Reason for Decision

The purpose of the report is to seek approval of the Council Tax Reduction Scheme for 2017/18.

Executive Summary

The legislation as detailed in the Local Government Finance Act 2012, places a requirement that each year a Billing Authority must formally consider revising its Council Tax Reduction (CTR) Scheme. In order to do this in accordance with the timescale set out in legislation it is necessary for full Council to agree the scheme before 31 January 2017. For Oldham, this requires the Council to consider its 2017/18 scheme at its Council meeting on 14 December 2016. There are two potential options for the 2017/18 scheme.

The Council introduced a CTR scheme from 1 April 2013 and last revised the scheme from 1 April 2015. For working age applicants, the current CTR scheme:

- Limits Council Tax Reduction to a Band A property;
- Limits the level of support at 85% of a Band A property as the maximum amount available; and
- Removes second adult rebate.

The scheme was calculated to generate an amount of funding that made the scheme viable when taken alongside the direct grant received from Government and additional income arising from the introduction of technical reforms to the Council Tax system. The Council Tax Reduction Scheme element of this calculation worked on the assumption of a presumed collection rate.
In devising the 2013/14 scheme it was assumed by the Council that 50% of the extra Council Tax levied under the scheme would be collected in year. However, this target was exceeded which led to a revision of the scheme for 2014/15 and again in 2015/16 based on a collection rate of 70%. The scheme remained unchanged for 2016/17.

In order to update the scheme within the self-financing principles as agreed in devising the 2016/17 scheme, it was considered that there may be scope based on current collection rates to revise the amount of support given from 2017/18. However, at this stage it is too early to be confident of the estimated collection rate.

Since devising the 2016/17 scheme, there have been a number of legislative changes to the Housing Benefits Regulations as part of Central Government’s welfare reform programme. The assessment criteria for determining entitlement to Housing Benefits have always been similar to the criteria for calculating what used to be Council Tax Benefit entitlement. Since 2013, when the Council Tax Rebate for working age clients was re-designated to be a local discretionary scheme called the Council Tax Reduction scheme, steps have been taken where possible to align the assessment criteria for both Housing Benefit and Council Tax Reduction.

This report sets out two options for consideration in relation to the 2017/18 CTR scheme:

1) Maintain the current scheme which may have financial, software and administrative implications.
2) Revise the present Council Tax Reduction Scheme to align to the Housing Benefit Regulation 2006 as amended. This will allow any future planned Welfare Reform changes to be updated within the Council Tax Reduction scheme, without the need for further consultation.

Cabinet considered a report setting out options for the CTR scheme at its meeting on 5 December 2016. After considering all key facts and all available information, Cabinet recommended that Council approves that no change is made to the current CTR scheme and that the scheme operating in 2016/17 continues for 2017/18.

**Recommendation:**

Council is recommended to approve that the 2017/18 Council Tax Reduction scheme is not changed from the scheme in operation for 2016/17.
Proposed Council Tax Reduction Scheme for 2017/2018

1. Report Details

1.1 From the 1 April 2013 the Council introduced a Council Tax Reduction (CTR) Scheme to replace Council Tax Benefit for those of working age. The requirement for the Council to do this was set out in the Local Government Finance Act 2012. Financial responsibility for this support was transferred from the Department of Work and Pensions (DWP) to the Department of Communities and Local Government (DCLG). The DCLG was to pay those bodies affected by the change, a direct grant as part of its overall financial settlement with a reduction of 10% on the overall estimated cost. This was presented as part of the Governments wider plans to deliver savings on welfare expenditure. Any reduction in actual benefit could only be passed on to claimants of working age.

1.2 In devising the 2013/14 scheme it was assumed by the Council that 50% of the extra Council Tax levied under the scheme would be collected in year. However, this target was exceeded which led to revision of the scheme for 2014/15 and again for 2015/16 offering a higher level of support within each year. A decision was taken to continue the level of support awarded in 2015/16 into 2016/17. This current level of support offers a maximum amount of 85% of a Band A rate of Council Tax is based on an anticipated collection rate of 70%.

2. Current Position

2.1 Indications are that collection rates on the debt due from the 2016/17 scheme may be higher than the estimated 70%. It was also recognised that the number of recipients of working age CTR has reduced from 16,206 when the scheme was agreed by Council in December 2013 to 15,199 as at October 2016, meaning there is less overall requirement for financial support.

2.2 At the time of preparing the report, there were 15,199 working age taxpayers receiving Council Tax Reduction. The projected collection rate for this group of taxpayers remains higher than the original estimate of 70% and may reach 75% to 80%. An additional 5% collection could result in an extra £200,000 in Council Tax receipts for 2016/17, hence a change to the scheme could be considered. Given the challenges to the Council’s financial position and the major budget reductions required in future years and in considering further welfare reforms to be implemented during 2016/17, it is recommended that the Council leaves the scheme unaltered with regard to collection levels until there is greater certainty about the future financial position and there is therefore no change to the threshold level for the 2017/18 scheme.

2.3 However, changes to Housing Benefit (HB) were introduced from 1 April 2016 which meant that the Council Tax Reduction Scheme for 2016/17 no longer aligns with the revised Housing Benefit Regulations.

These changes can be summarised as:
- Limiting Backdating of Housing Benefit to one month (previously this was six months)
- Removal of the Family Premium for all new claimants.
- Changes to the temporary absence rule. This limits Housing Benefit and Pension credit payment to one month, where previously it was awarded for 13 weeks. This amendment is to align Housing Benefit with Universal Credit Legislation for those who are travelling abroad. This change became effective earlier this year, from 28 July 2016.
• In households with two or more children, if there are any subsequent children born after April 2017, then the household will no longer be eligible for further support.
• Changes to Universal Credit ‘in-work allowances’ which have reduced the number of work allowances from seven down to two. This means claimants will have less income resulting in a higher demand for Council Tax reduction.

3. Options

3.1 A CTR working group of Council officers was formed to review and analyse the current scheme, to help inform whether to recommend any further CTR proposals for 2017/18. The group was made up of representatives across Finance, Policy, Business Intelligence, Legal, Communications and Exchequer Services.

The CTR working group discussed two options:

**Option 1:** Maintaining the current scheme which will have financial, software and administrative implications.

**Option 2:** Revising the present Council Tax Reduction Scheme to align to the Housing Benefit Regulation 2006 as amended. This will allow any future planned Welfare Reform changes to be updated within the Council Tax Reduction scheme, without the need for further consultation.

**Option 1 - Maintaining the current scheme**

3.2 By maintaining the current Council Tax Reduction Scheme and not bringing it in line with Housing Benefit Regulation 2006 as amended, there will be a misalignment of the way in which CTR and HB is assessed.

3.3 Currently CTR eligibility is assessed against an individual’s net income and their deemed applicable amount. An individual’s applicable amount is based on a number of set allowances for various factors such as Family Premium and number of dependants. It is these allowances that are the subject of further discussion as under HB criteria, some of these allowances have ceased to come under consideration, whilst under the current arrangements they are still considered for CTR applications. It is this differing allocation methodology that gives rise to an increased cost of the CTR scheme e.g. an allocation of increased benefit.

3.4 An estimate of the additional CTR that is likely to be awarded as a consequence of not aligning the Housing Benefit changes to the CTR scheme are set out below:

   a) Restricting the backdating of Council Tax reduction to one month (estimated £31K p.a.).
   b) Removal of the Family Premium Allowance (estimated £90K p.a.).
   c) The impact of a new child being born to families with more than two children: Families with two or more children already in receipt of CTR are not affected by this change, only those who make a new claim for CTR from 01/04/2017 onwards. The potential additional CTR award associated with this change cannot be accurately assessed. This is because calculating the financial impact of this change requires an informed estimation of the percentage of families in Oldham likely to be affected and that information is not currently available.

3.5 There are other potential financial risks that cannot be quantified accurately at this stage such as reduced family element for new claims within tax credits which will see a reduction of £545 per family per annum, which could also increase the demand for Council Tax...
Reduction. The overall impact of welfare reform could also see an increase in caseload due to the decrease in income paid by the DWP and the uptake of Universal Credit which is a less generous scheme.

3.6 At this stage it is considered that these potential financial implications can be managed without adverse impact, however the position will be monitored. If the scheme is found to be unaffordable at a later date, the Council will have to reconsider its position and the actions it may need to take including the impact on individual taxpayers. This may include phasing in any changes to the current scheme over future financial years.

Option 2 – Revise the Scheme to mirror HB regulation changes

3.7 If the Council were to align its CTR scheme with the changes in Housing Benefit Regulations, there would be some additional software costs to the Council. Capita (the provider of the Council’s current CTR database system) has advised they are unable to quantify the costs as they are liaising with Central Government on which aspects of welfare reform will need to be passported to the prescribed regulations. Last year it cost £1.3k to implement the change to Family Premium for pensioner cases within the CTR scheme. Also there will be other related costs of implementing CTR alignment such as ICT costs, publicity and possibly training costs, but it is not expected to exceed £10k in total. The changes in HB regulations would be mirrored within a revised CTR scheme leading to no change in allocation and resulting in an individual paying the same amounts as is currently being billed.

3.8 Although not the recommended approach, if the Council proceeds with option two, there is a statutory requirement to consult residents, and in such a scenario a six-week consultation period from mid-December through to end of January 2017 would have to be undertaken and scheme approval arrangements organised accordingly.

4. Preferred Option

4.1 Option 1 is the preferred option. A report setting out the options for the 2017/18 CTR scheme was considered at the Cabinet meeting of 5 December 2016. Cabinet approved the recommending of Option 1 to Council so that no changes are made to the existing Council Tax Reduction Scheme.

5. Consultation

5.1 The legislation requires consultation prior to the making of a change to a reduction scheme but there is no such requirement when no change is being made. Accordingly, there is no plan to undertake public consultation in respect of the Council Tax Reduction Scheme for 2017/18, given that no changes are being proposed to the existing scheme (which has remained the same since 2015/16). The Cabinet was consulted on the proposal for the CTR scheme for 2016/17 at its meeting on 5 December 2016.

6. Financial Implications

6.1 The direct grant paid by the Department of Communities and Local Government for Council Tax Reduction Support has now been subsumed within the Council's Settlement Funding Assessment and Revenue Support Grant (RSG) figures. In 2013/14, the last time the Local Government Finance Settlement identified this grant separately; the Council’s allocation was £17.418m including support for parishes but excluding the major preceptors (the GM Fire and Rescue Authority and the Office of the Police and Crime Commissioner for Greater Manchester). The 2014/15 Local Government Finance Settlement prescribed that the level of Council Tax reduction support would remain unchanged and this was again assumed in 2015/16 and 2016/17; however the overall level of Settlement Funding...
Assessment and RSG has continued to reduce over recent financial years, from £85m in 2013/14 to an expected £30.4m in 2017/18.

6.2 The Local Government Finance Settlement received in December 2015 covering the period 2016/17 to 2019/20 gave indicative RSG allocations to be confirmed if the Council submitted an Efficiency Plan to the DCLG by 14 October 2016. The Council submitted such an Efficiency Plan on 29 September 2016. Of key importance is the fact that the indicative RSG allocation for 2019/20 is only £16.7m, therefore the link between Settlement Funding Assessment, RSG and Council Tax Reduction compensation has clearly been broken.

6.3 As at the time of preparing this report, 81% of claimants had made some payments towards their 2016/17 Council Tax bills, suggesting a collection rate above that of the estimated 70%. As outlined above, data is not available to assess how many of these claimants making payments will fall into arrears during the rest of the financial year, however, it is envisaged that proactive collection methods implemented by the Unity Partnership will enable the Council to collect an amount of at least 70% and possibly between 75% and 80% of the amount due in 2016/17. Weekly monitoring of the collection rate is being maintained to manage the risk of non-collection. One perceived risk at this stage is that the present collection rate will reduce throughout the remainder of the financial year and beyond as the Government’s welfare change programme is phased in. The amount of disposable income many of the scheme’s claimants will have available to meet Council Tax and other financial commitments is likely to reduce. This will have the impact of increasing the risk of arrears from those who are currently paying their Council Tax.

6.4 Using the same assumptions upon which the 2016/17 scheme was based, the Council estimates it needs to generate additional Council Tax income of £1.976m (70% of £2.822m as highlighted in the table below) to offset the reduction in the level of Government grant support.

This therefore means the scheme is self-financing as there is no call on resources outside those intended to support the scheme, namely:

a) The Government grant to recompense the Council for Council Tax Benefit.
b) Council Tax income from the technical reform of the Council Tax system which has increased the Council’s ability to charge when properties are empty.
c) Council Tax received from recipients of awards under the Council Tax Reduction scheme.

6.5 The table below summarises the current scheme (which is proposed to remain unchanged) based on a range of collection rates.

<table>
<thead>
<tr>
<th>Scheme options</th>
<th>Collection Rate</th>
<th>Reduction in support to make the scheme self-financing</th>
<th>Average impact on individuals</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>%</td>
<td>£m</td>
<td>Annual</td>
</tr>
<tr>
<td>Scheme options</td>
<td>65</td>
<td>3.040</td>
<td>£199.85</td>
</tr>
<tr>
<td></td>
<td>70</td>
<td>2.822</td>
<td>£185.58</td>
</tr>
<tr>
<td></td>
<td>75</td>
<td>2.635</td>
<td>£173.21</td>
</tr>
</tbody>
</table>

Working on the basis that the scheme continues at the current assumed collection rate of 70% and that this can again be achieved, the income generated would be equivalent to the requirement of £1.976m (70% of £2.822m). On average this would reduce the claimant
support by £3.57 per week when compared to the base Council Tax Benefit position prior to the start of the localisation initiative.

6.6 As a consequence of not including the Housing Benefit changes within the Council Tax Reduction Scheme, this scheme is effectively more generous to its recipients than the Housing Benefit regime.

6.7 Under new Housing Benefit changes, claims can now only be backdated for one month whereas under the current CTR scheme, cases can be backdated for up to six months. By not aligning both schemes, current financial forecasts are that approximately £31k will be foregone in Council Tax income.

6.8 Under new HB changes, the family premium allowance has been removed however the intention is that this allowance will still be assumed as part of the deductible allowance when calculating eligibility for the CTR scheme. By still considering this now obsolete allowance for CTR purposes, current financial forecasts suggest a further £90k will be foregone in Council Tax income.

6.9 Further HB amendments such as the impact of a third child being born into a family will again have an impact on the levels of Council Tax foregone, if the CTR scheme is not aligned. There are difficulties in quantifying the financial impact of this adjustment given that the information required would be an informed estimation of the percentage of families in Oldham likely to be affected and that information is currently not considered sufficiently robust for an accurate estimate to be made.

6.10 However, as set out in paragraph 2.2 of this report, the collection rate is on an upward trajectory and expected to achieve 75-80% which would equate to an additional £200k income. This potentially more than offsets any implications arising from not aligning to the Housing Benefit changes. (John Hoskins)

7. Legal Services Comments

7.1 The legislation states that each year an authority must give consideration to whether to revise its Council Tax Reduction scheme.

7.2 The revision of a scheme is a decision that the legislation reserves to full Council. Any revision to apply to the scheme for the following year must be made by 31 January.

7.3 No revision of a scheme can occur unless the authority has, in the following order:
1) Consulted with major precepting authorities (fire and police)
2) Published a draft proposed scheme
3) Consulted with others likely to have an interest in the scheme

7.4 In order to discharge its duties under the Equality Act 2010 the authority will need to consider the effects of proposals on people with a protected characteristic as defined by the act, which as can be done by way of an equality impact assessment as happened before the present scheme was made. (Colin Brittain)

8. Co-operative Agenda

8.1 The proposal to continue with the existing CTR scheme for 2017/18, is consistent with the ethos of the Council as a Co-operative Council and this is in line with Oldham’s ambition for a Co-operative Future.
9. **Human Resources Comments**

9.1 There are no human resource implications

10. **Risk Assessments**

10.1 There are a number of risks to be managed in this process:
- Ensuring the 2017/18 scheme is not subject to a legal challenge on the basis of equality legislation.
- Ensuring the scheme remains both fair and affordable to the Council for 2017/18 particularly as it will only be based upon limited collection rates information early in the financial year and assumptions on grant funding previously made.
- Retaining links in Council Tax Collection Processes to the Council’s Corporate Fair Debt Policy. (Mark Stenson)

11. **IT Implications**

11.1 There are no IT implications.

12. **Property Implications**

12.1 There are no property implications.

13 **Procurement Implications**

13.1 There are no procurement implications.

14 **Environmental and Health and Safety Implications**

14.1 There are no Environmental and Health and Safety implications.

15 **Equality, community cohesion and crime implications**

15.1 In taking financial decisions the Council must demonstrate that it has given “due regard” to the need to eliminate discrimination, promote equality of opportunity and promote good relations between different groups.

15.2 Demonstrating that “due regard” has been given involves:

- Assessing the potential equality impacts of proposed decisions at an appropriate stage in the decision making process – so that it informs the development of policy and is considered before a decision is taken;
- Ensuring that decision makers are aware of the equality duties and any potential equality issues when making decisions.

NB – having due regard does not mean the Council cannot make decisions which have the potential to impact disproportionately, it means that we must be clear where this is the case, and must be able to demonstrate that we have consulted, understood and mitigated the impact.

15.3 To ensure that the process of impact assessment is robust, it needs to:

- Be specific to each individual proposal;
- Be clear about the purpose of the proposal;
- Consider available evidence;
• Include consultation and involvement with those affected by the decision, where appropriate;
• Consider proposals for mitigating any negative impact on particular groups;
• Set out arrangements for monitoring the actual impact of the proposal.

15.4 An initial screening for the Equality Impact Assessments has been undertaken to consider any potential disproportionate adverse impacts on equality groups arising from the proposed scheme. (Dominic Coleman)

16 Equality Impact Assessment Completed

16.1 An Equality Impact Assessment has been undertaken and can be found at Appendix 2

17 Key Decision

17.1 Yes, any revisions to the localised Council Tax Reduction scheme can only be agreed by full Council.

18 Forward Plan Reference

18.1 CFHR-21-16.

19 Background Papers

19.1 The following is a list of background papers on which this report is based in accordance with the requirements of Section 100(1) of the Local Government Act 1972. It does not include documents which would disclose exempt or confidential information as defined by the Act:

Is this the first time that this project, policy or proposal has had an EIA carried out on it? If no, please state date of original and append to this document for information.

No

An EIA on the 2013/14 scheme accompanied the scheme for approval to Council on 12 December 2013. An EIA was also completed for the review of the scheme for 2014/15, 2015/16 and 2016/17. This EIA is for the scheme for 2017/18 onwards.

<td>The proposal is the approval of Oldham’s Council Tax Reduction Scheme for 2017/18 onwards.</td>
</tr>
</tbody>
</table>

From 2013/14, all local authorities were put under a duty to agree a localised Council Tax Support Scheme at full Council to replace Council Tax Benefit (CTB) by 31st January prior to the start of a financial year. Previous to this, the Council Tax Benefit Scheme was administered nationally.

There was additional complexity in developing a scheme given that the resource envelope, in which the Council had to deliver any scheme, was 10% smaller than the funding we had received to cover CTB the previous year. The Council’s aim was to ensure the scheme was self-financing so that there was no additional burden to the Authority’s financial position.

There is an obligation within the legislation on the Council to consider whether to review this scheme on an annual basis and if the Council wants to revise the scheme, any revised scheme for 2017/18 needs to be approved by full Council on a date before 31st January 2017.

The Council made a change to the Council Tax Reduction Scheme in 2015/16 increasing the maximum reduction awardable from 80% of the Band A rate of Council Tax to 85%. That meant an extra £53.43 per year for someone who is entitled to the maximum award. This was agreed by Full Council in December 2014. The scheme was not changed for 2016/17.
<table>
<thead>
<tr>
<th>1c</th>
<th>What are the main aims of the project, policy or proposal?</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>1. To continue to use a scheme that is affordable</strong></td>
</tr>
<tr>
<td></td>
<td>As in 2016/17, Oldham is once again aiming to put in place a scheme that is affordable. Last year, the council tax reduction scheme was calculated to offset budget pressures of approximately £1.976 million. The 2016/17 council tax reduction assumed a collection rate of 70%. We estimate that the budget pressure is likely to be the same in 2017/18. The Authority continues to face significant challenges in order to balance the budget over the next financial year. Having already saved over £192m over the last 7 years, Oldham Council still cannot afford to fund any further shortfalls. We are therefore once again looking to maintain a local scheme that is affordable and to balance the impact against the cost of providing a local council tax support scheme.</td>
</tr>
<tr>
<td></td>
<td><strong>2. To continue to use a scheme that limits the financial impact across all Council Tax benefit recipients</strong></td>
</tr>
<tr>
<td></td>
<td>We will maintain our protection of pensioners in line with the current scheme, and maintain our consideration of protecting vulnerable groups and providing incentives to work. Whilst not providing a specific definition for vulnerable groups, the Government did advise that authorities should consider their duties under specific legislation when designing a scheme, namely:</td>
</tr>
<tr>
<td></td>
<td>- The Equality Act 2010</td>
</tr>
<tr>
<td></td>
<td>- Child Poverty Act 2010</td>
</tr>
<tr>
<td></td>
<td>- The Housing Act 1996</td>
</tr>
<tr>
<td></td>
<td>Whilst we have no legal duty to protect people on low incomes (this was revoked in December 2010), as a borough with a number of deprived areas, Oldham still chooses to continue considering the impact of any decisions on this group. We are now even more informed about the scale of the impact of welfare reforms on Oldham and its people than we were last year. We produce quarterly topical welfare reform impact reports. A report in January 2015 on the impact of welfare highlighted the following groups as particularly vulnerable: single people, in particular young single people in rented accommodation, younger people in general and older people with disabilities. A report in August 2015 looking at the new government proposals for welfare and tax reform (now the 2016 Welfare Reform and Work Act) shows showed that those not in work,</td>
</tr>
</tbody>
</table>
especially those with children as well as lone parents overall and families with only one earner will be the most heavily affected by the latest changes.

The findings of this need to be considered when identifying those who are most vulnerable under the scheme.

3. To continue to maintain a scheme that will enable the Council to collect as much Council Tax as possible, whilst supporting residents to meet their payments

To date, Oldham’s collection rate in relation to CTR is relatively high and it is hoped that the Council will continue to achieve collection rates of between 70% and 75%. The good collection rate was due in no small part to a number of the actions we have continued to put in place through last year’s EIA to reduce the impact of the scheme. Flexible funding options, partnerships with the Credit Union, and co-operative campaigns such as the Energy Switch have helped a number of families to be able to make their payments.

Once again, through this process we will endeavour to do things differently, to do things co-operatively, which will help the residents of Oldham and in doing so, enable the Council to collect the funds it needs to continue to provide services. We are acutely aware that shortfalls in Council Tax mean creating a budget pressure that has the potential to require further savings to be made from within council services.

| 1d | Who, potentially, could this project, policy or proposal have a detrimental effect on, or benefit, and how? | The proposal for the 2017/18 scheme is to maintain the current support provided through the CTR scheme, on this basis there will be no detrimental impact on equality groups from the proposal put forward. |

1e. Does the project, policy or proposal have the potential to disproportionately impact on any of the following groups? If so, is the impact positive or negative?

| Review effectiveness and take up of current payment methods and introduce new payment options where appropriate | As at September 2016 the collection rate for CTR customers was 41.32% as opposed to 38.12% for the same period last year, which indicates that more people are paying and are the payment provisions in place are sufficient.  
A fortnightly direct debit was introduced in 2013 to help customers manage their finances.  
Oldham has introduced SMS texting to remind people at an early opportunity to pay on time. It is anticipated that this will improve collection. |
| Continue to deliver energy switching campaigns and auctions | The Warm Homes Oldham service offers energy switching advice to residents in their homes and over the phone. The service also offers heating and insulation measures to low income households, support with fuel debt and income maximisation, and other activities to reduce energy bills.  
We are exploring the process of referrals to Step Change, a national debt charity to refer vulnerable residents to them.  
We have also used the Personal Budgeting Support team (PBS) to support residents with money management and debt advice. |
<p>| Identify and establish referral arrangements to a wider range of support services |  |
| Further develop the Welfare Rights Service to support residents to maximise their income | One of the key actions for Oldham Council’s Welfare Rights Service for 2016-17 is to ensure a consistent and targeted approach towards communicating with service users through greater proactivity and enhanced partnership working, in |</p>

| order to increase public engagement with the service.  
1. Increase uptake of welfare benefits and raise awareness of the Welfare Rights Service  
2. Help tackle poverty and improve health and wellbeing amongst the most vulnerable groups |
| A number of potential communications initiatives have been identified which are primarily designed to increase awareness of the team’s presence and will contribute to increased public engagement which includes:  
• Regular activity to publicise changes to benefit rules  
• Regular activity to publicise success stories  
• Increased social media efforts  
• Support for increased number and quality of public engagement sessions  
• Support for increased partnership working with potential resulting communications activity |
| Work with partner organisations to provide targeted support to residents | Dedicated welfare reform and financial inclusion working groups are in place, delivering coordinated action in partnership with the Council, DWP and the voluntary sector: |
| Continue to monitor the collection rates on a weekly basis | This allows swift action to be taken if collection slows.  
Oldham has introduced SMS texting to remind people at an early opportunity to pay on time. It is anticipated that this will improve collection. |
<p>| Continue to monitor the wider impact of welfare reform ensuring effective partnership working continues to support those affected | Universal Support Delivered Locally (USDL) is the new name for the Local Support Services Framework (LSSF) and it will promote new |</p>
