> Subject: Alcohol Licensing Chadderton Way

>  
> Hi respected people.

>  
> I would like to raise my concerns of this person wanting to open an Alcoholic premises in a pre dominantly Asian, Muslim area and especially almost next door to a place of worship, A Mosque. We cannot tolerate and allow this to go ahead due to the extreme potential of teenagers who will be making it a spot of "Chilling out" "Hanging out" spot near the shop where it has happened previously. ASBOs will be occupying this spot no doubt.

>  
> By granting this licence to this place it will surely create a very uncomfortable environment around our area for youngsters to get into more and more crime, theft and public disorder, out of control teenagers on the streets within our community etc etc etc It has the potential to do more harm than any good. We are also very concerned of the safety of students and parents who walk their children to the mosque regularly as well as our elders who will pass this street to get to their place of worship. Please consider the greater harm it will cause to the local community and please do not grant this licence and permission to this individual. This person already has an off licence in Chadderton Victoria St with the locals there there are rumours he sells Alcohol and god knows what else to underage teenagers around that particular area. I hope you can consider my worry and concerns as well as the local communities on this matter with immediate urgency.
