whilst supporting residents to meet their payments.</p> <p>Early indications are that collection rates on the debt due for 2018/19 are approximately 80%. However, the impact of the roll out of the full service of Universal Credit which began on 26 April 2017 is still being felt across the borough and this could impact on CTR take up and outturn collection levels. The number of recipients of working age CTR has reduced from 16,206 when the scheme was agreed in December 2013 to 14,144 in January 2019 and this could indicate that there is less overall requirement for financial support.</p> <p>Once again, through this process we will endeavour to do things differently, to do things co-operatively, which will help the residents of Oldham and in doing so, enable the Council to collect the funds it needs to continue to provide services. A Council Tax Collection Strategy was launched in 2018 aimed at encouraging early payment by engaging with residents more pro-actively, identifying vulnerable people early in the Council Tax recovery process and signposting to partners and stakeholders where wider support is needed. We have also signed the CAB debt protocol supporting ethical collection methods and have partnered with the debt charity Stepchange to provide support. We have also started to use the Money Advice Service's recommended Standard Financial Statement (SFS) which standardises affordable repayment arrangements with residents.</p>
1d	Who, potentially, could this project, policy or proposal have a detrimental effect on, or benefit, and how?	<p>The proposal for the 2019/20 scheme is to change the current support provided through the CTR scheme, on this basis there will be no disproportionate detrimental impact on equality groups from the proposal put forward. All the proposed changes either maintain the status quo i.e. maintain the maximum award at 85% of Council Tax for a Band A property or are financially beneficial to residents.</p> <p>The recommendations are:</p> <ol style="list-style-type: none"> 1) The continuation of limiting support to a maximum of 85% of Council Tax of a Band A Property. 2) The application of disregards for Bereavement Support Allowance and post graduate master's

		<p>degree loan and special support payments in the assessment of CTR</p> <p>3) The introduction of support for UC/CTR claimants including earnings disregards, use of DWP information as an intention to claim and incorporation of housing costs in the UC maximum award.</p>
--	--	--

1e. Does the project, policy or proposal have the potential to <u>disproportionately</u> impact on any of the following groups? If so, is the impact positive or negative?				
	None	Positive	Negative	Not sure
Disabled people	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Particular ethnic groups	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

People on low incomes	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People in particular age groups	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Groups with particular faiths and beliefs	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any other groups that you think may be affected negatively or positively by this project, policy or proposal?				
<i>E.g. vulnerable residents, homeless people, individuals at risk of loneliness, carers or serving and ex-serving members of the armed forces</i>		<input checked="" type="checkbox"/>	<input type="checkbox"/>	

If the answer is “negative” or “not sure” consider doing a full EIA

<p>1f. What do you think that the overall NEGATIVE impact on groups and communities will be? <u>Please note that an example of none / minimal impact would be where there is no negative impact identified, or there will be no change to the service for any groups.</u> Wherever a negative impact has been identified you should consider completing the rest of the form.</p>	None / Minimal	Significant
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

1g	Using the screening and information in questions 1e and 1f, should a full assessment be	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
----	---	---

	carried out on the project, policy or proposal?	
1h	How have you come to this decision?	The proposal for the 2019/20 scheme is to maintain the support provided through the scheme or to increase the financial help available through the CTR scheme. On this basis it felt that there will be no disproportionate impact to those with protected characteristics from the propose revision to the scheme.

Stage 5: Signature		
Lead Officer:	Yvette Maguire	Date: 20.11.18
Approver signature:	Caroline Lee	Date: 4.1.19
EIA review date: October 2019		

The source of all data contained within this appendix is the live benefit database as at 4 January 2019 unless otherwise stated.

What we know about those currently claiming Council Tax Reduction?

Current Council Tax Reduction claimants

As of 4 January 2019, the number of claimants was 21,953

The breakdown of claims by Council Tax band is as follows:

Council Tax Band	A	B	C	D	E	F	G
Number of claimants	17,056	2,710	1,690	357	96	33	11

This data shows that the overwhelming majority of CTR claimants live in Band A properties. A restriction in the maximum award to 85% of those in a Band A property affects 22% of the CTR caseload some of whom will be pensioners and therefore not subject to the maximum award.

Potential impact on people of a particular age

The breakdown of claims by claimant type as at 4 January 2019 is as follows:

Type of recipient	Number	%
Pension age	7,809	35.57%
Working age - passported benefits	6,118	27.87%
Working age – UC	4,452	20.28%
Working age – other	3,574	16.28%
TOTAL	21,953	100.00%

This shows that those people of working age (64% of the entire claimant group) are adversely affected, particularly since there is a mandatory requirement to protect those of pension age. Therefore the number of claimants of working age subject to the 85% restriction is 14,144

Impact of using DWP information about UC as a claim for CTR

This proposed action has no detrimental impact on any of the protected groups as it simply mitigates against residents omitting to claim CTR (and free school meals) separately from Universal Credit as quickly as possible in order to maximise entitlement. It is a positive move to support early entitlement to CTR for those in receipt of Universal Credit

Impact of applying earnings disregards to Universal Credit claims

This proposal helps to mitigate against the loss of UC work allowances introduced by the government in 2016 which reduced work incentives for single people and couples and cut work allowances sharply for lone parents

Universal Credit work allowances

£ per year

	Without housing costs			With housing costs		
	2015-16	2016-17	Change	2015-16	2016-17	Change
Single or couple: no children (not disabled)	£1,332	£0	-£1,332	£1,332	£0	-£1,332
Lone parent (adults not disabled)	£8,808	£4,764	-£4,044	£3,156	£2,304	-£852
Couple with children (adults not disabled)	£6,432	£4,764	-£1,668	£2,664	£2,304	-£360
Single or couple: one or both are disabled	£7,764	£4,764	-£3,000	£2,304	£2,304	£0

Note For purposes of this table "disabled" indicates the presence of an adult with a "limited capability for work". Also note that different work allowances apply according to whether the household is getting help with Housing Costs.]

At the time of introduction of the CTR scheme in 2013, earnings disregards were not included in the default scheme (largely as a result of the generous work allowances planned for UC)

This proposal introduces some or all of the earnings disregards applicable in Housing Benefit and the non UC CTR caseload. It mitigates against the loss/reduction of work allowances to manage work incentives for UC cases

Earnings Disregard	Weekly CTR increase	Increased CTR per annum
£5.00	£0.85	£44.32
£10.00	£1.70	£88.64
£20.00	£3.40	£177.29
£25.00	£4.25	£221.61

Impact of using housing costs in the assessment of UC/CTR

The inclusion of housing cost as income and also in the UC maximum award will in the vast majority of cases result in no change to UC/CTR entitlement. The proposed change corrects an anomaly where those (on low earnings) do not qualify for support unless housing costs are factored into the calculation. The overall cost of implementing this results in £41k of additional CTR across the claimant base.

e.g. A single UC claimant earning £600 per month would be entitled to an extra £1.91 per week CTR, £123.13 per annum.

Impact of applying income disregards to CTR already made law within Housing Benefits

This proposal has no detrimental impact on those with protected characteristics. The change aligns changes in legislation already made in Housing Benefit to the CTR scheme. All result in a disregard of income that will increase entitlement to CTR. This change affects a minimal number of residents and is estimated to cost less than £10k in 2019/20

Impact on those on low incomes

The impact of Universal Credit has on levels of Council Tax Support will, for the most part, be on working households.

As of August 2018 (latest available figures) Oldham West and Royton UC roll-out was 31% complete in terms of the number of households claiming UC compared to “legacy” benefits. 5,770 households claimed UC of which 40% were households with children and around 13,000 claimed “legacy” benefits.

As of August 2018 (latest available figures) Oldham East and Saddleworth UC roll-out was 34% complete in terms of the number of households claiming UC compared to “legacy” benefits. 5,280 households claimed UC of which 43% were households with children and around 10,000 claimed “legacy” benefits.

Impact on those with a disability

Of the 14,144 working age claimants, 5,687 (42.05%) have a disability premium within their benefit calculation. Whilst this indicates that the individual or child within the household is considered to have some form of disability, it does not tell us the nature or extent of the disability. The proposals included in the scheme for 2019/20 do not negatively impact on those with a disability. Those with a limited capability for work but who are working or carers will benefit from the earnings disregard of £20 per week.

Collection rates

As at 28 December 2018, the collection rate for CTR customers was 67.52% as opposed to 64.95% as at 29 December 2017, which indicates that people are paying and the payment provisions in place are sufficient.

Recovery Activity

Of those claimants who received Council Tax Reduction in 2018/19 3,964 accounts are now subject to recovery action, which has decreased since 2015/6 where 7,752 accounts were in recovery.

The breakdown below shows those accounts broken down by property band.

2015/16

Band	A	B	C	D	E	F	G	Total
Number	6,569	690	369	89	22	10	3	7,752

2016/17

Band	A	B	C	D	E	F	G	Total
Number	6,457	678	329	80	21	8	2	7,575

2017/18

Band	A	B	C	D	E	F	G	Total
Number	5,595	579	302	75	19	5	4	6,579

2018/19

Band	A	B	C	D	E	F	G	Total
Number	3,367	336	201	45	12	2	1	3,964

These figures are proportionately in-line with the overall number of claimants in each band, which indicate that since the local CTR scheme was introduced people in higher bands are not finding it more difficult to pay than those in lower bands.

Other financial impacts

- Oldham child poverty by ward In 2017, 40.7% (24,425) of Oldham children are living in poverty after taking into account housing costs.
- This has increased from 33.0% in 2015
- 16,369 (27.3%) Children are living in poverty if housing costs are not taken into account
- Coldhurst Ward has the highest level of child poverty (62.1%)
- Lowest levels of child poverty are in Saddleworth South (8.2%)
- Oldham has the 7th highest level of child poverty in the UK
- Two-thirds (64%) of children growing up in poverty live in a family where at least one member works

Causes of Child Poverty:

One of the most significant hidden cuts to support for children through the benefits system in recent years has been the repeated reductions in support relative to the rising costs of living, either through below-inflationary increases (such as a three-year 1 per cent cap on increases in benefit rates from April 2013)

Until recently, the local housing allowance, which determines the amount of Housing Benefit for people renting in the private rented sector, was based on average rents and was increased in line with rises in local rental prices. This ensured that as local rents rose, people were still able to afford to live and work in their own communities.

The rate of the maximum local housing allowance was reduced from the 50th percentile to 30th percentile meaning that the maximum rent which can be covered by Housing Benefit for those renting privately has been substantially reduced. As a result of this (and other changes), local housing allowance rates now bear little relationship to typical local rents.

As families migrate to Universal Credit there will be some households that will lose entitlement to Council Tax Support. By introducing earnings disregards in the Council scheme this will help to redress the balance.

Appendix (i) to EIA

A number of actions identified in developing the 2019/20 scheme were intended to mitigate the impact of CTR and the wider welfare reform, below are the actions with an update under each.

Activity	Update
Continue to promote existing flexible payments method	<p>Through a range of difference communication channels</p> <p>External:-</p> <ul style="list-style-type: none"> • Social media (Facebook and Twitter) • Website and web banner • Council Tax booklet • Media release • Promotion on revs and bens letters • Call waiting message • Residents Magazine • Early text reminder <p>Internal communications:-</p> <ul style="list-style-type: none"> • Articles in Team Brief • Cllr and staff briefing
Review effectiveness and take up of current payment methods and introduce new payment options where appropriate	<p>As at 28 December 2018, the collection rate for CTR customers was 67.52% as opposed to 64.95% as at 29 December 2017, which indicates that people are paying and the payment provisions in place are sufficient.</p> <p>Residents can elect to pay Council Tax over a range of payment dates 1st, 8th, 15th and 22nd of the month</p> <p>Residents can pay online, by 24/7 telephone touchtone payments, at Post Offices and Payzone outlets</p> <p>A fortnightly direct debit was introduced in 2013 to help customers manage their finances.</p>
Continue to deliver energy switching campaigns and auctions	<p>The Warm Homes Oldham service offers energy switching advice to residents in their homes. The service also offers heating and insulation upgrades, support with fuel debt and income maximisation, and other activities to reduce energy bills.</p>
Identify and establish referral arrangements to a wider range of support services	<p>We refer to Step Change national debt charity when residents have wider debt issues than Council Tax.</p> <p>We have also used the Personal Budgeting Support team (PBS) to support residents with money management and debt advice.</p>

Activity	Update
<p>Further develop the Welfare Rights Service to support residents to maximise their income</p>	<p>One of the key actions for Oldham Council's Welfare Rights Service in 2018-19 has been ensuring a consistent and targeted approach towards communicating with service users through greater proactivity and enhanced partnership working, in order to increase public engagement with the service.</p> <ol style="list-style-type: none"> 1. Increase uptake of welfare benefits and raise awareness of the Welfare Rights Service 2. Help tackle poverty and improve health and wellbeing amongst the most vulnerable groups <p>A number of potential communications initiatives have been identified which are primarily designed to increase awareness of the team's presence and will contribute to increased public engagement which includes:</p> <ul style="list-style-type: none"> • Regular activity to publicise changes to benefit rules • Direct liaison with DWP link officers when resident vulnerability has been identified resulting in loss of financial support • Regular activity to publicise success stories • Increased social media efforts • Support for increased number and quality of public engagement sessions • Support for increased partnership working with potential resulting communications activity • Stronger links with public health initiatives to encourage residents to become more independent and manage their own health more proactively <p>In addition, the service has developed and produced 'Make The Most Of your Money' packs, which are being distributed at community events and we have produced a quarterly newsletter which is distributed to our stakeholders.</p> <p>The team has continued to be successful and has again this year exceeded its target of £1million income generation, and has generated additional income for the residents of Oldham of over £2.29 million to date(31 December 2018)</p>
<p>Work with partner organisations to provide targeted support to residents</p>	<p>An Information and Advice working group is in place, delivering coordinated action in partnership with the</p>

Activity	Update
	<p>Council, DWP and the voluntary sector</p> <p>Strong links are in place with DWP including co-location of Benefit officers in the Job Centre to ensure take up of CTR and free school meals (these need to be claimed separately from Universal Credit)</p> <p>The Council has signed the CAB debt protocol in 2018 supporting ethical collection methods. More integrative work is planned over the coming year including managing the migration of Universal Support to CAB form LAs and debtor engagement/ mediation with CAB pilot pre-committal action.</p>
<p>Continue to monitor the collection rates on a weekly basis</p>	<p>This allows swift action to be taken if collection slows.</p> <p>Oldham has introduced SMS texting to remind people at an early opportunity (pre- first reminder) to pay on time. It is anticipated that this will improve collection and result in higher conversion to payment by direct debit.</p>
<p>Continue to monitor the wider impact of welfare reform ensuring effective partnership working continues to support those affected</p> <p>Identify and support those affected by the future changes to welfare reform, particularly the benefit cap and Universal Credit</p>	<ul style="list-style-type: none"> • A Greater Manchester (GM) workshop was held in Nov 2018 to fully assess impacts of UC roll out on CTR and to consider potential changes to the GM schemes from 2020/21. The changes considered included: <ul style="list-style-type: none"> ○ Introducing a fixed income period for CTR UC claims - claims could be reassessed every three months or six months at a flat rate regardless of changes to the customer's income over that period. Extensive modelling will need to be carried out to determine the costs and benefits of implementing such as scheme and the impacts on CTR administration and the customer. ○ Introducing a 'tolerance' within the scheme to allow for multiple changes. This would continue with the current CTR scheme but changes to entitlement which would increase or decrease entitlement below an agreed level would not affect the award of CTR. The Council would need to decide the level of tolerance to apply within its scheme ○ Introduction of banded schemes. The current scheme could be replaced with one that creates a banded level of support across a wide income range.

Activity	Update
	<p>This would potentially create cliff edges in CTR awards which would need to be worked through.</p> <p>For all the schemes under consideration from 2020 onwards, much more detailed work would be required to determine</p> <ul style="list-style-type: none"> • The optimum level of banded/tolerance in a new scheme • Impact on claimants • System functionality • Costs of scheme • Impact on collection <p>Additional work has been carried out to compare the current “as is” approach to UC/CTR in work claims across Greater Manchester..</p>
Get Oldham working initiatives	<p>The Council continues to encourage people into work</p> <p>Key achievements for Get Oldham Working between May 2013 and 31st Mar 2018 have included:</p> <p>7,845 work related opportunities created.</p> <p>7,252 job opportunities created and 5,791 filled.</p> <p>1,155 apprenticeships created and 918 filled.</p> <p>330 traineeships created and 298 filled.</p> <p>1,173 work experience placements created and 1,047 filled</p>
Undertake an annual review of the Council Tax Reduction scheme	The scheme will continue to be reviewed on an annual basis

Appendix (ii) to EIA

No	Action	Required outcomes	By who?	By when?	Review date
1	Continue to promote existing flexible payments method	Increase collection rates Increased take up of direct debit following text reminder exercise	Revenues and Benefits Manager	December 2018	April 2019
2	Review effectiveness and take up of current payment methods and introduce new payment options where appropriate	Increase collection rates More flexible options available – promotion of 12 month direct debit options at annual billing	Client Revenues Manager (Exchequer Client)	April 2019	July 2019
3	Warm Homes Oldham to continue to provide support with energy bills and related issues	Strong links with Welfare Rights team and Personal budgeting support team to maximise support across the three teams	Benefits and Welfare Rights Manager	December 2018	Jan 2020
4	Identify and establish referral arrangements to a wider range of support services	Maximise access to support for residents through Welfare Rights and CT collection strategy Includes CAB Step Change Use of Standard Financial Statement	Benefits and Welfare Rights Manager	April 2019	July 2019
5	Further develop the Welfare Rights Service to support residents to maximise their income	Ensure the Council can provide help and assistance to those who experience difficulties thus linking support to outcomes from the Public Health Transformation Agenda. Undertake benefit	Benefits and Welfare Rights Manager	April 2019	August 2019

		checks and refer residents for budgeting support and debt advice. Signpost to MECC support – Healthy Minds etc			
6	Work with partner organisations to provide targeted support to residents	Early identification of residents affected by Welfare Reform changes allows support to be put in place at the earliest point	Benefits and Welfare Rights Manager	April 2019	August 2019

7	Continue to monitor the collection rates on a weekly basis	Increase collection rates and take swift action if collection slows Implementation of CT collection strategy aimed at encouraging early engagement	Head of Revenues and Benefits	Dec 2018	Dec 2019
8	Continue to monitor the wider impact of welfare reform ensuring effective partnership working continues to support those affected	Early identification of residents affected by Welfare Reform changes allows support to be put in place at the earliest point. Advice and Information group liaison	Benefits and Welfare Rights Manager	April 2019	August 2019
9	Identify and support those affected by the future changes to welfare reform, particularly Universal Credit	Early identification of residents affected by Welfare Reform changes allows support to be put in place at the earliest point Membership of GM welfare rights group and GM Mental Health Welfare Rights advisors group	Benefits and Welfare Rights Manager	April 2018	August 2019
10	Review approach to debt collection by the Council	Increase collection rate across all debts Agree more affordable payment arrangements with residents Implement CT collection strategy actions (6	Client Revenues Manager (Exchequer Client)	August 2018	December 2019

		commitments focussed on early engagement/ Identification of vulnerability			
11	Link to Get Oldham working initiatives	Reduced number of unemployed Increase support for those in work through earnings disregards for UC claimants	Head of Lifelong Learning, Employment and Skills Service	June 2019 April 2019	September 2019 August 2019
12	Undertake an annual review of the Council Tax Reduction scheme	The scheme is reviewed in light of information gathered from the performance indicators and welfare context recommendations for changes are put to Council. Report to Council recommending any changes to the scheme.	Head of Revenues and Benefits	June 2019	December 2019
13	Identify how the breadth and quality of the data collected can be improved	A stronger, more robust and comprehensive data base. Introduction of Revenues software to support targeted debt collection approach taking into account needs of residents	Head of Revenues and Benefits	Dec 2018	Dec 2019
