1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

- 1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
- 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
- 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
- 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to
- 6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

- 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and
- 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
- 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.

We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the

- 1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples
- 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding **5. Income** (click to go to sheet)

- 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
- 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the
- 3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
- 4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

- 1. Scheme ID:
- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.
- 2. Scheme Name:
- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.
- 3. Brief Description of Scheme
- This is free text field to include a brief headline description of the scheme being planned.
- 4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- 5. Planned Outputs
- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant 6. Metric Impact
- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the 7. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.
- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.
- 8. Commissioner:
- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside. 9. Provider:
- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the 11. Expenditure (£) 2019/20:
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)
- 12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model from a drop-
- Your planned level of implementation by the end March 2020 again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further

8. Metrics (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and 1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.
- 2. Residential Admissions (RES) planning:
- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan
- 3. Reablement (REA) planning:
- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan
- Delayed Transfers of Care (DToC) planning:
- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

- 1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
- 2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

4. Strategic Narrative

Selected Health and Wellbeing Board:	Oldham

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i) Link to B) (ii)

Link to C)

A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

- Promoting choice and independence

Remaining Word Limit: 789

The Oldham Cares vision is to 'see the greatest and fastest possible improvement in the health and wellbeing of the Borough's residents.' This vision can only be achieved through the delivery of a health and social care system that is built upon effective models of care which focus on the provision of appropriate and timely interventions which are close to home, strengthen an individual's independence and enable them to live well at home for longer. The strategic direction for achieving this is currently set out in the Oldham Locality Plan for Health & Social Care 2016-21, published in 2016. However, work is currently underway to refresh the Locality Plan with a new Plan scheduled for completion in November 2019.

The ambition is to ensure that services are complementary, work with people to understand their own strengths and those of the community, achieve the best possible outcomes, are person-centred and reduce demands on services through promoting independence and self-care as close to home as possible where it is safe to do so. The measures of success, for Oldham, outlined in the Locality Plan included the adoption of a systematic approaches to health and social care with the involvement of local partners including the local voluntary and community sector. This remains a key factor for us going forward and we continue to develop our health and social care provision within Oldham on this premise.

Within Social Care, the Care Act (2014) made prevention, intermediate care and complex support, core components of the legislative framework and this along with the NHS Long Term Plan, published in 2019, strengthens the focus on these areas to support people to age well, receive care within their community and avoid a dependency on acute service provision.

In Oldham we are focusing on establishing a strength and asset-based practice approach to health and social care that will stand at the forefront of how residents are supported. This, along with a realisation that co-production grows thriving communities, the future operating model, in Oldham, will place people at the centre of their care pathway to ensure they actively enable, inform and design services. With a drive across the Oldham Cares Alliance to move from paternalistic practice and cultures to one of empowerment and people-led preventative models of delivery, these must be centred around neighbourhood clusters and primary care networks, with a focus on deflection away from acute health provision. By adopting this model it is expected that the health and social care economy will realise significant prevention-based improvements for the health and wellbeing of residents from a redefined model of care. In Oldham, we are currently working on the development of a new model and implementation plan that will be established later this year.

A shift to self-care, preventative and place-based practice approaches will ensure that demand for services is prioritised, people are triaged to receive the most appropriate support and in the longer-term, are enabled to self-care and take responsibility for their own wellbeing. It is essential that the Community Service preventative approach complements the wider reform agenda and early intervention review including Early Help, Thriving Communities and Social Prescribing.

The Oldham Cares outcomes framework sets out a range of high level outcomes based on the key changes we want to see in Oldham over the next decade. These are the headline outcomes for Oldham Cares, which the whole system will work together to deliver, in order to improve the health of the population and the way the local health and social care system operates. These outcomes will inform commissioning priorities and performance management.

In addition to specific work within the locality, from a Greater Manchester perspective, in Oldham, we are involved in the Person and Community Centred Approach activity, as a demonstrator site for personalised care, Greater Manchester submits data for the region as a whole to NHS England and is assessed against trajectories for each of the main categories covering personal support and care planning; social prescribing; personal health budgets; asset-based approaches; self-care and self-management to which Oldham contributes. While in the early stages of data collection indications are that the region is performing well in this area and on the way to meeting targets.

B) HWB level

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))

- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

Remaining Word Limit: 211

^^ Link back to top

Within Oldham, integration is at the heart of the health and social care provision. As part of the Oldham Cares model to integrate health and social care services in the borough, both the Council's Adult Social Care function and CCG commissioning functions co-located in April 2018. This forms part of a wider Greater Manchester model of establishing a Strategic Commissioning Function and an Integrated Care System in each locality, with the purpose of aligning activity and ensuring an infrastructure is in place collectively to design and deliver services going forward. The Director of Adult Social Care (DASS) retains statutory responsibility for the Adult Social Care (ASC) commissioning requirements and works closely with the Strategic Director of Commissioning Group (CCG). In addition, an expanded Section 75 aligned budget has been arranged for 2019/20 and the total health and care commissioning budget in Oldham is circa £430 million per annum.

Going forward, a comprehensive blueprint for the future of integrated commissioning has now been developed and agreed within the system. At a high level this blueprint envisages a move beyond excellent service commissioning to Commissioning for Outcomes and Communities of Identity, with a focus on social value. We have committed to a number of design features for our new Integrated Commissioning Function (ICF) to ensure there are improved outcomes for people in Oldham. The design will enable the ICF to work collaboratively with services and people to co-design and develop models of care that are rooted in the community, where people are at the centre of services and there is a shift in focus to early intervention as well as improving wellbeing.

In addition, work is ongoing in Oldham on the integration of the community health and social care linked to primary care provision and developed across five geographical neighbourhood clusters, now aligned with the Primary Care Networks across the borough. Within the Community Health and Social Care Community service an initial phase of Integration has been completed which aimed to align and develop community health and adult social care services in Oldham. This involved bringing together MioCare Group (care and support provider), Adult Social Care (Oldham Council) and community nursing (now Salford Royal Foundation Trust). This includes over 70 services, delivered by approximately 1,300 staff, with a budget of over £100m. A second phase of integration in this area is being developed, in line with the ongoing developments for Primary Care Networks, that moves the economy from the current co-location of services closer to true integration. At the same time work is being undertaken as part of the Oldham element of the GM Transformation Fund based around a number of core components including Thriving Communities; Mental Health; Community Enablement; Start Well, Core & Extended Primary Care and Urgent and Emergency Care.

Our approach to integration is wider than just focusing on health and social care and takes a whole economy approach that focuses on the need to improve outcomes for local residents. In order to facilitate this an alliance approach has been adopted that ensures a wide range of partner organisations are involved in the design and delivery of service, all major aspects of the economy are included as part of the programme including voluntary and community sector, housing, social care and health partners.

(ii) Your approach to integration with wide	r services (e.g. Housing), this should include:		
- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any			
arrangements for strategic planning for the	use of adaptations and technologies to support independent living in line with the	^^ Link back to to	
Remaining Word Limit:	505	•	

As outlined in the HWB level (4B) our approach to integration is wider than just focusing on health and social care and includes partners from across the borough including acute health, primary care, community health, social care, housing providers, independent health providers and local voluntary and community sector organisations.

As a result of that, this section focuses on the developments with the Oldham relating to the Disabled Facilities Grant (DFG). Plans for the DFG are set out in to policy briefing papers Disabled Facilities Grant Funding and Housing Assistance (Regulatory Reform Order) Policy and the Oldham DFG update and Capital Investment Plan.

The Disabled Facilities Grant Funding and Housing Assistance (Regulatory Reform Order) Policy was agreed by both OMBC, through the Adult Social Care Leadership Team and NHS Oldham CCG's Management Executive Team (MET). The approved recommendation was to offer discretionary measures funded from the DFG Capital Grant in order to support the housing needs of people with care needs and/or disabilities to remain in their homes through the use of adaptation and technology where applicable. The policy framework to allow DFG funding to be used this way is via OMBC's Housing Assistance & Home Improvements Policy (Regulatory Reform Order).

The Disabled Facilities Grant Update and Capital Investment Plan was approved by OMBC and CCG which approved an approach to spending residual capital funds. The plan was developed in consultation with OMBC commissioning, strategic housing and with the NHS CCG and is governed by the council's Capital Investment Board. It outlines that funding flexibilities allow investment of the DFG funds in to other Capital Projects on the understanding that they meet health and social care outcomes, are agreed as part of the local BCF planning process and meet capital investment rules.

C) System level alignment, for example th	is may include (but is not limited to):	
- How the BCF plan and other plans align to	the wider integration landscape, such as ST	P/ICS plans
- A brief description of joint governance ar	rangements for the BCF plan	^^ Link ba

7. High Impact Change Model

Selected Health and Wellbeing Board:

$\overline{}$		1.	_		
)	ld	n	2	m	١
_	ıu		a		

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

In Oldham the HICM is well-established with the majority of the core elements in place. The main exception is the implementation of 7-day working across the whole health and social care economy. The system currently meets requirements, however, this is an area that we will continue to monitor and adapt and develop as required to meet the needs of Oldham residents. It is an area of substantial investment and a review of the requirements in this area will be undertaken.

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?

population	SDCS.	● Bublic engagement and public health advice for whole CYP population.
		•Mental Health

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM) in the first instance or write in to the support inbox:

ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

_		19/20 Plan	Overview Narrative	
			2018/19 GM established a target to reduce the average number of bed days to 211 per	Please set out the overall plan in the HWB area for
			day (all CCGs). Oldham CCG is required to deliver a maximum of 15 bed days as	reducing Delayed Transfers of Care to meet expectations
			contribution to the overall GM improvement.	set for your area. This should include any assessment of
١,	Delayed Transfers of Care per day			how the schemes and enabling activity for Health and
	daily delays) from hospital (aged	210 5	The target was met in 18/19 on a full year basis. At the end of the year Oldham ranked 3rd lowest for social care attributed DToC and 4th lowest ranked for total DToC in GM.	Social Care Integration are expected to impact on the
	L8+)	210.5	3rd lowest for social care attributed DToC and 4th lowest ranked for total DToC in GM.	metric. Include in this, your agreed plan for using the
1	.07)			Winter Pressures grant funding to support the local health
				and care system to manage demand pressures on the
				NHS, with particular reference to seasonal winter
				pressures.

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older	Annual Rate	950		For 2018-19 we performed better than planned in relation to this metric. As a result of this performance
people (age 65 and over) met by		859		·
admission to residential and	Numerator			and the ongoing implementation of and changes to the
nursing care homes, per 100,000	Numerator	325	308	Oldham Locality Plan we anticipate ongoing reductions in
population	Denominator			the rate of the over 65 population going in to residential
population	Denominator	37,840	38,284	care.

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and over) who were still at home 91	Annual (%)	92.9%		Performance in this area in 2018/19 was 88.4% which is lower than planned (Denominator 121/Numerator 107).
	Numerator	144		Given the low numbers involved small changes in performance impact on the annual performance %. The
services	Denominator	155		Locality Plan focuses on ensuring people receive the reablement support they need at home where possible

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board: Oldham

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
	PR1	A jointly developed and agreed plan that all parties sign up to	Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted? Has the HWB approved the plan/delegated approval pending its next meeting? Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan? Do the governance arrangements described support collaboration and integrated care? Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?		Oldham Locality Plan for Health & Social Care Transformation 2016-21	
NC1: Jointly agreed plan	PR2	A clear narrative for the integration of health and social care	Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers: - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? - A description of how the local BCF plan and other integration plans e.g. STP/ICSs align? - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing. Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?	Yes	Oldham Locality Plan for Health & Social Care Transformation 2016-21	
	PR3	A strategic, joined up plan for DFG spending	Is there confirmation that use of DFG has been agreed with housing authorities? Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home. In two tier areas, has: - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils?	Yes	Disabled Facilities Grant Funding & Housing Assistance Regulatory Reform Order Policy Disabled Facilities Grant and Capital Investment Plan	
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (autovalidated on the planning template)?	Yes		
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (autovalidated on the planning template)?	Yes		
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care		Is there a plan for implementing the High Impact Change Model for managing transfers of care?	Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care? Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes		

Agreed expenditure plan for all elements of the BCF	PR7	pool that are earmarked for a purpose	Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter? Has funding for the following from the CCG contribution been identified for the area? - Implementation of Care Act duties? - Funding dedicated to carer-specific support? - Reablement?	Yes		
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes		
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric? Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics? Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements? Have stretching metrics been agreed locally for: - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes
