

Report to HEALTH AND WELLBEING BOARD

Public Health Update

Chair: Cllr M Bashforth

Officer Contact: Katrina Stephens, Director of Public Health

Report Authors: Katrina Stephens, Director of Public Health & Rebecca Fletcher, Consultant in Public Health

Date: 04/10/2022

Purpose of the Report

The Terms of Reference for HWB include a requirement for the Board "To ensure that the Council complies with its duties to improve public health as set out in Sections 2B and 111 of the National Health Act 2006 as amended;".

To ensure the board is sighted on relevant work and has the opportunity to shape how the Council is working alongside other partners to meet its statutory responsibilities, a Public Health update, in the form of highlight reports on health improvement and health protection, is now a standing item on the Board agenda

Requirement from the Health and Wellbeing Board

Board members are asked to:

- Receive and consider the latest highlight reports
- Consider whether the Board would like a more detailed report on any of the themes included in the highlight reports
