**Subject:** Objection to license application for Avro stadium whitebank road

Application for license to sell alcohol at Avro football stadium

I wish to put in an objection to any application Avro have put in to sell alcohol at the whitebank road stadium The grounds are already illegally selling it and have total disregard for any following of instruction or guidelines laid down by oldham Council who at the moment are not implementing any penalties for their blatant misuse of what the stadium. Is for.

Currently the football and now the rugby in such a residential area is causing massive impact on my mental health and wellbeing

I am a keyworker working long hours early morning and late night and I currently have no rest in the privacy of my home and garden from the constant noise of the football and rugby going on from early morning to 10pm its constant at weekends all day and every evening the language is appalling I have seen men urinating near the white tent on the back field

I am unable to sleep in the mornings as they are playing before 9am and all you can hear is the trainers and parents shouting on the side lines that are right up to my garden fence and then the rugby are playing after 8pm with the shouting and banging this is effecting my ability to relax and sleep and I have been prescribed medication to help me with my anxiety and stress over this.

It is all intruding and destroying wildlife in the area the bats foxes and badgers to name a few the club have destroyed badger sets and continue to do so to get what they want on site

Giving them a license with increase what is already a nightmare to live with it will increase footfall in traffic and people going for alcohol youngsters will be congregating to buy alcohol which will then lead to anti social behaviour vandalism noise and total disregard for the residents in the area

The badger society and ecologists have confirmed badgers are on the grounds there are bats and foxes whose homes have been destroyed trees have been chopped down to make room.for the football pitch behind . Since Avro arrived they have continued to flout the law during covid and oldham.council have done nothing about enforcing anything despite complaints from residents

My quality of life at weekends and evenings is already damaged by the noise and lack of relaxation and quiet and by giving them a license will just lead me to further issues effecting my well being

I object to any license being given to the Avro stadium on whitebank road
