

Dear Sir/Madam,

I have known Ian Barkley since he started work at OMBC. I have worked with him and from 2016 until April 2018 was his line manager.

Ian has been nothing but helpful with the staff in his team and with other teams within adult social care. He has been a go to contact with for staff with queries around charging and purchasing queries in Mosaic.

He has on numerous occasions gone above and beyond his work remit to assist and ensure work is completed to release payments to providers and help service users when any charging issues have been discovered. He is very proactive and not afraid to challenge staff and external partners.

He is an asset to the department and has an extensive knowledge of legislation and Council procedures.

Thanks,

Andy
