Subject: Character Reference

To whom it may concern,

I have known Ian Barkley in a professional manner for a number of years throughout this time I have always found Ian to be very professional and helpful.

During the time I have known Ian he has always been willing to go above and beyond what is expected of him. He is respectful of his superiors and gets along well with his co workers which I have observed when working in a shared office space.

I have always found Ian to be reliable and dedicated to helping his colleagues, members of the public and care providers/agencies going above and beyond and is well regarded by Adult Social Care Colleagues and care providers who often make references to how helpful and knowledgeable Ian is when dealing with financial queries/issues.

If any further information is required I am contactable on the mobile number/email below.

Kind regards,

Barbara Lindsay
