However, the performance of the crossroads and any associated safety issues will be looked into as previously stated.</p> <p>Any proposals to change speed limits must also be supported by the Police including the allocation of resource to enable enforcement of the limit. National guidance is clear in that speed limits should not be used to attempt to solve the problems at an isolated hazard such as a junction and following Transport for Greater Manchester's Speed Limit Review the speed limit on this section of Manchester Road is currently considered to be appropriate.</p>
