PART 6: ACTION PLAN

The site-by-site action plan seeks to address key issues identified in the preceding Assessment Report. It provides recommendations based on current levels of usage, quality and future demand, as well as the potential of each site for enhancement. It is organised by Analysis Area and includes information pertaining to the sub sections below.

Site hierarchy

The Council should make it a high priority to work with NGBs and other partners to comprise a priority list of actions based on local priorities, NGB priorities and available funding. As stated in Recommendation (e), to allow for facility developments to be programmed within a phased approach, the Council should adopt a tiered approach to the management and improvement of playing pitch sites and associated facilities.

The identification of sites is based on their strategic importance in a regional context i.e., they accommodate the majority of demand, or the recommended action has the greatest impact on addressing shortfalls identified either on a sport-by-sport basis or across the Council area as a whole.

Table 6.1: Proposed tiered site criteria

Criteria	Hub sites	Key centres	Local sites
Site location	Strategically located in the District. Priority sites for NGBs.	Strategically located within the analysis area.	Services the local community.
Site layout	Accommodates three or more grass pitches, generally including provision of an AGP (or with the potential).	Accommodates two or more grass pitches.	Accommodates one or two pitches.
Type of sport	Multi-sport provision. Could also operate as a central venue.	Single or multi-sport provision.	Generally single sport provision but may cater for two.
Management	Management control allows for wide community use, i.e., through the local authority, a leisure operator or a school with a community use agreement.	Management control generally allows for wide community use but may include sites that are owned or leased by clubs/other organisations.	Management control can be via the local authority, schools and clubs
Maintenance regime	Maintenance regime aligns or could align with NGB guidelines.	Maintenance regime aligns or could align with NGB guidelines.	Standard maintenance regime or an in-house maintenance contract.
Ancillary facilities	Good quality ancillary facilities on site (or potential), with sufficient changing rooms and car parking to serve the number of pitches; may include wider social/function facilities.	Good quality ancillary facility on site (or potential), with sufficient changing rooms and car parking to serve the number of pitches.	Limited or no changing room access on site.

Hub sites are of district wide importance where users are willing to travel to access the range and high quality of facilities offered and are likely to be multi-sport. These have been identified on the basis of the impact that the site will have on addressing the issues identified in the assessment.

Key centres are more community focused, although some are still likely to service a wider analysis area (or slightly wider); however, there may be more of a focus on a specific sport i.e., a dedicated site.

It is considered that some financial investment may be necessary to improve the facilities at both hub sites and key sites. This could be to improve the provision, create additional provision (e.g., a 3G pitch) or to enhance the ancillary facilities in terms of access, flexibility (i.e., single-sex changing if necessary) and quality as well as ensuring that they meet the rules and regulations of local competitions.

Local sites refer to those sites offering limited provision. Primarily they are sites with one pitch/facility or a low number of pitches/facilities that service just one or two sports (e.g., bowling green sites).

For local sites, consideration should be given, on a site-by-site basis, to the feasibility of a club taking on a long-term lease (if not already present), in order that external funding can be sought. Such sites will require some level of investment, either to the outdoor sport facilities or ancillary facilities and is it anticipated that one of the conditions of offering a hire/lease is that the Club would be in a position to source external funding to improve/extend the provision.

Other sites considered in this tier may be primary school sites or secondary school sites that are not widely used by the community or that do not offer community availability.

Partners

The column indicating partners in the Action Plans below refers to the main organisations that the Council (or the relevant provider) would look to work with to support delivery of the actions.

Given the extent of potential actions, it is reasonable to assume that partners will not necessarily be able to support all the actions identified but where the action is a priority and resource is available the partner will endeavour to assist.

As all sites sit within the local authority area, the Council is a partner for each identified action (as the column indicates partners for the Council) and is therefore not included. However, it is acknowledged that it will take on more of a leading role for some specific sites and some specific actions (e.g., at council venues), and a supporting role at others (such as private sites/schools etc).

Priority

Although hub sites are mostly likely to have **high** level actions, as they have wide importance, high priority sites have been identified on the basis of the impact that the site will have on addressing the key issues identified in the assessment. Therefore, some key centres and local sites are also identified as having a high priority level. It is these projects/sites which should generally, if possible, be addressed within the short term (1-2 years).

The majority of key centres have **medium** priority actions. These have analysis area importance and are identified on the basis of the impact that they will have on addressing the issues identified in the assessment, although not to the same extent as high priority actions.

The **low** priority actions tend to be for single pitch or single sport sites and are often club or education sites with local specific importance but that may also contribute to addressing the issues identified in the assessment for specific users. Whilst low priority, there may be opportunities to action some of the recommendations made against such sites relatively quickly e.g., through S106 funding.

Costs

The strategic actions have also been ranked as low, medium or high based on relative cost. The brackets are:

(L) - Low - less than £150k
(M) - Medium - £150k-£750k
(H) - High £750k and above

These are based on Sport England's estimated facility costs[1].

Timescales

The Action Plan has been created to be delivered over a ten-year period and the information within the Assessment Report, Strategy and Action Plan will require updating as developments occur. The indicative timescales relate to anticipated delivery times and are not priority based:

- (S) - Short (1-2 years)
- (M) - Medium (3-5 years)
- (L) - Long (6+ years)

Aim

Each action seeks to meet at least one of the three Sport England aims of the Strategy; **Enhance, Provide, Protect.**

Oldham	**Senior**	**Shortfall of 17 MES per week**	**Shortfall of 19.5 MES per week**
Hockey	-	-	**-**
Oldham	**Full size, with sports lighting**	**Sufficient supply if quality improvements occur at Newman RC College**	**Sufficient supply if quality improvements occur at Newman RC College**

[2] A combined table which lists the current capacity for each sport in every analysis area can be found in Appendix Two: Supply and Demand Summary.
[1] MES – match equivalent sessions per week (per season for cricket)
[3] It should be noted that this future demand figure is at a Boroughwide level, and some analysis areas may have greater shortfalls than others.

Area summary – non-pitch sports

Sport	Headline findings
Bowls	Supply is considered sufficient to meet demand in the Central Analysis Area with three greens provided. Clubs should be monitored to ensure their existing provision remains sufficient.
Tennis	With nine community available courts provided in the Central Analysis Area for club-based tennis, supply is considered sufficient to meet demand with two courts available at club sites. Away from clubs, no courts are identified as having any capacity issues, and previously expressed latent demand is likely to have been met. However, it is also likely that informal demand will continue to increase following the improvements to courts.
Netball	With only one community available netball courts provided in the Central Analysis Area located across one site, The Brian Clark C of E Academy, supply is considered insufficient provision to meet demand in the Central Analysis Area. However, supply is sufficient across Oldham overall with all other analysis areas having sufficient supply.
Athletics	No athletics provision is provided within the Central Analysis Area. There is only one formal athletics track in Oldham which is provided in the West Analysis Area. Supply is sufficient to meet demand for athletics in Oldham.
Golf	Oldham Golf Club is an 18-hole course and is the only golf facility in the Central Analysis Area. No driving ranges are provided in the Central Analysis Area. Supply is sufficient to meet demand for golf in Oldham.
MUGAs	With six community available MUGAs provided in the Central Analysis Area located across six sites, Becket Meadow MUGA, Bolton Street MUGA, Cottam St MUGA, Higginshaw Lane MUGA, Lower MUGA and Wildmoor Avenue MUGA. Supply is considered sufficient provision to meet demand.

Site ID	Site	Ward[4]	Postcode	Sport	Management	Current status	Recommended actions	Partners[5]	Site hierarchy tier	Priority	Timescales	Cost	Aim

1	Alexandra Park (Oldham)	Alexandra	OL8 2BH	Tennis	Council	Seven good quality macadam courts which are available for community use but not provided with sports lighting.	Sustain court quality through enhanced maintenance regime. Look into possible funding opportunities for installation of sports lighting.	Council LTA	Local	M	L	M	Protect Enhance Provide
2	Alexandra Park Junior School	Alexandra	OL8 2BE	Football	Education	The site has one standard quality youth 11v11 pitch which is unavailable for community use.	Look to improve pitch quality with enhanced levels of maintenance for continued curricular and extracurricular usage.	Education CFA FF	Local	L	L	L	Protect Enhance
17	Clayton Playing Fields	Coldhurst	OL2 5DF	Football	Council	Two standard quality adult pitches, two poor quality adult pitches, two poor quality youth 9v9 pitches and one poor quality mini 7v7 pitch. All four adult pitches are overplayed by four MES per week collectively.	Improve pitch quality through enhanced maintenance regime to alleviate overplay.	Council CFA FF	Local	M	S	L	Protect Enhance
37	Glodwick Cricket Club	Alexandra	OL8 2JE	Cricket	Sports Club	This site has one standard quality cricket square, which supports 15 grass wickets. This site has further capacity for seven MES per season. The spare capacity is available on Midweek. The changing facilities at this site have been rated as standard quality.	Improve square quality through enhanced maintenance regime to continue to accommodate demand.	Sports Club LCF ECB	Local	L	L	L	Protect Enhance
39	Grange Synthetic Pitch	Coldhurst	OL9 6AL	Hockey (disused)	Council	One disused full size hockey pitch.	Ensure any permanent loss of provision meets national planning policy requirements.	Council EH FF	Local	L	L	L	Protect
42	Greenhill Academy	St Mary's	OL4 1RR	3G	Education	One standard quality small sided (71m x 41m) 3G pitch which is available for community use and provided with sports lighting.	Sustain pitch quality through enhanced maintenance regime. Ensure sinking fund is in place for future refurbishment when necessary.	Education CFA FF	Local	M	M	M	Protect
70	Oldham Athletic AFC (Boundary Park)	Coldhurst	OL1 2PA	Football / Rugby league	Sports Club	The site has one good quality adult hybrid pitch following investment from Oldham Council with accompanying good quality ancillary facilities which is unavailable for community use.	Sustain pitch quality with appropriate levels of maintenance.	Sports Club CFA FF RFL	Local	L	L	L	Protect
95	Snipe Clough	Alexandra	OL8 2AS	Football	Council	The site has three poor quality adult pitches which are available for community use. This site has poor quality changing facilities.	Improve pitch quality through enhanced maintenance regime to continue to accommodate demand.	Council CFA FF	Local	M	S	L	Protect Enhance

[4] It should be noted that there are some wards which are identified in multiple analysis areas (i.e. Royton South in the Central and North analysis area), this is due to an analysis area boundary line being in between a ward.
[5] Partners refers to the main organisations that the Council (or the relevant provider) would look to work with to support delivery of the actions.

Site ID	Site	Ward[4]	Postcode	Sport	Management	Current status	Recommended actions	Partners[5]	Site hierarchy tier	Priority	Timescales	Cost	Aim
						There is a current planning application surrounding this site known as the Northern Roots development, which includes a loss of pitches and to re provided them elsewhere.	Looking into possible funding opportunities to refurbish the changing facilities.						
105	Tate Street	Alexandra	OL8 2DD	Football (disused)	Council	Previously had two adult pitches marked.	Retain as strategic reserve if an increase in demand warrants reinstating the provision. Ensure any permanent loss of provision meets national planning policy requirements.	Council CFA FF	Local	L	L	L	Protect
125	Berries Field Park	Coldhurst	OL9 6SW	Football	Council	One poor quality mini 7v7 pitch which is available for community use.	Improve pitch quality through enhanced maintenance regime to continue to accommodate demand.	Council CFA FF	Local	M	S	L	Protect Enhance
127	Oasis Academy Leesbrook	St Mary's	OL4 5JE	Football	Education	One adult pitch and two youth 11v11 pitches which are poor quality. All pitches are unavailable for community use. There is a current planning application (FUL/352098/23) for a new 11v11 3G pitch located at Oasis Academy Leesbrook which is being funded by the Academy. However, this will create a loss of a youth 11v11 pitch which is currently unavailable for community use. The Academy plans to open the site for community use along with the 11v11 3G pitch.	Look to improve pitch quality with enhanced levels of maintenance for continued curricular and extracurricular usage. If the planning application is approved, work with relevant partners with the installation of a new 11v11 3G pitch.	Education CFA FF	Local	M	S	L	Protect Enhance
127	Oasis Academy Leesbrook	St Mary's	OL4 5JE	Tennis	Education	Four good quality macadam courts which are unavailable for community use and not provided with sports lighting. [1] MES – match equivalent sessions per week (per season for cricket)
[9] It should be noted that this future demand figure is at a Boroughwide level, and some analysis areas may have greater shortfalls than others.

Area summary – non-pitch sports

Sport	Headline findings
Bowls	Supply is considered sufficient to meet demand in the North Analysis Area with seven greens provided. Clubs (Royton Cricket Club BC) should be monitored to ensure their existing provision remains sufficient.
Tennis	With nine community available courts provided in the North Analysis Area for club-based tennis, supply is considered sufficient to meet demand with three courts available at club sites. Away from clubs, no courts are identified as having any capacity issues, and previously expressed latent demand is likely to have been met. However, it is also likely that informal demand will continue to increase following the improvements to courts.
Netball	With eight community available netball courts provided in the North Analysis Area located across three sites, Crompton House C of E School, Royton & Crompton E-Act Academy, Oldham Academy North, supply is considered sufficient provision to meet demand.
Athletics	No athletics provision is provided within the North Analysis Area. There is only one formal athletics track in Oldham which is provided in the West Analysis Area. Supply is sufficient to meet demand for athletics in Oldham.
Golf	Crompton & Royton Golf Club is the only golf facility in the North Analysis Area which provides an 18-hole course and Par 3 course. Two 12 bay driving ranges are also provided in the North Analysis Area located at Bishop Park Pitch & Putt and Driving Range and Crompton & Royton Golf Club. Supply is sufficient to meet demand for golf in Oldham.
MUGAs	With four community available MUGAs provided in the North Analysis Area located across four sites, George Street Playing Fields, High Crompton Park, Broadway Park and Westminster Avenue MUGA. Supply is considered sufficient provision to meet demand.

[1] MES – match equivalent sessions per week (per season for cricket)
[12] It should be noted that this future demand figure is at a Boroughwide level, and some analysis areas may have greater shortfalls than others.

Area summary – non-pitch sports

Sport	Headline findings
Bowls	Supply is considered sufficient to meet demand in the South Analysis Area with five greens provided. Clubs should be monitored to ensure their existing provision remains sufficient.
Tennis	With 15 community available courts provided in the South Analysis Area for club-based tennis, supply is considered sufficient to meet demand. Away from clubs, no courts are identified as having any capacity issues, and previously expressed latent demand is likely to have been met. However, it is also likely that informal demand will continue to increase following the improvements to courts.
Netball	With nine community available netball courts provided in the South Analysis Area located across three sites, Oasis Academy Oldham, Hulme Grammar School, The Hathershaw College, supply is considered sufficient provision to meet demand.
Athletics	There is one five lane 100m synthetic track which is unavailable for community use located in the South Analysis Area at Oasis Academy Oldham. Additionally, there is one formal 400m athletics track in Oldham which is provided in the West Analysis Area. Supply is sufficient to meet demand for athletics in Oldham.
Golf	Brookdale Golf Club and Werneth Golf Club are the only golf facility in the South Analysis Area which both provide an 18-hole course. Furthermore, there is one 16 bay driving range also provided in the South Analysis Area located at Bardsley Park Golf Club. Supply is sufficient to meet demand for golf in Oldham.
MUGAs	With four community available MUGAs provided in the South Analysis Area located across four sites, Lower Memorial Park, Bardsley Play Wall, Cherry Ave Muga and Stamford Drive MUGA. Supply is considered sufficient provision to meet demand.

Area summary – non-pitch sports

Sport	Headline findings
Bowls	Supply is considered sufficient to meet demand in the West Analysis Area with 11 greens provided. Clubs (Nimble Nook BC, North Chadderton Social and Bowling Club and St Georges Social & Bowling Club) should be monitored to ensure their existing provision remains sufficient.
Tennis	With eight community available courts provided in the West Analysis Area for club-based tennis, supply is considered sufficient to meet demand. Away from clubs, no courts are identified as having any capacity issues, and previously expressed latent demand is likely to have been met. However, it is also likely that informal demand will continue to increase following the improvements to courts.
Netball	With four community available netball courts provided in the West Analysis Area located across two sites, Coalshaw Green Park and North Chadderton School, supply is considered sufficient provision to meet demand.
Athletics	There is one formal 400m athletics track in Oldham which is provided in the West Analysis Area located at The Radclyffe School. Supply is sufficient to meet demand for athletics in Oldham.
Golf	No golf provision is provided within the West Analysis Area, however, at least one golf course is provided in each other analysis area. Supply is sufficient to meet demand for golf in Oldham.
MUGAs	With four community available MUGAs provided in the West Analysis Area located across four sites, Chadderton Hall Park, Coalshaw Green Park, Granby Street MUGA and Princess Park. Supply is considered sufficient provision to meet demand.
