Assessment Appendix 8: IA of Addressing
Climate Change Policies**

December 2023

Oldham
Council

Appendix 8: IA of Climate Change Policies

Contents

- Policy CC1 – Sustainable Construction, Energy Efficiency and Retrofitting 2
- Policy CC2 – Renewable and Low Carbon Energy 17
- Policy CC3 – Managing Flood Risk 31
- Policy CC4 – Sustainable Drainage – Foul and Surface Water 45
- Policy CC5 – Water Efficiency 58
- Policy CC6 – Groundwater Source Protection Zones 69

Policy CC1 – Sustainable Construction, Energy Efficiency and Retrofitting

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
1.To protect, conserve and enhance a high quality multifunctional green infrastructure network, including biodiversity and geodiversity that is ecologically connected	++	++	++	Permanent	Cross-boundary	<p>The policy requires that developments incorporate soft landscaping to create space for biodiversity habitats. Soft landscaping should incorporate native species. In addition, indirectly through helping to reduce energy and minimise the impact of climate change this will help mitigate damage to wildlife and ecosystems.</p> <p>In terms of the HRA the policy has been screened out. No Likely Significant Effect on any European Site is anticipated from the operation of this Policy.</p>	No mitigation required. Local Plan policies N1 to N3 on nature addresses Green Infrastructure. In addition, PfE Greener chapter also addresses objective.	None
2. To promote quality and accessible open spaces	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. Local Plan policies CO1 'Protection of Existing Open	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
							Spaces' and CO2 'New and Enhanced Open Spaces' address open space In addition, PfE Policies JP-G2 'Green Infrastructure Network' and JP-P7 'Sport and Recreation' address this objective.	
3. To protect and enhance the character and appearance of landscapes and townscapes, maintaining and strengthening local distinctiveness and sense of place	+	+	+	Permanent	Cross-boundary	The policy will protect townscapes through ensuring that a sensitive approach is taken to historic buildings.	No mitigation required. PfE Policy JP-G1 'Landscape Character' and JP-P1 'Sustainable Places' addresses this objective.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
4. To protect, conserve and enhance the historic environment, heritage assets and their setting	+	+	+	Permanent	Cross-boundary	The policy will protect the historic environment with regards to sustainable construction through ensuring that a sensitive approach is taken to historic buildings.	No mitigation required. Policies HE1 to HE5 of the Local Plan and PfE Policies JP-P1 'Sustainable Places' and JP-P2 'Heritage' also addresses the historic environment.	None
5. To promote high quality, beautiful design that meets local design expectations	++	++	++	Permanent	Local	The policy requires high standards of sustainable design and construction and use of recycled and sustainably sourced materials, as well as landscaping. This will contribute towards high quality design.	No mitigation required. Policies D1 to D7 of the Local Plan and PfE Policy JP-P1 'Sustainable Places' also address design.	None
6. To ensure land and buildings are used in an effective and efficient manner, maximising the	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. Policy H3 'Density of New Housing' and CO9 'Creating Sustainable and	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
use of brownfield land							<p>Accessible Communities' of the Local Plan also address objective.</p> <p>PfE Policy JP-S1 'Sustainable Places' and Policy JP-H4 also addresses efficient use of land.</p>	
7. To ensure appropriate provision of supporting infrastructure to meet development needs	+	+	+	Permanent	Local	The policy will ensure that necessary green infrastructure is provided to provide cooling.	No mitigation required. There are several policies within PfE and the Local Plan that address infrastructure.	None
8. To improve health and well-being and reduce health inequalities	+	+	++	Permanent	Cross-boundary	Ensuring that developments meet high standards of sustainable design and construction will help reduce fuel poverty and overheating. Overtime a greater proportion of	No mitigation required. PfE Policy JP-P6 'Health' and policies within the Local Plan including CO7	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
						developments should benefit from the policy, such as through cleaner air, impacting on more people, including visitors.	'Health Impact Assessments in New Development', CO8 on 'Hot Food Takeaways' and policies on green infrastructure address health and well-being.	
9. To minimise and mitigate against flood risk and adapt to the effects of flood risk	+	+	+	Permanent	Cross-boundary	The policy should have an indirect positive impact through reducing carbon emissions which may help reduce the severity of flood risk in the future. Soft landscaping measures may also help mitigate flood risk in the shorter term.	No mitigation required. PfE Policy JP—S5 'Flood Risk and the Water Environment' and Local Plan policies CC3 'Managing Flood Risk' and CC4 'Sustainable Drainage – Foul and Surface Water' of the Local Plan also addresses flood risk.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
10. To protect and improve the quality of water bodies and river corridors and availability of water resources	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. PfE Policy JP—S5 'Flood Risk and the Water Environment' and Local Plan policies CC5 'Water Efficiency' and CC6 'Groundwater Source Protection Zones' also address water quality.	None
11. To protect and improve soil quality, best and most versatile agricultural land, and remediate contaminated land	--	--	--	N/A	N/A	The policy will have a limited impact on this policy although it will introduce some soft landscaping.	No mitigation required. PfE policies JP-G9 'A Net Enhancement of Biodiversity and Geodiversity' and Policy LE2 'Ground Conditions and Contaminated Land' of the Local Plan also	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
							addresses soil and contaminated land.	
12. To minimise energy use, promote energy efficiency and the use of renewable and low carbon energy	++	++	++	Permanent	Local	The policy seeks to minimise energy use and promote energy efficiency.	No mitigation required. PfE policies JP-S2 'Carbon and Energy', JP-S3 'Heat and Energy Networks' and JP-P1 'Sustainable Places' also addresses energy in addition to Local Plan policy CC2 'Renewable & Low Carbon Energy'.	None
13. To ensure communities and infrastructure are resilient to the effects of climate change	++	++	++	Permanent	Cross-boundary	The policy aims to do this through ensuring that new developments do not overheat, provide natural cooling and ensure that historic buildings can be	No mitigation required. PfE includes policies which addresses this objective including Policy JP-P1	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
						retrofitted with energy efficient measures.	'Sustainable Places', JP-G2 'Green Infrastructure Network' and JP-S5 'Flood Risk and the Water Environment'. Within the Local Plan policies that address this objective include CC3 'Managing Flood Risk' and CC4 'Sustainable Drainage – Foul and Surface Water' and N3 'Enhancing Green Infrastructure through development'.	
14. To protect and improve air quality	+	+	++	Permanent	Cross-boundary	The policy will contribute towards this objective indirectly through reducing energy load of development	No mitigation required. PfE Policy JP-S6 'Clean Air' and Policy LE3 'Air	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
						therefore reducing carbon emissions over time.	Quality' of the Local Plan also addresses air quality.	
15. To protect and improve local environmental quality	+	+	+	Permanent	Local	The policy will contribute towards this objective through driving high standards of design, including soft landscaping.	No mitigation required. PfE policy JP-P1 'Sustainable Places' and policies LE1-LE3 of the Local Plan also addresses environmental quality.	None
16. To promote an integrated and improved transport system that provides sustainable transport choices and improves connectivity, including the walking and cycling network and the	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. PfE 'Connected Places' chapter includes policies alongside Local Plan policies T1-3 and design policies that address promoting sustainable transport choices.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross- boundary			
protection of the PROW Network								
17. To promote accessibility to key services and reduce the need to travel	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. PfE Policy JP-C1 'An Integrated Network' and Local Plan policies CO9 'Creating Sustainable and Accessible Communities', C2 'Local Services and Facilities' and H1 'Delivering a Diverse Housing Offer' can help influence meeting this objective.	None
18. To promote regeneration and reduce levels of deprivation and disparity	+	+	++	Permanent	Local	The policy will indirectly contribute towards this objective through ensuring that future development, including housing supply is of a higher quality,	No mitigation required. The Local Plan promotes regeneration in several ways.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
						sustainably driven which will attract people to live and invest in the borough and help change the image of Oldham. Deprivation will be eased over time through helping reduce fuel poverty through energy efficient measures and good design.	Reducing deprivation and disparity is a key aim of the Local Plan.	
19. To promote sustainable economic growth and job creation	--	--	--	N/A	N/A	The policy will have a limited impact on this policy, although it is noted that jobs related to the energy sector may increase over time.	No mitigation required. PfE policy JP-J1 'Supporting Long-Term Economic Growth' and JP-J2 'Employment Sites and Premises' and policies within the Economy and Employment section of the Local Plan also addresses economic growth.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
20. To protect and enhance the vitality and viability of Oldham Town Centre and the centres of Chadderton, Failsworth, Hill Stores, Lees, Royton, Shaw and Uppermill	--	--	--	N/A	N/A	The policy will have a limited impact on this objective although it is noted that future development being of a higher quality, sustainably driven will help attract people to live and invest in the borough's centres.	No mitigation. PfE policy JP-P4 'New Retail and Leisure Uses in Town Centres', JP-H4 'Density of New Housing', JP-P3 'Cultural Facilities' and JP-P2 'Heritage' and Local Plan Policies C1 'Our Centres, C3 'Retail and Leisure Impact Assessments and Sequential Tests' and C4 'Changes of use and redevelopment within the borough's centres' as well as policies for Oldham Town centre and	None

	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
							housing supports this objective.	
21. To promote sustainable tourism and leisure	--	--	--	N/A	N/A	The policy will ensure that new development for tourism and leisure is of sustainable design, but it will not promote this use as such.	No mitigation needed. P/E Policy JP-P3 'Cultural Facilities' and JP-P4 'New Retail and Leisure Uses in Town Centres' and Local Plan policies C3 'Retail and Leisure Impact Assessments and Sequential Tests', CO4 'Cultural, Community and Health Facilities' and TM1 'Tourism' as well as other policies also addresses tourism and leisure.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
22. To improve education attainment and skill levels	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. PfE Policy JP-P5 'Education, Skills and Knowledge' and Local Plan policies CO5 'Education and Skills' and CO6 'Securing Educational Places through New Residential Development' address this objective.	None
23. To provide a sustainable housing land supply and an appropriate mix of sizes, types and tenures to meet local housing needs	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. Policies within PfE and the Local Plan on housing address this objective.	None
24. To ensure the prudent use and sustainable	+	+	+	Permanent	Local	The policy requires sustainably sourced and recycled materials, which will	No mitigation required. The	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
management of minerals						help reduce pressure for mineral extraction.	Minerals DPD addresses this.	
25. To manage waste sustainably in line with the waste hierarchy	--	--	--	Permanent	Local	The policy makes limited contribution to this objective.	No mitigation required. The Waste DPD addresses this.	None
26. To promote mixed, balanced and inclusive sustainable communities	--	--	--	N/A	N/A	The policy makes limited contribution to this objective.	No mitigation required. The aim of the Local Plan is to ensure mixed, balanced, and inclusive communities through for example policies on housing and design.	None

The policy scored a mixture of neutral, positive and significantly positive scores. No mitigation or enhancements to the policy were made as a result of the IA.

In terms of the HRA the policy has been screened out. No Likely Significant Effect on any European Site is anticipated from the operation of this Policy.

Policy CC2 – Renewable and Low Carbon Energy

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
1.To protect, conserve and enhance a high quality multifunctional green infrastructure network, including biodiversity and geodiversity that is ecologically connected	+	+	+	Permanent	Cross-boundary	<p>The policy will protect through the criteria biodiversity, geodiversity, nature conservation designations, habitats and species, particularly in relation to displacement, disturbance, and the impact of emissions when assessing proposals. The policy will not in itself enhance these, however.</p> <p>In terms of the HRA the policy has been screened out. No Likely Significant Effect on any European Site is anticipated from the operation of this Policy.</p>	No mitigation required. Local Plan policies N1 to N3 on nature also addresses Green Infrastructure. In addition, PfE Greener chapter addresses this objective.	None
2. To promote quality and accessible open spaces	-- / x	--/x	--/x	Permanent	Local	The policy will not promote quality and accessible open spaces in itself. It will ensure adverse impacts are addressed when proposals are on local	The policy could be mitigated to bring it to a neutral score by ensuring open space is included within the criteria.	A new criterion on loss of open space has been added to the policy.

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
						green spaces and green belt where these include open space but the policy does not specifically refer to open space.	Policy CO1 of the Local Plan also addresses 'Protection of Existing Open Spaces'. In addition, PfE Policies JP-G2 'Green Infrastructure Network' and JP-P7 'Sport and Recreation' address this objective.	
3. To protect and enhance the character and appearance of landscapes and townscapes, maintaining and strengthening local distinctiveness and sense of place	+	+	+	Permanent	Cross-boundary	The policy will protect through criteria the qualities and sensitivities of key landscape characteristics and townscapes. The policy will not in itself enhance these however.	No mitigation required. PfE Policy JP-G1 'Landscape Character' and JP-P1 'Sustainable Places' addresses this objective.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
4. To protect, conserve and enhance the historic environment, heritage assets and their setting	+	+	+	Permanent	Cross-boundary	The policy will protect through criteria the historic environment including heritage assets and their settings. The policy will not in itself enhance these however.	No mitigation required. Policies HE1 to HE5 of the Local Plan and PfE Policies JP-P1 'Sustainable Places' and JP-P2 'Heritage' also addresses the historic environment.	None
5. To promote high quality, beautiful design that meets local design expectations	--	--	--	N/A	N/A	The policy will ensure that renewable and low carbon schemes are designed to avoid adverse impacts, but this does not necessarily mean the policy will promote high quality design.	No mitigation required. Policies D1 to D7 of the Local Plan and PfE Policy JP-P1 'Sustainable Places' also address design.	None
6. To ensure land and buildings are used in an effective and efficient manner, maximising the use of brownfield land	--	--	--	N/A	N/A	The policy will have limited impact on this objective.	No mitigation required. Local Plan policies H3 'Density of New Housing' and CO9 'Creating Sustainable and Accessible Communities' and	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
							PfE policies JP-S1 'Sustainable Places' and Policy JP-H4 address the efficient use of land.	
7. To ensure appropriate provision of supporting infrastructure to meet development needs	++	++	++	Permanent	Local	This policy will aid the implementation of renewable and low carbon energy to help deliver decentralised energy. Providing a policy hook to a refined area of search or wind energy will help promoters identify suitable areas. The criteria also refers to telecommunications and other networks.	No mitigation required. There are several policies within PfE and the Local Plan that address infrastructure.	None
8. To improve health and well-being and reduce health inequalities	+	+	+	Permanent	Cross-boundary	The policy will protect through criteria local amenity which links to health. Indirectly through using green energy this will reduce energy emissions and therefore improve air quality which will have beneficial	No mitigation required. PfE Policy JP-P6 'Health' and policies within the Local Plan including CO7 'Health Impact Assessments in	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
						impacts to health over the long term.	New Development', CO8 on 'Hot Food Takeaways and policies on green infrastructure address health and well-being.	
9. To minimise and mitigate against flood risk and adapt to the effects of flood risk	+	+	+	Permanent	Cross-boundary	The policy will ensure developments take flood risk into account but will not directly minimise and mitigate against flood risk. Indirectly through using green energy this will reduce energy emissions and therefore improve air quality which will have beneficial impacts to associated flood risk health over the long term.	No mitigation required. PfE Policy JP—S5 'Flood Risk and the Water Environment' and Local Plan policies CC3 'Managing Flood Risk' and CC4 'Sustainable Drainage – Foul and Surface Water' address flood risk.	None
10. To protect and improve the quality of water bodies and river corridors and availability of water resources	+	+	+	Permanent	Cross-boundary	The policy will ensure developments take hydrology and water supply into account but will not directly enhance water resources. Indirectly through using green energy this will reduce	No mitigation required. PfE Policy JP—S5 'Flood Risk and the Water Environment' and Local Plan policies CC5 'Water	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA

							Centre and housing supports this objective.	
21. To promote sustainable tourism and leisure	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation needed. PfE Policy JP-P3 'Cultural Facilities' and JP-P4 'New Retail and Leisure Uses in Town Centres' and Local Plan policies C3 'Retail and Leisure Impact Assessments and Sequential Tests', CO4 'Cultural, Community and Health Facilities' and TM1 'Tourism' as well as other policies also addresses tourism and leisure.	None
22. To improve education attainment and skill levels	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. PfE Policy JP-P5 'Education, Skills and Knowledge'	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
							and Local Plan policies CO5 'Education and Skills' and CO6 'Securing Educational Places through New Residential Development' address this objective.	
23. To provide a sustainable housing land supply and an appropriate mix of sizes, types and tenures to meet local housing needs	--	--	--	N/A	N/A	The policy will have a limited impact on this objective.	No mitigation required. Policies within PfE and the Local Plan on housing address this objective.	None
24. To ensure the prudent use and sustainable management of minerals	--/ x	--/x	--/x	Permanent	Local	The policy does not itself include criterion on minerals.	The Minerals DPD addresses this. However, as wind energy is likely to cover Minerals Safeguarding Areas the policy should be mitigated	A new criterion referring to Minerals Safeguarding Areas has been added.

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years	T or P	Local or Cross-boundary			
							to include minerals to ensure adverse impacts can be taken into account.	
25. To manage waste sustainably in line with the waste hierarchy	--	--	--	N/A	N/A	The policy makes limited contribution to this objective.	No mitigation required. The Waste DPD addresses this.	None
26. To promote mixed, balanced and inclusive sustainable communities	--	--	--	N/A	N/A	The policy makes limited contribution to this objective.	No mitigation required. Policies within PfE and the Local Plan such as those on housing mix and tenure, communities and design aim to address this objective.	None

The policy scored a mixture of neutral, positive and significantly positive scores. Some negatives were given, and it was felt that although there are other plan policies which could mitigate the potential negative impacts the policy could be strengthened by ensuring that reference is made within the criteria to soil, minerals and open space for completeness. Through amending the policy to mitigate these negative scores this would remove the negative scores.

The policy has been screened out of the HRA as no likely significant effect on any European Site is anticipated from the operation of this Policy.

Policy CC3 – Managing Flood Risk

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5 - 10 years	LT 10+ years	T or P	Local or Cross-boundary			
1.To protect, conserve and enhance a high quality multifunctional green infrastructure network, including biodiversity and geodiversity that is ecologically connected	++	++	++	Permanent	Cross-boundary	<p>The policy identifies the functional flood plain which should be left undeveloped to allow water to be stored and for Green Infrastructure benefits. The policy encourages sustainable drainage which makes use of natural flood management techniques that connect to the wider Green Infrastructure network.</p> <p>In terms of the HRA the policy has been screened out. No Likely Significant Effect on any European Site is anticipated from the operation of this Policy.</p>	No mitigation required. Local Plan policies N1 to N3 on nature address Green Infrastructure. In addition, PfE Greener chapter also addresses objective.	None
2. To promote quality and	+	+	+	Permanent	Cross-boundary	Open spaces may be provided as part of the functional flood plain or	No mitigation required. Policies CO2 'New and	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
