Section 01:
Audit Progress

Audit Progress

Purpose of this report

This report provides the Audit Committee with an update on progress in delivering our responsibilities as your external auditors.

Audit progress

We completed our external audit of the Council's 2019/20 financial statements and value for money conclusion in November 2020, signing the audit report on 10 November. Audit Committee members were sent an updated Audit Completion Report with the completed audit findings.

We are now undertaking the required audit work on the Council's Whole of Government Accounts (WGA) submission. This work is carried out to instructions issued by the National Audit Office and we report to the NAO our conclusions from this work. Should there be any significant findings from this work we will report these to the Audit Committee in a subsequent Audit Update Report. We expect to complete this work and report to NAO in January 2021.

We will commence our audit planning for the 2020/21 audit in January/February 2021 and will present our Audit Strategy Memorandum to a subsequent Audit Committee meeting. We have held regular discussions with the Council's Director of Finance and these help us to keep up to date with emerging issues that may impact on our external audit.

External audit work on the Council's arrangements to deliver value for money in its use of resources

We reported during 2019/20 that the National Audit Office had updated their Code of Audit Practice and that this new Code applies from 2020/21. The new Code changes the work that auditors will be required to do, and the related reporting, on Councils arrangements to deliver value for money in their use of resources.

Audit Progress

External audit work on the Council's arrangements to deliver value for money in its use of resources (continued)

The changes to the reporting requirements means that from 2020/21 we will no longer include a value for money conclusion in our Financial Statements Audit Report. We will report our commentary on the Council's arrangements to deliver value for money in a new Auditor's Annual Report (which replaces the Annual Audit Letter). The NAO Code requires that where auditors identify weaknesses in Council's arrangements they should report recommendations to the Council promptly through the year.

In carrying out our work we will comply with the NAO's guidance on value for money work, which identifies that the work must have regard to the following specific criteria:

- **Financial sustainability:** how the body plans and manages its resources to ensure it can continue to deliver its services;
- **Governance:** how the body ensures that it makes informed decisions and properly manages its risks; and
- **Improving economy, efficiency and effectiveness:** how the body uses information about its costs and performance to improve the way it manages and delivers its services.

We will keep Audit Committee up to date on our progress as we complete our audit work.

NATIONAL PUBLICATIONS

CIPFA

1. Code of Practice on Local Authority Accounting in the United Kingdom: Disclosure Checklist for 2020/21 Accounts, January 2021

The 2020/21 version of the disclosure checklist has been updated to reflect the reporting requirements introduced by the 2020/21 Code of Practice. This annual publication is for finance practitioners in local authorities and external audit agencies and firms in England, Scotland and Wales.

The checklist is in the form of a series of questions. If the answer to any question is no, then a justification for departing from the Code should be given and potentially disclosed in the accounts, where the impact of departures is material.

2. Code of Practice on Local Authority Accounting in the United Kingdom: Guidance Notes for 2020/21 Accounts, January 2021

This edition of the Guidance Notes provides detailed guidance on the key accounting changes introduced by the Code of Practice on Local Authority Accounting in the United Kingdom (the Code) 2020/21, and includes amendments to implement amendments to accounting standards, reference to arrangements for the application of accounting standards arising as a consequence of the UK's withdrawal from the EU and legislative amendments. The example financial statements have also been updated to reflect these changes.

3. Service Reporting Code of Practice for Local Authorities 2021/22, January 2021

Modern local government is constantly developing and adapting to its current economic climate. Transparency initiatives, performance and best value regimes are evolving in expectation of the government becoming more sophisticated.

SeRCOP is reviewed annually to ensure that it develops in line with the needs of local government, transparency, best value and public services reform.

In England, SeRCOP is given legislative backing under the Local Government Act 2003. In Scotland SeRCOP's Service Expenditure Analysis (SEA) and guidance is used by the Scottish Government as the basis for specifying the requirements of the Local Financial Returns (LFRs).

4. Guidance for Head of Internal Audit Annual Opinions 2020/21, November 2020

The annual opinion on the overall adequacy and effectiveness of the organisation's framework of governance, risk management and control is a requirement of the Public Sector Internal Audit Standards (PSIAS). It is an important source of assurance that supports a local government body's annual governance statement.

If sufficient assurance is not available from internal audit work completed and other sources of assurance that the head of internal audit may seek to place reliance on then they should publish a limitation of scope to explain the position and impact on the annual opinion. The guidance sets out the steps heads of internal audit, together with the leadership team and audit committee, should take.

To further support the guidance CIPFA held a free webinar on 15 December.

5. A Guide to Local Authority and Public Sector Asset Management, November 2020

This step by step guide to asset management in the public sector has been produced by CIPFA Property. It takes the reader on the asset management journey, from the development of strategic asset management policies and strategies designed to deliver corporate objectives through to the development, implementation, challenge and review of asset management practices and portfolios.

6. Planning to Deliver Good Value in Demand-led Services (social care), November 2020

Several local authorities successfully deliver good value in these areas, and this publication draws on their experience and best practice. It sets out a three step framework, based on a number of essential elements that recognise the challenges involved. This framework emphasises the importance of business partnering and ensuring plans reflect reality to enable improved operational and financial resilience.

7. Local auditor reporting application, December 2020

The local auditor reporting application presents the opinions of local auditors on local public bodies' financial statements and conclusions on whether they have proper arrangements in place to secure value for money. The data is presented through an interactive map which allows users to explore auditor reporting for nine different types of local body and two different audit years. The interactive map also contains pop-ups to enable users to access further information about the body, such as the local auditor's report or annual audit letter.

MHCLG

8. MHCLG's response to Sir Tony Redmond's independent review, December 2020

The response of the Ministry of Housing, Communities and Local Government to Sir Tony Redmond's Independent review into the oversight of local audit and the transparency of local authority financial reporting. The Redmond Review made 23 recommendations relating to the quality, timeliness and sustainability of local audit, and the transparency of local authority accounts. The department has grouped its response into 5 themes, which are summarised in Annex A to the response.

Amongst the responses MHCLG confirmed that they intend to amend existing regulations to extend the deadline for publishing audited local authority accounts from 31 July to 30 September, for a period of two years (i.e. covering the audit of the 2020/21 and 2021/22 accounting years). At the end of this period they will review whether there is a continued need to have an extended deadline.

They also confirmed that they did not intend to create an Office of Local Audit and Regulation (OLAR) stating in their response that they “do not wish to re-create the costly, bureaucratic and over-centralised Audit Commission”. They added that they “will commit to explore the full range of options as to how best to deliver Sir Tony's finding that a ‘system leader’ is required. This will include close consideration of whether existing bodies could take on this function.”

NATIONAL PUBLICATIONS

Financial Reporting Council

9. Major Local Audits – Audit Quality Inspection, October 2020

The framework for the inspection of local audit work

Responsibility for the inspection of local audit work is now with the Financial Reporting Council (FRC) for 'major local audits' (those with annual expenditure which exceeds £500m) and the ICAEW for those bodies which do not meet the major local audit definition. As part of their inspection of major local audits for the 2018/19 financial year, the Audit Quality Review (AQR) team of the FRC reviewed two of our major local audits and found these to require significant improvements in respect of our audit of the financial statements. The same reviews indicated that our work on value for money arrangements for those audits was of a good standard. Our non-major local audits for 2018/19 were not subject to inspection by the ICAEW.

Our response to the FRC's findings

We are committed to delivering high-quality audits to all of our clients and have responded robustly to the AQR's findings. Our Local Audit Quality Plan incorporates the risks to audit quality identified from a range of sources and identifies that actions we have put in place, or are taking, to mitigate these risks. Our Audit Quality Team is responsible for the maintenance of the plan which is also subject to oversight and scrutiny from the firm's Audit Board.

In addition, we have undertaken a detailed root cause analysis project to identify and understand the drivers of poor audit quality in some of our local audit work. This has focused on all local audits where the need for improvement or significant improvements have been identified either through external inspections or our programme of internal quality monitoring reviews.

We have taken steps to respond to the AQR's specific findings in relation to our work in the following areas of the audit:

- Testing the valuation of property assets;
- Exercising appropriate oversight of group audits, including the direction, supervision and review of the work of component auditors; and
- Document judgements made as part of the audit process, specifically those in relation to our testing of income and expenditure.

We have also strengthened our standard procedures in relation to the audit of net defined benefit pension liabilities arising from our clients' membership of local government pension schemes.

The FRC's report on its inspection findings in relation to the quality of major local audits for the year ended 31 March 2019, can be found [here](#). This also includes our detailed response to their findings on our financial statement audits.

Financial Reporting Council

9. Major Local Audits – Audit Quality Inspection, October 2020 (continued)

What this means for the Council

As outlined above, we take the weaknesses identified by the FRC extremely seriously, and our response to the improvement areas has been robust. It is clear that on areas of the audit such as the valuation of property assets (including investment properties) and the audit of defined benefit pension liabilities, we must do more to meet the regulator's expectations. This means the time we spend on these areas of the audit will increase and the level of challenge we apply in auditing these areas will also increase. Your finance team and your experts will have seen the increase in the scope and scale of work we have undertaken in 2019/20 in terms of the granularity and depth of testing and changes to our sample sizes in a number of key areas.

Going forward, our response and the increase in the challenge we make, is likely to include the engagement of our own experts (for example, property valuation experts) to fully consider the methodologies and judgements applied by the Council's own experts. There will be consequential effects on the fee that we are likely to request from the Council to undertake the audit.
