Equality Characteristics

Category	Impact	Likely	Duration	Impact Score	Comment
Age	Neutral	Possible	Long Term	0	
Care leavers	Neutral	Possible	Long Term	0	
Disability	Neutral	Possible	Long Term	0	
Gender Reassignment	Neutral	Possible	Long Term	0	
Marriage and civil partnership	Neutral	Possible	Long Term	0	
Pregnancy and maternity	Neutral	Possible	Long Term	0	
Race	Neutral	Possible	Long Term	0	
Religion or belief	Neutral	Possible	Long Term	0	
Sex	Neutral	Possible	Long Term	0	
Sexual orientation	Neutral	Possible	Long Term	0	
Poverty and Low Income	Moderate Positive	Possible	Long Term	2	Providing sufficient waste and mineral management facilities to meet future capacity could have a possible moderate positive impact on the Poverty and Low Income equality characteristics because by prioritising sustainable waste management it will protect residents from adverse environmental effects. With low income neighbourhoods being typically located closest to waste management facilities.

Our Mission / Corporate Priorities

Category	Impact	Likely	Duration	Impact Score	Comment
Happier Healthier Lives	Neutral	Possible	Long Term	0	
A Great Place To Live	Moderate Positive	Possible	Long Term	2	With the ambition to deliver a new neighbourhood of 2,000 homes, adopting the GMJMWP may have a possible moderate positive impact on corporate priority 2: A Great Place To Live because it will deliver current legislation to ensure capacity for current and future developments to be properly serviced by waste and mineral management facilities.
Green And Growing	Moderate Positive	Possible	Long Term	2	Adopting the GMJMWP may have a possible moderate positive impact on the corporate priority 1: Green and Growing as a structured policy for management of minerals and waste will highlight Oldham's ambition to grow its reputation within sustainability which may boost green investment and create job opportunities.
