<p>Administration Motion 2: <b>Bee Network</b></p> <p><b>RESOLVED:</b></p> <ol style="list-style-type: none"> <li>1. That the Council continues to work alongside our Greater Manchester partners, including the GMCA, Transport for Greater Manchester and the other 9 GM authorities to ensure that decisions made around public transport are focused on improving the resident experience.</li> <li>2. That the Council continues to engage pro-actively with the Network Review in early 2025, ensuring that all residents voices are heard in the process.</li> </ol>		<p>The Strategic Transport team work very closely with our GM partners of TfGM, GMCA and the other 9 local authorities on a regular basis. Emerging strategy, policy, delivery plans and funding bids are jointly developed and consulted on to meet the aims and objectives of both the GM and Oldham transport strategies, and we always work to ensure the maximum investment in Oldham to promote growth, an improved environment and accessibility to good public transport.</p> <p>The 'Bee Network' in general, and particularly buses now that they are back in public control, has the experience of the customer at its core. Oldham are developing and delivering several schemes across the borough that look to improve residents' experiences in both accessing and waiting for public</p>	✓

		<p>transport and that the journey itself is as reliable and comfortable as possible.</p> <p>Examples of ongoing work include bus stop upgrades, improvements around transport hubs and the Quality Bus Transit corridor improvements. We will continue to develop schemes of this nature over the upcoming funding period. These will include ensuring new developments are well-served by public transport.</p> <p>In addition, we welcome and actively promote the wide-ranging ticket options that are now available across the Bee Network, which have brought real savings and benefits to our residents.</p> <p>An additional benefit of bus franchising is the opportunity to review current bus services and develop a more coordinated and consistent transport system that meets the needs of our residents. This process will allow Oldham residents, businesses, partners, and councillors to discuss and feedback on the key challenges in Oldham's current transport network and the ways in which the Bee Network could improve local bus services.</p> <p>This feedback will help shape recommendations for improving local bus services and, whilst not every suggestion can be implemented, TfGM are committed to considering all input and delivering practical improvements that benefit passengers and communities.</p> <p>This process of gathering information is ongoing and there are several ways to share feedback which have been communicated with Members over recent weeks.</p>
