Purpose of the Report

This report is presented to the Health and Wellbeing Board to ensure members are fully up to date with the five-year health and care strategy and the one-year health and care delivery plan for Oldham Integrated Care Partnership.

Requirement from the Health and Wellbeing Board

The Health and Wellbeing Board is asked to receive, note and support the Oldham Integrated Care Partnership's five-year strategy and one-year 2024/25 delivery plan.

Oldham Integrated Care Partnership's (ICP) five5- year strategy and one-year 2024/25 delivery plan

1. Background

The Partnership's five-year strategy was agreed during 2023/24, following a full refresh of Oldham's Locality Plan, which was ratified in November 2019. It has had some minor updates but has not been extended in timeframe.

The Partnership's 2024/25 delivery plan covers our commitments in this current financial year, as well as the delivery of a range of objectives and priorities in relation to the national NHS Operational Guidance and NHS Greater Manchester Operational Plan.

This one-year delivery plan features the key priorities for the year ahead, as well as the detail of various action areas and milestones. At the heart of the plan is the implementation of our new Population Health Management model, build from extensive work to determine the drivers of demand for local services, as well as five workstreams making up our delivery and transformation programme for local health and care.

2. Current Position

All partners have committed to improving health and reducing health inequalities, and this strategy and delivery plan align with Oldham's Health and Wellbeing Strategy and Health Inequalities Action Plan.

3. Key Issues for Health and Wellbeing Board to Discuss

No key issues.

4. Recommendation

The Health and Wellbeing Board is asked to receive, note and support the Oldham Integrated Care Partnership's (ICP) five-5 year strategy and one-year 2024/25 delivery plan.
